How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warranty is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

From the Portsmouth Journal.

THE NOVEMBER ELECTIONS.

Popular elections will be held next Tuesday in twelve States. The result of these elections will definitely settle the complexion of the next Congress and the policy of the country for the rest of Mr. Johnson's presidential term.

The prospect is then that we shall sweep Massachusetts, Michigan, Minnesota, Kansas and Nevada, as usual. In New Jersey, Illinois and Delaware, there is reason to expect a gain. In New York the chances are decidedly on the Republican side. In Maryland and Missouri the Johnson party may succeed in evading the law and polling a heavy Rebel vote; it will then be for Congress to decide whether candidates so elected are entitled to seats in the House.

The Legislatures to be chosen Tuesday in New-York, Illinois, Wisconsin, Missouri, New Jersey, Kansas, Nevada and Maryland, will elect United States Senators. Kansas will elect two. There is no reasonable doubt of the complexion of the Legislature in any State except Maryland. Gov. Swann may succeed in getting a rebel Legislature, to send him to Washington. Whether the Senate will receive him, under the circumstances, is an other question.

ELECTION RETURNS, AND CONCERT BY THE CORNET BAND.—The Temple has been engaged for Tuesday evening next for the purpose of announcing the election returns, which during the evening will come from the twelve States that are to settle the question of sustaining, or disapproving the "Policy" of President Johnson. The concert by the Band will fill the interim between the despatches, and either help the joy or soothe the disappointment occasioned by the results of the elections. A nominal entrance fee of ten cents is charged.

THE LYCEUM.—We should almost as soon think of a winter without Thanksgiving and Christmas, as of one without a series of Lyceum lectures, now that for a number of years the Citizens' Lyceum Association has furnished such acceptable courses. And every citizen of any degree of literary taste, should fully appreciate the disinterested efforts of the Committee who have furnished the Lecturers, and who are now arranging a course for this season. It will be seen that the course is to commence one week from next Tuesday, with a grand Concert by Mrs. Cary, and a lecture from Hon. Thomas Russell. Judge Russell, it will be remembered, lectured here in the early part of last year, and was very well received. Mrs. Cary's sweet voice has won her many admirers, and will be a great attraction and a strong inducement to all music loving people to secure full course tickets from the first lecture. There is to be one other grand musical entertainment during the course, probably by the Mendelssohn Quintette Club of Boston—such a concert as of itself would command a dollar a ticket. The list of lecturers announced, promises a fine course, and it is to be hoped that the public will generously sustain it.

METEORS OF 1833.

The following description of this very interesting phenomenon was written at the time of its occurrence, by Professor Olmstead of New Haven.

About day break this morning (Nov. 13th, 1833) our sky presented a remarkable exhibition of Fire Balls, commonly called *Shooting Stars*. The attention of the writer was first called to the phenomenon about half past five o'clock: from which time until our sunrise, the appearance of these meteors was striking and splendid, beyond any thing of the kind he has ever witnessed.

To form some idea of the phenomenon, the reader may imagine a constant succession of fire-balls, resembling sky-rockets, radiating in all directions from a point in the heavens, a few degrees south-east of the zenith, and following the arch of the sky toward the horizon. They commenced their progress at different distances from the radiating point, but their directions were uniformly such, that the lines they described, if produced upward, would all have met in the same part of the heavens. Around this point, or imaginary radiant, was a circular space of several degrees, within which no meteors were observed. The balls, as they traveled down the vault, usually left after them a vivid streak of light, and just before they disappeared, exploded, or suddenly resolved themselves into smoke. No report or noise of any kind was observed, although we listened attentively.

Besides the foregoing distinct concretions, or individual bodies, the atmosphere exhibited *phosphoric lines*, following in the train of the brilliant points, that shot off in the greatest abundance in a north-easterly direction. These did not so fully copy the figure of the sky, but moved in paths more nearly rectilinear, and appeared to be much nearer the spectator than the fire-balls. The light of these trains, also, was of a paler hue, not unlike that produced by striking a flint with a bit of phosphorus on the walls of a dark room. The number of these luminous trains increased and diminished alternately, now and then crossing the field of view like snow drifted before the wind, although in fact their course was toward the wind. Among these two varieties, the spectator was frequently with meteors of intermediate degrees of splendor; some were more points, but others were larger and brighter than Jupiter or Venus; and one, seen by a credible witness before the writer was called, was judged to be nearly as large as the moon. The bodies of light, although less intense than lightning, were so bright as to awaken people in their beds. One half that shot off in a north-west direction, and exploded a little northward of the star Capella, left, just behind the place of explosion, a phosphorescent train of peculiar beauty. This line was at first nearly straight, but it shortly began to contract in length, to dilate in breadth, and to assume the figure of a serpent drawing itself up, until it appeared like a small luminous cloud of vapor. This cloud was borne eastward, by the wind, as was supposed, which was blowing gently in that direction, opposite to the direction in which the meteor had proceeded, remaining in sight several minutes. The light of the meteors was usually white, but it was occasionally prismatic, with a predominance of blue.

The weather had sustained a recent change. On the evening of the 11th, a very copious southerly rain fell, and on the 12th, a high westerly wind prevailed by gusts. Last evening the sky was very serene; a few falling stars were observed, but they were not so numerous as to excite particular attention.

A severe snow storm is reported between Denver and Salt Lake. At last accounts the snow was two feet deep. Several mules attached to Holliday's overland express train had died from cold and fatigue to death.

The Navy Department authorizes a contradiction of the story that two iron clads have been sold to the Spanish authorities.

The Camp, the Battlefield, and the Hospital,

Or Lights and Shadows of the Great Rebellion.

There is a certain portion of the war that will never go into the regular histories, nor be embodied in romance or poetry, which is a very real part of it, and will, if preserved, convey to succeeding generations a better idea of the spirit of the conflict than many dry reports or careful narratives of events, and this part may be called the gossip, the fun, the pathos of the war. This illustrates the character of the leaders, the humor of the soldiers, the devotion of women, the bravery of men, the patriotism of the heroes, the romance and hardships of the service.

The volume is profusely illustrated with over 100 engravings by the best artists, which are *quite beautiful*, worthy of examination as specimens of the art. The book's contents include reminiscences of camp, ticket, spy, scout, picket, siege, and battlefield adventures; thrilling feats of bravery, wit, drollery, comical and ludicrous adventures, etc., etc.

Announcements as well as instruction may be found in every page, as graphic detail, brilliant wit and authentic history are skillfully interwoven in this work of literary art.

This work sells itself. The people are tired of dry details and partisan works, and want something humorous, pathetic, and instructive. Our agents are making from $100 to $200 per month, clear of all expenses. Send for circulars, giving particulars, see our terms and be satisfied of the above assertion. The Mechanic Association's Reading Room and Exchange,

In Carr's Block, corner Pleasant and State sts., is now in its second year, and is regarded as permanently established in that favorable and convenient location; and the managers desire to invite public notice to it and the Association, and to the advantages here offered to mechanics, and business men generally.

The Reading Room is well supplied with the Newspapers of the day, and is open from 7 o'cl'k A. M. to half-past 9 in the evening. Terms $3 per year. Rooms are members of the Association and their apprentices—and strangers visiting the city are invited to visit it at any time.

The Exchange Room is open to members of Mechanics and Manufacturers, of good character; and the advantages are great, at a very small expense.

AMERICAN AND FOREIGN PATENTS.

E. H. EDDY,

Solicitor of Patents,

Late Agent of the U. S. Patent Office, Washington, under the Act of 1837.

78 State Street, opposite Kilby Street,
BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made in the Patent Office, and foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters connected therewith. Copies of the claims of any Patent furnished by mailing One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by if not their measurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none in MORE EXTENSIVE USE AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."

CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person *more competent* and *reliable*, and no one capable of preparing their applications in a form to secure for them an early and favorable consideration at the Patent Office."

EDMUND BURKE,
Late Commissioner of Patents

Mr. E. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."

JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS; EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

MONTGOMERY'S

MUSIC, PICTURE FRAME, AND VARIETY STORE,

10 1-2 Daniel Street,

(Over Miss Beal's Dry Goods Store.)

The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr. Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Sheets, Music, Sheet Music, Flutines, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.

PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.

PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.

Having made arrangements with Prof W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Hickering & Sons, and Geo. M. Guild & Co. The superior merits of these Pianos are too long been established to need any comments. Of the latter, suffice it to say that the sale of over fifty of these Pianos in this place, since Mr. Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.

Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof. Day. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman. D. H. MONTGOMERY.

The Chronicle.

☞ "Reconstruction under the Constitution as it is," clamor the Rebel-Confederates. Before the war (says the Tribune), the whites in the South voted for three-fifths of their negroes. Now, under "the Constitution as it is," they would vote for five-fifths—for the whole of them. They ask for a premium upon treason and rebellion! Under the Constitution before the war, the rebels, favored by slavery, paid three-fifths of the taxes. But the slaves having become citizens for the purpose of taxation, their races are assessed on themselves, and their former masters have shuffled off the three fifths. "Reconstructed" by Andrew Johnson, the rebels would gain 40 per cent. in representation, and get rid of 60 per cent. in taxation! Surely the voters of the North and West will stand no such "representation without taxation." They will demand the Constitutional Amendment.

ASTONISHED NATIVES.—A steam power printing-press has been introduced in Rangoon, India, and the editor says:

"It is very amusing to see the natives stand around and look, and make remarks about it, and express their amazement to see the press take the paper, print it, and then carry it off and pile it up much more correctly than a man can do it. They seem to imagine—so their remarks indicate—that it is imbued with real life. It is quite a curiosity here, and draws crowds of the natives to witness its operations."

☞ The example of the President in affirming the unconstitutionality of the Civil Rights Bill, has been too generally followed by Southern Courts. Judge Magruder, of the Circuit Court at Annapolis, recently refused to admit negro testimony, and it is thought that this precedent will be adopted by the Courts generally. In contrast to this illegal ruling of Judge Magruder, is the conviction of a white man of manslaughter, solely upon negro testimony, in Mississippi. The apprenticeship system in Maryland appears to be but a new form of slavery. Altogether, Mr. Johnson's policy has a pernicious influence on the State, and discourages its loyal citizens.—*Tribune.*

A SHOW FOR MARK TWAIN.—A Sunday lecturer for St. James, London, is wanted. The following are the conditions: "Income, from voluntary contributions, depends entirely upon the popularity of the lecturer. Evangelical sentiments and an earnest, rousing style of preaching indispensable."

— "Be thou chaste as ice and as pure as snow, thou shalt not escape using unhealthy compounds in your food," was a true maxim, until Herrick Allen's Gold Medal Saleratus came to our relief. Since using it, we feel that there is one article in the way of Saleratus that all can use with healthy results. We have almost cured our dyspepsia, and thanks to the Gold Medal Saleratus for it. Try it, and you will say with us, that perfection has been obtained, and the inventor has immortalized his name forever. Most of the Merchants have it. 51

Morning Chronicle.

Portsmouth N. H.

TUESDAY, NOVEMBER 6, 1866.

☞ At Toronto, Canada, the excitement in regard to the Fenian trials is unabated. The Episcopalian minister, D. F. Lumsden, was tried. The court room was densely packed. A large number of witnesses were examined, when the jury retired and brought in a verdict of "Not guilty." The prisoner, who was present, was very much affected. His Lordship, before discharging him, admonished him on the use of ardent spirits, it having been proved that the prisoner, though a clergyman, was in a state of intoxication during the commission of the acts charged in the indictment.

☞ The N. Y. Tribune's New Orleans special says it is reported on good authority that the President has ordered Gen. Sheridan not to make arrests under Gen. Grant's famous order, which effects 44 parties accused of murder, committed in New Orleans, July 13th.

Official information reached Gen. Sheridan Sunday, of numerous murders and outrages committed against Union men in the Parish of St. Landry.

Gen. Sheridan leaves for Texas Monday, on important business.

☞ In New York city, last Friday, a man dressed as a clergyman was arrested on the charge of picking a lady's pocket in a Broadway stage. He gave up the lady's wallet, containing $28, and stated that he was Rev. Geo. E. Williams, rector of the Episcopal Church in Suffolk, Va. Letters found on him seem to prove this statement correct, and also to show that he was collecting subscriptions for a Church School. His vouchers bear the names of two rectors in Richmond.

☞ On Thursday night, in New York city, Mr. Wm. A. Francis committed suicide with a razor, and almost killed his wife with a hatchet, just before his own death, because she attempted to take the razor from him. He was a member of the 23d Street Baptist Church for 25 years, up to his death, and was highly esteemed by all who knew him, as a man of integrity, intelligence and general worth. Coroner's verdict—temporary insanity.

☞ Quartermaster General Meigs has issued another pamphlet containing the names of the victims of the rebellion buried in the national cemeteries, from Maine, Minnesota, Maryland, Pennsylvania, Rhode Island, Arkansas, Mississippi, Florida, Louisiana and California. The pamphlet contains about 8000 names of deceased soldiers from the larger number of all the States.

SWINDLED.—A Toronto dispatch says that John Grace, one of the Fenian prisoners now awaiting trial there, is one of the band who captured Booth and Harold; and a lawyer from Boston lately called on him, and procured his signature to documents drawing his share, over $1600, of the reward promised by the U. S. Government Of the $1600 the prisoner received $1.

"HOPE AND HAVE; or Fanny Grant among the Indians." A story for the young people.
"HASTE AND WAISTE or the Young Pilot of Lake Champlain." A story for young people.

Every child who is old enough to read and appreciate a good story will be delighted to learn that two more volumes of Oliver Optic's Woodville Stories are published by Lee & Shepard, and are not less attractive than the previous volumes of this excellent series of juvenile tales which they complete. They are got up in neat style, with illustrations, and sold at $1.25 per volume. For sale at Batchelder's news depot

☞ The New York Weekly Magazine gives original and selected matter, of a quality to suit general readers, for ten cents a week. Frederic S. Hill, publisher. Batchelder has it for sale at his news depot.

☞ The American reprint of the Westminister Review for October, is received from the L. Scott Publishing Co., New York. They furnish Blackwood's Magazine or any of the leading Reviews for $4 a year.

☞ On Saturday night, in Boston, at half past 10 o'clock, a fire broke out at 41 Franklin street, in a store occupied by F. F. Wheelock & Co., in the centre of a block of five-story buildings; the fire spread each way, to five other stores, and did damage to the amount of $250,000.

☞ The Fall River strike has ended.—The agents agree to run the factories ten hours per day from Jan. 1;—and the hands resumed work on Monday.

— Gen. Halleck has received intelligence that the remainder of the money stolen from Paymaster Glenn of Idaho has been recovered. Two soldiers of the 14th infantry, who committed the robbery, have been captured.

— It is said that Commodore Vanderbilt intends to retire from active business as soon as he obtains a competence. His estate is now estimated at only fifty millions.

GOLD, Monday, 147 1-2.

Local.

IMPROVEMENTS.—A law in nature demands that we should either advance or recede—in the material world there is no such thing as remaining *in statu quo*.—Even in its old age our little city continues to progress; slowly, it is true, but still it does move, as may be evidenced if you will but follow our pernambulating local in a morning's walk.

Going down Pleasant steet, the new house just completed by Messrs. Wilson and Ferguson, on the site of the old Sandemanian meeting-house, shows a vast improvement over the rocky, vacant lot which for so many years lay idle there.

On South Street, Messrs. A. Wilson & Co., have taken the buildings formerly part of the cordage factory, for the manufacture of hemp and flax hackles, and other tools used in preparing flax and hemp. Though not yet in full operation, they are filling some orders. Canada, the West, and the great cities are the chief customers.

On the corner of South School and South streets, an old house has been remodeled to such advantage as to become almost a new one.

Newcastle street has been widened from South street to Water street, and five new houses, of the class most needed in our midst, have been erected thereon.

On Water street we pass the new Ward House for the third ward. On the site of the old South Church, surrounded by a neat fence, surmounted by a clock tower, and having a piazza in front, it adds much to the better appearance of that locality and does credit to those who have had its construction in charge.

From this point to the centre of the city, not much in the building line is attempted. To be sure there is a house in progress at the foot of Gates street, but it appears as though being built by "odd jobs."

On Daniel street, Dr. Steven's dental office is being beautified and improved by the substitution of bay windows for those of a simpler style.

"On the Square," the new Congress Block is looming up, from the top of which a magnificent and extended view may be obtained. With its cosy hall for general purposes, its Masonic hall on the third floor, its banquetting hall higher still, and its three fine stores below, it is deserving a more extended notice than we can give it here.

Near where the great fire of 1845 began its ravages, about midway between Market and High streets, Mr. Mendum has erected a block of three houses.

On Ceres street, the clank of hammer and ring of trowel warn us that Messrs Neil, Tarlton & Co., are putting in a larger steam engine; that which they have used recently having proved inadequate to meet the heavy demands made upon them.

On Market street, near Deer street, one of those old houses where each story juts out over the one below, has been so repaired that it will long remain a quaint landmark of the past.

Hill street, which not many years since our memory recalls as a treacherous morass, is well built up, and the remodeling of Hanover Street Chapel for school purposes, is no little addition to its well appearing.

On Adams street, the waste house of the Kearsarge Mills comes out from its double scorching, Phœnix-like, in good order.

"Rock Pasture and Hale's Field," sacred in boyhood's days to frog hunting and base ball playing, have substituted the hum of the loom for the chirp of the cricket and the roar of the furnace for the croak of the frog. At the corner of Salem and McDonogh streets, the fine new stable erected by Mr. Hadley stands a monument of New England thrift.

On Islington street, just above Dover, a new house shows itself, while near the Creek, Mr. Jones' large new stables strive to equal in size his brewery.

Jarvis Brothers, having fitted up the Swindle Brewery as a hosiery mill, have made large additions to the buildings, and will now be able to furnish large quantities of their justly-celebrated hosiery and under garments.

Above them, on Islington Road, a little settlement is taking firm root.

The row of great ugly telegraph poles, newly set on the street, hardly come under the head of improvements. Neither does the cessation of work on the great culvert (which must be finished ere the great cesspool between the Eastern Railroad and Islington street is filled in,) strike us favorably. The offence is "rank to heaven."

On the farther shore of the North Millpond the dwellings constantly increase in number, so that dwellers in that locality will soon be sufficiently numerous to *demand* the bridge to cross at Hale's Point, for which they have heretofore pettitioned. 'Twill not be a stone's throw in length, and will not impede navigation, while it will accommodate those who shall build in one of the best located of our suburbs.

The western portion of Woodbury street, is being steadily widened and straightened, and the nice wall which is being built thereon to mark the southern boundary of our City Farm, is ornamental from its solidity and evident durability.

On North Road we see two or three new dwellings, neat and comfortable; but we have walked far enough to secure an appetite and to learn that something is being done.

As a community, we have been too fearful of building our residences where we could have light and air and garden room, but now that a step has been made in a more sensible direction, the example will be contagious. The pioneers will have their rewards in the choice of the pleasantest sites and the appropriation of the choicest bits of lands.

That we might show other signs of progress—wharves in good repair and busy with commerce; busy shops whose industry should give employment to thousands—is a strong desire with us, but since we cannot have all that we desire, we will not be so foolish as to ignore what of good *does* come to us.

Everywhere in our limits you will have noticed that the carpenter and painter have been busy, obliterating the traces left by Time's destructive finger. Your guide has traversed the country from the St. Lawrence to the Rio Grande, and with no little local pride is it that he gives his opinion that it is hard to find a place in the whole country where the buildings as a whole give so good evidence of industry well repaid and comfortable homes for all.

(From the Chicago Times.)

THE CROSBY OPERA HOUSE

ART ASSOCIATION.

The success of this—the most stupendous Art enterprise of the nineteenth century—is already an accomplished fact. The assurance of Mr. Crosby to that effect, strengthened by the concurrent testimony of the wealthy and influential Committee appointed to superintend the drawing, and the personal guarantee of Samuel M. Nickerson, Esq. (a gentleman whose undoubted integrity is backed by unlimited pecuniary means,) has appeared in a former issue of this paper. The sale of certificates has been rapid and immense, and fully justified thus far the expectations of the most sanguine; but a large number still remain in the hands of agents scattered all over the country, the extreme shortness of time (as originally limited) precluding the possibility of their sale before the date of drawing.

One obstacle, which has seriously retarded sales, has been the absolute impossibility of furnishing engravings as fast as required. Although this process of the Association have been worked night and day, the demand has far exceeded the supply.

After duly considering this, Mr. Crosby has concluded—in justice to the interests he represents, and in deference to the wish of the public, which (so far as can be ascertained) is almost universal—to delay for a short time the closing of the subscription books, so as to extend the area of membership as widely as possible.

In adopting this course, the Actuary has consulted the members of the Committee on drawing and others, who agree with the management that a short extension of time will amply suffice, at the present rapid rate of sale, to dispose of the remaining certificates. The names of the Committee are a sufficient guarantee of the soundness and disinterestedness of their advice, as thorough and competent business men:

COMMITTEE ON DRAWING.

W. F. Coolbaugh, President Union Nat. Bank.
Ames T. Hall, Hall, Kimbark & Co.
Clinton Briggs, Ewing, Briggs & Co.
J. C. Dore, President of the Board of Trade.
James H. Bowen, President Third Nat. Bank.
James C. Fargo, Sup't American Express.
Frencis C Hoffmann, Ex-Lieut Governor.
L. Y. Munn, Munn & Scott Elevator.
J. A. Ellis, President Second National Bank.
E. G. Hall, Hall, Kimbark & Co.

To these names will be added delegates from other cities.

The integrity of all connected with the management of this colossal enterprise is too firmly established to admit of a moment's doubt or cavil. The honor and reputation of some of the wealthiest capitalists and influential business men in the country are identified with its ultimate triumph and complete success. For reasons above stated, these gentlemen not only cordially approve, but advise this temporary delay, confident that such a policy will equally insure to the benefit of the public and the interests of the Association. No one who can form an approximate idea of the enormous scope and magnitude of this truly wonderful enterprise—involving as it has from the moment of its organization (barely three months ago) the establishment of hundreds of local agencies in nearly every city, town and hamlet of the States and Territories, the employment of an immense clerical force, the printing of thousands of superb engravings, and the immense details included under the general head of correspondence, advertising, telegraphing, expressing, &c.—will hesitate to admit or concur in the propriety of this step.

We can assure our readers that every pledge given or promise made will be faithfully carried out, in strict accordance with its original spirit.

An elegant descriptive Catalogue, giving a complete list of Prizes, has just been issued by the Association, giving full particulars, &c., which they send to any address on application to the principal office, 625 Broadway, New York, or 28 Opera House, Chicago.

☞ See Advertisement headed "A Fortune for some one."

The Management would announce that the time limited for the Closing of the Books has been found too short to complete an undertaking of such magnitude.

The sales have been very large—sufficient to insure the entire success of the enterprise. Had it been possible, within the short time allowed, to have furnished the Engravings as fast as they have been required, there is not the least doubt that every certificate would now have beend isposed of.

There has been a general desire, however, to receive the Engravings at the time of subscription, and the difficulty heretofore of fully complying with this desire has materially retarded the progress of the sale.

A portion of the certificates consequently remain unsold. The Committee agree with the management that the books should not be closed, when a short extension of the time, at the present rapid rate of sales, would suffice to dispose of the remaining certificates.

The subscription books will, therefore be continued open for a short time longer. The day for the Award of Premiums will soon be announced. U. H. CROSBY, *Actuary.*

PROCLAMATION.

TO THE PUBLIC GENERALLY.

WHEREAS, Being armed and equipped with such a stock of Fall and Winter Dry Goods as cannot fail to strike the beholder with bewildering amazement, and please the fancy of all lovers of the Beautiful; and Whereas, Having entered the field for the Fall and Winter Campaign of Trade, we are determined to repulse if not entirely vanquish the great system of monstrous prices and murderous profits, which has settled upon our whole country like a mighty incubus—sinking the poor into deeper depths of poverty and dragging the affluent down, and even driving many to distraction;—and Whereas, We have taken unusual pains in the selection of our New Stock, and have purchased it all at the Lowest Cash Prices, which will enable us to accommodate the purchaser at the lowest possible figures:

Therefore, We, A. Q. LEACH & CO., do hereby issue this our proclamation, to dispose of our Stock upon such terms as must give satisfaction.

In witness whereof we have this, the 16th day of October, A. D 1866, and of the independence of the United States of America the ninetieth year, hereunto placed our hands and caused the Great Seal to be affixed.

AMERICAN LIFE DROPS!

FOR THE SPEEDY CURE OF

Diphtheria,

Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

"BOSTON, Mass.

"ORRIN SKINNER & Co.—*Sirs*:—Notwithstanding my general prejudices against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Hoarseness, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours. A. B. ELDER."

The Life Drops are carefully prepared by

MARCHING ON!

Constantly advancing in public favor, throughout the United States, the British Colonies and Spanish America, and needing no

Flourish of Trumpets

to proclaim its success, that standard article,

CRISTADORO'S HAIR DYE,

is now far ahead of any preparation of its class. People of Fashion at length thoroughly understand the terrible consequences entailed by the use of metallic and caustic preparations, and admit the superiority of this famous vegetable Dye.

PERRY DAVIS' PAIN KILLER.

Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk sweetened and a gill of hot water. Stir well together and drink hot. Repeat the dose every hour until relieved. If the pains be severe, bathe the bowels and back with the medicine, clear.

Fishermen, so often exposed to hurts by having their skin pierced with hooks and fins of fish, can be much relieved by bathing with a little Pain Killer as soon as the accident occurs; in this way the anguish is soon abated; bathe as often as once in five minutes, in severe or hurt times, and you will seldom have any trouble. n1 dawlm

Hygienic Wine.

Approved by the Imperial School of Medicine, Paris.

Tested by the Committee on Chemistry of the American Medical Association, at their Convention, held in Baltimore, May 1st, 1866, and endorsed by its most prominent members.

This *IMPORTED* Tonic, recommended by the most eminent Physicians, is prepared in Paris from

PURE SHERRY!

Superior to all composition only Tonic, Aromatic, and Febrifuge substances. Hygienic with a great superiority all other Bitters, which have for a base, nothing but Alcohol or inferior Whiskies. It is richer than any other Bitters in

Aromatic and Balsamic Principles,

and its taste is exquisite. Its soothing effects on the NERVOUS SYSTEM are most astonishing; for, while it gently exhilarates, by re-animating the functions of the DIGESTIVE ORGANS, and diseases (also quite) gently refreshing and stimulating the brain, giving a healthy tone to the whole organism, it leaves behind none of the baneful influences that follow Alcoholic stimulants.

HYGIENIC WINE

is moreover

MOST DELICIOUS TO THE TASTE,

Possessing wonderful virtues in all cases of DYSPEPSIA AND DEBILITY, and moreover is unexcelled as an

Appetizer,

IT IS NOT INTOXICATING IN THE LEAST.

MUSCAT PERLE, (Imported)

is a rare fine Wine of most delightful flavor. It is the Wine should be drunk all things PURE! In the second place it should be MILD. "Muscat Perle" combines these two most essential qualities, and a trial will convince any one of its superiority over all other Wines at present in the market.

These Wines are sold by all respectable Druggists and Dealers.

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

MESSRS. J. N. HARRIS & CO.:—

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION. I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it in the house, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It causes the phlegm and matter to raise without it irritating those delicate organs (the Lungs), and without producing constipation of the bowels. It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state

POLICE COURT, Nov. 3.—"To err is human; to forgive, divine." The reporter of proceedings in this court sincerely regrets an inadvertence which occurred in his report of Saturday's proceedings. In the words of Saul to David, he has "erred exceedingly," in taking down the name of James D Meloon, the officer making the complaint, instead of that of the aggressor in the eye of the law, and trusts this statement will prove an *amende honorable*.

The case should have been reported: Charles E. Warrer, for brawl and tumult, was fined $3 and costs $3 69.

Monday, Nov. 5.—Wentworth Manson, for intoxication on Bow street, was fined $3 and costs $3 86.

☞ With our charming November weather, there is a degree of cold of which we are hardly aware. On Sunday night a large portion of the North Pond was frozen over, to such a thickness as to remain unmelted by the rays of the sun up to Monday noon. Skating will soon be the popular amusement.

☞ Lieut. Henry J. Bishop, U S. Marines, has been detached from this station, with orders to proceed immediately to New York to command the marines of the U. S. steamer Susquehanna, Commodore Alden. Lieut. B. has been on this station two years, and leaves many warm friends that regret his departure.

☞ Capt. T. Green, Ordnance Officer, has been detached from this station, and ordered to the Powhatan now in the South Pacific. Capt. G. has been at the Yard one year, and by his kind and gentlemanly manners, has won the esteem and respect of all who have been associated with him.

FORT MCCLARY.—Work on the fort at Kittery Point, is now going on with renewed vigor. One hundred and fifteen workmen are employed excavating the rocky hill at the north of the old fort, and more men are to be taken on soon.

☞ Philharmonic Rehearsal this (Tuesday) evening—Roll Call precisely at half past 7. The punctual attendance of all old and new members is desired.

Communication.

☞ One of the greatest nuisances allowed to go unchecked and unpunished in our city, is the daily disfiguring and marring of the public buildings, dwellings and fences, in our most public streets and thoroughfares, by mischievous, thoughtless boys, and unthinking, senseless young men. It is high time that this sort of crime should be looked after, and the perpetrators brought to punishment. Until a few of these reprobates are shown up by way of example, the most costly structures, or elegant surroundings of buildings, will not be safe from disfigurement. How often do we see new, white-painted fences marked from one end to the other with charcoal or chalk; gates, porticoes and buildings bedaubed with paint, which, in some cases (as, for instance, a brick house,) can never be effaced. I know of one brick dwelling in the vicinity of the square, worth at least from six to seven thousand dollars, which has on its walls from eight to ten different colors of paint, appearing not unlike the interior walls of a paint shop. It is not unlikely that these same house and fence despoilers are the desecrators of our public and private cemeteries. A person who would bedaub the walls of an elegant mansion, would not hesitate to mar a sculptured monument or steal flowers from the graves of the dead.

— Hartley Coleridge once being asked which of Wordworth's productions he considered the prettiest, very promptly replied: "His daughter Dora."

— The gentleman who borrowed an oyster knife with which to open an account at the banker's is anxious to meet with a patent corkscrew to draw a check.

— Speaking of sending Morissey to Congress—he would be a shrewd voter if not a great speaker, for he has learned to discriminate closely between the eyes and noes.

— A young lady in a country village was busily engaged, the other day, in looking over some mourning goods. The clerk was an acquaintance, and asked her with much solicitude, if there had been a death in her family. 'No, not exactly,' said she, 'but I expect the old lady will go under in about two weeks, and I thought I'd get my mournin' all ready."

— A poor man, who had been ill, on being asked by a gentleman whether he had taken any remedy, replied, "No, I aint taken any remedy, but I have taken lots of physic."

— A man may as well expect to grow stronger by always eating, as wiser by always reading. It is thought and digestion which makes books serviceable, and gives health and vigor to the mind.

He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part, also whether it is Tubercul ous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

REASONS WHY THE

AMERICAN WATCH,

MADE AT WALTHAM, MASS.,

IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. No jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "anchres," "lepines" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shovelling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

LARGE SALE OF

Stock, Farming Tools, &c.

Will be sold at Auction, at the "Sparhawk Place," so called, in Portsmouth, now occupied by CHAS. E. MYERS, on the road to Newington,

On Thursday, Nov. 15, *at* 10 *o'clock A. M.*,

the Stock and Farming Utensils on said place, consisting in part of

Four Superior Cows, Two Horses, Four Sheats, Lot of Poultry, One double seated Carriage, One two-seated Buggy,
One large Danvers-built Wagon, Horse Cart, Double Sleigh, Pair traverse Runners, 2 Plows, Harrow, Patent Horse Rake,
Keystone Cider Mill, Corn Sheller, Ox-Chains, Harnesses, Lot Lumber, Ladders, and many other articles.

—Also,—

1 large Cooking Stove, Lot of Tin Ware, Milk Pails, Cans, &c.

The sale is ordered for the reason that the proprietor, having disposed of his estate, is about to remove into town; and as the articles are in good order, a fine opportunity is offered for farmers and others to make a purchase.

If the weather be stormy Thursday, the sale will take place on Friday following; and if that day is unpleasant, it will be held on the following Monday. The Stock and Utensils can be examined at any time previous to the sale, on application to Mr. Myers, on the premises.

ANDREW JOHNSON TO THE PEOPLE.

If there is any one who yet supposes,
From stolen things transpiring long ago,
That I am playing still the part of Moses,
I beg to say, 'tis not exactly so.

That part, on trial, did not suit my fancy,
And so I dropt it, in a quiet way,
And by some locus pocus necromancy,
I took the part of Pharaoh in the play.

You all remember well the sacred story,
How God "raised up" this king to work His plan;
Doubtless the Lord made me for His own glory,
Though I am, what is called a self-made man.

I trust no power, however high and mighty,
Will touch "my policy" or say my say!
Because, by nature, I am highly-tighty,
And cannot brook it not to have my way.

The part of Pharaoh seems to be my mission,
I'm chasing now the captives just set free,
Some will doubtless wait on this position—
I may be swallowed up in some Red Sea.

But still I trust not. Where would be this nation?
Without my watch and care, where would it go?
There is no other man to take my station,
So Mr. Seward says, and "that is so."

These Jewish captives, doubtless Pharaoh told them,
He was the best, best friend they ever had;
That was the reason why he sought to hold them;
He feared lest they should come to something bad.

I'll try to live, although as Wordsworth states it,
"The good die first," a dangerous thought for me,
No doubt there's danger, though he overrates it.
Some good man live, or what would this world be!

I'll try to live, because I'm very certain
The land would mourn if I should pass away,
So now just please to drop the curtain
While I refresh, and so resume the play.

☞ Andrew Johnson has exercised the appointing power solely to break down a higher and coordinate branch of the Government, to deprive it of its rightful authority, and to nullify the will of the people which it was elected to represent. This high crime and misdemeanor is approved by every Copperhead running for office, either State or Federal, and will be sustained by every candidate elected to Congress on the "bread and butter ticket. The unchecked use of this appointing power, in defiance of the will of the Senate, would change the form of our Government from popular to autocratic.—*Tribune.*

FOGLIESTIC SHODDY.—A Saratoga correspondent says among the female dazzlers of that place, is Mrs. John Morissey, who is always the observed of all observers, and whose joilette, fresh every day, is always complete from the crown of her bat to the toe of her boot.

PROPOSALS FOR RATIONS.

QUARTERMASTER'S OFFICE,
U. S. MARINE CORPS,
Washington, 19th Oct. 1866.

SEALED PROPOSALS will be received at this office until 2 o'clock, P. M., of TUESDAY, the 27th day of November next, for furnishing rations to the United States Marines, at the following Stations from 1st January, 1867, to 30th June, 1868, viz:

PORTSMOUTH,	New Hampshire.
CHARLESTOWN,	Massachusetts.
BROOKLYN,	New York.
PHILADELPHIA,	Pennsylvania.
WASHINGTON CITY,	Dist. of Columbia.
GOSPORT, near	Norfolk, Virginia.
MOUND CITY,	Illinois.
PENSACOLA,	Florida.

Each ration to consist of three fourths of a pound of pork or bacon, or one-and-a-fourth pound of fresh or salt beef; eighteen ounces of bread or flour, or twelve ounces of hard bread, or one-and-a-fourth pound of corn meal; and at the rate to one hundred rations of eight quarts of beans; or, in lieu thereof, ten pounds of rice; or, in lieu thereof twice per week, one hundred and fifty ounces of desiccated potatoes, and one hundred ounces of mixed vegetables; ten pounds of coffee; or, in lieu thereof, one-and-a-half pound of tea; fifteen pounds of sugar; four quarts of vinegar; one pound of sperm candles, or one-and-one-fourth pound of adamantine candles, or one and-one-half pound of tallow; four pounds of soap, and two quarts of salt.

The rations are to be delivered upon the order of the commanding officer of each station; the fresh beef, either in bulk or by the single ration, of good quality, with an equal portion of hind and fore quarters, sinews and kidney tallow excluded; the pork No. 1 prime mess pork; the flour, known as extra superfine by the market of the place where the Station is located; the coffee good Rio; the sugar good New Orleans, or its equivalent; and the beans, vinegar, candles, soap, salt, &c., to be of good quality.

All subject to inspection.

All bids must be accompanied by the following guarantee:

The undersigned ——, of ——, in the State of ——, and ——, of ——, in the State of ——, hereby guarantee that in case the foregoing bid of —— for rations as above described be accepted, he or they will within ten days of the receipt of the contract at the post office named, execute the contract for the same, with good and sufficient securities; and in case the said —— shall fail to enter into contract as aforesaid, we guarantee to make good the difference between the offer of the said —— and that which may be accepted.

A. B, Guarantor.
C. D., Guarantor.

Witness:
E. F.
, 186—.

I hereby certify that the above named —— are known to me as men of property, and able to make good their guarantee.

To be signed by the United States District Judge, United States District Attorney or Collector.

No proposal will be considered unless accompanied by the above guarantee.

Newspapers authorized to publish the above will send the paper containing the first insertion to this office for examination.

Proposals to be endorsed "Proposals for Rations," and addressed to the undersigned.

The Camp, the Battlefield, and the Hospital,
Or Lights and Shadows of the Great Rebellion.

There is a certain portion of the war that will never go into the regular histories, nor be embodied in memorial poetry, which is yet very real part of it, and will, if preserved, convey to succeeding generations a better idea of the spirit of the conflict than many dry reports or careful narratives of events, and this part may be called the gossip, the fun, the pathos of the war. This illustrates the character of the leaders, the humor of the soldiers, the devotion of women, the bravery of men, the pluck of our heroes, the romance and hardships of the service.

The volume is profusely illustrated with over 100 engravings by the first artists, which are *really beautiful*; worthy of admiration as specimens of the art. The book's contents include reminiscences of camp, picket, spy, scout, bivouac, siege, and battlefield adventures; thrilling feats of bravery, well, military, medical and naval adventures, etc., etc.

Amusement as well as instruction may be found in every page, as graphic detail, brilliant wit and authentic history are skillfully interwoven in this work of literary art.

This work sells itself. The people are tired of dry details and partisan works, and want something humorous, romantic, and startling. Our agents are making from $100 to $200 per month, clear of all expenses. Send for circulars, giving particulars, and see our terms and proof of the above assertion. AGENTS WANTED
TO CANVASS
For a new HISTORICAL ENGRAVING, entitled
A COUNCIL OF WAR IN '61.

This is a subject of great historical importance, it being the representation of a very important and dignified meeting scene which transpired at the President's house at the beginning of the late war.

There is scarcely a family in our country that will, sooner or later, desire a copy of this great picture.

Intelligent, active males or females, will find this one of the most rapidly selling engravings ever published. Exclusive Territory given in all cases.

For full particulars, send for a circular.

Important to the Afflicted.

DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of nearly twenty years, Dr. Dows now the gratification of presenting the unfortunate with remedies that have never since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, and unfits the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females
IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE
in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated Dr. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—*Dr. Dow* imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

A GLOOMY ACCOUNT OF THE SOUTH. A "Conservative correspondent, of the New York Times, writing from New Orleans, says:

"It is safe to predict that two thirds of the Northern planters will return to their homes as soon as they can after the crops of this season are gathered. They are led to this resolution not only by bad success in their enterprises and lack of remunerative prospects, but by actual threats of assassination if they remain. Dozens of Northerners, now planting in the interior parishes of this State, have received 'notices to quit,' enforced by the presentation of revolvers and unpleasant displays of rope. One gentleman, formerly a Federal Colonel, and now representing Northern moneyed interest to the amount of half a million dollars in Rapides Parish, although surrounded by over a thousand discharged colored soldiers of his own and other regiments, all of whom are in his employ, and have their arms with them, says that he will most assuredly abandon his business next year, as he has already been fired at several times, and has been served with verbal notification, that he must leave or pay the penalty with his life. The chief judicial officer of the same parish will soon make affidavit that on the docket of the term of court now in session there are nineteen cases of murder of freedmen, and that it is useless to try to attempt to punish the criminals. Bienville Parish is in equally bad condition, and the post commandant at Shreveport has been authorized to use military force in protecting the Unionists and freedmen. The parish will probably soon be garrisoned by regular troops. In the vicinity of Lake Providence outrages occurred so frequently without being followed by the punishment of the perpetrators, that a squad of soldiers were sent there, and now persons who are suspected of having given the information regarding the outrages to the military authorities are obliged to fly from their homes to save their lives from nightly assassination. This plain statement is but a moiety of the entire record of disgraceful occurrences during the past few months. Were I to give your readers the particulars of the individual cases, regarding which reliable affidavits have been received by Gen. Sheridan, I could fill their hearts with horror at the atrocity and relentless cruelty of men who are encouraged, by escaping from punishment to continue the committal of their crimes."

— A crusty old bachelor says that Adam's wife was called Eve because, when she appeared, man's day of happiness was drawing to a close.

— "My dear," said a husband to his affectionate better half, after a little squabble, "you'll certainly never be permitted to go to heaven." "Why not?" "Because you will be wanted as tormentor below."

— Would you save yourself from suffering after eating, or from acidity of the stomach, or burning sensation, or indigestion? Use Herrick Allen's Gold Medal Soleratus. Never use soda if you can procure this article. It will strengthen weak stomachs and relieve dyspepsia; it is saving in the quantity of flour, &c., &c. Try it. Grocers and Druggists sell it. The Wholesale Agents are Wholesale Grocers. 52

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY,
Solicitor of Patents.
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street,
BOSTON.

After an extensive practice of upwards of twenty years, is now securing Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably above those which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional service so moderate.

The immense progress of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful practitioners* with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they can not employ a person *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has manufactured me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such a remarkable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART

During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Morning Chronicle.

MOSES—A PARALLEL.—The radical Unionists in the Western States are enjoying a parallel ran by some wit on the prairies between our Johnson "Moses" and the Moses of Scripture, to the effect that

Moses led his people through the sea; Johnson led his into it.

Moses asked Pharaoh to let the people go; Johnson was asked by Congress to let the people go, but wouldn't.

Moses cast down and broke the tables of the law; so has Johnson.

Moses erected a serpent in the wilderness and they died; Johnson erected a serpent in New Orleans and the people died.

Moses slew an Egyptian; Johnson "slews" himself.

Moses had Aaron for a spokesman; Johnson has his spokesman. Aaron made and showed a calf; Johnson's man made and showed a menagerie.

Moses ate quails in the wilderness; Johnson entertained "quails" at the White House.

Moses sang a song of triumph; Johnson sings on the other side of his mouth.

Moses was angry with the people; so is Johnson.

In Moses's there time were plagues by reason of hanging on to slavery and maintaining the slave power; so there are in Johnson's.

Moses esteemed reproach greater than the riches of Egypt, for he had respect unto the recompense of the reward; Johnson esteems his "policy" far above reproach, and had respect unto the recompense of the pardon-brokers.

Moses was the meekest man; Johnson is the humblest individual.

Moses sent spies to spy out the land, and they brought back an evil report; so did Johnson, and they brought back increased Democratic majorities.

Moses didn't bring his people into the promised land; so didn't Johnson.

— It is said the Methodist Centenary Fund now amounts to about $5,000,000.

Ayer's Cathartic Pills

ARE the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to be the common boast that they are not the ordinary medicines in taste, they are safe and pleasant to take, but powerful to cure. Their penetrating property stimulates the vital activities of the body, removes the obstructions of the organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow disease, rouse sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. And cure the diseases the everyday complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take, and being purely vegetable, are free from any risk of harm. Cures have been made which invites belief, were they not established by facts of such a critical position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their testimony to strengthen the belief in the reliability of our remedies, while others have sent us the assurance of their conviction that our Pills have contributed immense to the relief of our afflicted, suffering fellow men.

The Agent below named is pleased to furnish gratis our American Almanac containing these facts for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Scurvy, Dyspepsia, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the bowels and Pain arising therefrom, Flatulency, Loss of Appetite, and all disease which require an evacuant medicine. They also by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial blindness, Neuralgia and Nervous Irritability, Derangement of the liver and kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.

Do not buy of druggists who offer you their own preparations which they make more profit on. Demand AYER's, and take no others. The best medicine for all they find is for them, and they should have it.

Prepared by DR. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists everywhere in the United Everywhere. 22—2m

The Old Established Hospital,

No. 5 Beaver Street, N. Y.

QUICK CURES—LOW PRICES.

Agents Wanted For

The Camp, the Battlefield, and the Hospital,

Or Lights and Shadows of the Great Rebellion. Fifteen interesting portraits of the war. This will never go into the regular histories, nor be embodied in romance or poetry, which is a very real part of it, and will, if preserved, convey to succeeding generations a better idea of the spirit of the conflict than many dry reports or careful summaries of events. In this part one may smell the gossip, the fun, the pathos of the war. This illustrates the character of the leaders, the humor of the soldiers, the devotion of women, the bravery of men, the pluck of our heroes, the romance and hardships of the service.

The volume is profusely illustrated with over 100 engravings by the best artists, which are *really beautiful*; worthy of examination as specimens of the art. The book's contents include reminiscences of camp life, incidents of hospital and battlefield adventures; thrilling feats of bravery, wit, drollery, comical and ludicrous adventures, etc., etc.

Amusement as well as instruction may be found in every page, as graphic detail, brilliant wit and authentic history are skillfully interwoven in this work of literary art.

This work sells itself. The people are tired of dry details and want a work that is something humorous, romantic, and startling. Our agents are making from $100 to $200 per month, clear of all expenses. Send for circulars, giving particulars, and see our terms and proof of the above assertion. Address NATIONAL PUBLISHING CO., 118 Water Street, Boston, Mass.

MRS. JONES' TRIAL.

Mr. Jones was married. He had been married a long time, ever since he could remember, almost. The first Mrs. Jones was a pretty school-boy love, and died early. Mr. Jones was inconsolable for more than six months, and then finding the burden of his griefs too heavy to be born alone, decided to share his regrets with a sympathizing friend. The connection was a happy one for many years, but alas for the mutability of earthly pleasure! Mr. Jones was again a widower at the age of forty, and being extremely lonely, and having the habit of marrying, he offered his broken life and bereaved affections to Miss Patience Normoss, a mature young lady of thirty. We have said that Mr. Jones had a habit of getting married, and it had so grown upon him, had Providence opened the way, he would in all probability have followed up a series of bereavements with a succession of consolations. But in selecting Miss Patience he had no regard to compatibility of temper. He had never thought any thing about it. His other marriages had been happy accidents, and so far as he knew and reflected that was the order of nature. But, Miss Patience had a habit, too, and it was in accordance with her name, for it was a failing that leaned to virtue's side and beyond it. She lived in the remote and future. The present with her was never anything but a makeshift, a mere expedient till better times. Distance not only lent enchantment to her objects of pursuit, but was absolutely the only charm to which she was sensitive. She really liked Mr. Jones almost up to the hour of his proposal; she meekly tolerated him ever after.

They were bording for a time, and the wife said submissively to all her friends, "Oh, yes, it is very comfortable for the present, till we feel able to keep house."

Mr. Jones, after the remark had been reiterated for the fiftieth time, asserted that he was able to keep house. To prove this, he engaged and furnished a tasteful tenement, and another year saw Miss Patience the patient mistress of her own fireside.

"What a pleasant situation!" said Dame Grundy, as she called on a tour of inspection.

"Why, yes," returned Mrs Jones, it is all we can expect in a house we hire. If we were to build we should plan very differently of course, and then you know, one could have the heart to make improvements in shrubbery and fruit trees. Oh, Mrs. Grundy, I hope to live long enough to have a house of my own."

Mr. Jones was well to do and good natured. Moreover, he was a little obtuse, as we have seen, and did not perceive that something to put up with is, with some of us, a practical necessity. So he said very generously—

"Mrs. Jones, in another year you shall have a house of your own."

"I am afraid you could not afford to build such a house as I would like."

"I can and I will. You shall make the plan yourself, or draw a new one if you prefer."

Mrs. Jones sighed, "It will take so long in building;" and from that hour every rational enjoyment was deferred till they should get to their new dwelling. There were the usual delays and disappointments, and Mrs. Jones' love of endurance was fully gratified; she was regaled with a lingering sweetness long drawn out."

At length the house was built and furnished, the grounds laid out and planted, and the wheels of the new establishment fairly in motion. Moreover, by rare good luck, there was very little to alter or undo; most of the arrangements were desirable, and the experiment successful.

"I hope, my dear," said Mr. Jones, benevolently, "that we are in a condition to take comfort."

"If we ever get settled," assented Mrs. Jones, with a sigh.

"Well, years rolled on, and they were settled. The flowers bloomed and the fruit ripened. The turf thickened into velvet, and the trees grew tall and cast a welcome shade. Strangers paused to admire the premises as they passed, and neighbors paid their various tributes of envy and admiration. Mr. Jones smoked his prime cigar in the back piazza, and grew to look portly and contented. Not so with Mrs. Jones To all the encomiums lavished upon her residence she replied submissively, "Yes, it's a pretty place, but we don't know whom we built it for. We have no children to come after us, and are just putting up improvements for strangers to pull down."

Was ever a woman favored with an indulgent fortune? Within a year from the utterance of this remark, Mrs. Jones was the happy—no, the patient mother of a real genuine glorious baby. Mr. Jones, who had with difficulty refrained from happiness before, was uncontrolably jubilant now. The boy was healthy, and handsome, and bright. There was no mistake about him; he was a fixed fact, a star of the first magnitude. He had wants, it is true, for which the fond father was intensely thankful, for to gratify and prevent them was his supreme delight.

But the mother? Ahs! hers were all a mother's anxieties and forebodings. Till the child was weaned she scarcely left the house, or indulged in the simplest luxuries of diet. Then there was the long period of teet-cutting, during which her maternal anxieties were never appeased. Then she lived in fear of the measles, whoopingcough, and scarlet fever, till the young hero met and conquered them all. He grew sound and rosy, and she thin and anxious,

Morning Chronicle.

Portsmouth N. H.

THURSDAY, NOVEMBER 8, 1866.

☞ The Chicago correspondent of the New York Times says that "Gen. Butler's impeachment scheme does not take very well in the West. It is too ultra even for our radicals. However much they may dislike Mr. Johnson's policy, they are averse to going into an impeachment of so high an officer on any grounds of a merely partisan character."

The latter clause of the above item, misrepresents the case entirely. It would *not* be *merely* partisan: it will not be *partisan* at all, to impeach the President because he has made hundreds of removals from office without cause! unless his own *partisanship* is the cause. He richly deserves impeachment;—and if he should not be impeached, the impeachment clause of the U. S. Constitution will be a dead letter,—of no more value than the foggy clause about treason. A President,—who has no more dignity, or propriety, or sobriety, than to threaten in public, to "kick out" public officers, and to denounce Congress as hanging on the verge of the government,—is not too good to be himself kicked out, by an impeachment which is both constitutional and legal, and which may perhaps be found expedient, or even indispensable. The poor foolish man himself hangs on the verge: and should he be dropped off into destruction and oblivion, the country would suffer no shock, and the world receive no damage. Outside his official power to give office, he has no party, and very few friends.

The whole matter, however, is in the hands of Congress, who, in the exercise of a sound discretion, may not impeach, but so diminish the President's power by law, that he shall *not* remove officers, (except in a prescribed way and for cause)—and in other ways diminish the circle in which he swings round—so that the country can get on, even with a President so demented or infatuated. The officers he has appointed to fill the *vacancies he made*, should, as a general thing, be rejected by the Senate, as we presume they will be.

THE ELECTIONS of Tuesday have settled the policy of the People on a firm basis, and shown the weakness of the President's policy and party. His gains are in Maryland and New York city, and are the fruits of extensive interference, corruption and treachery. But from present appearances, they will avail him nothing, as they are balanced by republican gains elsewhere. The democratic party, now that they see his weakness, will openly revile him; as they must have despised him severely, all along.

In New York State, the Herald puts Fenton's majority at 5000 to 8000.

Illinois is radical by 40,000 majority.

Maryland *goes for the policy.*

Delaware *ditto*, by 500 majority,—that is *half as* much as in 1864.

Wisconsin, radical maj. 18,000.

Missouri, probably radical.

NAPOLEON'S HEALTH.—The Paris correspondent of the New York Times—who is understood to be a medical man—says in his last letter:

"Strange stories continue to circulate about the Emperor's health. But there appears to be no other serious grounds for these stories than people's fears. Nevertheless, His Majesty is not exactly well, and he takes great pains to conceal the fact. His case would be best described by saying that he falls easily ill, for its symptoms are not always the same. Sometimes it is rheumatism—a very vulgar complaint for a sovereign; sometimes a renal weakness, and sometimes something else. But in all that there is nothing particularly serious. He may live yet a long time, or he may not."

☞ All the paper collar manufactories in the United States have been consolidated, and his honor, Mayor Shaw, of Biddeford, has been chosen President of the Company at a salary of $25,000. It gives us great pleasure to announce the good fortune of our friend, the Mayor, who deserves it all as having few equals as a business man in this country.—*Bid. Union.*

☞ The Washington Chronicle says General Grant and the President have not coincided in their views on the Baltimore difficulties.

GRAIN BLOCKADE AT ALBANY.—The Springfield Republican says the blockade of eastern bound grain at Albany, for lack of transportation, still continues, and is producing considerable inconvenience to the farmers and grain consumers in the towns along the Connecticut valley. In Hampshire county there is a great scarcity of corn, and the entire available supply to satisfy the public demand is now held by a firm at Northampton, whose stock of 50,000 bushels has been diminished one-half in a few days. Corn that was purchased and paid for three weeks since is now stored at Albany, and the price is constantly rising.

— A woman, with a child in her arms, jumped from a train of cars on Wednesday night, near Waterloo, Ind., the train going at the rate of 15 miles per hour yet did not receive the slightest injury. She had passed the station where she wished to stop.

SINGULAR GIFT.—An unknown benevolent individual, who takes a great interest in the welfare of the unfortunate, has sent a check for $100 to the Superintendent of the State Prison at Wethersfield, Conn., for the purpose of giving, on the 31st of January, "a good roast dinner to all the prisoners, with a whole pie for each." The check is made payable "to the wisdom which creates evil," to the order of the Superintendent. The same gentleman has given six shares of bank stock for the benefit of the Rhode Island State Prison, the income of which is to be devoted to giving the inmates of that institution a good dinner every year at the same date, which is the birthday of the generous donor.

TEXAS.—Gov. Throckmorton, in a special message to the Legislature on the condition of our country and our Federal relations, says the true sentiment of our people is misunderstood by the North, and denies with indignation the assertions of politicians that we do not desire the restoration of the Union, and that Union men are in danger of assassination, that without military protection they cannot remain here, and that thousands are leaving the State.

He asks the Legislature to pass resolutions to this effect and to solemnly pledge the State authorities to protect life and property without regard to political sentiment. He suggests that negro testimony be admitted in all cases; recommends that the taxes collected from the negroes be applied to their education, and says he hopes the Legislature will make all the laws involving their civil rights as complete as possible, so as to extend equal and exact justice to all persons without regard to color.

FIRE IN MAINE.—The store and dwelling house and outbuildings belonging to Mr. Jeremiah Bartlett, Locke's Mills, Me., were burnt Friday morning, the 2d inst., at 2 o'clock. Loss about $10,000; insured for $8000. The fire originated in a shed adjoining the store containing six or eight cords of wood, and was undoubtedly set by some villain for plunder or revenge, or both. Two of Mr. Bartlett's sons were asleep in the house over the store, and were aroused by a lady who was watching with a sick neighbor, and escaped from the house, only saving one bed on which they slept. About $1000 worth of goods were saved from the store.

NEW YORK CITY.—A political contributor to the New York Times, alluding to the nomination and Election of John Morrissey as Representative to Congress, thinks it indicates an approach to a condition of affairs which will demand that the strong arm of the "National Government shall be brought in to govern New York with the bayonet." The scene on Saturday when the plugugliies were encouraged by members of the City Government to mob General Butler, show what class of men managed to obtain the ascendancy in that city. Mr. Parton, in his recent article upon these men, very truly remarks, "The thieves must be driven out if it costs a bloody war, and it will cost a bloody war if they are not."

— Mechanics have worked 600 years on the spire of the Cathedral at Strasburg.

— Colonel Young, the leader of a gang of marauders in Texas, and formerly chief of Gen. Sherman's scouts, was hung by the rancheros recently, and all his gang captured, shot or hung.

— A gentleman residing in Waterville, Vt., of high standing, and a member of the Methodist Episcopal Society, labored industriously all day Sunday in his potato field, he being under the impression that it was Saturday instead.

— An act of Congress, passed July 27, 1866, provides that the regulation in force in the navy prohibiting the wearing of sheath-knives on ship-board, shall extend and apply to all seamen in the merchant service.

— Ephraim Smith, printer, was suffocated to death, Saturday morning, in a room at the Putnam House, New York, by smoke and gas from a stove pipe which ran into a half repaired flue. His two brothers were insensible when found, but have recovered.

— The Emperor Napoleon has caused himself to be inscribed as an exhibitor of the tenth class at the Great Exhibition of 1867. His Majesty has designed a model for a workman's house, which, to lowness of price, unites all the accommodations desirable and the conditions required by health.

— A correspondent of the Cincinnati Gazette estimates the population of Cincinnati at 210,000. In 1826 that city contained but 16,000 inhabitants; Newport and Covington were petty villages; the suburbs were nothing; no railroads existed, and turnpikes were unknown.

— Gen. J. A. Mower has been assigned by Gen. Sheridan to the command of Louisiana, and is an admirable appointment. Gen. Mower was one of the officers appointed to investigate the causes of the massacre in New Orleans, and one of the signers of the celebrated report. He served with distinction during the war, and has the reputation of a good fighter and a prudent and upright man.—*Tribune.*

THE FIRST VICTIM.—The Presidential guillotine has been put in motion in this State, and Marshal Ela's official head has rolled into the basket. We little thought Jacob H. Ela, the wheel horse of Republicanism in this State, would be honored with the first attentions of Andrew Johnson, in this manner, at the instigation of Messrs. Burke & Co. But so it is. It shows that Mr. Johnson's friends know where to strike at their determined foes, and that they fear the influence of Mr. Ela and men of his stamp.

If there is one man in New Hampshire above another who is the incarnation of genuine Republicanism, who is rooted and grounded in the principles of liberty and justice, whose life has been a perpetual protest against the slave power of the country, its rebellion and its aiders and abettors, that man is Ex-Marshal Ela. The office of Marshal was conferred on him by the lamented Lincoln, and we believe every Republican in the State said amen to the appointment. He has discharged its duties with fidelity and promptness. Why is he removed? Ask Edmund Burke and Mr. Marcy. They will behonest enough to give the reason. It is because Mr. Ela believes in principles more than administrations; in convictions that no office can stifle, and has influence with the people.

Had he been a four-and-sixpenny postmaster, Mr. Johnson would not have master, Mr. Johnson would not have troubled himself about him. But Mr. Ela committed the sin against "My Policy" which hath never forgiveness. He has never withheld his testimony against the perfidy of an administration that came into power on the profession of anti slavery convictions, and crowned its desertion of principles with the New Orleans massacre. And the man doesn't live in whose presence he would falter when rebuking such outrages, be he President or Prophet.

In thus selecting Mr. Ela for his first victim in this State, the President has conferred an unintended honor upon him, and he will leave the office as he entered it at Mr. Lincoln's call, an honorable and honest man, against whom the breath of suspicion never rested. Would to God we could say as much for his beheaders.—*Monitor.*

MORE PRIVILEGES FOR JEFF. DAVIS. A Fortress Monroe item says,—the parole granted Jeff Davis some months ago, giving him the privilege of the grounds of the Fortress during the day, has been extended, through Executive clemency, in removing all surveillance of him, and the guards from his room in Carroll Hall at night. Instructions to this effect have been sent from Washington to Gen. Burton, commandant of the Fort, thus depriving his imprisonment of anything like severity, and paving the way, as is generally presumed, for a final parole and release.

All guards over him, both during the day and night, being removed, he now enjoys every possible means of comfort and pleasure while held prisoner in the Fortress. It is said he has expressed great satisfaction at this action of the Government, and already contemplates visiting Carroll Hall and taking up his residence with Mrs. Davis in apartments assigned her shortly after her arrival.

Judge Underwood has left for the North. The court has adjourned to meet in Richmond. In swearing in the jury the second clause requiring them to swear they never aided the rebellion was omitted.

MEXICO.—The following official letter, just received in Washington, confirms the intelligence contained in the one to Minister Romero:

CONSULATE OF THE UNITED STATES OF AMERICA, Vera Cruz, Oct. 25, 1866.

SIR: I have the honor to inform you that Maximilian left the city of Mexico on the 22 inst., en route for Orizaba. This day a conducta containing 2,500,000 hard silver dollars, arrived here from the city of Mexico. There are now about one thousand troops of the French expedition in this city, and I am informed that some two thousand more are located on the road between Orizaba and this city. With much respect your obedient servant,

E. H. SANLINER, Acting U. S. Consul.

To Hon. WM. H. SEWARD, Sec'y of State.

— The First New Jersey cavalry regiment claims to have participated in ninety-seven engagements.

☞ — It is denied by both the President and Secretary of War that they have given any orders to Major General Sheridan not to arrest any of the parties accused of committing murders on the 13th of July in New Orleans.

— Upon the request of the Senate of the United States, and also of Gen. Grant, the President has appointed Col. Albert J. Myer to be Chief Signal Officer of the regular army. Col. Myer organized and commanded the signal corps of the army during the rebellion, and was the originator of that branch of the service.

— A child of Volney Allen of Turner, Me., fell into a brook where the water was over his head and remained under water ten minutes. It was resuscitated by his mother, who hastily removed the clothes from the body, applied warm cloths to it, and bending over the face placed her mouth to that of the child and breathed into it until life was restored.

— Mr. Leforest Saunders of Dixfield, Me., met with a singular and fatal accident in that town on Monday of last week. He was pulling stumps with pullies and a yoke of oxen, he had fastened on to a stump and was driving the oxen when the pullies broke and a link of the chain flew and hit him, passing directly through his body. He lived about 12 hours.

BUBBLES BURST.—Speculation, which has been of late inordinately rampant at the Produce as well as at the Stock Exchanges, met with a severe—let us hope, a decisive check at the former institution yesterday. Pork fell $2 (making a decline of $4 in two days) per barrel, under the depressing influence of an ascertained heavy and augmenting supply; while wheat receded 5 cents to 8 cents, and corn fully 8 cents per bushel, under unexpected reports of depression in Liverpool, and of increasing reluctance on the part of country banks to discount grain dealers' notes, unless on a very wide margin. At the reduced figures there were many eager sellers, while buyers were decidedly scarce.—*N. Y. Times, Nov. 3.*

— The Essex Banner says that so many shoe manufacturers in Haverhill have shortened production, that several hundred workmen have left town.

PROCLAMATION.

TO THE PUBLIC GENERALLY.

WHEREAS, Being armed and equipped with such a stock of Fall and Winter Dry Goods as cannot fail to strike the beholder with bewildering amazement, and please the fancy of all lovers of the Beautiful; and Whereas, Having entered the field for the Fall and Winter Campaign of Trade, we are determined to repulse if not entirely vanquish the great system of monstrous prices and murderous profits, which has settled upon our whole country like a mighty incubus—sinking the poor into deeper depths of poverty, and dragging the affluent down, and even driving many to distraction;—and Whereas, We have taken unusual pains in the selection of our New Stock, and have purchased it all at the Lowest Cash Prices, which will enable us to accommodate the purchaser at the lowest possible figures:

Therefore, We, A. Q. LEACH & CO., do hereby issue this our proclamation, to dispose of our Stock upon such terms as must give satisfaction.

In witness whereof we have this, the 16th day of October, A. D 1866, and of the independence of the United States of America the ninetieth year, hereunto placed our hands and caused the Great Seal to be affixed.

AMERICAN LIFE DROPS!

FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

BOSTON, MASS.

"ORRIN SKINNER & CO.—*Sirs:*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved, and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constructed to acknowledge that they are valuable. Truly yours A. B. ELDER."

PERRY DAVIS' PAIN KILLER.

Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new hot water and no more, and a gill of hot water Stir well together and drink hot. Repeat the dose every hour until relieved. If the pains be severe, bathe the bowels and back with the medicine, clear.

Fishermen, so often exposed to hurts by having their skin pierced with hooks and barbs, can be much relieved by bathing with a little Pain Killer as soon as the accident occurs; in this way the anguish is soon stayed, but be sure, as once in five minutes, say three or four times, and you will seldom have any trouble. n1 dawlm

Hygienic Wine.

Approved by the Imperial School of Medicine, Paris.

Tested by the Committee on Chemistry of the American Medical Association, at their Convention, held in Baltimore, May 1st, 1866, and endorsed by its most prominent members.

This IMPORTED Tonic, recommended by the most eminent Physicians, is prepared in Paris from

PURE SHERRY!

Admits in its composition only Tonic, Aromatic, and Febrifuge substances. It *replaces* with a great superiority all other Bitters, which have for a base, nothing but Alcohol or Inferior Whiskies. It is richer than any other Bitters in

Aromatic and Balsamic Principles,

and its taste is exquisite. Its soothing effects on the NERVOUS SYSTEM are most astonishing for, while it gently exhilarates, by re animating the functions of the DIGESTIVE ORGANS, and dissipates Languor, by gently refreshing and stimulating the brain, giving a healthy tone to the whole organism, it leaves behind none of the baneful influences that follow Alcoholic stimulants.

HYGIENIC WINE

is moreover

MOST DELICIOUS TO THE TASTE,

Possessing wonderful virtues in all cases of DYSPEPSIA AND DEBILITY, and moreover is unexcelled as an

Appetizer,

IT IS NOT INTOXICATING IN THE LEAST.

MUSCAT PERLE, (Imported)

is a rare fine Wine of most delightful flavor. It is the Pure Juice of a Most Delicious and generous GRAPE, and surpasses in excellence any *Table Wine in the Country.*

All who are solicitous about obtaining a *pure* and a superior Wine, will be delighted with

"MUSCAT PERLE."

☞ Church people are solicited to examine this Wine for communion purposes. A Communion Wine should be above *all things* PURE! In the second place it should be MILD. "Muscat Perle" combines these two most essential qualities, and a trial will convince any one of its superiority over all other wines at present in the market.

These Wines are sold by all respectable Druggists and Dealers.

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

MESSRS. J. N. HARRIS & CO.:—

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLENS LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is far the best expectorant remedy with which I am acquainted. For Coughs and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It causes the phlegm and matter to raise, without irritating those delicate organs (the Lungs), and without producing constipation of the bowels. It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

MECHANICS' ASSOCIATION.—The Portsmouth [New Hampshire] Mechanics' Association is an organization that has existed in this town ever since the year 1802, when it was formed by some of our enterprising mechanics, for the purpose of mutual improvement in Mechanical Arts, and the dissemination of social and friendly feelings among the members. This body held its 63d Annual Meeting last Tuesday evening, at the Mechanics' Reading Room.

The Secretary read the Annual Report of the Association. There have been added to the Association 20 new members, and 8 members have died during the year. The present number of members is 146. Of these, two are of the number that formed the Association in 1802 (Bros. Hanson M Hart and Benjamin Carter). There are also 9 other members that have belonged to the Association over 50 years.

The Treasurer reported on the financial standing of the Association. Besides carrying on the Reading Room, to which all the members and their apprentices have free access at all times,—the Board have paid out for relief to sick and disabled members, the past year, $50; to the widows of deceased brothers, who are in needy circumstances, $80; and on the death of every member, the family or friends receive $35; so that there has been paid the past year for funeral benefits, $280. There is belonging to the Association, and well invested, a fund of $7435.70

An amendment to the Constitution was adopted, in regard to the amount of fee to be paid on joining the Association. It now reads: If under 25 years of age, three dollars; between 25 and 30 years, four dollars between 30 and 35 years, five dollars; between 35 and 40 years, six dollars; between 40 and 45 years, seven dollars. And when any member shall have been 35 years in membership in good standing, he shall thereafter enjoy all the privileges and benefits of the Association, without being subject to any further assessment.

The following officers were elected for the ensuing year:

John T. Dame—President.
Oliver Hanscom—Vice President.
Alfred T. Joy—Treasurer.
James Moses, Frank W. Miller, Wm A. Vaughan, Jr., John M. Davis, Andrew J. Beck, Elisha Tripp—Trustees.
Benj. M. Parker—Secretary.

E. M. Brown—Marshal.
Oliver H Locke—Dep. Marshal.
Benj. Norton—Standard Bearer.
Charles W. Brewster, Edmund M. Brown and Samuel W. Moses—Auditors.

POLICE COURT, Nov. 7.—Before Associate Justice Marcellus Bedford.—James Haley, drunk, was fined $3, and costs $4 80.

William Armstrong created a brawl and tumult, but the strong arm of the law proved too strong for him, and this morning his pockets were rifled to the extent of $7 80, as a penalty for his breach of the canon in such case made and provided.

George Horn, who evidently duplicated his "horns," was fined $3, and $3.86 costs for being intoxicated.

☞ Considerable inquiry was elicited by a sort of calathumpian demonstration made in our streets very early on Wednesday morning, during the wee sma' hours. 'Twas in honor of reported Democratic victories, and one of the prime movers therein informed an inquirer that the music was furnished by the "*Geranium* Band."

☞ One of the speakers at the Temple on Tuesday evening in illustrating the commencement of the rebellion perorated thusly: "And is this what our fathers marched from Lexington to Bunker Hill in two ranks for? *No!* I wonder that George Washington did not turn over in his grave at the idea, although he has been over forty years interred. Think of it! They rushed to the Cradle of Liberty, kicked off the rockers, knocked off the head board, stove off the foot board, *seized* the Infant of Peace, dragged him clean out of the cradle and threw him overboard!" As far as heard from the "Infant of Peace" he still survives.

☞ The third game of Base Ball between the Granite State Club of this city and the Star Club of Kittery, juniors, came off on Wednesday afternoon and resulted in another victory for the Granite States, by a score of 65 to 20.

GOLD, Wednesday, 147 1-2.

— A New York milkman has been fined $10 for putting water in his milk—or milk in his water—not certain which.

— An exchange, speaking of a great Reform demonstration at Leeds, says there were "from 100,000 to 150,000 people present." That's a long jump.

— An extensive fire in Paris, last month, was instantly extinguished by the bursting of three bottles of sulphuric ether, the contents of which, mixing with the atmospheric air, put an end to the combustion.

— The Savannah Republican reports business in that city as exceedingly prosperous. The harbor is full of shipping, everybody is busy, and the crops are turning out better than was anticipated.

Special Notices.

Dr. Schenck's NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of No. 35 Hanover Street, Boston, where he will be professionally every WEDNESDAY from 9 to 3. Every person complaining with Consumption or any disease leading to it, are invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars

Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part, also whether it is Tubercul ous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

Dr. Schenck on Dyspepsia.

SYMPTOMS, CAUSES AND REMEDY.

Symptoms of Dyspepsia—A sense of fullness, tightness, and weight in the stomach, together with flatulency, acidity, sour, offensive belching of wind, water-brash and vomiting, and a great deal of what a person calls an ill-humor feeling at the pit of the stomach; frequently there is also a palpitation of the heart, which physicians mistake for heart disease, and when the stomach is in this condition it is coated with a mucus or slime. The rough fibrous portions of the stomach, similar to what we see in tripe, is what throws out the gastric juice, and when the stomach gets a thick coat of slime on it, it prevents the gastric juice from flowing, and digestion ceases. Schenck's Seaweed Tonic dissolves this mucus or slime, and restors the stomach to its natural condition.

Schenck's Mandrake Pills are also required to carry off the morbid matter. Two thirds of the cases of Consumption are caused from this diseased state of the stomach; the liver becoming torpid, it ceases to throw out bile, and in a short time the whole system is deranged. The mucous membrane of the bronchial tubes sympathizes with the other organs and before the patient is aware of it, he or she has Bronchial or Pulmonary Consumption.

Schenck's Pulmonic Syrup cannot act freely through the blood when the system is in this locked up condition. Without the aid of the Sea Weed Tonic and Mandrake Pills. The Liver has all the venous blood to purify, and when it gets in a morbid condition, blood and bile run through the system mixed, and the whole body becomes so low, and the blood so thick it can hardly run through the veins. In a majority of cases hemorrhages occur from this thick could ff.n of the blood. The Mandrake Pills act on the Liver similar to calomel, or they do what that does—it unlocks the gall bladders, starts the bile, and the blood begins to circulate naturally through the veins, and the hemorrhages cease. If, when persons are attacked with hemorrhage, they would first take a good purgative, something that would act on the liver, they would soon be relieved from bleeding from the lungs, and it is the only way, for as astringents are only temporary, and irritate the bronchial tubes, and lay the groundwork for consumption.

DR. SCHENCK will be professionally at his rooms every week, 33 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer, the charge is $5

His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents per box.

REASONS WHY THE

AMERICAN WATCH, MADE AT WALTHAM, MASS., IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "Lepines," "Repiques" and "English Patents" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have created an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this stove, are subjoined, for convenient reference:

LARGE SALE OF

Stock, Farming Tools, &c.

Will be sold at Auction, at the "Sparhawk Place," so called, in Portsmouth, now occupied by CHAS. E. MYERS, on the road to Newington,

On Thursday, Nov. 15, at 10 o'clock A. M.,

the Stock and Farming Utensils on said place, consisting in part of

Four Superior Cows, Two Horses, Four Sheats, Lot of Poultry, One double seated Carriage, One two-seated Buggy,
One large Danvers-built Wagon, Horse Cart, Double Sleigh, Pair traverse Runners, 2 Plows, Harrow, Patent Horse Rake,
Keystone Cider Mill, Corn Sheller, Ox Chains, Harnesses, Lot Lumber, Ladders,
and many other articles.

—Also,—

1 large Cooking Stove, Lot of Tin Ware, Milk Pails, Cans, &c.

The sale is ordered for the reason that the proprietor, having disposed of his estate, is about to remove into town; and as the articles are in good order, a fine opportunity is offered for farmers and others to make a purchase.

If the weather be stormy Thursday, the sale will take place on Friday following; and if that day is unpleasant, it will be held on the following Monday. The Stock and Utensils can be examined at any time previous to the sale, on application to Mr. Myers, on the premises.

but still unalterably patient. At school she feared he might study too much or too little, and as her fears were pretty equally divided between the two perils, it is presumed that he avoided both.

Then she had a general misgiving lest he should be spoiled, and from too much petting at home become an indolent and useless member of society. But, though the reader may share her fear in this regard, Master Jones falsified them all. Indulgence and opportunity seemed to agree with him. He was ambitious and self-reliant, and not objectionably willful. When at last he decided to study for a profession, the mother fitted out his wardrobe with reluctant care, and the first letter she received from college was moistened with some more than the full proportion of her maternal tears.

"I am glad he is doing well," she said, in reply to a remark from her husband, "but I miss him more than I can tell you. Since we have only one we could but wish he could have staid with us. The seven years of his student life are very long to wait."

"To wait for what?" inquired Mr. Jones.

"For the good time coming," replied his wife.

"Why, woman, the good time has come long ago. Can't you see it? We've been having it all along."

"It may be so with you Mr. Jones, but I have never been free from anxiety for a minute in my life."

"And you will, never be, my dear," replied Mr. Jones, as he shook the ashes from his cigar. In is positively your strongest point, and I have quite an admiration for your skill in it. You will find more to submit to in any given circumstances than any woman I have ever known."

Mrs. Jones raised her eyes to her husband's face in meek surprise. She forgave him and was silent.

PARTING DAY.

BY JAMES MACFARLAND.

The sunset burns, the hamlet spire
Gleams grandly, shouted in evening fire,
The river rolls red,
The flowers are drenched in floating haze,
The churchyard brightens, and old days
Seem smiling on the dead.

From pendant boughs, like drops of gold,
The peaches hang; the mansion old,
From out its nest of green,
Looks joyful through the golden eyes
Back on the sunset-burnished skies,
A smile o'er all the scene.

The running child, whose wavy hair
Takes from the sunset's level glare
A purer, brighter tinge,
Rolls on the grass; the evening star
Above you streak of cloudy bar
Hangs on Day's olympic fringe.

Where latest sunshine slanting falls,
Above the ivied orchard walls,
The tall tree shadows lean,
In waving lines of shade, that nod
Like dusty streams across the road
With banks of light between.

The streams are gilt, the towering vane
Stands burnished; and the cottage pane
Seems melting in the sun;
The last lark waves down the sky,
The husky crow slides careless by,
The golden day is done.

Agents Wanted For

The Camp, the Battlefield, and the Hospital, or *Lights and Shadows of the Great Rebellion.*

There is a certain portion of the war that will never go into the regular histories, nor be embodied in romance or poetry, which is a very real part of it, and will, if preserved, convey to succeeding generations a better idea of the spirit of the conflict than many dry reports or careful narratives of events, such as this part may be called the gossip, the fun, the pathos of the war. This illustrates the character of the leaders, the humor of the soldiers, the devotion of women, the bravery of men, the pluck of our heroes, the romance and hardships of the service.

The volume is profusely illustrated with over 100 engravings by the first artists, which are *really beautiful;* worthy of examination as specimens of the art. The book's contents include reminiscences of camp, march, siege, and bivouac, and battlefield adventures; thrilling feats of bravery, wit, drollery, comical and ludicrous adventures, etc., etc.

Amusement as well as instruction may be found in every page, as graphic detail, brilliant wit and authentic history are skillfully interwoven in this work of literary art.

This work sells itself. The people are tired of dry details and partisan works, and want something humorous, romantic, and startling. Our agents are making from $100 to $200 per month, clear of all expenses. Send for circulars giving particulars, and see our terms and proof of the above assertion. Important to the Afflicted.

DR. DOW continues to be consulted at his office, Boston, No. 7 Endicott street, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practice he has perfected a remedy by which he has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.

SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board and attendance—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capsules, warranted the best preventive. Order by mail. Three or $1 and a red stamp.

Highly Important to Females.

IN DELICATE HEALTH.

Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.

N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.

CERTAIN CURE

in all cases, or No Charges Made.

Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.

P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

METEORIC SHOWER.—There is good reason for believing that the usual November shower of meteors will this year be unusually brilliant, and it is accordingly awaited by astronomers with great interest.

In view of the coming display, a short statement of the more prominent facts relating to meteors may not be unacceptable to the general reader.

Meteors, or shooting-stars as they are commonly called, may be seen by attentive watching on almost every clear night during the year; but their occurrence in unusual numbers always about the 9th 10th or 11th of August, and 12th 13th or 14th of November, is so marked as to preclude any attempt to attribute it to mere coincidence, and compels us to seek some physical cause. This annual recurrence is much more marked in some years than it is in others. By collecting the accounts of remarkable meteoric showers, it has been found that they have mostly occurred at intervals of about thirty-three years or multiples of thirty-three years. It is this fact that has led to the expectation that the display of November of the present year will be a remarkable one.

Another curious but exceedingly well-ascertained fact respecting these periodical showers is, that, if the apparent paths traversed by the meteors be extended, they all pass through nearly the same point in the heavens. To this rule there are some exceptions, but not enough to invalidate it. The point from which the August meteors seem to radiate is in the constellation *Camelopardalus*, that from which the November meteors radiate is in *Leo*.

The theory which has been universally accepted as the one which best explains these phenomena, is, that the meteors are in reality minute planets revolving about the sun in immense numbers, in the form of a ring possessing a certain eccentricity and an inclination to the plane of the ecliptic. By assuming that this elliptic ring intersects the terrestial orbit in those points which the earth occupies about the 10th of August and the 13th of November, we have a very satisfactory explanation, by this theory, of the annual periodicity of the meteoric showers.

Furthermore, by supposing this ring to be of unequal density in different parts, and that every thirty three years the earth passes through a portion which is particularly rich in meteors, we may account plausibly for the thirty-three year period, should the existence of such a period be demonstrated.

Again, it will be seen by a little thought, that, as the paths of the meteors encountered by the earth are nearly parallel, and, for the small time occupied by the earth in passing through the ring, nearly rectilinear, they will, according to the rules of perspective, appear to diverge from the same point in the celestial sphere. This we see corresponds accurately with the observed facts as above stated.

The exhibition this year will probably take place after midnight of November 13th, though it may very possibly come on the 12th or 14th. Those who do not wish to miss the display will do well to keep watch of the heavens on all three nights, more especially after midnight. Should the shower be as brilliant and grand as in 1833, it will repay any trouble or loss of sleep, and be the event of a lifetime.—*Boston Tran.*

AMERICAN AND FOREIGN PATENTS.
E. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1837,
78 State Street, opposite Kilby Street,
BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American and foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the validity of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a *person more competent* and *trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now *pending*. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Morning Chronicle.

Portsmouth N. H.

FRIDAY, NOVEMBER 9, 1866.

IN WASHINGTON, Wednesday, the evening Administration organ made the announcement that the result of the elections confirms the President more strongly and determinedly in his purpose and policy.

If this be so, then we must understand that if the Copper Johnson tickets had prevailed, the President would have abandoned his policy and purpose! But this is sheer nonsense. An obstinate man might be so set on his purpose as to *disregard* public opinion;—but it is impossible that he should be encouraged by defeat and discouraged by victory. In the case of an insane or drunken man, obstinacy is often to be expected; and in Andrew Johnson it would not be surprising to see him rush on madly in such a course as to make his impeachment a necessity.

☞ A Washington letter says it is evident that President Johnson and his supporters had counted on carrying the State of New York, and are sadly disappointed because of Hoffman's defeat; but those who know Mr. Johnson well are confident that the popular verdict against his policy will only strengthen his determination to adhere to it regardless of consequences. [One consequence may be, his own speedy impeachment.]

NEW YORK.—The Tribune thinks that Federal patronage had much to do in running up Hoffman's vote in the city, but not so much as the liquor question. Speaking of the German-born citizens, it says:

"There is a collision between their habits and the fundamental laws of our State. This collision has taken about 5000 votes from Governor Fenton and his friends, and given them to our adversaries, making a difference of about 10,000. To this we probably owe the defeat of three, if not four, Republican candidates for Congress, with other local disasters."

The Herald coincides in this view, saying:

"The obnoxious legislation at Albany last winter, against the powerful liquor interests, rallied the liquor dealers, wholesale and retail, from whiskey down to lager beer, Americans, Irish, Germans—man, in short, of every nationality—*en masse* against Fenton and the Republicans. The solid front of the liquor dealers, more than all other combinations, contributed to this city's startling majority for Hoffman."

With regard to the result in the State, the World says:

"In the interior cities and towns, wherever the Irish population is numerous, and where the Radical misrepresentations have not been met and exposed, as they have been here, the Democratic vote has fallen off, and the Radical vote has proportionately increased. But for the *Fenian* vote, John T. Hoffman would have been elected by a tremendous majority."

☞ Great Britain has withdrawn her Legation from Saxony, thereby recognizing the incorporation of Saxony with the kingdom of Prussia.

It is said that preparations are quietly in progress in Ireland to meet a possible rising.

—. The dark ages—Women's.

— Three inches of snow fell at Presque Isle, Me., on Tuesday of last week, but was immediately carried off by rain.

— The Mississippi Legislature has created a new county, and called it Lee, after the General.

— Jesse Reynolds, an old man 84 years of age, was found dead in his house at New Bedford on Tuesday. He lived entirely alone and is supposed to have died in a fit.

— A concert to raise funds for a monument over the remains of the late Ned Kendall, in Boston, on Saturday night, netted about $1400.

— A few days ago Mr. Charles Whitney, of Bristol, Vt., captured two of those animals known by the name of loup cervier—very savage and formidable creatures.

— A girl 15 years of age was recently killed by the accidental discharge of a gun-barrel, in a hotel at Springtown, Penn. A young man was examining the gun, which was detached from its stock.

— A member of the Vancouver's Island Legislature, McClure by name, spoke on a recent occasion for seventeen consecutive hours, to defeat an obnoxious bill, and carried his point, only yielding the floor for motions to adjourn.

— About $45,000 worth of stock has been manufactured into 350,000 hats and bonnets in the establishments for this purpose in Franklin, Mass., during the present year. The value of the goods made is nearly $1,300,000.

— Baron James de Rothschild is in a very critical state of health. He is the only surviving son of the founder of the house, is chief of the Paris branch of the Rothschilds, and the most eminent financier of the whole family.

— From returns published in the Louisville Journal it appears that a total of 61,062,240 pounds of tobacco were raised in Kentucky during the last twelve months. Of this 976,956 pounds were raised by free negroes.

NEW HAMPSHIRE ITEMS.

—— Rev. Mr. Barrows of North Hampton, has been invited to preach as a candidate to the First church and society in Exeter, or to supply them one year as he may choose, he being about to leave his present charge.

☞ Herrick Aiken, a well known inventor, whose death occurred at Franklin, N. H., on Tuesday morning, was born in Peterborough, in this State, June 8, 1797. At twelve years of age he was fatherless, and at twenty-one had established himself in the harness business at Brighton, Mass., where he remained eight years. Subsequently he lived in Dracut until the spring of 1838, when he removed to Franklin, N. H., where he resided until his death. For many years past he has been widely known as a very ingenious and skillful artisan. Several of his inventions in the line of mechanics' tools have been long in use. In his early years he was among the first to predict the invention of traveling by steam, and was often ridiculed for his views upon this topic. He was a gentleman of strict integrity, but was very peculiar, and oftentimes exceedingly eccentric. His active enterprises have added much to the business prosperity of Franklin. He leaves a wife and four sons, two of the latter being the inventors and proprietors of the famous Aiken Knitting Machine.

ASSAULTING A CONDUCTOR.—The Lynn Reporter says that a drunken rowdy, hailing from Watertown, going to Boston in one of the horse cars, on Sunday evening, refused to pay his fare; whereupon, Mr. Babb, the conductor, told him he must leave the car. While they were discussing the matter another rowdy stepped up, and saying that his companion should neither pay nor leave, struck Mr. Babb a severe blow. A tussle ensued, and blows were exchanged, but the conductor, who proved himself smarter than both the others, managed to "lay them out" by the help of a small iron hook which is used on the cars, and placed them in the custody of an officer. The next day the rowdies were brought before Justice Newhall, when they were compelled to pay a fine and costs of about $30, and were then discharged.

MARYLAND.—A Baltimore dispatch says with reference to the reckless taking of the loyal oath:

"This is in obedience to the advice of Reverdy Johnson, who informed the rebels that it would not be perjury for them to take this oath, inasmuch as it was unconstitutional. The registrars were all Swann men, and permitted the rebels to register. In some precincts the loyalty of rebels was tested by the question whether when negro regiments were facing Lee's army they hoped the former would be whipped, and they swore they did. A place called Blue Bell Tavern, in Baltimore county, out on the Philadelphia road, was taken possession of early one morning, by a large party of roughs, who are employed in the Baltimore Custom House, and held all day, allowing only rebels to vote. They were completely armed with muskets, carbines and revolvers, and lay along all the fences leading to the place challenging approaching voters, and turning them back if they intended voting the Union ticket. Not a loyal man voted after they arrived. A Union man just arrived from there says if he had ventured to protest he would have been killed. Immense crowds are on the street and the excitement is great."

A NEW TEXTILE.—It is said that a new textile, such as was sought for when the war broke out, has been discovered in Nevada. The plant has its home in the Humbolt valley, where it grows in large quantities, and can of course be made to grow more thriftily by cultivation. The plant is said by the discoverers to be superior to any textile now in use. Though styled hemp, it is so called on account of it closer similarity to that than to any other growth. It has a stronger and finer fibre than the proper hemp, and a much longer staple—In proportion to the wool, too, the fibre is much more abundect. It can be more easily separated than flax or hemp, and can be stripped clean from the stock without preparation.

— An Illinois wife, only 16 years old, applies for a divorce.

— In Mariposa county, Cal., they have discovered a ledge, three miles long and one wide, of bone or lithographic stone. It is of a grayish white color, hard as flint, of very fine grain, and susceptible of a high polish. It is called "The American Flag."

— At Youngstown, at the late term of the Mahoning (Pa.) County Court, Richard Brightwell, a mulatto, brought suit against the trustees of Green township, for refusing his vote, and got a judgment for $300, the jury being composed of men of both political parties.

— A man's wife in South Bend, Ohio, presented her husband with a very fine boy. The next morning the man stepped into the Mayor's office and stated that the night previous a fellow came stalking into his house, stark naked; that he was there yet. Three policemen at once started on the run to oust the intruder. When they got to the house they asked to see the fellow that had come in there the night before. The nurse brought out the baby.

ELECTION SCRAPS.—In Massachusetts it appears by comparing Gen. Butler's vote with the Governor vote in his district that he ran behind the ticket in almost every town. In Newburyport he ran about 300 behind, and 88 persons voting for Governor declined to vote for Representative to Congress. In Salem he ran about 100 behind; in Lynn about 60 behind, &c. Notwithstanding that his majority in the district will be six to seven thousand.

The Democratic vote in New York city, owing mainly to the corrupting influence of patronage, was unexpectedly large, rising above 46,000 majority. But outside of the city the tide was the other way. In the river counties there were handsome Republican gains, which extend throughout the returns. All honor to the sturdy "rural districts!" They have saved the Empire State, and given the decisive blow to the last hopes of the Johnson party and their rebel inspirers.

The Swann Johnson party in Baltimore, finding themselves foiled in efforts to set aside the Union Police Commissions, seem to have determined to carry the election by a wholesale disregard of the loyal oath required by the registry law. Men known to have been rebel at heart, and who actually served in the rebel army, unblushingly took the oath and cast their votes. By that means alone the two Republican candidates for Congress in Baltimore have been nominally defeated by about 1000 majority each.

There will undoubtedly be an overhauling of the illegal votes thrown for the Democratic Congressmen by the next House, which may throw them out. While we sympathize with Unionists of Maryland over this result, it is impossible to forget that it might have been prevented by a timely and perfectly just bestowal of the right of suffrage on the patriotic colored citizens of that State.

HARD TIMES AT THE SOUTH.—The business depression and financial embarrassment which prevail in the Carolinas, Georgia, Alabama and other Southern States, appears to be felt in the commercial metropolis of Louisiana. A correspondent of the New Orleans Times writes that a financial crash is there considered imminent, and that its premonitory symptoms are already visible. He says:

Immediately following the war the South was, comparatively speaking, flooded with foreign capital. Business men were obliged to appeal to the North for loans of money with which to establish themselves in trade; commerce recieved a new and lively impulse, and the demand for goods to r place articles worn out during the existence of the blockade of the Southern ports, built up new business houses every where, but not on a substantial basis. Reaction has already commenced, and in New Orleans to-day the money market is fearfully disturbed and very tight. New York exchange is barely saleable, not because it is not needed, but because people have no money with which to buy it. The banks have ceased loaning money, and everybody is inclined to curtail expenses, and grumble about the hard times. The great impulse toward this reaction is found in the threatened and actual withdrawal of Northern capital and the swamping of business interests resulting from it. It is useless to deny these startling facts, and it is still more useless to attempt to give any other reason for the withdrawal of Northern money than the disturbed political condition of this section.

[This *disturbed* condition is the proper result of the insane "policy" at the White House.]

THE SHOE BUSINESS OF LYNN.—The shoe business in Lynn is unusually dull, even for this season of the year, and it is said that several thousand workmen have already left the city for their homes, and others, it is believed, will soon follow them. Many of the workmen reside in distant parts of the State, some in New Hampshire and Maine, and others in Canada. Probably half of the citizens of Lynn engaged in this business are out of work at the present time. Better times, however, are looked for at the close of the month.

— "You look," said an Irishman to a pale, haggard smoker, "as if you had got out of your grave to light your cigar, and couldn't find your way back again."

— A rule prevalent in England for ascertaining the weight of each dressed quarter, will be one-seventh of the live weight of the entire sheep; that is, if the sheep weighs 140 pounds, the dressed carcase will weigh 80 pounds. This rule is said to be tolerably accurate for sheep in fair order, and not very fat.

— The color-bearer of the 22d Wisconsin Volunteers, who had a leg shot off in the fight at Peach-Tree Grove, was recently offered the place of Postmaster at Geneva. He promptly refused it, saying—"I lost one leg in the service of my country; I don't propose to sell the other to the enemies of my country, and throw in my principles."

THE MAINE LUMBER BUSINESS.—The Bangor Whig says the lumbering business in Maine for the past season—especially that of the Penobscot and Aroostook valleys—has been very prosperous. In consequence of the ample supply of water for sawing, and the lively demand for sale, the amount manufactured and sold has been very much larger than that of any year for a long time past—and the prices have been good and remunerative. The Bangor survey is already about sixty millions in advance of that of last year, and will probably go twenty or thirty higher, (say 225,000,000 in all) if the river continues open into December as usual.

A GOOD RALLYING COMMITTEE.—An Ohio paper says that a young woman living in the township of Springfield heard that a young man in the place was not likely to vote without some urging, and was halting between two opinions as to which way he would vote, if at all. She took her father's buggy on the day of election, went to the house of the absentee, brought him to the polls, "voted him" for Shellabarger and the whole Union ticket, and took him home again.

AMERICAN LIFE DROPS!

FOR THE SPEEDY CURE OF

Diphtheria,

Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kinds of Throat Diseases.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

"BOSTON, Mass.

"ORRIN SKINNER & CO.—*Sirs*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family member, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours A. W. ELDER."

PERRY DAVIS' PAIN KILLER.

Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and molasses, and a gill of hot water. Stir well together, and drink hot. Repeat the dose every hour until relieved. If the pain be severe, bathe the bowels and back with the medicine, as a plaster.

Fishermen, so often exposed to hurts by having their skin pierced with hooks and fins of fish, can be much relieved by bathing with a little Pain Killer as soon as the accident occurs; in this way the anguish is soon abated; bathe as often as once in five minutes, say three or four times, and you will seldom have any trouble. nl dawlm

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES.

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of which speaks in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, are found in the wrapper of every bottle producing effects contrary to nature's chosen laws. will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

Hygienic Wine.

Approved by the Imperial School of Medicine, Paris.

Tested by the Committee on Chemistry of the American Medical Association, at their Convention, held in Baltimore, May 1st, 1866, and endorsed by its most prominent members.

This *IMPORTED* Tonic, recommended by the most eminent Physicians, is prepared in Paris from

PURE SHERRY!

Admitted to its composition only Tonic, Aromatic and Febrifuge substances. *Hygienic* with a great superiority all other Bitters, which have for a base, nothing but Alcohol or Inferior Whiskies. It is richer than any other Bitters!

Aromatic and Balsamic Principles,

and its taste is exquisite. Its soothing effects on the NERVOUS FLUIDS is most astonishing for, while it gently exhilarates, by reanimating the functions of the MUSCULAR ORGANS, and invigorates Languor, by gently refreshing and stimulating the brain, giving a healthy tone to the whole organism, it leaves behind none of the baneful influences that follow Alcoholic stimulants.

HYGIENIC WINE

is moreover

MOST DELICIOUS TO THE TASTE.

Possessing wonderful virtues in all cases of DYSPEPSIA AND DEBILITY, and moreover is unexcelled as an

Appetizer.

IT IS NOT INTOXICATING IN THE LEAST.

MUSCAT PERLE, (Imported)

is a rare fine Wine of most delightful flavor. It is the Pure Juice of a Most Delicious and generous GRAPE, and surpasses in excellence *any Table Wine in the Country.*

All who are solicitous about obtaining a *pure* and a superior Wine, will be delighted with

"Muscat Perle."

☞ Church people are solicited to examine this Wine for communion purposes. The common Wine should be *above all things* PURE! In the second place it should be MILD. "Muscat Perle" combines these two most essential qualities, and a trial will convince any one of its superiority over all other wines at present in the market.

These Wines are sold by all respectable Druggists and Dealers.

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

Messrs. J. N. HARRIS & CO.:—

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It causes the phlegm and matter to raise, without irritating those delicate organs (the Lungs), and without producing constipation of the bowels, it also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

FORGOT SOMETHING.—On the arrival of the train from the east, at 5:30 Tuesday evening, a man got from the cars with a little girl. When the cars started again the man jumped on and the girl was left screaming in the depot. The bystanders on questioning the child found she could speak no English, and she was conveyed to the Station House, where it transpired that she spoke French. City Marshal Johnson sent for Mr. Wright, a French bootmaker, who ascertained that the father, mother, and six brothers and sisters, had gone on in the train, but could not learn whither. Mrs. Wright took charge of the girl, who is eight years of age, very pretty, and named Selina Dosemar. The family came from Canada. On Thursday morning the father arrived in this city, from Boston, in search of his child, in great fear for her safety; he having missed her shortly after the train left the depot, and become alarmed lest she might have fallen from the cars while in motion.

☞ Next week the course of Lyceum lectures will commence. Judge Russell, ever fluent and popular, delivers the opening lecture, to which that charming songstress Mrs. Cary, will give additional attraction. The entertainments offered by this course, besides being of high character, are furnished at a very low price in these days when high prices are the rule,—the admission for the whole course of ten nights amounting only to the admission fee demanded for three concerts by "burnt cork performers." Get your tickets at once.

Communication.

☞ We are sorry to see that the old rock pavement around the City Buildings is being relaid. To walk over this sort of walk, in its best stages, is a great deal like "running bucklers" on the ice. All money laid out in trying to improve the wretched affair, without discarding it totally, is so much thrown away. M.

☞ On and after Nov. 12th, all persons afflicted with diseases of the Eye, Ear, Catarrh (an affection of the Nose and Throat,) and all diseases of the Lungs, can consult Dr. Skinner, on Chestnut street, opposite the Temple, from 9 A. M. to 4 P. M and 7 to 10 P. M.

☞ Our street commissioner keeps sufficiently busy to satisfy even his active nature, and his works are the best praise of his thorough fitness for his office. State street, since receiving its new grade, is hardly to be excelled by the track of any trotting park for the fine drive it affords its entire length.

☞ It is proposed by the Government to place a cast iron head block at every grave of a United States soldier (or of a rebel prisoner of war who died in a Northern prison,) throughout the country, whether known or unknown. To the Quartermaster's Department has been assigned the duty of ascertaining the number and locality of such interments, and steps have already been taken to learn of all such in this vicinity.

HINTS TO YOUNG MEN, on the True Relation of the Sexes: by John Ware, M. D. A second edition of this valuable essay has just been published by A. Williams & Co., with the recommendation of Theophilus Parsons, Samuel G. Howe, Alex. H. Vinton, Geo. B. Emerson, and J. B. Waterbury. Copies are sent at 40 cents, and in large numbers, at 30c. For sale in Portsmouth by J. H. Foster.

☞ The Pacific railroad is pushing more rapidly forward than many imagine. The progress appears to be greater from the Eastern side, because we have no great natural obstructions to overcome, while from the West the path lies along the Sierra Nevada Mountains, and it is now completed to within a few miles of the summit of the hills of the Pacific slope. At present 12,000 Chinamen are at work on that end, and ten thousand more will be added in the Spring.

Special Notices.

Dr. Schenck's

NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street**, Boston, where he will be professionally every WEDNESDAY from 9 to 3. Every person complaining with Consumption or any disease leading to it, are invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part, also whether it is Tubercular, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint.

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

Dr. Schenck on Dyspepsia.

SYMPTOMS, CAUSES AND REMEDY.

Symptoms of Dyspepsia—A sense of fullness, tightness, and weight in the stomach, together with flatulency, acidity, sour, offensive belching of wind, water-brash and vomiting, and a great deal of what a person calls an uneasy feeling at the pit of the stomach; frequently there is also a palpitation of the heart, which physicians mistake for heart disease, and when the stomach is in this condition it is coated with a mucus or slime. The rough fibrous portions of the stomach, similar to what we see in tripe, is what throws out the gastric juice, and when the stomach gets a thick coat of slime on it, it prevents the gastric juice from flowing, and digestion ceases. Schenck's Seaweed Tonic dissolves this mucus or slime, and restores the stomach to its natural condition.

Schenck's Mandrake Pills are also required to carry off this morbid matter. Two thirds of the cases of Consumption are caused from this disagreeable state of the stomach; the liver becoming torpid, it ceases to throw out bile, and in a short time the whole system is deranged. The mucous membrane of the bronchial tubes sympathizes with the other organs, and before the patient is aware of it, he or she has Bronchial or Pulmonary Consumption.

Schenck's Pulmonic Syrup cannot act freely through the blood when the system is in this locked up condition. Without the aid of the Sea Weed Tonic and Mandrake Pills. The Liver must be all the venous blood to strain, and when it gets in a morbid condition, blood and bile run through the system mixed, and the blood becomes so loaded, and the blood so thick it can hardly run through the veins. In a majority of cases hemorrhages occur from this thick condition of the blood. The Mandrake Pills act on the Liver similar to calomel, or they do what that does—stimulate the gall bladders, starts the bile, and the blood begins to circulate naturally through the veins, and the hemorrhages cease. When persons are attacked with hemorrhage, they would first take a good purgative, something that would act on the liver, they would soon be relieved from bleeding from the lungs, and it is the only way, for astringents are only temporary, and irritate the bronchial tubes, and lay the groundwork for consumption.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer, the charge is $5.

His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7 50 the half dozen. Mandrake Pills 25 cents per box.

REASONS WHY THE

AMERICAN WATCH,

MADE AT WALTHAM, MASS.,

IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. No jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have tried "uncres," "lepines" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best machinery in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is sure, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

LARGE SALE OF

Stock, Farming Tools, &c.

Will be sold at Auction, at the "Sparhawk Place," so called, in Portsmouth, now occupied by CHAS. E. MYERS, on the road to Newington,

On Thursday, Nov. 15, at 10 o'clock A. M.,

the Stock and Farming Utensils on said place, consisting in part of

Four Superior Cows, Two Horses, Four Shoats, Lot of Poultry, One double seated Carriage, One two-seated Buggy,
One large Danvers-built Wagon, Horse Cart, Double Sleigh, Pair traverse Runners, 2 Plows, Harrow, Patent Horse Hoe,
Keystone Cider Mill, Corn Sheller, Ox-Chains, Harnesses, Lot Lumber, Ladders, and many other articles.

—Also,—

1 large Cooking Stove, Lot of Tin Ware, Milk Pails, Cans, &c.

The sale is ordered for the reason that the proprietor, having disposed of his estate, is about to remove into town; and as the articles are in good order, a fine opportunity is offered for farmers and others to make a purchase.

If the weather be stormy Thursday, the sale will take place on Friday following; and if that day is unpleasant, it will be held on the following Monday. The Stock and Utensils can be examined at any time previous to the sale, on application to Mr. Myers, on the premises.

NOTHING TO SPARE.

What! hast thou naught to spare? Alas! thy lot
Indeed is hapless; thou art very poor.
Poorer than thy poor brethren who have not
The hoarded much, that crieth still for more:
Where are thy baubles? Where thy glittering toys?
Where thy rich trappings? Thy amusements, where?
The daily luxury, that only cloys?
Oh! look, and see if thou hast "naught to spare."

Where is thy wasted time? Thy unbreathed word
Of gentleness? Thy hidden talent, where?
The look of pity which thou mightest accord?
Oh! do not tell me thou hast "naught to spare,"
Bethink thee ere thou speakest so again.
And for thy needy brethren have some care;
Oh! be more grateful to thy Father, when
So much He gives thee—so much "to spare."

☞ The Springfield Republican says that over a hundred of the liquor sellers in that city were visited on Thursday and promised the State Constabulary to stop selling, and adds:

"The wholesale dealers have nearly all closed their places of business. This sudden turn in favor of the Constabulary, who, until recently, have had decidedly the worst of it, is exciting much talk and quite a sensation in the other western counties. How long this quietus in public liquor selling will continue, is a question which no one can answer. Certain it is, that at present it is next to impossible for any man to procure the proscribed liquids publicly at any bar in the city. This is an event which even the most emphatic temperance men had hardly dared to hope for, and over which they can rejoice, whether its results are of brief or of long continuance."

REBEL VOTERS.—In the Supreme Court of Kings county, New York, on Saturday, Judge Gilbert gave a decision to the effect that service in the rebel army or navy is not cause for disfranchisement, and that persons formerly in any of such branches of service must be registered on the voting list if otherwise properly qualified.

Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasures of the Married Life, are invited to call, consulting Dr. J. Teller, they will find a friend to counsel and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. J. broken down in health, now rejoice in all that makes life desirable and man happy. The reader of course is aware that the delicacy of this subject will prevent a more minute description of this terrible disease.

DR. TELLER'S GREAT WORK.

A book for everybody.—Startling disclosures—Dr. Teller's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Hyp, by A lecture on Nature's law how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published—Warranted to be worth three times the amount asked for it 25 cents, in silver or postage stamps, inclosed, will secure a copy by return mail. Dr Teller has devoted a lifetime to the cure of those diseases upon which he treats.

TO THE LADIES.

DR. TELLER still remains the only Agency in America, for the sale of Dr. Hedge's Celebrated Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

Caution.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) Pills will be sent, by mail or express, to any part of the world, secure from curiosity or damage.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 5 P. M.

☞ Diseases at a distance can be cured at home by addressing a letter to Dr. J. Teller, inclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice. N. B.—No students or boys employed. Notice that the drug store all letters to

The Camp, the Battlefield, and the Hospital,

Or Lights and Shadows of the Great Rebellion.

There is a certain portion of the war that will never go into the regular histories, nor be embodied in romance or poetry, which is a very real part of it, and will, if preserved, convey to succeeding generations a better idea of the spirit of the conflict than many dry reports or careful narratives of events, and this part may be called the gossip, the fun, the pathos of the war. This illustrates the character of the leaders, the humor of the soldiers, the devotion of women, the bravery of men, the patriotism of our heroes, the romance, and hardships of the service.

The volume is profusely illustrated with over 100 engravings by the first artists, which are *beautiful*, worthy of examination as specimens of the art. The book's contents include reminiscences of camp, picket, spy, scout, march, siege, and battlefield adventures; thrilling feats of bravery, wit, drollery, comical and ludicrous adventures, etc., etc.

Amusement as well as instruction may be found in every page, as graphic detail, brilliant wit and authentic history are skillfully interwoven in this work of Humor.

This work sells itself. The people are tired of dry details and partisan works, and want something humorous, romantic, and startling. Our agents are making from $100 to $200 per month, clear of all expenses. Send for circulars, giving particulars, and see our terms and proof of the above assertion. Address NATIONAL PUBLISHING CO., 318 Water Street, Boston, Mass.

GEN. CUSTAR'S VIEWS.—General Custar seems to have decidedly broken away from Johnsonian notions. The following is an extract from a letter written by him to Col. A. T. McReynolds of Grand Rapids, dated Fort Riley, Oct. 22:

"Under no circumstances would I vote for a man who, in time of war, had sympathized with the enemies of his Government, and rejoiced at every defeat which von and I and other loyal soldiers suffered, while every victory wo won was a source of regret, rather than a cause for rejoicing.

I am not prepared to characterize the Constitutional Amendment as being a palpable and flagrant violation of the Constitution, and whose adoption would be considered fatal to the existence of the Union. We, the victors of the late war, have a complete and undeniable right to name the terms upon which Peace shall be established and the Union restored.

I believe that every man who voluntarily engaged in the late rebellion against the Government, justly, and in accordance with the expressed terms of the Constitution, forfeited every right held under the Government, including the right to live, hold property, &c.

I can only sympathize with men, who, when we were weakened by the losses of battle and disease, voted us men and money to fill our depleted columns, and whose sympathies were in unison with ours from the beginning to the close of the war."

— Never place so much confidence in your minister as to sleep during the sermon.

— A country boy, having heard of sailors heaving up anchors, wanted to know if it was sea-sickness that made them do it.

— The Bates College, Lewiston, is erecting a fine building, 80 feet long by 48 wide —with 32 feet posts, for a gymnasium.

— The infuriated gentlemen who missed being married for twenty-four hours on account of the delay at a draw bridge on the New Haven road, threatens to sue the company "for not making connections."

— A gentleman who was relating an accident he had met with in Cambridge from a fall, was asked by a surgeon if it was near the vertebræ that he had been hurt. "No, sir," was the reply, "it was near the observatory."

— "Why is this thus?"—When the widow of a white soldier applies for bounty, pension or arrears, she must prove her marriage by the best evidence known to the courts,—but when a negro woman makes the same application, she simply has to show that she has "lived with" the negro, as his wife.

— Coleridge was descanting in the presence of Charles Lamb, upon the repulsive appearance of the oyster. "It isn't handsome, Coleridge," said Elia; "but it has the advantage of you in one thing." "What is that?" queried Coleridge, who, as every one knows was an exhaustless talker. "It knows when to shut its mouth," was the reply.

— A good story is told of a rustic youth and a buxom country girl, who sat facing each other at a husking party. The youth, smitten with the charms of the beautiful maiden, only ventured a sly look, and now and then touching Patty's foot under the table. The girl determined to make the youth express what he appeared so warmly to feel, bore with these advances a little while in silence, when she cried out, "Look here, if you love me why don't you say so; but don't dirty my stockings."

Morning Chronicle.

Portsmouth N. H.

SATURDAY, NOVEMBER 10, 1866.

ONLY EIGHT MONTHS AGO, viz: March 31, 1866, the New York Atlas, a paper of the Democratic party, said:—

Connecticut is all right! The Tribune may safely advise the democrats to "buy their powder." It will be needed Monday evening.

Perhaps it was bought:—but it was not needed; for the election happened to go the other way.

The same Atlas contained an editorial on "The President's second Veto," from which we make a few extracts with notes annexed.

The veto of the Civil Rights Bill has made a straight issue, clearly defined and not to be evaded. The President appeals to the people, without regard to the party organizations of the day, to sustain him in his opposition to the revolutionary schemes of Congress. * * * Should the Senate, through the absence of Dixon or Wright or the unforeseen treachery of some professed friend of the President, pass the bill over his veto, the scene of contention will be removed to the House, where the struggle will be of the most bitter character, arousing a degree of excitement unparalleled in the history of the government. If the radicals should triumph over the President, the country will once more tremble upon the verge of anarchy.

[The struggle in the House was not so very bitter—and nobody trembled except cowards and traitors, when the House gave a three-quarter's vote against the insane veto.]

The President will not execute a law which he knows to be unconstitutional * * * But if he refuses to recognize the validity of the Civil Rights Bill and to enforce its provisions, the radicals will be able, by the same majority of two-thirds with which they override his veto, to impeach and remove him from office. They have the power and will not hesitate to use it, if we are to estimate future probabilities by past realities.

[Undoubtedly they have the power, and they need "not hesitate to use it,"—if they deem it best.]

We have in Andrew Johnson a President of indomitable will, who has the Constitution on his side, is right and enjoys the confidence of the people.

[This is ludicrous now, after the elections have shown that the people have NO confidence in him or his party.]

One extract more must suffice.

The views of Andrew Johnson and those of his Congressional opponents can no more be harmonized than water and oil can be made to blend into one homogeneous mass. The political problem admits, therefore, of but two solutions. Either the President must crush the radicals or the radicals must crush him.

Well: the President has NOT crushed the Radicals:—and therefore, if the Atlas be a prophet or a seer, the Radicals MUST crush him! His own friends being the judges, it is their duty—for the safety of the country demands the removal of one so demented and so obstinate.

BURLEIGH ON NEW YORK CITY.—He says, in a letter to the Boston Journal:

The Democrats carried out their threat in relation to a great vote in New York. The gamblers, the enemies of the Excise law, the "ring" men, all joined and pulled for their life. In an ordinary vote the majority in this city would have swamped Fenton.

The Democracy were sure of the State. Such a vote was to be polled in the cities of New York and Brooklyn that it could not be overcome in the State. Men who live in 5th avenue rode down to the News office and that of the World in their splendid turnouts to hear the joyful tidings. I saw Thurlow Weed at 3 P. M., and he was sure of the State. All who held office under Uncle Sam had to toe the mark. One of our city pastors, who has a sly office under the Federal Government worth $1500 a year, reported to be an out and out radical—who was appointed under Mr. Lincoln because he was so true to the Republican cause—he went from house to house to gain votes for "My Policy" because his master bade him.

The reader will bear in mind that the Excise law is not a prohibitory statute, but a License law, regulating the traffic in strong drinks, and putting a tax thereon. Its opponents, therefore, are not liberal men opposed to fanaties and fanaticism,—but lawless men who are willing to see a drunken mob in New York city vote down law and order in the State and Nation: but thanks be to the Divine Power that overruled the event, and disappointed the wicked cabal and their allies,—the State went right, after all.

☞ A Washington letter of Thursday, says: Secretary McCulloch was in consultation to-day with the President on the question of removing the Commissioner of Internal Revenue, Mr. Rollins of New Hampshire. Parties desiring the position are urging the removal before the Senate meets, as it will be too late after the body convenes.

Governor Swann of Maryland arrived there Thursday night and proceeded directly to the President's house where he spent some time with the President.

In the lower counties of Maryland not any Republican votes were cast.

— The King of Italy entered Venice on Thursday, Nov. 8.

NEW HAMPSHIRE ITEMS.

—— Rev. John Otis Barrows, pastor of the Congregational Church in North Hampton, was dismissed from that office, at his own request, by a mutual council, on Thursday, November 8, with the usual commendations.

—— Rev. S. M. Tuffts, pastor of the Free Baptist Church in Limerick, Me., has accepted a call to settle in Farmington.

☞ From a careful table of votes, the Boston Journal infers that if the States which are yet to choose Representatives to Congress vote as they did two years ago (which is now quite probable), the Republicans will have made a net gain of 9 in the House. Besides this, the Republicans have made a gain of five members of the Senate —one in Pennsylvania to take the place of Cowan; one in New Jersey in place of Wright (deceased); Mr. Cole of California in place of McDougall; and Cattell of New Jersey and Corbett of Oregon, both lately chosen. They lose one in Maryland, which leaves their gain four. This don't look as if the people sustained the insane "policy."

☞ It is said Andrew Johnson is of the opinion that if Gen. Dix had been nominated as the administration candidate for Governor of New York, he would have been elected. Perhaps so; but his opinion is not worth much now. A New York paper of Thursday foots up Fenton's majority thus far at 10,245; another at 12,846. The Times thinks his full majority will be 12,000. It adds:

It is a remarkable fact that from Champlain to Chatauqua, and from Essex to Suffolk, the various towns and counties—New York and Brooklyn excepted—have materially increased their Republican, and to a considerable extent decreased their Democratic vote.

The election of Gen. Halpine as Register in New York city is generally regarded as a proof that the "Ring" can be beaten in municipal contests, whenever the honest of all parties unite on a good candidate.

A WELCOME TO CONGRESS. — The Washington correspondent of the Worcester Spy says:

The active young men, feeling the necessity of bold and vigorous demonstrations, as an effectual barrier to the execution of the violence so often threatened by the satraps of "His Accidency," have begun a movement for the convening of a mass welcome and council here. It will meet on the Saturday before the second session begins. From the steps already taken, it is believed that all the soldier organizations throughout the North will be represented, while from Baltimore, Philadelphia, New York, &c., they will come *en masse*. It is proposed by this method to assure Congress of the devotion of the loyal veterans, while it may not be deemed amiss at the same time to urge them to a full and radical settlement of the entire problem of reconstruction upon the basis which alone offers a just solution—the full enfranchisement of all loyal men, and the reorganization of the late rebel States on that basis.

PETERSON'S MAGAZINE. — We are in receipt of this popular Lady's Magazine for December. It is a superior number. The title page alone is worth the price of the number. For many years "Peterson's Magazine," in consequence of its merit and cheapness, has had a larger circulation than any other monthly in the United States. In 1867 it will be greatly improved: the reading matter will be increased, and each number will contain a double-size Steel Fashion Plate, elegantly colored, with from four to six figures—making "Peterson" the cheapest in the world. The terms will remain two dollars a year to single subscribers. Specimen sent (if written for) to those wishing to get up clubs. Address, post paid, Charles J. Peterson, 306 Chestnut street, Philadelphia.

FROM CONSTANTINOPLE, Nov. 7.—The insurrection has ceased in Candia, and it is officially stated that three fights had occurred at Geliadea in which the insurgents lost 112 killed. All the Sphakiot chiefs—thirty in number—have submitted to Akiff Pacha will be Governor of the Island. A further concession for the Christians from the Sultan is expected.

FREEMASONRY.—Ever since the Pope issued an allocution excommunicating indiscriminately all members of the fraternity of Freemasons, the order has received an immense forward impetus in Italy and France. Large numbers have joined the prohibited craft, thinking that if it was distasteful to His Holiness, its secrets would be worth knowing.

☞ Of late much attention has been turned to the production of Magazines for children, and the crude affairs which delighted our childhood, would hardly bear comparison with those of to-day. "Demorest's Young America" is the title of a new and very instructive magazine for boys and girls. Published at 473 Broadway, N. Y., at $1.50 per year.

— Fuller tells us of a spendthrift who, as he walked the street of London, had reason to be ever on the watch against the surprises of his creditors. Once as the wind floated his coast skirts, a tenter-hook catched him from behind. Supposing himself to be under the clutch of a upstaff, he peers over his shoulder with the question, "at whose suit?"

Correspondence of the Chronicle.

EXETER, Nov. 9, 1866.

Dear Chroniclers:—I don't know as you or any of your readers—(I think I must withdraw that last remark, however, as your Daily finds its way everywhere)—care much about the local affairs of this shire town of the county; and dull as it is here generally, it is rare that I can find matter for even a brief letter for your sheet. But at the present time we are fully and intensely aroused. The conflict between the President and Congress—universal suffrage and "my policy", dwindles into insignificance in view of the great question of the location of the Female Seminary. Perhaps you know, or if you don't you would have known if your correspondent had kept you posted—that one William Robinson, a former citizen of Exeter, who went South and made his "pile," anticipating by some years the visitation of the man on the white horse, about ten or fifteen years ago made a will, in which, after bequeathing a considerable amount of the "lucre" to connections, he gave the residue of his property to the town of Exeter, with the condition annexed that the sum should be appropriated to the establishment and maintenance of a female seminary.

At the time of the making of the will the donor undoubtedly supposed he was only bequeathing forty or fifty thousand dollars for this purpose; but fortune favored him, and favored Exeter too;—as when he died the legacies he had made to his relatives were in Confederate bonds and scrip, that of course were next to worthless, while the bequest to Exeter was worth between two and three hundred thousand dollars. Well; of course such a windfall could not be secured without some appeal to the "Circumlocution Office," and several town meetings have been held, committees have been appointed to confer with the executor and the matter has been so satisfactorily arranged that the bequest to the town, for the Female Seminary, amounts to over $200,000.

The excitement to which I have formerly alluded concerns the location of this Female Seminary. The committee on location is to report at a town meeting on Saturday afternoon; and from "Pickpocket" to "Hemlock Side," and from "Poverty Plains" to Ass Brook," our citizens are fully aroused to the emergency of the occasion. Speculators have been buying up lots at hundreds, which they magnanimously offer to sell for thousands; while others who have hundreds of acres of pasture generously offer to give roadways which will make their waste lands valuable house lots.

The building of two new churches next season is talked of—Episcopal and Unitarian—and your correspondent is at a loss properly to express his admiration of the liberality of the owner of some hundred acres of barren land who offers to give lots for the erection of these edifices at the extreme verge of the town, which, if accepted, would probably not enhance the value of the rest of his property more than two hundred per cent. How consoling to the poor is the knowledge that the rich are generous.

The result of the late elections I am sure must gratify you, as they do all loyal men. The people have "swung around the circle," from Vermont to Michigan; and with "the Constitution in their hands," have decided against the "one man power" and proclaimed Andy Johnson a "dead duck."

Yours truly, Ex.

☞ The New York Express puts Governor Fenton's majority at 10,000. This is doing very well in the face of Mr. Seward's prophecy in his Niagara Falls speech, to wit:

"I want the Republicans to nominate the man (Fenton) they intend to nominate for Governor of the State of New York to test their principles, and in the election now some weeks off, if he is not defeated by a majority of forty thousand, do not call me a prophet."

The New York Assembly will probably stand 86 Republicans to 42 Democrats—just two-thirds of the whole number. Mr. Seward is a false prophet of established reputation, and therefore a fit companion for the greatest and most eminent liar in the country.

☞ At New Orleans, Nov. 7, Rev. Jos. P. Wilmer was consecrated Bishop of the Protestant Episcopal Church in Louisiana, by Bishop Hopkins of Vermont, as presiding Bishop, assisted by Bishops Green of Miss., Wilmer of Ala., and Quintard of Tenn.; the Bishop of Georgia being absent. The sermon was preached by Bishop Hopkins.

☞ In Massachusetts, the seven young men sentenced to pay fines of different amounts for an alleged riotous assault upon Robert Putnam of Danvers, who uttered outrageous language upon the occasion of the death of President Lincoln, have been pardoned, and are at liberty. This act of the Governor gives general satisfaction.

☞ In Missouri, Frank Blair's majority is reduced to six. His election will be contested by Brasscomb.

It is stated that Frank Blair's election to the Missouri Legislature was caused by 52 Radical tickets being voted belonging to another district.

☞ Irael Gibbons, known to all newspaper men of New Orleans for the last fifteen years, died in that city on the 1st inst. He was a native of Chester, Pa., and aged about 40 years. Like all keen appreciators of the ridiculous, he had a quick sympathy with the tenderer phases of human nature; and in some of his local sketches blended fun and pathos in a simple, careless way, that but added to the strong effect of either.

— Henry W. Corbett, lately elected U. S. Senator from Oregon, made a speech at Portland on the 1st ult., in which he fully endorsed the Congressional plan of restoration.

AMERICAN LIFE DROPS!

FOR THE SPEEDY CURE OF

Diphtheria,

Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

"BOSTON, Mass.

"ORRIN SKINNER & Co.—*Sirs*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so low. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I felt a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family need not suffer from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I have purchased a dozen more, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."

PERRY DAVIS' PAIN KILLER.

Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and molasses, and a gill of hot water. Stir well together and drink hot. Repeat the dose every hour until relieved. If the pains be severe, bathe the bowels and back with it medicine, clear.

Fishermen, so often exposed to hurts by having their skin pierced with hooks and fins of fish, will be much relieved by bathing with a little Pain Killer as soon as the accident occurs; in this way the anguish is soon abated; bathe as often as once in five minutes, say three or four times, and you will seldom have any trouble. n1 dawlm

Hygienic Wine,

Approved by the Imperial School of Medicine, Paris.

Tested by the Committee on Chemistry of the American Medical Association, at their Convention, held in Baltimore, May 1st, 1866, and endorsed by its most prominent members.

This *IMPORTED* Tonic, recommended by the most eminent Physicians, is prepared in Paris from

PURE SHERRY!

Admits to its composition only Tonic, Aromatic, and Nutritious substances. *Prepared* with a great superiority all other Bitters, which have for a base, nothing but Alcohol or inferior Whiskies. It is richer than any other Bitters in

Aromatic and Balsamic Principles,

and its taste is exquisite. Its soothing effects on the MUCOUS LINING of the stomach, while it gently exhilarates, by regulating the functions of the DIGESTIVE ORGANS, and dissipates Languor, by gently refreshing and stimulating the brain, giving a healthy tone to the whole organism, it leaves behind none of the baneful influences that follow Alcoholic stimulants.

HYGIENIC WINE

is moreover

MOST DELICIOUS TO THE TASTE.

Possessing wonderful virtues in all cases of Dyspepsia and Debility, and moreover is unexcelled as an

Appetizer.

IT IS NOT INTOXICATING IN THE LEAST.

MUSCAT PERLE, (Imported)

Is a rare fine Wine of most delightful flavor. It is the Pure Juice of a Most Delicious and generous Grape, and surpasses in excellence *any Table Wine in the Country.*

All who are solicitous about obtaining a *pure* and a superior Wine, will be delighted with

"Muscat Perle."

☞ Church people are solicited to examine this Wine for communion purposes. A Communion Wine should be *above all things* PURE! In the second place it should be MILD. "Muscat Perle" combines these two most essential qualities, and a trial will convince any one of its superiority over all other wines at present in the market.

These Wines are sold by all respectable Druggists and Dealers.

DR. F. MEREDITH, Dentist, office No. 132 West Sixth Street, states as follows:

CINCINNATI, October 1, 1863.

MESSRS. J. N. HAGER & CO.—Gents: About one year ago I took a cold which settled on my lungs. A violent cough was the consequence, which increased with severity. I expectorated large quantities of phlegm and matter. During the last winter I became so reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A diarrhoea set in. My friends thought I was in the last stage of Consumption, and could not possibly get well. I was recommended to try

ALLEN'S LUNG BALSAM,

the formula was shown to me, which induced me to give it a trial, and I will only add that my cough is entirely cured, and I am now able to attend to my business as usual. Yours respectfully, F. MEREDITH.

☞ The steamer Enterprise arrived at this port on Friday morning, with a large lot of freight for Dover, and with a goodly consignment for this city. There is no reason why our unsurpassed harbor facilities should not almost monopolize the carrying business for those places which have water communications with this city by the river above.

— Miss ANNA E DICKINSON BEFORE THE CITIZENS' LYCEUM.—We are glad to learn that this gifted young lady, before whom Cabinets, Legislators and distinguished functionaries of every grade, have willingly bent their ears, will repeat her great lecture lately given in Washington and New York, before the Citizens' Lyceum during the season.

☞ We notice among the Republican members elect to the Massachusetts Legislature, from the city of Taunton, the name of Jeremy B. Dennett. He is a son of Nath. Dennett, Esq., of this city. The vote of Taunton stood 933 Republican, 133 Democrat.

☞ Henry F. Wendell, Esq., of this city, has been appointed U. S. Deputy Marshal for this District, *vice* Joseph P. Morse, Esq., removed.

☞ On and after Monday, Nov. 12, the cars will leave Boston for this city, at 2:30 P. M., instead of 3 o'clock as heretofore.

Trains will leave Portland at 2:20 P. M. instead of 2:50.

Trains going east and west, will leave this city at 5 P. M. instead of 5:30.

These changes are all the variations to be made from the summer schedule of the Eastern and P. S. & P. Railroads for their winter arrangement.

☞ The Portland Press says a short time since a chap stole a horse in Kittery, and in attempting to get him away got bewildered. After getting as far as Eliot he lost his way and got back to Kittery, where he offered the horse for sale to a brother of the owner, who stated that he did not wish to purchase, but that one of his brothers did, and then showed the thief to his brother's residence. Arriving there the fellow offered to sell the horse to the owner, who, after making many inquiries about age, &c., concluded to purchase. The owner then said they would have to go down to Kittery Foreside for the money, and thither the parties went. Arrived there the owner of the horse told the thief to hold him while he went in to get the money. Instead of getting the money, the owner got a warrant, which, to the great astonishment of the thief, was served upon him and he was taken to the jail in York.

LOSSES OF GEORGIA.—The report of the Comptroller General of Georgia, makes some reliable statements respecting the losses consequent upon the war in that State. By the tax returns of 1862 the taxable property is estimated at $222,183,787, while in 1860 it was returned at $672,292,447, which, reduced to currency, would be $1,800,438,663, making over seven hundred millions as the loss occasioned by the war in one State alone. Nor is this all. This estimate does not include the amount swallowed up in Confederate bonds and scrip, which the comptroller believes would swell the total loss of property in the Empire State of the South above a thousand million dollars. So vast and sweeping an impoverishment of such a population is simply incredible. The returns of population, as far as they have reached the office, indicate a decided loss.—*National Intelligencer.*

☞ Latest returns from New York State, give Fenton over 13,000 majority. The Express thinks there may be 50,000 majority for a Constitutional Convention.

Majority in New Jersey, 5000.

In Michigan about 80,000.

EARTHLY AND HEAVENLY INTEREST.

Which he put out at interest with a Jew;
Year after year, awaiting him it lay,
Until the doubled coin in two pieces grew,
And these two four,—so on, till people said,
"How rich Ben Adam is!" and bowed the servile head.

Ben Selim had a golden coin, that day,
Which to a stranger, asking alms he gave,
Who went rejoicing on his unknown way.

Special Notices.

Dr. Schenck's

NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street,** Boston, where he will be professionally every WEDNESDAY from 9 to 3. Every person complaining with Consumption or any disease leading to it, are invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars

Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part, also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint.

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

Dr. Schenck on Dyspepsia.

SYMPTOMS, CAUSES AND REMEDY. Symptoms of Dyspepsia—A sense of fullness, tightness, and weight in the stomach, together with flatulency, acidity, sour, offensive belching of wind, water-brash and vomiting, and a great deal of what a person calls an ill-gone feeling at the pit of the stomach; frequently there is also a palpitation of the heart, which physicians mistake for heart disease, and when the stomach is in this condition it is coated with a mucus or slime. The rough fibrous portions of the stomach, similar to what we see in tripe, is what throws out the gastric juice, and when the stomach gets a thick coat of slime on it, it prevents the gastric juice from flowing, and digestion ceases. Schenck's Seaweed Tonic dissolves this mucus or slime, and restores the stomach to its natural condition.

Schenck's Mandrake Pills are also required to carry off this morbid matter. Two thirds of the cases of Consumption are caused from this disease state of the stomach; the liver becoming torpid, it causes to throw out bile, and in a short time the whole system is deranged. The mucuous membrane of the bronchial tubes sympathizes with the other organs and before the patient is aware of it, he or she has Bronchial or Pulmonary Consumption.

Schenck's Pulmonic Syrup cannot act freely through the blood when the system is in this locked up condition, without the aid of the Sea Weed Tonic and Mandrake Pills. The latter has all the venous blood to strain, and when it gets in a morbid condition, blood and bile run through the system mixed, and the whole body becomes so low, and the blood so thick it can hardly run through the veins. In a majority of cases hemorrhages occur from the thick condition of the blood. The Mandrake Pills act on the liver similar to calomel, or they do what the liver—it unlocks the gall bladders, starts the bile, and the blood begins to circulate naturally through the veins, and the hemorrhages cease. If, when persons are attacked with hemorrhage, they would first take a good purgative, combined with what would act on the liver, they would soon be relieved from bleeding from the lungs, and it is the only way, for astringents are only temporary, and irritate the bronchial tubes, and lay the ground work for consumption.

DR. SCHENCK will be professionally at his room every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer, the charge is $5.

His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents per box.

REASONS WHY THE

AMERICAN WATCH,

MADE AT WALTHAM, MASS.,

IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. No jarring interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "anchres," "lepines" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warranties is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in cook and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

Will be sold at Auction, at the "Sparhawk Place," so called, in Portsmouth, now occupied by CHAS. F. MYERS, on the road to Newington,

On Thursday, Nov. 15, at 10 o'clock A. M.,

the Stock and Farming Utensils on said place, consisting in part of

Four Superior Cows, Two Horses, Four Shoats, Lot of Poultry, One double seated Carriage, One two-seated Buggy,
One large Danvers-built Wagon, Horse Cart,
Double sleigh, Pair traverse Runners, 2 Plows, Harrow, Patent Horse Rake,
Keystone Cider Mill, Corn Sheller, Ox-Chains, Harnesses, Lot Lumber, Ladders,
and many other articles.

—Also,—

1 large Cooking Stove, Lot of Tin Ware, Milk Pails, Cans, &c.

The sale is ordered for the reason that the proprietor, having disposed of his estate, is about to remove into town; and as the articles are in good order, a fine opportunity is offered for farmers and others to make a purchase.

If the weather be stormy Thursday, the sale will take place on Friday following; and if that day is unpleasant, it will be held on the following Monday. The Stock and Utensils can be examined at any time previous to the sale, on application to Mr. Myers, on the premises.

Morning Chronicle.

THERE'S WORK ENOUGH TO DO.

The Blackbird early leaves its nest
To meet the smiling morn,
And gathering fra...meals for its nest
From spinet wood and lawn;
The busy bee that wings its way
"Mid a waste of varied hue,"
At every flower would seem to say—
"There's work enough to do."

The cowslip and the spreading vine,
The daisy in the grass,
The snow drop and the eglantine,
French sermons as we pass;
The ant, within its cavern deep,
Would tell us labor too,
And writes upon its tiny heap—
"There's work enough to do."

To have a heart for those who weep,
The sottish drunkard win:
To rescue all the children, deep
In ignorance and sin;
To help the poor, the hungry feed,
To give him cost and shoe,
To see that all can write and read,
"Is work enough to do."

The time is short—the world is wide,
And much has to be done;
Thus wonderous earth, and all its pride,
Will vanish with the sun!
The moments fly on lightning wings,
And life's uncertain too;
We've none to waste on foolish things—
"There's work enough to do."

The planets, at their maker's will,
Move onward to their cars,
For Nature's wheel is never still—
Progressive as the stars!
The leaves that flutter in the air,
And summer's breezes woo,
One solemn truth to us declare—
"There's work enough to do."

Who then can sleep when all around
Is active, fresh and free?
Shall Man—creation's lord—be found
Less busy than the bee?
Our courts and alleys are the field,
Then would search thro' and through,
That best the sweets of labor yield,
And "work enough to do."

A RICH CLERGYMAN.—Rev. Timothy P. Gillette died at Branford, Conn., on Monday, at the age of 86. He was settled over the Congregational Church in that town fifty-eight years ago, and continued uninterruptedly its pastor to the time of his death. He was through life a popular and useful clergyman, and leaves a very large property, the accumulation mainly of a life of economy. His salary at no time ever exceeded $600 per annum, and his estate will equal $100,000.

— We have all heard of asking for bread and receiving a stone, but the young gentleman may be considered as still worse treated when he asked for a young lady's hand and got her father's boot.

— Brigham Young has been making inspecting tours round about his dominions. He was "insulted" by a rough backwoodsman, who pronounced Artemus Ward's question direct: "How's your mother in law?"

— Some weeks ago, during a severe thunder storm, a lady friend was telling the children not to be afraid, that God held the thunder in his hand and would not let it hurt them unless He thought it for the best. She had hardly concluded, when a very loud clap was heard. "There, now," says a four year old, "God has let go of it, and gone home out of the rain."

Agents Wanted For
The Camp, the Battlefield, and the Hospital,
Or Lights and Shadows of the Great Rebellion.
There is a certain portion of the war that will never go into the regular histories, nor be embodied in homage to poetry, which is a very real part of it, and will, if preserved, convey to succeeding generations a better idea of the spirit of the conflict than many dry reports or cold narratives of events, and this part may be called the gossip, the fun, the pathos of the war. This illustrates the character of the leaders, the humor of the soldiers, the devotion of women, the bravery of men, the pluck of our heroes, the romance and heroism of the service.
The volume is profusely illustrated with over 400 engravings by the first artists, which are *really beautiful* and illustrate the marvellous capabilities of the art. The book's contents include reminiscences of camp, picket, spy, escort, bronco, siege, and battlefield, adventure, incident, feats of bravery, wit, drollery, comical and ludicrous adventures, etc.
A thousand dollars will remunerate any one in every page, as graphic detail, brilliant wit and authentic history are skillfully interwoven in this work of literary art.
The work sells itself. The people are tired of dry details and partisan works, and want something humorous, romantic, and startling. Our agents are making from $100 to $200 per month, clear of all expenses. Send for circulars, giving particulars, also see our terms and proof of the above statements. Address NATIONAL PUBLISHING CO., 118 Water Street, Boston, Mass.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has set the gratification of presenting the unfortunate with remedies that have never, since he introduced them, failed to cure the most aggravating cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit which ruins the body and mind, unfitting the unfortunate individual for business or society. Until those who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capsules, warranted the best remedy. Order by mail. Three or $1 and a red stamp.
Highly Important to Females.
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who come to Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, asks a fee no more or less than in the United States.
N. B. All letters must contain one dollar, or they will not be answered. Office hours from 9 A. M. to 9 P. M.
CERTAIN CURE
In all cases, or No Charges Made.
Among the physicians in Boston, none stand higher in the profession than the celebrated DR DOW, No. 7, Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.
PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.
Having made arrangements with Prof W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M. Guild & Co. The superior merits of the former have too long been established to need any comments. Of the latter suffice it to say that the sale of over fifty of them within the last five years by Mr Cobb, proves a sufficient guarantee of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.
Every Instrument carefully selected and fully warranted. Music in abundance and at cheap rates. Prof. Day. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman.

INTEMPERANCE.

In this age of varied efforts and benevolent enterprise, it would be strange if that large class, to be found, alas, in every community, the intemperate, were left to work out their ruin with none to lift a warning voice. That intemperance is an evil, that it is a sin, all are ready enough to admit, even the inveterate drinker; but shall the matter end here?

Who can count the families this monster has invaded; the wives it has brought to tears? Who has run his eye over the record of murder d souls and bodies, this foul assassin has added to his death roll? If war has slain its millions, strong drink has slain its tens of millions. And no array of names of living saints or dead, who have tolerated the evil, can alter the awful facts yet to be disclosed at the last, great day of accounts.

Is there not a remedy for this alarming, terrible, growing evil? Who is it that wants to know? Not he poor miserable sot, whose insatiable thirst for liquor is driving him to madness. Not the intemperate drinker, who says "he knows how much he can bear," and "knows what he is about," and "will not sign away his liberty." No; none of these want to know a remedy. Nor the young man just taking his first glass at a social gathering, or purchance at his father's table. The cry comes up from those who feel this bitter evil; aye, who feel, but cannot describe it; whose brightest earthly hopes are blasted. The cry comes up from those whose prospects from life's threshold are forever clouded; and from those whose grey hairs are going down to the grave mourning for their lost ones.

Is there no remedy? On the ground of expediency we advocate total abstinence, because there is safety in no other course. It may be "lawful" to drink wine, but it is certainly "not expedient." A man runs too great a risk who drinks at all. A fearful responsibility rests upon every one who drinks wine as a beverage; and even as a medicine, it should not be lightly resorted to. The possibility that one may become a drunkard, who indulges at all, is with many a sufficient reason to deny one's self altogether.

Cannot you do this, who watch for souls? The heroic Paul could. Cannot ye do this, who legislate for human weal? Cannot ye do this, who are called to prescribe for the burning brain of the poor inebriate?

Who can look upon this evil, so common everywhere, and make no effort to put an end to it? For perhaps it is easier to stop the evil, than to check it?

Who has not seen enough of it already? For has it not come near to every one? Let this view of the subject once seize upon the minds of the ruling classes, and the whole matter would soon be revolutionized. When wine is banished from the rich man's house, the inferior liquors of the poor will soon follow suite. Let but the reasoning portion of the community abstain altogether from intoxicating drinks, and lift up their voices against the mighty evil, and a disposition will soon be felt among the masses to refrain from the ruinous bane. Example would here tell immensely for good upon a countless multitude.—*Salem Reg.*

— Happiness is attainable by every man who is wise enough to refuse to sacrifice the substance to the shadow.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY,

Solicitor of Patents,

Late Agent of the U. S. Patent Office, Washington, under the Act of 1857.

78 State Street, opposite Kilby Street,
BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions not enjoyed by, if not immeasurably superior to, any which can be obtained elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND SKILL, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.

The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

All unsafe on a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.

"I have no hesitation in assuring inventors that they can *safely* employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now pending. Such unmistakeable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.

During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.
R. H. EDDY.

MONDAY, NOVEMBER 12, 1866.

THE CONSTITUTIONAL AMENDMENT.—The Washington Intelligencer, an Administration paper, says the elections of last Tuesday settled one point conclusively, at least, for some time to come—the Constitutional Amendment will not be adopted. Neither the Legislature of Maryland nor Delaware will sanction it. These, with Kentucky and the ten excluded States, make thirteen opposed to it. As it requires three-fourths of the States, the adoption or rejection of the amendment is now likely to be the rallying ground of political parties for the next campaign.

[Washington politicians can sometimes see an inch beyond their noses—and sometimes they can't. It is not certain that all the ten rebel States will reject;—and if they should, they must stay out in the cold, till they swallow it or something harder. The country, that put down the rebellion of the Jeff Davis Confederacy—will surely put down this new Johnsonian Confederation,—their votes show it.]

☞ The Boston Herald's Washington special of Friday, says:

The President intimated to-day very plainly that he should make no more important removals.

His intimation is not worth a straw, one way or the other. His actions generally contradict his words. He has already made so many removals without cause, that he deserves to be himself removed.

WASHINGTON GOSSIP.—Those who have the *entree* at the White house say that Pres. Johnson is evidently much disappointed about the results of Tuesday's elections. He has been led to believe by the Northern Democrats, who have come there in shoals during the past summer, that if they could but receive offices they would guaranty that the majorities of their respective States would "swing around the circle." The offices were given, but the President now finds that the people are not to be bought and sold, and that he has deserted a loyal, trusting majority, for a small, powerless minority. Well—he can blame no one but himself, after all, and he must say to himself:

"The thorns which I have reaped are of the tree I planted,—they have torn me,—and I bleed."

The President is, not, however, disposed to assume a more hostile attitude to the large popular majorities arrayed against him, but deprecates the result as calculated to prolong existing difficulties, and expresses his concern for the continued peace and harmony of the country. This Executive desire for national tranquility, while such undeserved favors are being shown to the unrepentant South, reminds one of a village wag, who contrives to tie a tin canister to the tail of each one of a dozen dogs, and then, after having started them off in a fright, loudly inveighs against people who will permit noisy curs to run at large. Or the Chief Magistrate may be compared to a ventriloquist, who, while sitting in dignified silence, keeps those around him alarmed with strange sounds above or below, while he manifests much concern at the disturbance of the company.—*Perley.*

☞ The Boston Herald says, editorially:

The fall elections are now over, and the verdict of the people made known. The result is an overwhelming triumph of the Republican party and a crushing defeat of the Democracy in all of the northern and middle States, including the great border state of Missouri. The Fortieth Congress will be as strongly Republican as the Thirty-Ninth, if not stronger, in both branches, and it can do pretty much as it pleases. * There is but one course left for President to pursue, which is to repudiate the selfish, corrupt and miserable crew who have used him for their own advantage and greatly to his disadvantage, and to call around him true men for advice and council. There has been nonsense enough, and it is time it was ended. He should stop the wholesale removals from office for the purpose of rewarding men who opposed the war. He should pursue a quiet, dignified course, and leave to Congress the work of reconstruction. Any other policy will be fatal to him in the end as he will find out. We have sustained him in the past and have no unkind feelings towards him now, and trust he will listen to reason before it is too late. It would certainly be gratifying to see Congress and the Executive working harmoniously together for the good of the whole country instead of quarrelling and fighting each other in the way they have.

[No need of any more fighting of that kind; legally impeach him or "kick him out," and let him "go to his own place!" He is unworthy of the Presidential chair, or of any other seat, except the stool of repentance.]

A GOOD STORY.—It happened recently that an English clergyman residing in the realm of Victor Emmanuel, the King of Italy, fell heir to the position of Champion of England, a gentleman whose duty it is to appear, arrayed in armor, at the coronations of the Sovereigns of Great Britain and challenge all the world to mortal combat in defense of the rightful heirship of the monarch about to be crowned. It so happens that this gentleman is of very moderate stature, and by no means a good physical representative of a royal champion. Being informed that he was the champion of England, the King exclaimed: "Dio mio! e possible! how could so little a man have beaten the big boxer Heenan! Tell me all about it."

— Speaking of the "undeveloped wealth of the country," a loafer said that was exactly his position, he possessed vast resources—was very rich—but his wealth was undeveloped.

NEW HAMPSHIRE ITEMS.

—— The Laconia Democrat, after a brief statement of the late elections, very wisely says: "We forbear to speculate, and leave the matter till next week."

—— Mr. R. F. Shepard of Manchester, aged 67, was killed on Thursday, by falling down stairs in a stable. He had been subject to heart disease for years, and it is probable he fell from this cause.

—— Richard Taylo's house and barn at North Salem, with all the adjacent outbuildings, were burned early on Sunday morning, 4th inst. In the barn nineteen tons of hay and five pairs of oxen were burned, and in the house were four families, who barely escaped with their lives. Loss from $10,000 to $15,000; no insurance.

—— Hon. Richard H. Messer of New London, upon an acre and a half of land, this year raised 210 bushels of ears of corn, being about 68 bushels to the acre; and not more than a bushel of which was unfit for grinding. Two hundred bushels were good enough for seed corn. We saw this field just before the crop was harvested, and it was a gratifying sight for the eyes of all who derive satisfaction in witnessing the results of good husbandry.—*Statesman.*

WM. BURR'S FUNERAL, at Dover, took place at the Washington Street Freewill Baptist Church on Wednesday, the 7th inst., the services having been conducted by the Rev. Silas Curtis of Concord, assisted by several clergymen of the denomination. The funeral was attended by the City Government, Directors of Strafford Bank, and a large number of citizens, who thus paid their last respects to one who will not soon be forgotten.

A GOOD ONE.—During the first years of the war, when change was scarce, and some large firms were issuing currency of their own, a farmer went to a store in a neighboring town and bought some goods, and gave to the merchant a five dollar bill, of which he wanted seventy-five cents back. The merchant counted out the amount and handed it over to the farmer. He looked at it a moment and inquired, "What's this?" "It's my currency," said the merchant. "Wal, 'taint good for nothin' where I live," said the farmer. "Very well," replied the merchant, "keep it till you get a dollar's worth and bring it to my store and I will give you a dollar bill for it."

The farmer pocketed the change and departed. A few weeks after he went into the same store and bought goods to the amount of one dollar, and after paying over the identical seventy-five cents he took out a handful of pumpkin seeds and counted out twenty five of them, and passed them over to the merchant. "Why," says the merchant, "what's this." "Wal," says the farmer, "this is my currency, and when you get a dollar's worth bring it out to my place and I will give you a dollar bill for it."—*Bellows Falls Times.*

ONE OF BARNUM'S STORIES.—Among other stories told by Barnum about himself in a lecturing tour out West, is the following: He had advertised special attractions for the Irish, on St. Patrick's day, and the Museum was jammed with the Biddies and their children. They were so well pleased that he thought it advisable to point out to them the way of exit, so that others might find way to enter. The reply was, Faith, and I'm not going out; we come to spend the day wi' ye." The wit of the showman was again tried, but he met the emergency by having a sign painted, in large letters, "Egress," which he fastened over the door leading through the door to Ann street. The trap caught them. "Egress; sure an' that's the animal we haven't seen at all;" and such a current of Biddies started in that direction, that none could return, and the Museum was soon relieved of one set of visitors, to be speedily filled with another.

☞ Harper's Magazine has become a standard in the periodical literature of this country. In another column an advertisement setting forth terms, &c. As the new volume begins with the December number, now is a good time to subscribe.

— Gen. Beauregard has publicly declared that no man shall have employment on the railroads of which he is President who has not served in the confederate army.

— Racine City, the home of the recreant Senator, Doolittle, has given 601 Republican majority against 79 two years ago, a larger increase than in any other district in the State.

— John B. Gough lectured in New York on Wednesday, for the pecuniary benefit of Orville Gardner, the converted pugilist. Orville—known as "Awful"—is sick unto death with a tumor on the brain and very poor. The proceeds amounted to $2590.

— The eight hour system, as enforced by the city authorities and foundries in the in Indianapolis, has created dissatisfaction, as the employees are paid by the hour, and they cannot earn enough to support their families.

— The Jewish Consistory of Paris has, says the Globe's Paris correspondent, convoked a grand meeting of Rabbis to be held in the city during the Universal Exhibition of next year, to make some new regulations respecting the food of Israelites.

— A Paris letter states that General Castelnau will arrange for the retirement of the French troops from Mexico en masse, as Napoleon thinks that a march by detachments would be "inconvenient." It was considered that France would be relieved of two huge incubi—Rome and Mexico—about the same time.

A FLOWAGE CASE SUMMARILY DISPOSED OF.—During the past summer Daniel Curtis of Woodbury, Ct., raised his dam on the Pomperaug river. Failing to make arrangements with the owners of the land flowed, commissioners were chosen to view the premises and appraise damages. These commissioners assembled on the 30th of October from different points, to view, consult and award. During the forenoon of that day the rain descended and the floods came, and while the commission was getting ready to sit, the dam, pond and flowage all went down stream together. It is not yet decided whether an action for damages now properly lays against the Court, or Mr. Curtis, or Pomperaug river.

KIDNAPPER CAUGHT.—A child, which was kidnapped in England two years ago, at the instance of a relative, who was to receive considerable property in case of its death, has just been discovered in Cincinnati, Ohio. It was first taken to Switzerland by a servant, during the temporary absence of its mother, and thence removed to the servant's home. Here, by reason of the advertisements, suspicion was directed toward him, and he fled to America, but detectives followed him, and at last discovered the child.

SUDDEN DEATH.—Mr. Charles H. Moulton, of Great Barrington, a compositor in the Courier office in that town, was found dead on the Congregational Church steps on Wednesday morning. He had been suffering from an affection of the lungs and is supposed to have sat down to rest while on his way home, and in one of frequent coughing fits ruptured a blood vessel. He was a soldier in the 34th Massachusetts regiment, and was previously a reporter on the Springfield Republican. He was about 25 years of age and a young man of much promise.

A TORY REFORM BILL IN ENGLAND. A letter from London says there is little doubt that the plan of a Reform bill will be submitted to the British Cabinet by Mr. Disraeli, and that it will be not only a better one than Mr. Gladstone's, but one with a majority of the Liberals will accept, for this, if no other reason—it will prevent a dissolution and postpone universal suffrage, which they look upon as the equivalent of universal smash.

AMERICA THE GREAT ARBITER. — Garibaldi has written a letter in which he says he regards the American people as the sole arbiter of questions of humanity amid the universal thraldom of the soul and the intellect.

FALL OF A FLOUR MILL.—At Westchester, Pa., Nov. 9, the large flour mill at Chadd's Ford, on the Brandywine, fell from the pressure of 17,000 bushels of wheat. Two men were killed and most of the wheat washed down the stream.

ILLINOIS ELECTION.—Sixty Counties in the State give a Republican majority of 43,000 votes—a gain of 28,000 since 1864. The Legislature stands about as follows:—Senate, 16 Republicans to 9 Democrats. House, 58 Republicans to 27 Democrats.

SIGNIFICANT.—Maximilian's chamberlain has arrived in Havana, and it is alleged that his object is to look up lodgings for the Mexican Emperor on his arrival in that place after his abdication.

— Postmaster Palfrey's house at Cambridge, would have been destroyed by fire on Thursday of last week, had it not been for the timely use of one of Johnson's portable hand force pumps, which was owned and worked by C. H. Saunders, Esq., a neighbor of Mr. Palfrey's.

— The correspondence between the Canadian government and her Majesty's representative at Washington is understood to have resulted in the recall of the death sentence recently pronounced against the condemned Fenians, and the substitution therefor to imprisonment for a term of years.

— An old woman at St. Louis, well known through the city as "the old rag woman," who went through the streets picking rags out of the gutters and alleys to sell, was found dangerously ill on Thursday, at a miserable residence, where she lived alone, and taken to the Hospital of the Sisters of Charity. Upon undressing her twenty-seven hundred dollars in greenbacks were found upon her person, and it is reported that she has much more money and owns several houses.

MARRIAGES.

In this city, Nov. 8, by G. G. Brewster, Esq., Mr. WM. NOON, of Leicester, Eng., to Miss MARY SOPHIA ALTON, daughter Mr. Thomas Alton, of this city.

In this city, Nov. 6, by Rev. J. Pike, Mr. WM. J. PAUL, of York, Me., to Miss CARRIE A. DOWNING, of this city.

In this city, Nov. 6, by Rev. Henry F. Lane, Mr. JOHN J. SMART, of this city, to Miss MARY A. KENSTON, of New Market.——Nov. 7, by the same, Mr. JAMES SHANNON to Miss MALVINA FORSTER, both of this city.

DEATHS.

HARPER'S
NEW MONTHLY MAGAZINE.
Critical Notices of the Press.

It is the foremost Magazine of the day. The fireside never had a more delightful companion, nor the million a more enterprising friend, than Harper's Magazine.—*Methodist Protestant* (Baltimore)

The most popular Monthly in the world.—*New York Observer.*

We must refer in terms of eulogy to the high tone and varied excellence of HARPER'S MAGAZINE—a journal now in the 34th volume, and about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the culture of the American People; and the popularity it has acquired is merited. Each number contains fully 144 pages of reading-matter, appropriately illustrated with good woodcuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—TRUBNER'S *Guide to American Literature, London.*

The volumes bound constitute of themselves a library of miscellaneous reading, such as cannot be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*

SUBSCRIPTIONS.
1867.

The Publishers have perfected a system of mailing by which they can supply the MAGAZINE and WEEKLY *promptly* to those who prefer to receive their periodicals directly from the Office of Publication.

PROCLAMATION.
TO THE PUBLIC GENERALLY.
WHEREAS, Being armed and equipped with such a stock of Fall and Winter Dry Goods as cannot fail to strike the beholder with bewildering amazement, and please the fancy of all lovers of the Beautiful; and Whereas, Having entered the field for the Fall and Winter Campaign of Trade, we are determined to repulse if not entirely vanquish the great system of monstrous prices and murderous profits, which has settled upon our whole country like a mighty incubus—sinking the poor into deeper depths of poverty, and dragging the affluent down, and even driving many to distraction;—and Whereas, We have taken unusual pains in the selection of our New Stock, and have purchased it all at the Lowest Cash Prices, which will enable us to accommodate the purchaser at the lowest possible figures:
Therefore, We, A. Q. LEACH & CO., do here by issue this our proclamation, to dispose of our Stock upon such terms as must give satisfaction.
In witness whereof we have this, the 16th day of October, A. D. 1866, and of the independence of the United States of America the ninetieth year, hereunto placed our hands and caused the Great Seal to be affixed.

DR. P. MEREDITH, Dentist, office No. 132 West Sixth Street, states as follows:

CINCINNATI, October 1, 1863.

MESSRS. J. N. HARRIS & CO.—Gents.: About one year ago I took a cold which settled on my lungs. A violent cough was the consequence, which increased with severity. I expectorated large quantities of phlegm and matter. During the last winter I became so reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A diarrhoea set in. My friends thought I was in the last stages of Consumption, and could not possibly get well. I was recommended to try

ALLEN'S LUNG BALSAM

The formula was shown to me, which induced me to give it a trial, and I will only add that my cough is entirely cured, and I am now able to attend to my business as usual. Yours respectfully, F. MEREDITH.

CONTAGIOUS DISEASES.—Water must be adapted to the nature of the fish, or there will be no increase; the soil must be adapted to the seed or there will be small returns; and the human body must contain impurities, or there will be no sickness. The man whose bowels and blood have been cleansed by a few

may walk through infected districts without fear. "The life of the flesh is in the blood." To secure health we must USE BRANDRETH'S PILLS, because we cannot be healthy with unhealthy accumulations in the bowels or the blood, which Brandreth's Pills remove; this method is following nature, and is safe, and has STOOD THE TEST OF TIME. PERRY DAVIS' PAIN KILLER.

Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and mix asses. and a gill of hot water. Stir well together and drink it. Repeat the dose every hour until relieved. If the pains be severe, bathe the bowels and back with the medicine, clear.

Fishermen, so often exposed to hurts by having their skin pierced with hooks and fins of fish, can be much relieved by bathing with a little Pain Killer as soon as the accident occurs; in this way the anguish is soon abated; bathe as often as once in five minutes, say three or four times, and you will seldom have any trouble. n1 dawlm

Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. Price $1.50.

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. Price $1.50 per bottle.

AMERICAN LIFE DROPS!
FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the purchasers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

BOSTON, Mass.

"ORRIN SKINNER & Co.—*Sirs:*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to try two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved, and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief and stress the very medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his and were cured in a short time. Since then I let my brother, a physician, have a part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. LEDOM."

RAIL ROAD EXTORTION.—On the Concord & Portsmouth and the Boston & Maine Railroads, 70 cents per barrel of apples, weighing 150 pounds, was charged, for a distance of 12 miles, between Greenland and Exeter! One of the numerous instances which are constantly occurring and which it is hoped will some day be corrected by the Legislature. Were these Roads built "for the accommodation of the public?"

[It is tolerably well understood, that a chronic quarrel exists, between the Concord Railroad, and the Boston & Maine, and that each Road charges the other very high prices for such freight as passes over both roads. This may be sport to those who pocket the money,—but it is a grievance to those who pay,—and the evil ought to be remedied by legislation.]

☞ Mr. James W. Lefavour, painter of this city, who fell from the second story window (or door) of his shop in rear of the Custom House, several days since, was very severely injured, and still lies in a crutical condition. He fell ten or twelve feet, and stuck on one side of his head and body, and so severe was the concussion of the brain, that he has been unconscious much of the time since. It will be remembered that his brother George fell into the hold of the steamer Saranac, at our Navy Yard, and was killed, a few years ago—a sad coincidence, which we hope will not go further.

☞ Mrs. Cary's Concert to morrow evening.

☞ "My policy" has again shown itself on the Navy Yard. Mr. J. E. Giddings the Master Mason has received notice that "his services are no longer required". It is presumed that Andrew J. Locke of this city has been appointed in his place. Mr. Giddings has been a true friend to the soldiers and sailors, so far as his apointments and removals have been concerned, and for his especial attention to them, he has no doubt been selected for the "chopping block."

☞ Don't forget—Lyceum Tuesday evening.

☞ On Saturday afternoon, a horse belonging to M. H. Wentworth, Esq., broke through his stable floor and fell a distance of about eight feet into the cellar below, landing in a bed of manure. A fall was rigged, and the horse was extricated after more than an hour of active exertion.

☞ Remember—First lecture to-morrow evening.

CHAPTER OF ACCIDENTS.—Friday afternoon, the brig Mary, from Lingan, Cape Breton, while coming up the harbor, got aground near the beacon. She was laden with 380 tons of coal. Next tide the steamer Pioneer went to her assistance, and while attempting to pull her off the tide swung both vessels in toward the beacon; the Pioneer being inside struck the lower angle of the stone pier on which the beacon is placed, crushing her side, filled and sank. The brig was got off with loss of keelson, and brought to her wharf Saturday forenoon, and it was expected that the steamer would be extricated from her position on the ledge at the next tide; but she still remained there on Sunday, the water being about two feet from her promenade deck, her foremast gone by the board and pilot house carried away. We understand that she will be repaired without delay.

— "Well," said an old gentleman, the other day, "I have been forty-seven years in the business, and can say what very few can after such experience; in all that time, my friend, I never disappointed but one single creditor." "Bless me, what an example for your young mercantile community!" replied the person addressed; "what a pity that one time occurred; how was it?" "Why," responded the old gentleman, "I paid the debt when it became due, and I never, in all my life, saw a man so astonished as the creditor was."

— Jake, spell brandy with three letters. "O d v" (eau de vie.) No; in English. "B r and y."

Dr. Schenck's
NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 33 Hanover Street**, Boston, where he will be professionally every WEDNESDAY from 9 to 3. Every person complaining with Consumption or any disease leading to it, are invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars

Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part, also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint.

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

GEO. C. GOODWIN & CO., 38 Hanover street, Boston, General Wholesale Agents for the New England States. oct18—1m

Dr. Schenck on Dyspepsia.

SYMPTOMS, CAUSES AND REMEDY.

Symptoms of Dyspepsia—A sense of fullness, tightness, and weight in the stomach, together with flatulency, acidity, sour, offensive belching of wind, water-brash and vomiting, and a great deal of wind in the stomach, and when the stomach is at the pit of the stomach: frequently there is also a palpitation of the heart, which physicians mistake for heart disease, and when the stomach is in this condition it is coated with a mucus or slime. The rough fibrous portions of the stomach, similar to what we see in tripe, is what throws out the gastric juice, and when the stomach gets a thick coat of slime on it, it prevents the gastric juice from flowing, and digestion ceases. *Schenck's* Seaweed Tonic dissolves this mucus or slime, and restores the stomach to its natural condition.

Schenck's Mandrake Pills are also required to carry off this morbid matter. Two thirds of the cases of consumption are caused from this diseased state of the stomach; the liver becoming torpid, it ceases to throw out bile, and in a short time the whole system is deranged. The mucous membrane of the bronchial tubes sympathizes with the other organs and before the patient is aware of it, he or she has Bronchial or Pulmonary Consumption.

Schenck's Pulmonic Syrup cannot act freely through the blood when the system is in this locked up condition, without the aid of the Sea Weed Tonic and Mandrake Pills. The Liver has all the venous blood to strain, and when it gets in a morbid condition, blood and bile run through the system mixed, and the whole body becomes so low, and the blood so thick it can hardly run through the veins. In a majority of cases hemorrhages occur from this thick condition of the blood. The Mandrake Pills act on the Liver similar to calomel, or they do what that stone-cutter, Dr. Kidder, thinks, clean out the bile, and the blood begins to circulate naturally through the veins, and the hemorrhages cease. If, when persons are attacked with hemorrhage, they would first take a good purgative, something that would act on the liver, they would soon be relieved from bleeding from the lungs, and it is the only way, for as astringents are only temporary, and irritate the bronchial tubes, and lay the ground work for consumption.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 33 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer, the charge is $5.

His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7 50 the full dozen. Mandrake Pills 25 cents per box.

REASONS WHY THE
AMERICAN WATCH,
MADE AT WALTHAM, MASS.,
IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. No jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "lepines" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machinery and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE
COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

LYCEUM.
THE FOURTH COURSE THE BEST.

It must be conceded, we think, that the array of talent and list of eloquent speakers, stand foremost of anything of the kind enjoyed in this city for years. Judge Russell is one of the most eloquent and popular speakers in New England. He stands second to but few in off hand debate. Mrs. Cary's voice, charms and entrances, wherever and whenever it is heard. She is one of the sweetest singers of the "Grand Opera," and we most devoutly wish we had a larger hall.

Ex-Gov. Boutwell, a self-made man, is a splendid specimen of that class. He is an eloquent debater; sound, sensible, and argumentative in all public discussions; an earnest defender of popular rights, and worthy son of the old standard Democracy; a true friend of liberty, and a highly gifted and cultivated man.

The names of Geo. W. Curtis, Esq., Rev. Dr. Henry W. Bellows, Wendell Phillips, Esq., the Quintette Club, with their sweet and charming vocalist, and last though by no means least, Miss Annie E. Dickinson, need only to be mentioned to convince any lover of music, eloquence, literature, and patriotic devotion to a life of high resolves, that no series of Lyceum lectures, ever given in Portsmouth, could well compare with this!

Besides, we are expecting one or more of the Maj. Generals of the army. Members of the Committee have recently had an interview with Gen. Butler, and there is scarcely a doubt, that he and one other of the same rank, will be present, and address our citizens, some evening during the course. We learn from the proper sources, that the people are giving a hearty response to these efforts of the Committee. From present impressions and the personal interest they take in the matter, we judge they will not only take the limited number of tickets printed, but also will possibly make it necessary for the Committee to furnish an additional hundred. Trusting to this liberal and patriotic spirit, on the part of the citizens, those in charge of the Lyceum, have reduced the price of the tickets from $2 to $1 50. Let then this two-fold consideration, viz: an excellent course of lectures, and the low price of tickets, make its proper impression. Such a class of entertaiments furnish each evening, a sort of literary festival.

Every young man who seeks such mental recreation, not only shows his good sense, but also exhibits a type of intellectual and moral stamina worthy of a noble nature.

New Hampshire's turn has come. Edmund Burke of Newport, the head and front of the Delegation to the Johnson Convention, consisting, with a single exception, of old Democratic leaders, is at Washington, instructing Andrew Johnson as to the removals necessary to enable *them* to carry New Hampshire for him, giving the three members to sustain his "policy," as per promise. It will be recollected that in the interesting interview they put forward a Mr. Bowen of Claremont, a stranger who had recently removed into the State, not heard of before beyond the limits of Claremont and Newport, calling him a *Johnson Republican!* was the first to be provided for. Mr. Wheeler of Orford, Collector of the 3d Congressional District, one of the most responsible men in the district, appointed by President Lincoln, refusing to promise his support of the one-man power, in opposition to Congress, goes out, and this most responsible office is given to Bowen at Burke's bidding. Next, Mr. Ela, the Marshal of the State, studying his consistency and honor, is removed, and Russell Jarvis of Claremont, a uniform Democrat of forty years standing, sometimes here and sometimes there—for we have heard nothing of him here of late years—takes his place. Pretty well for Claremont, but something will yet have to be done for Newport. Mr. Cross of Manchester, the Pension Agent, goes next, and Judge Pearson of Nashua, Chief Clerk of the Pension office, has been obliged to give place to some Johnson man from Ohio. The Postmasters are next in order, after the Revenue officers, and that noble soldier in the late war, with impaired health in the service, Nahum Yeaton of Rollinsford, in Strafford County, in his published admirable letter to the President, has told us why he would not accept the office of P. M. tendered *on condition* of supporting him instead of Congress. Burke may make many changes, and eventually get something for himself, but his *promises* will all fail. The few votes he may dishonorably gain, will be offset by indignant hundreds. New Hampshire will never again be the foot-ball of the Democracy of the Copperhead stripe.

State of New Hampshire.
A PROCLAMATION
FOR A
Day of Public Thanksgiving and Praise.

I do hereby, with advice of the Council, appoint THURSDAY, the twenty-ninth day of November next, to be observed by the people of this State as a day of Public Thanksgiving, and Prayer and Praise to Almighty God.

For that, through all the varied events of another year, He has brought us in great mercy to this harvest season, the natural period of rejoicing, when the husbandman reaps the fruit of his labors, and which the wise usage of our Fathers has consecrated as special time of giving thanks to the Author of all our blessings:

Let us on the day appointed, assemble, so far as may be possible, in our usual places of worship, and devoutly render thanksgiving, and praise; and let us not forget, wherever we are, the tribute due to the Hand that so liberally giveth blessings;

Let us thank God, that "The Lord executeth righteousness and judgement for all that are oppressed," and that the cause of humanity, justice truth and freedom, in our land, has taken no steps backward;

That continued peace is vouched to us, and that through His power we have been preserved from treason within and from enemies without:

That the liberality and benevolence of the Christian world, has been displayed in a manner unsurpassed and unequaled in our time;

That the educational, moral, and religious institutions of the State, shed their light with renewed brilliancy on the present, brightening the hopes of the future;

That there has been within the borders of our our own State, justice between man and man, and that good will and harmonious counsels have prevailed.

Let us return to Him our humble and hearty thanks, in whose Hand are all the treasures of the earth, that he has enabled us to preserve, unimpaired, the State, and National credit:

That the laborer has received his ample reward, and prosperity smiles in the channels of business;

That our rugged hill sides and fertile valleys, have alike responded to the call of the husbandman;

That He has preserved us from the destroying pestilence, and from unusual sickness;

And, finally, while on that day each should thank and bless the Lord for every individual mercy, and for the ever present redemption he has provided through the Saviour and Redeemer of mankind, let such as He has blessed with abundance, remember that He has given it as a sacred trust, to "Defend the poor and fatherless, and do justice to the afflicted and needy."

Given under my hand, &c.
FREDERICK SMYTH.
By His Excellency the Governor with advice of the Council; WALTER HARRIMAN, Sec. State.

THE LATE MR. GLENWORTH.—The papers announce the death at Wiesbaden, Germany, on the 8th of October, of James B. Glenworth of New York. Mr. Glenworth, in 1840, was a tobacco inspector in that city, and his name was connected with the election of that year, when voters were introduced into the city from Philadelphia, under the plea that they were wanted for laying Croton pipes—hence the term "pipe-laying" in politics. Robert H. Morris was then Recorder, and for certain arrests in this matter, ordered by him, was removed from office by Gov. Seward. He was at the next election chosen Mayor of the city, an office he held for three years. Mr. Glentworth lived in New York until about 1862, when he gave up his business there—went out a broker—and went to Europe. He was the last remaining brother of the late Dr. Glenworth of the Navy, who was located at Portsmouth Navy Yard.

ELECTION OF BISHOP IN MAINE.—The special convention of the Episcopal Church for the election of a Bishop to succeed the late lamented Bishop Burgess, was held in Christ Church, Gardiner, on Tuesday of last week. On the fifth ballot Rev. Dr. H. A. Neeley, a Minister of Trinity Church, New York, was elected by eleven votes of the clergy and unanimously confirmed by the laity.

Rev. Dr. Leeds, of Philadelphia, had before been chosen by the clergy but not by the laity.

An American iron-clad ship, of the first class, the Ticonderoga, has passed up the Dardanelles to Constantinople, and been received with the highest honors. Salutes and banquets to the officers, intended to rival the honors accorded to our fleet at Constadt, Russia, the port of St. Petersburg.

The Farmington Chronicle says, Edgar Goodrich of that town, a young man of eighteen years, died Sunday evening 29th, from the effects of poison, swallowed by mistake. Intending to take cough syrup, he got a bottle of corrosive sublimate, and only discovered his mistake by reading the label, after taking a large swallow. He lived one week, suffering intensely during the time.

Agents Wanted For
The Camp, the Battlefield, and the Hospital,
Or Lights and Shadows of the Great Rebellion.
There is a certain portion of the war that will never go into regular histories, nor be embodied in romance or poetry, which is a very real part of it, and will, if preserved, convey to succeeding generations a better idea of the spirit of the conflict than many dry reports or careful narratives of events, and this part may be called the gossip, the fun, the pathos of the war. This illustrates the character of the leaders, the humor of the soldiers, the devotion of women, the bravery of men, the pluck of our heroes, the romance and hardships of the service.
The volume is profusely illustrated with over 100 engravings by the first artists, which are *really beautiful*, worthy of the author and the subjects of the art. The book's contents include reminiscences of camp, picket, spy, scout, bivouac, siege, and battlefield adventure; the pathos of fortitude, bravery, wit, drollery, comical and ludicrous adventures, etc., etc.
A monument as well as instruction may be found in every page, as graphic detail, brilliant wit and authentic history are skillfully interwoven in this work of the year.
This work sells itself. The people are tired of dry details and partisan works, and want something humorous, romantic, and startling. Our agents are making from $50 to $100 a month, free, clear of all expenses. MONTGOMERY'S
MUSIC, PICTURE FRAME, AND VARIETY STORE,
10 1-2 Daniel Street,
(Over Miss Beal's Dry Goods Store.)
The Subscriber, formerly with S. F. COB would inform his friends and former patrons of the Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Stools, Covers, Sheet Music, Pianoforte Accordeons, Stringed Instruments, Pictures, Frames, Gold, &c.
PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.
PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.
Having made arrangements with Prof W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. Steck & Co. The superior merits of the former have too long been established to need any comments. Of the latter suffice it to say that the sale of over thirty of them within the last five years by Mr Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.
Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof. DAY, who will receive orders for MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman. D. H. MONTGOMERY.

☞ The World, in moralizing over the result of the elections, thus treats of the President's duty:

"It would be futile for him to contend longer with the radicals in respect to the South, and he will best consult the dignity of his office by letting his action cease with its responsibility. Against Congress there was no appeal but to the people, and the passions of the war have not yet sufficiently subsided to permit them to judge with candor. The ratification of the amendment is not a question for him, but for the States. He may hereafter stand aloof from that subject without any loss of dignity or of consistency. Against the unconstitutional exclusion of the Southern States from Congress it was his duty to remonstrate; but having appealed to the people in vain, why should he sharpen acrimony by further opposition? The elections, by virtually depriving him of his veto, have relieved him from all responsibility for the action of Congress. While, therefore, he holds fast his oft-repeated views, he will serve no good purpose by an animated and aggressive presentation of them. Candid co-operation with Congress on neutral questions, and a dignified abstinence from pushing a controversy in which he is powerless, is the course which President Johnson will doubtless think it wise to adopt.

— A couple was married at St. Stephen, N. B., recently, the bridegroom hailing from Eden, the bride from Canaan.

— In the lower part of Indiana flocks of turkeys are dying of some disease unknown and their careful owners are plucking them and sending them for export to the Cincinnati and Louisville markets.

— Lord Brougham, at the Social Science meeting, Manchester, read in a tolerably audible voice; but after reading about half of his paper he suddenly sat down, apparently owing to a set of false of teeth getting out of order. He readjusted them, remarking, "one's teeth are troublesome from birth."

— Eben Fairchild, a wealthy citizen of Bridgeport, Ct., lately bequeathed $1500 to his relatives, and the rest of his property, nearly $90,000, to the American Colonization Society. The heirs threatened to break the will, but the society have compromised with them by paying them $12,000.

— The largest Sunday school in the world is at Stockport, near Manchester, England. It was formed in 1784, and now consists of about 5000 scholars. There are over three hundred teachers. Besides instruction in the Scriptures, they teach writing and elementary book-keeping, with no book used excepting the Bible.

Morning Chronicle.

Portsmouth N. H.

TUESDAY, NOVEMBER 13, 1866.

☞ An exchange says the "Deacons" seem to have been enthusiastic in the destruction of the Bangor Democrat office. One of the witnesses in the case on trial testifies that "When Deacon Drummond said 'Down with the Sign,' Deacon Brown cried 'Glory to God!'" These Deacons had probably been reading Revelation, chap. 18, where the Mighty Angel had proclaimed the fall of Babylon; and also chap. 19, where the people of Heaven rejoice over its fall, saying Amen, Alleluia, when "her smoke rose up for ever and ever."

REGISTRATION.—The N. Y. World asserts that more people voted in our City last Tuesday, than would have done had there been no Registry Law. We think says the Tribune many more legal voters exercised their Right of Suffrage; but there would have been far more votes cast in the absence of a Registry. More men would have voted twice or oftener, and more would have voted who were not legal electors, had there been no registry. As it was, some illegal votes were cast; but the registry was a great barrier to all manner of fraud.

The World talks of the "difficulties" which were expected to "deter poor people from coming to the polls." There were no such. Two-thirds of the voters in our city did not lose half an hour each in getting registered and voting combined, and there are few indeed who were inquired to give an hour to both. When we first voted in this City, there was but one poll in a Ward, and we waited two hours for a chance to vote, and then left to return again, seeing that half a day would be spent in reaching the poll. (Elections were then held thro' three days.) That was a real "difficulty;" but it has been happily overcome, and now voting in New York is as easy as need be. If there be any districts wherein there are too many voters, the Common Council may divide and multiply them indefinitely. The only "difficulty" presented by our present laws, is difficulty in cheating; and that we trust, will not be diminished.

☞ At Quebec, intelligence has been received that owing to the failure of the fish eries of Labrador, the coast inhabitants on the north shore have been rendered destitute unless relief is immediately provided.

The herring fisheries are said to be a failure and the prospects are said to be fearful to contemplate. The government has placed a steamer at the disposal of the charitable for the transportation of supplies, which will leave in a few days.

☞ The Lawrence American says a young woman employed in one of the mills, a few evenings since, was unlucky enough to set the back part of her head on fire.—As the waterfall was not her own (except by purchase) she snatched it off, and threw it into a pile of waste, which it speedily ignited, and had not aid been promptly on hand a more serious fire might have occurred.

☞ The Washington Chronicle says President Johnson did not do much at distributing "the Constitution and the flag" in Maryland and Delaware, which, we presume, accounts for those two States sustaining "my policy." In New York, Indiana, Ohio, Illinois, Missouri and Pennsylvania, where he entered into the business more extensively, the Radicals have triumphed.

☞ The Montgomery Mail says that although Gov. Orr of South Carolina, opposes the Constitutional Amendment, he shares the opinion of Mr. Reagan of Texas, that the Southern States should adopt negro suffrage. Orr would have been tractable enough, if Johnson's lolly or knavery had not besotted him.

☞ The election of a new President of the U. S. Senate to succeed Mr. Foster is exciting some attention. The candidates thus far mentioned are Senators Wade, Pomeroy, Anthony and Sherman. Mr. Foster's term expires March 3, 1867.

☞ It is said that Thaddeus Stevens will, on the assembling of Congress, propose an investigation of President Johnson's course, by a special joint committee, who will report what action, if any, is demanded of Congress by facts elicited.

☞ Forney says the "body hanging upon the verge of the Government, and assuming to be the Congress of the United States," looks now as if it were going to hang there as long as Andrew Johnson does.

☞ In New York State, Gov. Fenton's majority is now set down at 15,690. Representatives to Congress—20 radical, 2 conservative, and 9 demo.: Assembly 85 to 45.

☞ In the recent elections in Tennessee to fill vacancies occasioned by the Johnson bolters in the Legislature last spring, the radicals have made decided gains.

MAKES HIS EXPENSES.—John Morrissey makes $25,000 on bets that Hoffman would carry New York city by over 40,000 majority. This will go far towards paying his election expenses.

NEW HAMPSHIRE ITEMS.

—— A barn and contents, in Rochester, owned by John R. Roberts, were destroyed by fire on Thursday evening. Loss $400.

—— Miss Rosa A Smith, of Lyme is one of five missionaries to sail from Boston on the 14th for the Madura (South India) Mission.

—— A shoemaker, "who will have a job done by the time it has been called for twelve or fifteen times," is wanted at Canaan.

—— At a recent town meeting in Farmington it was voted two to one to sell the Town Farm, and in accordance therewith the farm has been disposed of.

—— The Second Advent Society dedicated a new house of worship on New Durham Ridge, on the 24th of October, and continued the meeting four days.

—— Major Jesse F. Angell, 10th N. H. V., has been confirmed Lieut. Colonel of Volunteers, by brevet, to date from March 13, 1865.

—— The moulders of the Manchester Locomotive Works, who have been on a strike for higher pay, have compromised the matter and returned to work.

—— Mr. Charles Quimby, of Bow, has raised 6000 pounds of hops this season, from ten acres of old pasture. The hops were sold for about $3000.

—— Fifteen fine Merino ewes, belonging to J. W. Simonds, of Franklin, were killed by the cars on the 3d inst. They were valued at from $15 to $25 per head.

—— B. W. Putnam of South Hampton, is engaged in manufacturing polishing brick and powder, from a fine quality of sand found on the Powow river. He employs six men, and makes 2000 bricks per day.

—— George W. Kendall, one of the founders and senior proprietor of the New Orleans Picayune, was in Amherst a few days since—the place of his birth. He was an apprentice in the office of the Statesman thirty-eight years ago.

—— In the case of Allaretta Boyce, indicted on a charge of infanticide, committed in Fitzwilliam, nearly a year since, the Attorney-General has at last concluded to accept a plea of murder in the second degree. The accused through her counsel proposed to offer that plea last term, but it was not accepted.

—— At the Pearl St. House, Nashua, on Thursday evening, a difficulty arose between the clerk and a colored porter.—They had hard words with each other and engaged in a scuffle, when the clerk drew a loaded revolver, which was seized by the porter, and in the struggle, discharged, wounding the porter's hand and lodging in the leg of the clerk.

—— Saturday evening a fire broke out at Concord, among a lot of wooden buildings in the rear of Downing's old carriage manufactory, and for a time threatened to become very disastrous. After two hours hard work the firemen got the flames under control, saving the Central and City Blocks and other valuable property. The buildings destroyed were Downing's old shop; Corning's livery stable; J. G. Wyatt's fish market on Warren street, and two dwelling houses to the west of it—one of them owned by James R. Hill and the other by Mr. Rowell; a third house, occupied by W. W. Virgin, was also about ruined. The loss is estimated at $15,000. The cause of the fire is unknown.

☞ Nathan Hunt, a well-known citizen of Belfast, Me., eighty years of age, went into his barn on Friday week, fastened a rope to a beam, while standing on the hay-mow, put the end about his neck, and jumped off. The Journal says there was no known cause for the set beyond a natural eccentricity by which his life had always been marked. He was first known in that region more than sixty years ago, when he made his appearance at a house in Vinalhaven, without coat or hat, declining to give any account of himself, and it was never known to the day of his death, how he chanced there. Thus his exit was quite in keeping with his entrance.

☞ Bitter experience forces the Union men of Maryland to the conviction at which their bre.hren of Louisiana arrived through a bloody test—that Impartial Suffrage is the only defense of the loyal, and the only cure for the Rebel, in the South. The issue, so long evaded and postponed, has ripened in Maryland through the heat of a contest won at the expense of those who fought to save the State which others attempted to destroy. They can now well afford to set the justice of Impartial Suffrage against the wrong of this bad mishap; we doubt if anything but defeat would have taught them, or any other large class of men in the South, the lesson. But it would be strange if the men of Maryland could not advance to the same views which even Judge Reagan of Texas, ex-Secretary of the Confederacy, has had the sagacity to announce.—*Tribune.*

— George Dennis of Scarborough, Eng., lost his wife on Monday, married another on Tuesday, took her home on Wednesday, and she presented him with a babe on Thursday.

— The work of restoring the cathedral church of Notre Dame, Paris, is almost finished. It has occupied twenty years.

JOHN H. REAGAN was in 1859 chosen Representative in Congress from the Eastern District of Texas by the decisive vote of 26,565 to 8541 for Judge W. B. Ochiltree, his able and eminent competitor. We can recall no instance in which so large a majority was given in a contested election for Congress. Judge Reagan was of course a Democrat, and plunged with his party into Secession. Jefferson Davis made him Postmaster-General, and he filled other high trusts under the Confederacy. On the collapse of the Rebellion, he was taken prisoner, and confined for four months in Fort Warren, whence he was finally liberated on parole. He returned forthwith to his farm in Texas, telling his friends privately that he wished never again to quit it for public station.—He told them, moreover, that he believed it every way advisable that the Blacks should be accorded the Right of Suffrage.

Judge Reagan we now hear, says the Tribune, has written and published a letter advocating the complete enfranchisement of the Blacks. We rejoice that he has done so; because we are sure that he has put the matter on its true and everlasting foundation. He has not, we are confident, advocated Impartial Suffrage as something which the North demands and the South must ultimately concede, but has commended it as essential right, wise, and beneficent—as a measure essential to the harmony, security and thrift of the South and of the entire Union. We feel sure that the more intelligent and substantial citizens of the late Slave States will hear and heed his well-weighed utterance and that its dissemination will go far toward effecting a speedy restoration of the Union which shall be at once complete and perpetual.

☞ The Washington Chronicle says the Johnson men in the Fortieth Congress will have valuable accessions to their ranks in the persons of John Morissey, the bruiser, and Fernando Weed, the representative of the rowdyism of New York. We are sure they will not find their equals on the Radical side of the House. Morissey's arguments will be all of the knock-down order, while the pure and upright Fernando will act as the Cerebus of the public treasury, taking care that no one pockets more than himself.

BUTTER MAKING IN THE WINTER.—Some families are quite successful in making butter in the winter season. Mr. Scott, of Vermont, believes that it may be made about as profitably when the cows are fed with the right kind of hay as when they run in the pasture. But there are so many who think differently, who "don't have no luck in the winter," that milk enough to make many tons of butter is wasted every winter. A correspondent of the Rural American, whose wife has made butter every winter for ten years, and who has himself done all the churning in a common dash churn, seldom occupying more than ten or fifteen minutes in the operation, condenses the secret of his success, so far as the management of the milk and cream is concerned, into the following pithy sentences:

Cows should be kept warm and clean, and in addition to plenty of sweet, early cut hay, milch cows should be treated with warm slops and bran mashes, varied by roots and meal. They should have plenty of pure air and exercise, and be salted regularly once a week. The stables and cows must be well cleaned before milking, and the treatment of the cows be ruled by patience and gentleness. The milk, when strained, should be brought to a scalding heat and set in a warm place, where it will not freeze. The cream should be taken off before the milk thickens, and be kept in a cool place as it can be without freezing. Cream managed in this way will be very thick, and when put in the churn needs diluting, which should be done by adding warm milk till, when well mixed, the temperature of the cream is such that a drop applied to the forehead will feel neither cold nor warm.

ENLISTMENTS.—As it has been hinted that Congress may repeal the law passed at the last session enlarging the army, every effort is being made to fill up the new regiments. Indeed, it is said that hundreds of men have been enlisted who served in the rebel army during the recent war, but I hope this is not the case. No officer or man who has fought against the Union should ever be permitted to enlist under the stars and stripes.—*Perley.*

☞ The publisher of the New York Weekly Magazine has secured advance sheets of Miss Braddon's new story, "Birds of Prey," and makes it the leading feature of that very promising weekly, which gives 40 pages of excellent reading for the low price of 10 cents. It will doubtless have a great run. F. S. Hill, publisher, New York. For sale by Batchelder.

☞ An interesting and amusing article in the November number of Harper's Magazine, on newspaper advertisements, closes with the following advice: "To Merchants. 1.—Advertise. 2.—Advertise liberally. 3.—Advertise courageously. To the public at large. 1.—Read the advertisements. 2.—Study them, and verily they shall be for your benefit.

☞ George W. Clark, a colored man and native of Virginia, for many years coachman of Mrs. Harrison Gray Otis, died of old age on Monday, in Boston. He had lived 96 years.

— The Portland Star says the Rolling Mills village at Cape Elizabeth, is called Ligonia, the ancient name of the province comprising the grant of land between Cape Porpoise and Cape Elizabeth. The works employs 163 workmen, and the daily product is one hundred and eighty rails.

PROCLAMATION.

TO THE PUBLIC GENERALLY.

WHEREAS, Being armed and equipped with such a stock of Fall and Winter Dry Goods as cannot fail to strike the beholder with bewildering amazement, and please the fancy of all lovers of the Beautiful; and Whereas, Having entered the field for the Fall and Winter Campaign of Trade, we are determined to repulse if not entirely vanquish the great system of monstrous prices and murderous profits, which has settled upon our whole country like a mighty Incubus—sinking the poor into deeper depths of poverty, and dragging the affluent down, and even driving many to distraction;—and Whereas, We have taken unusual pains in the selection of our New Stock, and have purchased it all at the Lowest Cash Prices, which will enable us to accommodate the purchaser at the lowest possible figures: Therefore, We, A. Q. LEACH & CO., do hereby issue this our proclamation, to dispose of our Stock upon such terms as must give satisfaction.

In witness whereof we have this, the 16th day of October, A. D. 1866, and of the independence of the United States of America the ninetieth year, hereunto placed our hands and caused the Great Seal to be affixed.

Special Notices.

DR. P. MEREDITH, Dentist, office No. 132 West Sixth Street, states as follows:

CINCINNATI, October 1, 1863.

MESSRS. J. N. HARRIS & CO.—Gents: About one year ago I took a cold which settled on my lungs. A violent cough was the consequence, which increased with severity. I expectorated large quantities of phlegm and matter. During the last winter I became so reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A diarrhœa set in. My friends thought I was in the last stages of Consumption, and could not possibly get well. I was recommended to try

ALLEN'S LUNG BALSAM

The formula was shown to me, which induced me to give it a trial, and I will only add that my cough is entirely cured, and I am now able to attend to my business as usual. Yours respectfully,

P. MEREDITH.

CONTAGIOUS DISEASES.—Water must be adapted to the nature of the fish, or there will be no increase; the soil must be adapted to the seed, or there will be small returns; and the human body must contain impurities, or there will be no sickness. The man whose bowels and blood have been cleansed by a few

BRANDRETH'S PILLS

may walk through infected districts without fear. "The life of the flesh is in the blood." To secure health we must USE BRANDRETH'S PILLS, because we cannot be sick but from unhealthy accumulations in the bowels or the blood, which Brandreth's Pills remove; this method is following nature, and is safe, and has stood THE TEST OF TIME. See B. Brandreth in white letters in the Government stamp. Sold by all Druggists.

PERRY DAVIS' PAIN KILLER.

Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of hot water, with sugar, and a gill of hot water. Stir well together and drink hot. Repeat the dose every hour until relieved. If the pains be severe, bathe the bowels and back with the medicine, clear.

Fishermen, so often exposed to hurts by having their skin pierced with hooks and fins of fish, can be much relieved by bathing with a little Pain Killer as soon as the accident occurs; in this way the anguish is soon abated; bathe as often as once in five minutes, say three or four times, and you will seldom have any trouble. n1 dawlm

MADAME ZADOC PORTER'S

Curative Cough Balsam,

PRICE, 25 AND 50 CENTS PER BOTTLE.

The Best, Cheapest, and Most effectual Remedy for Coughs, Colds, &c. the World has ever produced. Purely Vegetable, contains no MINERALS, or other DELETERIOUS DRUGS.

The CURATIVE BALSAM is warranted, if used according to Directions, to CURE in all cases, Coughs, Colds, Croup, Whooping Cough, Asthma, and all affections of the Throat and Lungs.

Madame Zadoc Porter's Balsam is a SURELY VEGETABLE EXPECTORANT, prepared with great care and scientific skill, from a combination of the best remedies the vegetable kingdom affords.

Its remedial qualities are based on its power to assist the healthy and vigorous circulation of the Blood through the Lungs.

It enlivens the muscles and assists the skin to perform the duties of regulating the heat of the system, and in gently throwing off the waste substance from the surface of the body.

It loosens the phlegm, induces free spitting, and will be found very agreeable to the taste. It is not a violent remedy, but emollient, warming, searching and effective; can be taken by the oldest person or youngest child.

If you have a Cold, if ever so slight, do not fail to give the Balsam a trial, as the very low price at which it is sold brings it in the reach of every one, that they may always keep it convenient for use.

The timely use of a 25 cent bottle will often prove to be worth one hundred times its cost.

Sold by all Druggists.

AMERICAN LIFE DROPS!

FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving;

BOSTON, MASS.

"ORRIN SKINNER & CO.—*Sirs*:—Notwithstanding my general prejudice against proprietary (or patent) medicine, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so hard. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. My family now him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."

The Life Drops are carefully prepared by

CHARLESTOWN, MASS., Nov. 29, 1865.

Messrs. BURLEIGH & ROGERS, Boston, Mass:

I feel it a duty I owe to you, and to such of the community as are suffering as I have suffered, to make known to them the benefit of your advertisements the CURE that, through the blessing of God, you have wrought upon me by using SMOLANDER'S BUCHU. I had *suffered over one year with Kidney Disease* so bad I *could hardly walk*. I took four bottles of *Smolander's Buchu*, and it *cured me*. WILLIAM M. HILLIARD,

THE LYCEUM.—This (Tuesday) evening is the opening night of the Course, and a varied and attractive intellectual treat is offered. No effort has been spared to make the present course equal to any which has preceded it, while a great reduction has been made on the price of tickets. We look to see a very large audience to greet the eloquent lecturer and charming vocalist who are to instruct and please us this evening. Judge Russell's earnest and able speaking, and Mrs. Cary's finished singing, form a rich combination indeed. Mr. Day of this city will preside at the grand piano.

There will be music with each entertainment of the course; and we have the pleasure to announce that with the second lecture, by Mr. Boutwell, the full Portsmouth Cornet Band will give one of their Grand Concerts. These two double entertainments alone will be worth the low price of a season ticket, to all who appreciate fine music and eloquent oratory—and we do not see that the other lectures promise less.

☞ A match game of Base Ball, between the Granite State and Nationalist Clubs, Juniors, of this city, came off on Saturday afternoon, and resulted in a victory for the latter by 10 runs. Each club have won one match.

NAVAL.—Commander William G. Temple has been ordered to ordnance duty at this naval station.

☞ At the approaching municipal election the polls will be opened in the Ward Room in Ward Three, instead of at the School House, as advertised.

☞ It will be remembered that the Philharmonic Society rehearses this week on Wednesday evening—roll-call precisely at half past 7.

☞ The steamer Pioneer which was sunk on Friday night, was raised on Monday, and brought to the wharf.

☞ Our Monday morning mail from Boston went astray, so that we got the morning and evening papers together.

☞ Auct. Wendell sells an old building on Banfield road, (to be removed,) at 2 o'clock to-day.

Special Notices.

Dr. Schenck's
NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street**, Boston, where he will be professionally every WEDNESDAY from 9 to 3. Every person complaining with Consumption or any disease leading to it, are invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part, also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint.

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become tree and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

Dr. Schenck on Dyspepsia.

SYMPTOMS, CAUSES AND REMEDY.

Symptoms of Dyspepsia—A sense of fullness, tightness, and weight in the stomach, together with flatulency, acidity, sour, offensive belching of wind, water-brash and vomiting, and a great deal of what a person calls an ill-gone feeling at the pit of the stomach. Frequently there is also a palpitation of the heart, which physicians mistake for heart disease, and when the stomach is in this condition it is coated with a mucus or slime. The rough fibrous portions of the stomach, similar to what we see in tripe, is what throws out the gastric juice, and when the stomach gets a thick coat of slime on it, it prevents the gastric juice from flowing, and digestion ceases. Schenck's Seaweed Tonic dissolves this mucus or slime, and restores the stomach to its natural condition.

Schenck's Mandrake Pills are also required to carry off this morbid matter. Two thirds of the cases of Consumption are caused from this diseased state of the stomach; the liver becoming torpid, ceases to throw out bile, and in a short time the whole system is deranged. The mucous membrane of the bronchial tubes sympathizes with the other organs, and before the patient is aware of it, he or she has Bronchial or Pulmonary Consumption.

Schenck's Pulmonic Syrup cannot act freely through the blood when the system is in this locked up condition. Without the aid of the Sea Weed Tonic and Mandrake Pills. The Liver has all the venous blood to attend to, and when it gets in a morbid condition, blood and bile run through the system mixed, and the whole body becomes so low, until the blood so thick it can hardly run through the veins. In a majority of case hemorrhages occur from this thick condition of the blood. The Mandrake Pills act on the Liver similar to calomel, or they do what that does—it unlocks the gall bladders, starts the bile, and the blood begins to circulate naturally through the veins, and the hemorrhages cease. If, when persons are attacked with hemorrhage, they would take a good purgative, something that would act on the liver, they would soon be relieved from bleeding from the lungs, and it is the only way, for as astringents are only temporary, and irritate the bronchial tubes, and lay the groundwork for consumption.

DR. SCHENCK will be professionally at his rooms every week, 32 Hood street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer, the charge is $5.

His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents per box.

REASONS WHY THE
AMERICAN WATCH,
MADE AT WALTHAM, MASS.,
IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its accuracy, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "Lepines," "Repines" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, into last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

MIGNONETTE

This is no rose among the garden flowers
A queen in her own right, or lily fair
The bride of June, that breathes upon the air
Such fragrance as the fragrance of these bowers.
The sun has passed this way and led the hours
Of light and warmth, with all a lover's care,
Upon my garden's breast, and everywhere
Arise sweet answers. This that overpowers
Or rose or lily, and does least forget
The sun that loved it, seeking to renew
Its vows of perfume, as in deep regret
That it by day held aught so good to view,
Crimson or purple, is my Mignonette,
Whose fragrance, in its sweetness, not to be
Is only seen in its sweetness, not to be.

☞ The New York Atlas of March 31, 1866, had the following paragraph.

Andrew Johnson is a democrat in the truest sense of the word. He believes in the people, and cares not for the applause or friendship of frothy politicians so long as the pulsations of the popular heart are with him. "Mr. President," said Hon. John Hogan of Missouri, to him after the veto of the Freedmen's Bureau bill had been sent to Congress, "the Senate and the House are powerful; I am afraid they will crush you because of your resistance to their arbitrary measures." "Crush me!" returned the patriot, "why the American people will sustain me against these men, and it is to them I look." This noble confidence is not misplaced. The American people will sustain the constitutional President who has refused almost regal power and incurred the bitter hatred of radical leaders by preferring the liberty and prosperity of the nation to the permanent ascendancy of a political party. Andrew Johnson is for the people, and the people are for him.

This is laughable now. Mr. Hogan himself is crushed by the people who are not for A. J.—and the same people have seat Gen. Logan to Washington. The people for Andrew Johnson! What people?—The offscouring of the earth in New York city, were for him ten days ago—but they care nothing about him now.

☞ The Chicago Tribune says of the election in Illinois that there is hardly a Copperhead gain in the whole State. Cook County shows above a Republican gain of over 5000. Peoria County (it will be remembered that President Johnson told the correspondent of the London Times to "look at Peoria") has gone Republican by nearly 300 majority. The State Senate will stand fifteen Republicans to nine Copperheads. The Republican majority in the House will be between twenty-five and thirty.

☞ The Auson (Me.) Advocate records an accident which on Friday last, caused the death of Mr. Rodney Collins, a prominent and esteemed citizen of that place. He was tending his gristmill, and went below to examine or oil some of the gear and was caught by the cogs and drawn in between the main shaft and the spindle that carries the wheat rub of stones, and killed instantly—the body just below the arms being literally crushed to pieces.

— A lazy fellow lying down on the grass said, "Oh, how I do wish this was called work, and was well paid!"

The Camp, the Battlefield, and the Hospital,
Or Lights and Shadows of the great Rebellion.
There is a certain portion of the war that will never go into the regular histories, nor be embodied in romance or poetry, which is a very real part of it, and will, if preserved, convey to succeeding generations a better idea of the spirit of the conflict than many dry reports or careful paragraphs. All the lighter parts, the pathos, the gossip, the fun, the pathos of the war. This illustrates the character of the leaders, the humor of the soldiery, the devotion of women, the bravery of men, the pluck of our heroes, the romance and hardships of the service.
The volume is profusely illustrated with over 400 engravings by the first artists, which are really beautiful; worthy of examination as specimens of the art. The book's contents include rescues, escapes of camp, spy, scout, bivouac, siege, and battlefield adventures; thrilling feats of bravery, wit, drollery, comical and ludicrous adventures, etc., etc.
Amusement as well as instruction may be found in every page, so graphic detail, brilliant wit and sparkling humor are skillfully interwoven in this work of literary art.
This work sells fleet. The people are tired of dry details and pompous works, and want something humorous, romantic, and startling. Our agents are making from $100 to $300 per month, clear of all expenses, and we can give the strong particulars, and see our terms and proof of the above assertion. Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. Dows now the gratification of presenting the unfortunate with remedies that have never, since the first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases. He is the only regular military habit which ruins the body and mind, undoing the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotins, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, continues to treat all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in his profession than the celebrated Dr. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr. Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Stools, Covers, Sheet Music, Pianos, Violins, Strings, Stringed Instruments, Pictures, Frames, Cord, &c.
PIANOS AND REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.
PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.
Having made arrangements with Prof. W. K. DAY, I now have the exclusive agency in the city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M. Gould & Co. The superior merits of the former have long been established to need any comments. Of the latter suffice it to say that the sale of over fifty of these pianos the last year, by Mr. S. F. Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.
Every instrument carefully selected and fully warranted, under the inspection and approval of Prof Day. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman.

A SPORTING REPORTER TIGHTLY SLIGHT.—The Buffalo Commercial, having sent a special to report the great racing tournament between Dexter and Butler, sums up the results as decidedly a losing business. We have only room for the

THIRD ROUND.—At the call of the judges Dexter went first to the bat after three false starts, with Butster acting as center field at the quarter pole, when the ropes were cut and an alarm of police raised, with Dexter three lengths ahead the cushion, and gradually passing the score to Butster. Notwithstanding the tremendous pace at which they were going, Butster was a good second, behaved wonderfully well, and showed as a pheasant, though the balls broke badly for him. He was not accustomed to a left-hand pitcher. Swinging around the half mile stretch, Butster took his gruel kindly, and delivered his mawler straight on the dial, Dexter continuing gradually to close up with the evident intention of shutting him out. Butster was not to be led, and again broke away, with Dexter at his heels, which drew the claret profusely. It was now nobody's race, and large investments were made on the favorite at any odds. But Dexter having read a paper "On the Antediluvian races, with some speculations as to whether they were the best three in five, together with their effect upon the Decimal and Metric System of the Silurean Period," had it all his own way, and ran the game out with ease, Butster's seconds throwing up the sponge in forty-five minutes.

WHAT LUTHER LOVED.—Luther, when studying, always had his dog lying at his feet—a dog he had brought from Wartburg, and of which he was very fond. An ivory crucifix stood at the table before him. He worked at his desk days together without going out; but when fatigued, and the ideas began to stagnate, he took his guitar with him to the porch, and there executed some musical fantasy (for he was a skillful musician) when the ideas would flow upon him as fresh as flowers after a rain. Music was his invariable solace at such times. Indeed, Luther did not hesitate to say, that after theology music was the first of arts. "Music," said he, "is the art of the prophets; it is the only other art which like theology can calm the agitation of the soul, and put the devil to flight." Next to music is if not before it, Luther loved children and flowers. That great gnarled man had a heart as tender as a woman's.

☞ A boy whose honesty is to be more commended than his ingenuity, once carried some butter to a merchant in a country village to exchange for goods. The butter having a very beautiful appearance, and the merchant being desirous of procuring such for his own use, invited the boy to bring him all the butter his mother had to spare. "I think," said the boy, "she can't spare any more, for she said she would not have spared this, only a rat fell into the cream, and she did not like to use it herself."

AMERICAN AND FOREIGN PATENTS.
R. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street, BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any of Patents issued, for ruling One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The unusual practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twelve* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.
R. H. EDDY.

Portsmouth N. H.

WEDNESDAY, NOVEMBER 14, 1866.

THE METEORS OF 1833.—To our vision it was a most beautiful and brilliant display, producing admiration of the divine creative, sustaining, and governing power, and having no relation to terror, or calamity. But to the ignorant and superstitious the meteoric shower of 1833 was more than a phenomenal wonder. It was the occasion of most awful dismay, and thousands believed that the last day had really arrived and that the final consummation of all things was about to take place. A South Carolina planter thus described the effect produced upon the minds of his negroes by the phenomenon:

"I was suddenly awakened by the most distressing cries that ever fell upon my ears. Shrieks of horror and cries of mercy I could hear from most of the negroes on three plantations, amounting in all to about 600 or 800. While earnestly listening for the cause, I heard a faint voice near the door calling my name. I arose, and taking my sword stood at the door. At this moment I heard the same voice still beseeching me to rise, and saying, 'Oh, my God! the world is on fire!' I then opened the door, and it is difficult to say which excited me the most—the awfulness of the scene, or the distressed cries of the negroes. Upward of one hundred lay prostrate on the ground, some speechless and some uttering the bitterest cry, but most with their hands raised imploring God to save the world and them. The scene was truly awful: for never did rain fall much thicker than the meteors fell toward the earth—east, west, north, and south, it was the same."

STATE NORMAL SCHOOL.—A Concord correspondent of the Boston Journal says:

A resolution was passed at the last session of our State Legislature authorizing and requiring the Governor, by and with the advice and consent of his Council, to appoint a Commissioner whose duties should be to advertise for and receive proposals for the donations of grounds and buildings for the use of a State Normal School. Said Commissioner was also to be directed to ascertain the expense of the maintenance of normal schools in not less than three of the nearest neighboring States sustaining such schools; to inquire into the best method of organizing and conducting the same, and generally to ascertain such facts relative to normal schools as may aid the Legislature in their action relative thereto; and to report the same, together with such proposals for donations as might be received, to the next Legislature.

In accordance with this resolution, Gov. Smyth and Council made an excellent appointment of a Commissioner in the person of Rev. Orren Perkins, a Universalist clergyman of Winchester, and a re-elected member of the present State Senate. Mr. Perkins has entered upon his duties, and his advertisements are now before the people inviting attention to the subject, and soliciting proposals of donations from those who desire to secure the location of the school in their city or town. After referring to the normal schools of Massachusetts and other New England States, and also of the Middle and Western States, the Commissioner remarks that New York is taking measures to establish three more on a large scale; that Vermont is soon to have one, and that it is time for New Hampshire to move in the matter. He hopes to receive such proposals as will induce the next Legislature to push on the enterprise to a successful result. It is evident that a large majority of the people of New Hampshire are sensible of the importance and the pressing necessity for the establishment of a Normal School in this State; and we believe the main question now to be disposed of is that of location. Several places are expected to make propositions soon, and other localities desiring the school should give attention to the subject. Proposals will be received until April 1, 1867, and should be directed to the Commissioner at Winchester.

BEECHER'S SERMONS.—The N. Y. correspondent of the Boston Journal gives the following account of Rev. H. W. Beecher's change of papers.

"He has spoken through the Independent in his sermons and lecture room talks for a long time. He feels deeply aggrieved at the course taken by the Independent in relation to his Cleveland letter and his position in the Republican party. He has withdrawn his communications from the Independent, and has just closed a bargain with Dr. Bright, editor of the Examiner, the Baptist organ of this city. And hereafter the Examiner will contain a sermon one week and lecture-room talks the next week. So alternately through the year. Mr. Beecher keeps in his church a phonographic reporter, who takes down all he utters in his pulpit or lecture-room. So he holds the matter in his own hands, and he can give his productions to whom he will. This new arrangement with the Baptist paper commences with the first issue in December.

All this is well enough: Mr. B. has a right to do what he will with his own; and no one will complain because he does so. But he evidently feels uneasy in the awkward position where he has placed himself: and this movement, from the Independent to the Baptist Examiner, will not ease him at all, but only show how he has unsettled himself in his own mind, as well as in the minds of others. His ill-judged and ill-timed letter shook his reputation about as severely as fever and ague sometimes shake a man's bodily constitution.

— Louisiana expects a crop of 50,000 hogsheads of sugar this year, against 10,000 for last year and 450,000 in 1861.

GOLD, Tuesday, 145 3-4.

LABOR AND LABORERS.—The following extracts are from a late circular issued by Freedmen and Refugees Home Agency, and approved by Gen. Howard of the Freedmen's Bureau.

It is stated that there are 20,000 colored persons in Washington City, many of whom have fled thither from slavery, during the war, and they dare not return to such liberty as awaits them at their old homes; there is not work at hand for them, and they are willing to go elsewhere to earn honest bread; but the greater number live poorly from hand to mouth.

We appeal to those who want farm hands, wood choppers, dock hands, mason tenders, carpenters, blacksmiths, coopers, coachmen, house servants, cooks, men for coarse work about machine shops and manufactories, watchmen and female servants.

No more rations will be issued to the able bodied men and women, and unless they can be placed in situations to earn their daily bread, there must be much suffering among them. Every friend of the oppressed must try to assist these people to a chance to make an honest living, and at the same time secure a valuable class of laborers who will learn a different style of energy and enterprise in the North from anything they could ever acquire in the South; and when peace and quiet shall be fully restored at the South, should they return, they will be enabled to introduce improved industry and economy where they go.

It is found by those who have tried it, the best way, for farmers and others who need help on the farm or in the house, to build a cottage in some convenient spot, or to fit up an out building. Let the man work on the farm or in the shop, and the woman work in the house; and if they have children, let the older care for the younger while the mother is at work, and you will find this people interested, faithful and devoted to your interests, and that of your family.

The plan we propose for all who want such help, or will provide for one or more during the winter, is to send a written request to the nearest point where there is an accredited agent, stating the kind of work to be done, and the age of the person desired. The request will be forwarded to the General Agent in Washington. When the person or persons arrive at the depot the applicant will be notified, and they will go or send for them as they shall choose. All applicants will be required to pay five dollars to the general fund to defray incidental expenses en route.

It will be expected that all persons receiving such help, will pay for the first month's service what their labor has been fairly worth, taking into consideration the expense incurred. At the expiration of the month, it is expected the employer will then make a bargain with the employed, agreeing what the wages shall be for a definite period, and make a report to the agent from whom they were received, stating the conditions. Blanks for this purpose will be furnished by the agent.

There are large numbers of women and children wanting homes, whose husbands were killed in the Southern or Northern armies. These women, as a general thing, make the best house servants. Families who want help, and will take a woman with one or two children, at fair wages, will be well pleased.

Mr. Benj. Cheever is a duly authorized agent of the Freedmen's Home Agency, and may be addressed at Portsmouth, N. H.

☞ A murder trial in Philadelphia, was brought to a sudden close on Thursday, by the discovery that one of the jurymen had been attacked with delirium tremens the preceding night, and at the time of the opening of court he imagined that rats were eating his body and that his tongue was composed of worms. After medical evidence as to his condition was given, the court discharged the jury.

☞ We have received the journal of the proceedings of the R. W. Grand Lodge of Odd Fellows of this State, at their last annual session, at Laconia. Of much interest to members of the order.

☞ Another Fenian prisoner has been found guilty at Toronto, and sentenced to be hung Dec. 13. His name is Wm. Hayden; age 20 years.

GOV. SWANN'S AVOWAL.—It is reported that Governor Swann, in response to some Democratic compliments on the day after the election, stated that a *carte blanche* had been given him by President Johnson to use the United States military forces in Baltimore, but that, in accepting military aid to sustain his own lawful authority, he (Swann) felt that he might be placing a weapon into the hands of the radical element of the country, to be used against the President as a ground of impeachment.—This is certainly a singular statement. The Constitution only allows the President to send troops into a State for action, on the request of a Governor, when the Legislature "cannot" be convened. We hardly see, therefore, how the military could have been rightly detached into Maryland to meet a long-foreseen emergency (as appears from the many conferences between the Governor and the President) unless some means had been taken to call the Legislature together. Still less do we see how the President could delegate beforehand to another the power which the Constitution assigns exclusively to *him*. Gov. Swann is not an officer of the army, and so capable of acting for the time under the orders and in the place of the Commander-in-Chief. The use of the United States military forces is altogether too serious a matter to be given over to an official who cannot be held responsible for it.

NEW HAMPSHIRE ITEMS.

—— A saw mill in the town of Warren, that uses a Leffel water wheel, recently sawed 4517 feet of lumber in one hour.

—— At Washington on Monday, a battalion of the Twelfth Regular Infantry paraded with the regimental band, in full dress uniform, to pay funeral honors to Lieut. Leander W. Fogg of Dover, who died at the Post Hospital, in Washington, on Sunday.

—— Hendrick S. Tuttle of Nottingham, a married man of about 35 years, without children, has scandalized his native place by deserting his wife and carrying off an unmarried woman of respectable family, and hitherto respectable character, a little younger than himself. He is said to be a person of fair exterior, but strange to say for a native New Englander, he can neither read nor write.

WASHINGTON ITEMS.—It is currently reported that Major General Kilpatrick, United States Consul for Chili, is to be recalled, and Hon. A. J. Rogers of New Jersey appointed to fill that mission.

It is said that Secretary McCulloch has had another interview with the President, and again protested against the removal of Commissioner Rollins of the Internal Revenue Bureau.

The Ohio delegation of Democrats who desire the appointment of Mr. Spooner of Cincinnati as Commissioner of Internal Revenue in place of Mr. Rollins, have had an interview with the President and made their argument. Mr. Johnson told them he would take their request into consideration.

General Steedman's sudden arrival and his prompt audience with the President, have revived the old rumors that he is going into the War office. These are strengthened by the fact that semi-official attacks on Secretary Stanton are appearing in the administration papers.

HOARSE DEMOCRATS.—Under this head, Burleigh tells the following story about some people in New York city:

It is remarked that all the leading Democrats about the city are very hoarse. The secret only came out a day or two since. On the night of the election, the rooms and area of the World newspaper were crowded with big Democrats and little Democrats, with men in broadcloth and men in rags, with representatives from Fifth Avenue and Five Points, all waiting the result of the election. The tremendous returns from the city made the company very merry. At nine o'clock the returns from the country seemed to indicate the defeat of Fenton. The supposed fact was communicated to the faithful. Just then Hoffman, who was in the editorial rooms of the World, came out. He said to his friends: "I am satisfied I am Governor of the State of New York." He went home to sleep over his victory, and to wake up in the morning a wiser and a sadder man. For about one hour the crowd yelled and screamed till they were black in the face. At ten o'clock the returns put a different face on things. And now, when a very hoarse Democrat is found, the question is slyly put to him,—"Who's Governor?"

CATTLE PLAGUE IN ENGLAND.—At last the cattle plague in Britain has come to an end, after destroying upward of two hundred thousand animals—the aggregate value of which must have been considerably upward of a million sterling. It is estimated that about five per cent. of the cattle of England perished through this dreadful murrain.

FROM EUROPE, Monday Nov. 12, by cable, it appears that there is no insurrection in Spain,—that the Japan War is over,—and that the Tycoon is dead. Also that the U. S 5-20s have slightly advanced.

A MYSTERY CLEARED UP. — Some weeks ago a man named Wells, a bookkeeper for a firm in Ironton, Missouri, telegraphed to his employers that he had been robbed on board a railroad train of $10,000 belonging to them. The firm engaged detectives to look after the affair and, if possible, get on the track of the pickpockets, who, it seems, had cut open the bookkeeper's vest and taken the wallet containing the bonds from the inside vest pocket. One of them having heard that a wallet had been found in a livery stable, obtained possession of it and found that it was the identical one in which the bonds had been contained.—The detectives then ascertained that Mr. Well's pocket had been cut entirely through; the wallet had filled the pocket completely, and yet, when found, it bore no marks of a knife blade. This was sufficient; the detectives were convinced that Wells had robbed himself and then cut his own pocket, and this proved to be the fact. Wells, then accused of the trick, acknowledged it and gave up the money.

The Grand Secret.

The Grand Secret in medication is to help Nature. SUSTAIN and REGULATE—these are the Alpha and Omega of the only theory of cure that has common sense for its basis. If the nervous system is shattered, the muscles weak, and the mind, like the body, in a state of partial collapse—what is it best to do? Reason teaches us the answer:

BUILD UP YOUR MAN.

Brace him up as you would brace a tottering edifice. The pabulum he needs is a Tonic Alterative. Bring him up out of the depths of Debility and Despondency

WITH HOSTETTER'S BITTERS.

They cannot injure. A child may take them in doses suited to its years, without the possibility of harm. The enfeebled vital powers are as sure to respond energetically to their action, as the wilted grass is to erect its blades under the vivifying and refreshing rain. In all cases of debility the Bitters are absolutely required. There is no substitute or succedaneum that will fill their place. Resort to this most wonderful of Modern Tonics,

AND ALL WILL BE WELL.

Bear in mind that in Dyspepsia, Intermittent Fevers, Bilious Disorders, and Affections of the Nerves, no other medicine will produce one tithe of the good effect that invariably follows the use of this excellent Invigorator and Corrective Sold everywhere.—*N. Y. Tribune, Oct. 27, 1866.*

Ayer's Cathartic Pills

ARE the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their belief, upon conviction that our preparations contribute immense to the relief of our afflicted, suffering fellow men.

The Agent below named will be pleased to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Dysentery, Loss of Appetite, all Diseases which require a vegetable medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. o29—2m

CINCINNATI, October 1, 1863.

MESSRS. J. N. HARRIS & CO.—Gents: About one year ago I took a cold which settled on my lungs. A violent cough was the consequence, which increased with severity. I expectorated large quantities of phlegm and matter. During the last winter I became so reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A diarrhœa set in. My friends thought I was in the last stage of Consumption, and could not possibly get well. I was recommended to try

The result was shown to me, which induced me to give it a trial, and I will only add that my cough is entirely cured, and I am now able to attend to my business as usual. Yours respectfully,

PERRY DAVIS' PAIN KILLER.

Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and molasses, and a gill of hot water BRANDRETH together and drink hot. Repeat the dose every hour until relieved. If the pains be severe, bathe the bowels and back with the medicine clear.

Fishermen, so often exposed to hurts by having their skin pierced with hooks and fins of fish, can be much relieved by bathing with a little Pain Killer as soon as the accident occurs; in this way the anguish is soon abated; bathe as often as once in five minutes, say three or four times, and you will seldom have any trouble. n1 daw1m

THE GREAT FEMALE REMEDY FOR IRREGULARITIES

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female Remedy, and are considered by all who know aught of them, as the safest, purest, and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health and vigorous strength. Explicit directions stating when they may be used, and explaining when and why they should not, accompany each bottle. Being without producing effects contrary to nature's obvious laws, will be found carefully folded around each bottle, with the signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

AMERICAN LIFE DROPS!

FOR THE SPEEDY CURE OF

Diphtheria,

Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

BOSTON, Mass.

"ORRIN SKINNER & CO.—*Sirs:*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles, he says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDEN."

The Guide to Health and Beauty,

It teaches how to remove Tan, Freckles, Pimples, Blotches, Moth Patches, Sallowness, Eruptions, and all impurities of the skin; how to enamel the skin, leaving it white and clear as alabaster; how to produce the fullest development of the female form (as practised by the French,) causing the bust to grow round and full, and if the form has been lost by padding, sickness, or maternity, restoring it to more than its original fullness, firmness and beauty. Local.

☞ Rather a cruel hoax was perpetrated in this city on Monday. About a score of gentlemen received invitations through the Post Office on that morning, requesting their company with ladies, for that evening, at a designated number and street; the invitations purporting to come from two young ladies. The occupants of the house referred to, were rather astonished at the great influx of callers as evening's shadows deepened into night; and when visitors no to ger came in couples, but in bevies, the occupants asked if they were favored with a "surprise party." One of the young gentleman produced his invitation, and at once became the surprised party, on being told the whole affair was a hoax. Such a practical joke may afford some sport to those not suffering the embarrassment consequent upon being a victim thereof, but the perpetrator of it would have fared hardly had he or she been discovered when the denouement took place.

SUPREME JUDICIAL COURT.—*Doe J.*—The Court came in at 12 o'clock on Monday. The day was occupied with the case State v. Samuel F. Dearborn, James Dearborn, Charles Dearborn and William H. Leach, for assault and battery upon Ebenezer K. Marden, at Greenland, Sept. 1st. Solicitor for State; Hatch and Frink for Respondents.

On Tuesday the case State v. John H. Eaton, for stealing 13 hens and various articles of clothing from James W. Green of Hampton Falls, was on trial. Solicitor for State; Hatch and Hodgdon for Respondent.

In case State v. S. F. Dearborn et als., W. H. Leach and one of the Dearborns were severally fined $5 and costs.

THE LATE HON. DAVID A. GREGG.—In the Supreme Judicial Court yesterday, (Tuesday.) The Hon. W. H. Y. Hackett arose and after paying a fit tribute to the memory of the late Hon. David A. Gregg of Derry, offered the following resolution in behalf of the Bar.

Resolved, That in the death of the late Hon. David A. Gregg, the Bar mourns the loss of one of its oldest members; one whose ability and integrity in his profession won for him the respect of his brethren and the confidence of the community;—one who has filled several prominent public trusts with fidelity, and to the general acceptance of the public.

Resolved, That the members of the Bar will wear the usual badge of mourning for thirty days.

After which G. C. Bartlett, Esq., of Derry, made a brief but impressive allusion to the life and character of Mr. Gregg, whereupon Judge Doe ordered that the resolution be entered upon the minutes of court.

☞ The new Rockingham Trotting Park is progressing favorably. The land has been purchased of Mr. Nath'l Wiggin on Sherburne's road, directly in front of the residence of Mr. Edward Huntress; and the half mile track laid out, ploughed and partly graded. The park lies near the road, and is easy of access from all quarters; and the new road to be built from Myrtle street, up, will bring Portsmouth still nearer to it. The matter is in charge of competent trustees, and all arrangements will be satisfactory, we have no doubt.

Communication.

Mr. Editor—In a communication in your paper yesterday, the writer states that 70 cents was charged for the freight on one barrel of apples from Greenland to Exeter. Now as much as I dislike the manner in which the citizens of Portsmouth and along the line of the "Snail Train" are used, in justice to the managers of the same I will state that if 70 cents was charged for the barrel of apples, the Concord Road only received fifteen cents of the amount and transported the apples one half the distance. There are other much more important matters to discuss relative to the management of the Concord and Portsmouth Railroad than the carrying of one barrel of apples to Exeter, all of which will in due time be attended to. The Superintendent and Directors are not the only persons connected with the road who are expected to treat travellers with common civility. "A lady" will in a few days give a brief history of a trip from Concord to Portsmouth on the afternoon train from Concord. As you said yesterday the "evil ought to be remedied by legislation." Betton & Co. have their regular semi-weekly sale.

☞ It will be remembered that the Philharmonic Society rehearses this week on Wednesday evening—roll-call precisely at half-past 7.

☞ The City authorities of New York have contracted for a bridge which is to span Broadway, opposite St. Paul's church, over which foot passengers will be allowed to walk without the danger of having their necks broken. If the one contracted for works well, similar bridges will span Broadway between Wall street and Canal.

☞ Mary Taylor, celebrated some years since as the handsomest and most vivacious light comedienne and burlesque actress on the American stage, died at New York, Saturday. In 1851 she was married to Mr. Ogilvie Ewen, a merchant in New York, and retired from the stage. Her age was about forty, probably a little above. She was a superior singer, for clear, open notes, and words finely pronounced.

☞ At the National Observatory in Washington, between Monday evening and Tuesday morning, nearly 400 meteors were observed, and their course recorded. Yet they were not so brilliant or beautiful, generally, as please any body but astronomers who had instruments of vision.

☞ In Wisconsin, the Republican Congressional majority is 26,000—a gain of 100 per cent. on the vote of 1864. The Legislature stands: Senate, 22 Republicans, 11 Democrats; House, 70 Republicans, 30 Democrats.

☞ By the Cable comes a vague rumor that Max., the ex-emperor of the ex-empire of Mexico, has the offer of the crown (?) of Poland:—and a statement that the Pope agrees to live at Malta, if forced to quit Rome.

— The Leavenworth Times reports that about one hundred Pottawatamie Indians were naturalized in the United States District Court at Topeka, Kansas, a few days ago.

— The Sons of Temperance, at their session at Indianapolis, last week, decided to admit negroes to membership—allowing them to organize divisions of their own, or join the white divisions, at their option.

— The weather is cold in Virginia. The mountains around Lynchburg were snow capped on Monday morning. Ice of considerable thickness was formed in Petersburg Tuesday morning, and a slight fall of snow is reported there on Monday morning.

— The clergyman Lumsden, of Fenian notoriety, who was recently placed in such a perilous position through his drinking habits, has formally renounced the use of all intoxicating drinks, and has placed the American Consuls at Toronto and Fort Erie in possession of documents containing his solemn resolution.

— The ladies of Waukegan, Illinois, hit upon a novel plan to "raise the wind" to repair their cemetery ground. On Tuesday evening they held a levee in the largest hall in town, and made arrangements to receive telegraphic dispatches of the elections from all the States. They also provided oysters and other luxuries. An entrance fee of twenty-five cents was charged to all comers.

Holloway's Pills and Ointment.—Health and happiness are the twin-sisters which render existence pleasant and agreeable, for the enjoyment of life depends, in a great measure, on the state of the health. None need despair who suffer from dyspepsia, pulmonary affections, nervous disorders, ulcers, scrofula, piles, or debilitas, while these famous medicines offer not only an antidote but a radical cure. They have had the most marvellous success in the worst types of Disease which afflict the human race. Sold by all Druggists. n10—1wdaw

SURPRISING—It is actually surprising how soon our people have learned to prize that invaluable article known as Coe's Dyspepsia Cure. It certainly acts like magic, for it will cure the very worst cases of dyspepsia, and enable the patient, who has lived for years upon brain bread and the plainest food, to eat anything he chooses without fear of distress. It is considered the most valuable remedy known for all diseases of the stomach and bowels. n12—1w

Special Notices.

DR. SCHENCK'S
NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street**, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars

Dr. Schenck can explain to patients very correctly the stage of their disease, and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part; also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

REASONS WHY THE
AMERICAN WATCH,
MADE AT WALTHAM, MASS.,
IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "ancres," "lepines" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

HARPER'S
NEW MONTHLY MAGAZINE.

Critical Notices of the Press.

It is the foremost Magazine of the day. The fireside never had a more delightful companion, nor the million a more entertaining friend, than Harper's Magazine.—*Methodist Protestant (Baltimore)*

The most popular Monthly in the world.—*New York Observer.*

We must refer in terms of eulogy to the high tone and varied excellence of HARPER'S MAGAZINE—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the culture of the American People; and the popularity it has acquired is merited. Such a compendium fully 144 pages of reading matter, appropriately illustrated with good woodcuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—THURBER'S *Guide to American Literature, London.*

The volumes bound constitute of themselves a library of miscellaneous reading, such as cannot be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

CHILDISH WISDOM.

'Twas the hour of prayer, and the farmer stood,
With a thankful heart, and a lowly mind,
And prayed to the Author of every good,
That the Father of all would be very kind,
That the blessing each day might be renewed,
That every want might that relief,
And plenty for bread, for the hungry feed,
Be measured out by the merciful One,
To all who suffered beneath the sun.

The prayer concluded, the godly man
Went forth in peace to inspect his farm;
And by his side delighted ran,
Glowing with every healthful charm,
His little son, a sprightly boy,
Whose home was love, and his future life was joy;
And they rambled over the golden fields,
And the father said, "The harvest yields
A plentiful crop, my son, this year,
My barns are too small for the grain, I fear."

And they wandered on through row and row
Of plump sheaves, and at length the child,
With earnest look and a rosy glow
On his shining cheek, looked up and smiled,
And said, "My Father, do you not pray
For this poor and needy, day by day,
That God, the good, would the hungry feed?"
"I do my son." "Well, I think, as you plead"—
His eye waxed bright, for his soul shone through
It—
"That God, if he had your wheat, would do it."

☞ While General Johnson was marching with his men to Bristow Station, in the fall of 1863, he perceived one of his men up a persimmon tree, and called out to him:

"I say, there, what are you doing up there? Why an't you with your regiment?"

"I'm gettin' simmons, I am," replied the soldier.

"Persimmons, thunder! They are not ripe yet. They are not fit to eat."

"Yes, but, General," persisted the Confederate, "I'm trying to draw my stomach up to suit the size of my rations. If it stays like it is now I shall starve."

The General had nothing further to say, but rode on.

— "Say, boss, where's I gwine to sleep?" asked a stalwart freedman of the overseer, after he had been six weeks on the plantation. "Sleep! why, where in thunder have you been sleeping since I hired you?" "Well, boss, I's been sleepin' on top my a sick nigger since I's been here; but he's got well now, and won't stand dat kind of dirn foolishness no longer." A whole cabin was immediately awarded him.

The Mechanic Association's Reading Room and Exchange.

In Carr's Block, corner Pleasant and State sts, is now in its second year, and is regarded as permanently established in its profitable and convenient location; and the managers desire to invite public notice to it and the association, and to the advantages here offered to mechanics, and business men generally.

The Reading Room is well supplied with the Newspapers of the day, and is open from 7 o'clock A. M. to half-past 9 in the evening. Terms $3 per year. Free to all members of the Association and their apprentices—and strangers visiting the city are invited to visit it at any time.

The Association is open to membership of Mechanics and Manufacturers, of good character; and the advantages are great, at a very small expense.

Agents Wanted For
The Camp, the Battlefield, and the Hospital,
Or Lights and Shadows of the Great Rebellion.

There is a certain portion of the war that will never go into the regular histories, nor be embodied in romantic or poetic story, which is a very real part of it, and will, if preserved, convey to succeeding generations a better idea of the spirit of the conflict than many dry repository or careful narratives of events, and this part may be called the gossip, the fun, the pathos of the war. This illustrated volume shows us the leaders, the humor of the soldiers, the devotion of women, the bravery of men, the pluck of our heroes, the romance and hardships of the service.

The volume is profusely illustrated with over 100 engravings by the first artists, which are *really beautiful*; worthy of examination as specimens of the art. The book's contents include reminiscences of camp, picket, spy, scout, bivouac, siege, and battlefield adventures; thrilling feats of bravery, wit, dry, comical and ludicrous adventures, etc., etc.

Amusement as well as instruction may be found in every page, in graphic detail, brilliant wit and authentic history are skillfully interwoven in this work of literary art.

This work sells itself. The people are tired of dry details and partisan works, and want something humorous, romantic, and startling. Our agents are making from $100 to $200 per month, clear of all expenses. Send for our circular, giving particulars, and see our terms and proof of the above assertion. Address NATIONAL PUBLISHING CO., 118 Water Street, Boston, Mass.

WHAT I SAW.—As I was going up the street I saw Mrs. Petroleum with two barrels and a half of oil, made into a cloak, which hung in very graceful folds from her ample figure; on her head was nearly a half a barrel of the same fluid, and yet she held her head so high that one could almost imagine it was as empty as a blasted head of wheat.

Behind her I saw a woman who wore two mowing machines in the folds of her dress. A young girl was with her who had around her neck ten barrels of flour. A little further up street, I saw a lady with four revolvers at ten dollars a piece, swinging from her ears.

Lady number five was enrobed in fifty bales of shoddy, and she marched into the store as though she was at the head of a regiment, and with a voice such as a colonel might use when speaking to all his men, asked the clerk, "Do them the silks what you advertised for evening wear?"

With a solemn look and profound bow, he answered "them be, madam."

It was the last named lady who asked an acquaintance to write a list of books, with pretty bindings that she might "fill our new library in our new house."

As I turned to go out of the store, I met an old acquaintance, who, a few years before was my schoolmate, and whose last composition was given me to correct and the verb was spelt "bee"—but she had so many pairs of boots for a veil that she was afraid to bend her head, I suppose, for fear of some kind of a downfall.

As I went home pondering in my heart these words of the preacher—"Vanity, vanity, all is vanity."

A SUBSTITUTE FOR WIVES.—One of our southern exchanges has discovered "a substitute for wives" in a newly invented button, which has a wire attached to it to be inserted into the cloth like a cork-screw, and then pressed down flat, so as to form a ring to hold the button to its place. As this invention will enable every man to keep the buttons on his shirts himself it is calculated to do away with wives altogether.

—"I wish," said a son of Erin, "I could find the place where men don't die, that I might end my days there."

Important to the Afflicted.
DR. DOW continues to be consulted at his office, No 7 and 8 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate. Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotten, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all disease incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none standhigher in the profession than the celebrated DR DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow imports and has for sale, new article, called the FEMALE PURIFIER. Order by mail. Two for $2 and a red stamp.
Boston, April 7, 1866. eod&wly

Morning Chronicle.

Portsmouth N. H.

THURSDAY, NOVEMBER 15, 1866

☞ "The Fathers, where are they? and the Prophets, do they live forever? No, the prophets do not live *here* forever; and the fathers are out of our sight, though we believe they may still be watching over us and ministering to us. The Morning Star for this week comes to us bordered and divided with black rules, in sad array, reminding us that Brother Wm. Barr is no more among the tenants of earth. To us he has been a brother for forty years, (though we never met personally,) as we have read his Star, with very few interruptions, from the Morning when it rose, to the sunset of his life.

We have quoted from it and him often, in the pulpit and for the press, generally with approbation, always with respect; for as a writer and a man he strictly conformed to Paul's injunction, "Let no man despise thee?" Truly, no man did or could despise Wm. Barr,—though he might be hated or feared by some, he was loved by the many and respected by the whole.

Nor was this all. Though we never belonged to the same branch of the visible church, and though differing always in some views, yet we agreed a thousand times more then we differed, in all these years:—and without the least concert or even correspondence, we stood side by side in saying and doing very unpopular things against intemperance and slavery, and other current systems and practices of evil.

His work is done and well done: and he passed away, (in a manner to be desired rather than dreaded,) from full, active, useful life here, to the higher and nobler life above.

He was a benefactor to the Freewill Baptist churches;—a credit to the christian church in general; and in his life an honor to humanity.

U. T.

WASHINGTON NEWS.—Order No. 44, issued by Gen. Grant in July last, directs district and post commanders to arrest all persons who have been or may hereafter be charged with crimes and offenses against the officers, agents, citizens and inhabitants of the United States, and confine them in military custody until the proper judicial tribunals are willing and ready to try them. This order, it has been ascertained on inquiry, has not been revoked by either the President or Secretary of War, nor has Gen Grant, as has been stated, done so.—It is said, however, that the General has merely written a letter to Major Gen. Sheridan advising that it be not strictly enforced, now that the Civil Rights bill is in operation, as under its provisions the judicial tribunals are open to all complaints.

The above item is furnished to the Associated Press. But the Boston Advertiser's Washington correspondent says:—"The fact about the whole matter is, that Gen. Grant himself has declared that both the orders [referred to] are nullified by the President's peace proclamations."—And the Advertiser adds; "The effect of these proclamations is thus to leave Gen. Sheridan powerless to enforce the Civil Rights act."

☞ It is said the President has informed the Mississippi delegation that Davis is allowed every comfort and full freedom within the limits of Fortress Monroe, but he cannot consent to his release, and it is added: the Mississippi delegation have gone to Fortress Monroe to mingle their tears with Jeff's. [But we think they will mingle more wine than tears. Mr. Jeff. himself ought to be thankful that his life is spared, forfeited as it was by the horrible prisons and murder pens of the rotten confederacy over which he presided.]

☞ On Tuesday forenoon, about 4 o'clock, the day express train west on the Buffalo and Erie Railway was thrown off the track near Wesleyville, four miles east of Erie. Some 50 persons were injured and five killed. The killed are Dr. Wheeler of Milwaukee, Wis., his daughter-in-law and her child, Mr. Hunt, of Danville, N. Y., and a Mr. Harlan, residence not known. The accident was caused by the negligence of workmen who were engaged in repairing the track.

☞ It is said in Washington that "the 'policy' politicians are much excited over the telegraphic report of an editorial in the Chicago Times repudiating President Johnson and advocating negro suffrage. This will widen the existing breach between the Democratic and the Republican wings of the Bread and Butter brigade, which has already become so serious in several States that removals have been discontinued, the two wings not being able to unite in recommending candidates."

☞ A New York letter says that John Morrissey's old opponent, John C. Heenan, is seen upon the streets and his imposing *physique* attracts much attention. He is said to have amassed a fortune, and lives quite at his ease. So far from being in the last stage of consumption, he is larger than he ever was before. It is said that he is in training again, but this time for Congress.

☞ The Governor of Alabama kicks against the Constitutional Amendment, as sturdily as Johnson does.

GOSSIP FROM NEW YORK.

NEW YORK, Nov. 10, 1866.

Change is one of the first laws of Nature, nothing remaining absolutely at rest. The chemist and physiologist will demonstrate to all thinking men, that matter is constantly undergoing wonderful transformations. Organized and unorganized matter, vegetable and animal—all obey the same law. But a week or two ago the trees were beautiful with their autumn leaves; now they stand brown and naked. In large cities we see constant improvements being made—old buildings are being torn down every day to make room for new and more elegant structures. After each election, those interested in such things consult the returns to note the political change of the people. The recent heavy Democratic gains in New York indicate that there has been a vast alteration in the sentiments of the people of that city. There must be a cause for it, and we readily discover that the German element of our population do not like what they consider to be an interference with their social life, in the shape of an obnoxious excise law. Lager beer is the staff they lean upon for what little comfort they can get in this cold world; and when the law undertakes to knock that out from under them, they very naturally combine to overthrow the law. So uniting their forces with the Democrats, they rolled up such a majority as astonished people in general.

The loss of the Evening Star still continues to excite interest, as fresh incidents come to the knowledge of the public concerning it. Commodore C. K. Garrison, who is the President of the Company to which this ship belonged, takes a deep interest in all that pertains to the particulars. He is one of New York's most active, honest and philanthropic citizens; and who would never allow an unseaworthy vessel to leave her moorings with a crowd of helpless beings on board.

A very interesting meeting of the heirs to a princely estate has just been held at the Astor House. The descendants of Joseph Willson, of Yorkshire, England, claim to own the site upon which the flourishing city of Leeds now stands. The property is valued at $100,000,000, and as there are about one hundred descendants, if they succeed in getting property, they will have $1,000,000 each! They have formed an association called the "Ingraham." These people are sanguine of success, and intend to prosecute their claims to the utmost. They will be aided by capitalists in Leeds, who are anxious to find somebody that can give them a title to their property.

It would be much more sensible in these descendants of Joseph Willson, if they would spend what money they have to spare in purchasing tickets at the Crosby Art Association. Some one of them would be almost sure to draw the Opera House at Chicago, and the rest might become possessed of the finest gallery of oil paintings in America. As it is, they have no more prospect of success than the heirs of Anneke Jans to the estates of Trinity.

A new College, to be called the New York College of Dentistry, has just been opened in this city, and is already meeting with deserved success. It is located in the building at the corner of Fifth Avenue and Twenty-second street. The course will comprise two years of study and one of practice in the infirmary, at the end of which time a diploma is granted, if the student successfully passes the examination. This is the first college of the kind in New York, and supplies a want which has long been felt. The corps of professors comprises some of our most eminent dentists and doctors.

The New York College, formerly the Free Academy, has caused some bronze medals to be struck, which it proposes to give to the friends of the institution, and those who have distinguished themselves in the cause of education. The medal is two inches in diameter, and contains in *bas relief* the Genius of America, with the words, "Law, Light, Liberty."

Many of those who admire his poems will be sorry to learn that Mr. N. P. Willis is suffering from a stroke of the paralysis. He is very feeble, and has nearly lost the use of his lower limbs. He is completely wrecked, and cannot survive long. He is now the inmate of a private medical institution in New York city.

It will be remembered that a week or two since a company of fifty Polish exiles passed through this city on their way to Virginia, where they intended to settle. The citizens of New York, with a liberal hand, provided them with all the necessary seeds and implements, and gave them a free passage to Richmond. It is now stated that the attempt to secure a foreign emigration for the State of Virginia is foredoomed to failure. The lands sold to these Poles are absolutely worthless, long ago exhausted, and of no use to the cultivator; it is difficult to get at them, and the surroundings are dismal in the extreme. There is plenty of good land unoccupied in Virginia, and it was a great mistake to put these Poles on anything but the best. They will soon leave the "sacred soil" for some other State,—giving the most mournful accounts of Virginia lands.

The Fenian Sisters of New York, not to be behind their brothers, are making preparations for a grand ball, to be given in aid of the wives and families of Irish State prisoners. President Stephens has been seriously sick, but is slowly recovering from his indisposition. Vast amounts of money continue to flow into the Fenian treasury—one man having given $30,000.

TOUCHSTONE.

NEW HAMPSHIRE ITEMS.

—— At Concord, Nov. 13, John W. Witham, a notorious character, indicted for passing counterfeit money, was sentenced to the State Prison for two years.

—— Perley says, under date of Washington, Nov. 13, Generals J. B. Steedman of Ohio and Gordon Granger of New York had an interview with the President this afternoon to urge the appointment of Mr. Spooner as Commissioner of Internal Revenue in place of Mr. Rollins. They claim the appointment on geographical and political grounds; and although Secretary McCulloch protests against it, they hope to persuade the President that Mr. Rollins should be retained.

Communication.

CAPITAL PUNISHMENT.—At the commencement of the present term of the Supreme Judicial Court, Judge Doe delivered an able charge to the Grand Jury upon the subject of Capital Punishment. He did not deny that civil government had a right to take life, but offered strong and valid reasons that it is inexpedient, and alluded to the fact that there are less murders committed in the European nations, which have abolished capital punishment, than there were before. In his opinion, confinement in the State prison for life is more expedient than capital punishment. He also alluded to the fact of the difficulty in organizing a jury, in the present state of public opinion, that is willing to render a verdict of willful murder. Having many years since made a very thorough examination of this important subject, and submitted our views to the public consideration, we now fully coincide in the opinion of Judge Doe, except in one particular. We deny that civil government has a right to delegate authority to judicial tribunals to take life.—Whence does the government derive any authority to delegate to courts to inflict capital punishment? The only answer is—from the people. How do the people get it? It will be conceded that one, ten, or a hundred individuals, have not the right. If a hundred, a thousand or more individuals have not the right by merely being politically organized. Surely they cannot delegate it. But it is said that government is authorized by the declaration to Noah and his sons. It is not true. We have been accustomed to put a construction upon that declaration the reverse of its true meaning, which is a prophetic declaration, that those who shed blood will come to some dreadful end, or merited judgment. At that period of the world there were no organized courts and juries. The old Levitical laws were in accordance with a Theocratic government, which were all abrogated by the new dispensation. Now we aver, that the strangulation by hanging is the relic of a barbarous age, and while this penalty remains upon our statute books, it is a disgrace to a christian civilization, and is also inexpedient. Some of our sister States have abolished it. About half a century ago our laws enumerated some eight or ten crimes for which the penalty of death was inflicted. One step more should be taken. It is conceded that self-defence, and upon the same principle, the defence of the national life, is justifiable.

— The stories of Mrs. Jeff. Davis' poverty must be false, as we notice that she has made a present to the Washington and Lee Association of a valuable set of French jewels, to be disposed of for its benefit.

— Our thoughts, like the waters of the sea, when exhaled towards heaven, will lose all their bitterness and saltness, and sweeten into an amiable humanity, until they descend in gentle showers of love and kindness upon our fellow men.

— See that each hour's feelings and thoughts and actions are pure and true; then will your life be such. The wide pasture is but separate spears of grass; the sheeted bloom of the prairies but isolated flowers.

☞ Well informed "conservatives" at Washington say that as soon as Gov. Swann convenes the Maryland Legislature, it is intended to organize a new and extensive militia system in that State, to be officered by "conservatives" throughout. This is nothing more nor less than an attempt to organize the pro-slavery rebellion anew. But Gov. Swann is about five years too late, and his efforts of this kind will stamp condemnation on his Johnsonian conservative party in all States loyal to liberty.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, are found in the well known producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp, concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

Ayer's Cathartic Pills

ARE the most perfect purgative which we are able to produce or with which we think it can yet be made by anybody. Their effects have abundantly shown to the community how much more excellent the ordinary purgatives in use are. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and mildest that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reality of our statements, and others have sent us the assurance of their conviction that our preparations contribute immense y to the relief of our afflicted fellow-creatures.

The Agent below named is pleased to furnish gratis our American Almanac, containing directions for use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by DR. J. C. AYER & CO., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. o29—2m

CINCINNATI, October 1, 1863.

MESSRS. J. N. HARRIS & CO.—Gents: About one year ago I took a cold which settled on my lungs. A violent cough was the consequence, which increased with severity. I expectorated large quantities of pilegm and matter. During the last winter I became so reduced that I was confined to my bed. The disease was attended with cold sweats and night fevers. A diarrhœa set in. My friends thought I was in the last stage of Consumption, and could not possibly get well. I was recommended to try

PERRY DAVIS' PAIN KILLER.

Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and molasses, and a gill of hot water. Stir well together and drink hot. Repeat the dose every hour until relieved. If the pains be severe, bathe the bowels and back with the medicine, clear.

Fishermen, so often exposed to hurts by having their skin pierced with hooks and fins of fish, can be much relieved by bathing with a little Pain Killer as soon as the wound occurs; in this way the anguish is soon abated; bathe as often as once in five minutes, say three or four times, and you will seldom have any trouble. n1 dawlm

AMERICAN LIFE DROPS!
FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

BOSTON, MASS.

"ORRIN SKINNER & Co.—*Sirs*:—Notwithstanding my general prejudice against proprietary (or patent) medicine, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, etc. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. A friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."

The Life Drops are carefully prepared by

Smolander's Extract of BUCHU!

Is sold by all Apothecaries, everywhere, for only ONE DOLLAR. It is a *certain cure* for *Diseases of the Kidneys, Gravel, Rheumatism, Gout, Dropsy, Female Disorders, and General Debility*, arising from excesses of any kind. Read the following TESTIMONY OF A CITY MISSIONARY:

CHARLESTOWN, MASS., NOV. 25, 1865.

Messrs. BURLEIGH & ROGERS, Boston, Mass.:

I feel it a duty I owe to you, and to such of the community as are suffering as I have suffered, to make known through the medium of your advertisements the CURE that, through the blessing of God, you have wrought upon me by using SMOLANDER'S BUCHU. I had *suffered over one year* with *Kidney Disease* so bad I *could hardly walk*; I took four bottles of *Smolander's Buchu*, and it *cured me*. WILLIAM M. MELLEN,
City Missionary.

Local.

☞ The largest and finest specimen of the Owl that we have ever seen, we saw at J. C. Langley's provision store, corner of Daniel and Penhallow streets, yesterday. He was of the regular cat species, and as large as most pussies, and alive and kicking, and biting too if you got too near him. He was caught by the foot, in a trap, which a man in the country set to catch what he supposed was a mink, which had eaten a couple of ducks,—and in the morning, behold this nice looking chap! Mr. Langley had plenty of other birds there too—better game, no doubt, but none "game!" we dare say.

☞ The grand meteoric shower didn't take place on Tuesday night, but at half-ten o'clock a remarkably bright meteor shot across the southern firmament, from east to west, in a direct line, leaving a long, fiery trail behind; and at about 11 o'clock a similar meteor flashed through the northern heavens.

☞ The audience at the opening lecture before the Citizens' Lyceum was large, and the listeners were well pleased with Judge Russell's summing up of the causes, progress and termination of the rebellion, and the lessons taught thereby; while Mrs. Cary's singing afforded an agreeable finale.

S. J. COURT.—*Dear, J*—In the case of John H. Eaton, for stealing hens and clothing, the respondent was sentenced to one year's imprisonment in the county jail.

☞ Major Hackett sells a great amount of stock, farming tools, carriages, kitchen utensils, &c., at Sparhawk Place, on North Road, at 10 o'clock this morning.

At 1 o'clock, Mr. Wendell sells a horse, carriages, furniture, produce, &c., at the residence of the late Thos. Marden.

REV. WM. JENKS, D. D. died in Boston, Tuesday, in his 88th year. He was once near a settlement as pastor of the North Parish in Portsmouth,—but was settled at Bath, Me. He was afterwards a professor at Bowdoin College; and then a minister to the Seamen in Boston, and pastor of Green Street Church. He was the compiler and in a sense the author of the Comprehensive Commentary on the Scriptures; and was highly esteemed as an honorable upright man.

☞ Steamer Henry Von Phecci was burnt on the Mississippi, above Doneldsonville, about 3 o'clock Tuesday morning.—She had 3800 bales of cotton, which was set on fire by the *pipe* of a deck hand!—There were 101 passengers on board, including a number of ladies. One passenger was burnt, and "several drowned," but the larger number escaped to the shore with loss of all their baggage and clothing, many having only their night clothes as they rose from sleep. Boat and cargo a total loss:—by a pipe! But the *smoker* don't pay the piper. No: every insurer and owner of such property must be taxed to pay the pipe of this cloud-hopper.

☞ Judge Bartol of Maryland, sustains Gov. Swann's New Commissioners, and condemns Judge Bond's order.

☞ In New York, Madame Jumel's will has been set aside by a jury, on account of her insanity. She had $700,000 or $800,000. She was once the wife of Aaron Burr.

☞ On Tuesday General Grant went to Baltimore to witness the exhibition of horses, and is the guest of Judge Bond, who is the head of the universal suffrage party there.

☞ The Memphis Cotton Mills, at Memphis, Tenn., were destroyed by an accidental fire Tuesday night. Loss $250,000; insurance $90,000, chiefly in Hartford offices.

☞ On the night of October 14, when Wells, Fargo & Co.'s freight stage arrived at Crystal Lake, near the summit of the Sierras, a man who had been riding on the back part of the stage, walked into the house, and as approached the fire, fell to the floor and expired. A doctor who examined the body said the deceased had been frozen to death. No one knew who the person was; he had no baggage, and was only protected from the cold by a linen coat.

— Walter Brown has publicly challenged Hammill to a sculling match for $1000 a side, and to decide the championship of the United States. Hammill will be obliged to accept the challenge or resign the championship.

— It has been decided by competent authority that colored soldiers are entitled to the extra bounty under the act of July 28,1866, in all cases coming within the provisions of sections twelve and thirteen, and where they have received no bounty or a less bounty than one hundred dollars.

THE U. S. FLEET AT JAPAN.—Admiral Bell, on the flag-ship Hartford in the Yeddo Bay, writes, August 31, that with the Wyoming he went to Osaca, on the Jan, where he found thirteen foreign war vessels. The American Minister had reached Yeddo. The Wachusett was to go to Hong Kong, where the storeship Supply was discharging. All was well on the Hartford and the sick list on the Wachusett was decreasing. Admiral Bell co-operated with the British commander in suppressing the pirates on the coast of China. Twenty two junks were destroyed and ninety pirates killed, and the others captured after a severe conflict.

Special Notices.

DR. SCHENCK'S
NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street**, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars

Dr. Schenck can explain to patients very correctly the stage of their disease, and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part; also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healthy condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

REASONS WHY THE
AMERICAN WATCH,
MADE AT WALTHAM, MASS.,
IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. No jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have tried "ancros," "lepines" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

HARPER'S
NEW MONTHLY MAGAZINE.

Critical Notices of the Press.

It is the foremost Magazine of the day. The fireside never had a more delightful companion, nor the million a more enterprising friend, than Harper's Magazine.—*Methodist Protestant* (Baltimore).

The most popular Monthly in the world.—*New York Observer.*

We must refer in terms of eulogy to the high tone and varied excellence of HARPER'S MAGAZINE—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the culture of the American People; and the popularity it has acquired is merited. Each number contains fully 144 pages of reading-matter, appropriately illustrated with good woodcuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—FRURNER'S *Guide to American Literature, London.*

The volumes bound constitute of themselves a library of miscellaneous reading, such as cannot be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

THIS DAY
LARGE SALE OF
Stock, Farming Tools, &c.

Will be sold at Auction, at the "Sparhawk Place," so called, in Portsmouth, now occupied by CHAS. E. MYERS, on the road to Newington,

On Thursday, Nov. 15, at 10 o'clock A. M.,

the Stock and Farming Utensils on said place, consisting in part of

Four Superior Cows, Two Horses, Four Sheats, Lot of Poultry, One double seated Carriage, One two-seated Buggy,
One large Danvers-built Wagon, Horse Cart, Double Sleigh, Pair traverse Runners, 2 Plows, Harrow, Patent Horse Rake,
Keystone Cider Mill, Corn Sheller, Ox-Chains, Harnesses, Lot Lumber, Ladders,
and many other articles.
—Also,—
1 large Cooking Stove, Lot of Tin Ware, Milk Pails, Cans, &c.

The sale is ordered for the reason that the proprietor, having disposed of his estate, is about to remove into town; and as the articles are in good order, a fine opportunity is offered for farmers and others to make a purchase.

If the weather be stormy Thursday, the sale will take place on Friday following; and if that day is unpleasant, it will be held on the following Monday. The Stock and Utensils can be examined at any time previous to the sale, on application to Mr. Myers, on the premises.

SCATTER SEED.

BY GEORGE COOPER.

In the furrows of thy life,
Scatter seed!
Small may be thy spirit-field,
But a goodly crop 'twill yield;
Sow the kindly word and deed,
Scatter seed!

Sun and shower aid thee now,
Scatter seed!
Who can tell where grain may grow?
Winds are blowing to and fro,
Daily good thy simple creed,
Scatter seed!

Up! the morning flies away,
Scatter seed!
Hand of thine must never stay,
Heart must keep its pure desire;
While thy brothers faint and bleed
Scatter seed!

Though thy work should seem to fail,
Scatter seek!
Some may fall on stony ground;
Flower and blade are often found
In the cleft the wind hath rent,
Scatter seed!

Spring time always dawns for thee;
Scatter seed!
On thy spirit's golden store,
Stretching furrows more and more,
God will give to thee thy meed.
Scatter seed!

HE DID SAY IT.—The St. Paul Press of November 3d says:

"We notice in some Eastern journals a paragraph to the effect that Governor Seymour emphatically denies that he expressed himself, while in St. Paul, in favor of the Constitutional Amendment and negro suffrage. We know nothing of what Governor Seymour says in New York, but what he said here we know upon the most unimpeachable authority. And he said here that he was in favor of the Constitutional Amendment, that the South ought to accept it, and that it be was in a Southern State he would vote for negro suffrage."

☞ A few evenings since a stripling about four and a half feet high stopped a lady on the street in Lewiston, Me., and striking a ruffianly attitude, exclaimed, "Your money or your life." The lady took the youth by the ears, and bending him over the railing of the bridge laid a few stout blows on his haunches after the manner of the old nursery rhyme, and "went him off."

— A train on the New York Central Railroad was stopped several times one day last week, by a horse on board pulling the bell rope with his teeth.

— Providence papers are inquiring after the existence of the Rev. Samuel Chase Newman, who was a few years ago busy in soliciting subscriptions for the Blackstone Monument, and also for the funds for the same.

The Mechanic Association's Reading Room and Exchange.

In Carr's block, corner Pleasant and State sts., is now in its second year, and is regarded as permanently established in that favorable and convenient location; and the managers desire to invite public notice to it and the association, and to the advantages here offered to mechanics, and business men generally.

The Reading Room is well supplied with the Newspapers of the day, and is open from 9 o'clock A. M. to half-past 9 in the evening. Terms $3 per year. Free to all members of the Association and their apprentices—and strangers visiting the city are invited to visit it at any time.

The Association is open to membership of Mechanics and Manufacturers, of good character, and the advantages are great, at a very small expense.

The Old Established Hospital,
No. 5 Somerset Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually.

DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Somerset Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the best remedies for the diseases he offers inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.

In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubos, Ulcerated Throat, Sore Nose, Venereal Blotches, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are certainly under the control of Dr. Teller's Medicines, and have been tested in more than 20,000 cases annually, with immense Success.

Young Men addicted to secret habits, who have impaired their healths and destroyed the vigor of their minds, thus depriving themselves of the pleasures of Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, is almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of common sense that the delicacy of this subject will prevent a more minute description of the terrible disease.

DR. TELLER'S GREAT WORK!!

A book for everybody—startling disclosures. Dr. TELLER'S great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married Hop, by A Lecture on Love, Marriage, Early Marriage—a complete work on Midwifery. It contains hundreds of secrets, never before published—Warranted to be worth tithe times the amount asked for it. 25 cents, in stamps or postage stamps, inclosed, will secure a copy by return mail. Dr. Teller has devoted a lifetime to the cure of those diseases upon which

TO THE LADIES.

Dr. TELLER still remains the only Agency in America, for the sale of Dr. Vichoric Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached and far in advance of every other medicine—for stoppages, irregularities, and other obstructions in females.

CAUTION.—Married ladies can be placed in delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of females. Sent on the receipt of $1, (the price per box,) these Pills will be sent, by mail or express, to any part of the world, secure from curiosity or observation.

Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 2 P. M.

N. B.—Letters with fees can be sent in confidence by addressing a letter to Dr. J. Teller, inclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice. N. B.—No students or boys employed. Notice his address all letters to

Agents Wanted For
The Camp, the Battle-field, and the Hospital,
Or Light and Shadows of the Great Rebellion.

There is a certain portion of the war that will never go into the regular histories, nor be embodied in romance or poetry, which is a very real part of it, and will, if preserved, convey to succeeding generations a better idea of the spirit of the conflict than many dry reports or careful narratives of events, and this portrayal may be called the gossip, the fun, the pathos of the war. This illustrates the character of the leaders, the humor of the soldiers, the devotion of women, the bravery of men, the pluck of our heroes, the romance and hardships of the service.

The volume is profusely illustrated with over 100 engravings by the first artists, which are really beautiful; worthy of examination as specimens of the art. The book contains include reminiscences of camp, picket, spy, scout, bivouac, siege, and battlefield adventures; thrilling feats of bravery, wit, drollery, conceit and ludicrous adventures, etc., etc.

Amusement as well as instruction may be found in every page, as graphic, lively, brilliant, witty and authentic history are skillfully interwoven in this work of literary art.

This work sells itself. The people are tired of dry details of partisan controversy, for something humorous, romantic, and startling. Our agents are making from $100 to $200 per month, clear of all expenses. Send for circulars, giving particulars, and see our terms and proof of the above assertion. Address NATIONAL PUBLISHING CO., 118 Water Street, Boston, Mass.

10 1-2 Daniel Street,
(Over Miss Beal's Dry Goods Store.)

The Subscriber, formerly with S. F. COB, would inform his friends and former patrons of Mr Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Stools, Covers, Sheet Music, Flutinas, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.

PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.

PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.

Having made arrangements with Prof. W. K. Day, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M. Guild & Co. The superior merits of the former have too long been established to need any comment, but the latter suffice it to say that the sale of over fifty of them within the last five years by Mr. Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.

Every instrument carefully selected and fully warranted, under the inspection and approval of Prof Day. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive that care which has pleased gentlemen.

D. H. MONTGOMERY.

The Chronicle.

— Lord Shaftesbury has made a speech on church questions at Salisbury, Eng.—Ritualism he regarded as "full-blown, arrogant, insolent Popery in the country, and he held that "whether they build up Popery in the country, or whether they fostered neology or rationalism, the result would be to bring the mass of the people to one dead level of unbelief and infidelity."

— On Friday, an elderly gentleman named Sheldon, said to be a retired banker, from Albion, Mich., was found about noon, dead in his room at the Tremont House, at Suspension Bridge. On forcing the door open the room was found filled with gas, which, it appeared he had neglected to turn off.

— A society calling themselves Secularists, which is a numerous and active body in England, and whose creed is that our duties are best fulfilled and happiness secured by attending to the industrial and social duties of existence, have commenced to organize in New York city.

— General Garibaldi, on his late arrival in Florence, summed up his counsels to the crowd assembled beneath the windows of the villa at Bellosguardo by the following words, addressed to the female portion of the audience: "Italian mothers, Italian sisters, if you wish your sons and your brothers to be good patriots, never again enter a confessional."

— Lyons, France, is in distress, because the world no longer buys her figured silks. In 1858 she exported $17,000,000 worth, but in 1865 she exported but $2,000,000, and this year but $1,400,000. Her people, thrown out of employment on account of the caprice of fashion, are in a condition of extreme suffering.

— It is stated that during his recent eastern trip Gen. Howard obtained $25,000 toward the erection of a Trinitarian Congregational church in Washington. There has been a Unitarian Congregational church there for years, and a Presbyterian Church.

Morning Chronicle.

Portsmouth N. H.

FRIDAY, NOVEMBER 16, 1866.

WASHINGTON ITEMS.—Gen. Grant is reported to be sick.

A dispatch says the rumors of a change of the Commissioner of the Internal Revenue are untrue. No doubt the copper-Johnsons wished the change,—but somehow there was a hitch in the wires.

The Secretary of the Treasury is determined to contract the currency as fast as the law of Congress will allow. The revenue fund of fifty millions which the law authorized to be issued to redeem temporary loans and the ten millions allowed by Congress to be withdrawn within six months from the 12th of April have been retired, and also the first installment of four millions which the law provided might thereafter be withdrawn monthly, leaving about three hundred and eighty-six millions of Government legal tenders now in circulation.

There are by the recent census, 295,774 Indians in the United States.

☞ The carpenters of New York have held a meeting, at which they voted not to work after dark this winter, and to take a full hour for dinner. They will also claim the right to "knock off" work at four o'clock on Saturdays, and say they will agitate in favor of the eight hour system until it is adopted.—*Exchange.*

They have a perfect right to knock off at 11 o'clock, A. M. if they choose, and to keep Saturday for a Sabbath, as well as Sunday. We have thought that one Sabbath was about right for each week:—but the world moves.

☞ The Boston Herald's Washington letter of Nov. 14 says:—

The movement of leading Democratic journals in favor of impartial sugrage attracts great attention here. Several Southern men declared to-day that the South would accept impartial suffrage in preference to the Constitutional Amendment.

Gen. John Logan arrived to-night from the West, and met with an enthusiastic reception.

It was definitely settled to day by the President and Secretary McCulloch that Commissioner Rollins of the Internal Revenue Department should not be removed.

What will our coppery presses and talkers say? and Mrs. Grundy? The same correspondent says:—

Prominent friends of the Administration are urging the President to recommend the adoption by the Southern States of the Constitutional Amendment.

Poor fellows: they don't know what to recommend, and so urge the poor President to turn another summersault. If the blind lead the blind, both shall fall into the ditch.

WOOL-GROWERS' CONVENTION.—At Cleveland, O., Nov. 14, the National Wool-Growers' Convention was largely attended from every considerable wool growing district, and nearly every wool-growing State in the North. The discussion was very spirited and pointed to the necessity of the Senate passing the Tariff bill as it passed the House last summer.

☞ A Washington dispatch, speaking of Gen. Halpine's reception in Washington since his election as Register, says that General Grant was emphatic in his congratulations, expressing the hope that the good work of destroying the corrupt "Ring" of New York city politics, commenced in November, may be completed in the charter contest of next month, adding that he would regard such purification as of interest to the entire public life of our country.

☞ James Brown, a mulatto sailor, has been convicted, in the U. S. Circuit Court of Boston, of the murder of a shipmaster named James Foster, on the high seas: he is to be hanged Friday, March 15.

☞ They must be "slaying" dry goods down east. Twenty-two Boston "runners" are reported to have been stopping at one hotel in Lewiston, Me., last Sunday.

☞ Two more Fenians, Daniel Wheelan and John Quinn, have been sentenced to be hanged at Toronto.

☞ The Railroad Robbers, who threw off a Nashville train, it is said are arrested.

☞ The Mexican Liberals' capture of Oaxaca is confirmed.

— The late Prince Albert expressed the opinion that the Atlantic telegraph would be more likely to be successful if it were practicable to lay the cable in an elastic glass tube, and quoted from an ancient classic author (*Petronis Arbiter,*) to show that in those days the elasticity of glass was known.

— The Corpus Christi Advertiser states that over 1,000,000 pounds of wool have been shipped from that port in the last six months.

— The Norwich (Conn.) Bulletin calls the New York Herald the "only successful comic paper that this country has ever produced."

— A milkman somewhat resembles the whale that swallowed Jonah, for he takes a great *prophet* (profit) out of the water.

GOLD, Thursday, 143 7 8.

NEW HAMPSHIRE ITEMS.

—— Skating in Littleton, on several mornings last week.

—— Mr. Joseph Brown, jr., aged 65, died suddenly at Raymond, Nov. 8, of heart disease.

—— The buildings of the Hillsborough County Farm, at Goffstown, were destroyed by fire early Wednesday morning.

—— Peter Riley, a young Irishman, fell in the Manchester Mills, on Monday, injuring himself so badly that he died on Tuesday morning.

—— Edward Butler, a Frenchman, was arrested in Auburn, on Tuesday, for breaking into a house and stealing a clock, and committed to Exeter jail.

—— A party of ten left Nottingham on Thursday, for California, consisting of Benjamin P. Harvey and family, with Sylvester P. Harvey and wife.

—— An owl, weighing a little over four pounds and measuring four feet four inches, from tip to tip, was killed in Manchester, last week, when about to devour an eight pound turkey he had killed.

TEMPEST IN THE TEAPOT.—The Washington correspondent of the Boston Advertiser says, on Wednesday:

The National Union Executive Committee held a stormy session this morning. The previous attachment of their office furniture was the least of their troubles, as they found themselves $30,000 in debt and nothing to show for it except radical gains. There was much excitement and wrangling among those present, and the meeting broke up in disgust. The President and Mr. Stanbery were affirmed to be still in hearty sympathy with them, but it was declared that the other members of the cabinet had been somewhat unreliable since the elections.

The gentlemen of the Soldier's and Sailors' Union of that city, who have issued a call for a mass meeting of former soldiers there, on the 30th inst., are in receipt of several letters expressive of sympathy with the movement. They are also in receipt of some from notorious copperheads, denouncing it in a most violent manner. The call is not likely to bring together any great number of men, unless the signs are very much at fault.

"DUTCH AUCTION."—The Commissioner on Internal Revenue on Friday, received a telegram from North Carolina, asking information as to whether sales at "Dutch auction" are taxable. This inquiry occasioned some astonishment, no person connected with the Bureau being aware that any material difference existed between "Dutch" auctions and any other auctions. A telegram was dispatched to North Carolina inquiring the difference. In due time an answer was received, in which the person quoted the definition as found in Webster's Dictionary: "Dutch auction; the public offer of property at a price beyond its value, then gradually lowering the price till some one accepts it as purchaser." Commissioner Rollins decided that under the provisions of internal revenue law sales by such auctions are clearly liable to tax.

METEORS IN ENGLAND.—The N. Y. Herald's Greenwich (England) special says that twelve thousand meteors and falling stars were discernable in London on Tuesday night and Wednesday morning. The display was remarkable brilliant, some of the meteors exceeding in size stars of the first magnitude and appearing in all the varied colors of the rainbow.

☞ A Chicago dispatch of Nov. 13 says:—The attempt of the Chicago Times to commit the Democracy of the North-West, of which it has hitherto been the organ, to negro suffrage, is meeting with strong resistance by the rank and file, although the leaders sustain the paper in its course. The agitation promises to be one of the most bitter ever known in Democratic history.

— No man has a right to do as he pleases except when he pleases to do right.

— "You can do anything if you only save patience to wait," said an old fogy to his son. "Water may be carried in a sieve if you can wait." "How long?" queried the son, an impudent and impatient Young America, who could hardly wait for the old man's obituary. "Till it freezes."

— The new railroad depot at Cleveland, Ohio, built of sandstone, was opened on the 10th inst. It is 603 feet in length and 180 in breadth, covering an area of more than two and a half miles.

— Smith & Wesson of Springfield, the pistol makers, have nearly completed a case of pistols, forty in number, of the most skillful workmanship and elegant ornamenting, for the Paris exposition. Three of them will cost $500 each.

— The people's Constitutional Amendments have been aptly called a ladder of five steps, upon which the South was invited to climb to the platform of the Union. But the Loyalists are not bound to stand holding that ladder forever, waiting for the rebels to use it. When tired of waiting and holding, the people will move on, leaving behind one single and permanent step—that of Impartial Suffrage.—*Tribune.*

— Mr. Andrew H. Locke, of the firm of Locke & Colby, manufacturers of cotton batting at Amesbury, met with a sad misfortune on Saturday last. A cotton picker, in operation at their mill, had become clogged, and while removing the cotton from the feed roll, his left hand was caught in the machine, and in an instant was severed from his arm.

Correspondence of the Chronicle.

EXETER, Nov. 14, 1866.

Dear Chroniclers:—In my communication of last week I announced to you that we were anticipating an exciting town meeting on the subject of the Robinson Female Seminary in this town, provided for in the will of a former resident, who bequeathed to us the pretty sum of $200,000 and upward, for its maintenance. Well, we had the meeting last Saturday afternoon, and all our anticipations of excitement were fully realized. The Town Hall was packed full; a printed report of the committee to consider the subject of the character of the institution and the management thereof and of the fund was distributed, and that of the committee on location read. A majority of the latter committee—six of the eleven—recommended Prospect Hill as the site; the other five recommending the "Thing lot." Prospect Hill is a very pleasant place, admirably adapted for the purpose of a seminary, and the owners of the land generally agree to convey it without price for the purpose; but the objection to it is that it is at an extreme (the eastern) end of the town. The "Thing lot" is in the rear of Front street, about midway between the Town Hall and the depot; the greatest objection to which is its proximity to some wool-dressing establishments, which emit an odor not dissimilar to the slaughter houses about which your citizens have heretofore made much complaint. The question of location was the only one discussed; but on this the contest was as animated as some of those you used to have in old Jefferson Hall before Portsmouth became a city. For hours the conflict raged, the speakers generally being more earnest than eloquent, and then an adjournment for a fortnight was carried—the Seminary project not having been advanced a tittle; and such is the excited state of feeling at present that it may be doubted whether the next meeting will be more effective.

Did you get up this morning to witness the meteoric shower? I didn't. I awoke during "the small hours," and Curiosity urged me to arise, while Indolence protested. I sleptagain, and in a dream saw such a magnificent celestial display as never greeted my waking vision; and when I read in the morning papers that the star-gazers who had spent all night in elevated observatories had only seen a dozen or two falling stars, I credited a grand sight and several hours of refreshing repose to my constant adviser, Laziness. Yours, Ex.

WAR POETRY OF THE SOUTH. Edited by W. Gilmore Simms, L. D. of South Carolina. One volume, 12mo. 488. Cloth $2.50. Richardson & Co., publishers, 540 Broadway, New York.

This is a contribution to our war literature to which we have heretofore alluded. It is got up in an elegant style, and a perusal of it will give another clue as to the spirit of the people of the South in the late struggle. Many of the poems are of great merit, as poems, and some of them (as "All quiet along the Potomac to night," "The Rifleman's Fancy Shot," and "Somebody's Darling,") have been extensively circulated in Northern papers. Sold by subscription only.

☞ On Wednesday afternoon in the Boston Municipal Court, a young man named Daniel Bragg plead guilty of stealing a ride with a team belonging to Mr. Joel Shaw, and was sentenced to two months in the House of Correction. It appears that Bragg took the horse early Tuesday evening, and from the appearance of the animal he had been driven hard and a considerable distance. Bragg, either from the effects of liquor or some other cause, fell asleep in the vehicle, in which condition the horse drew him into the yard of his owner about two o'clock Wednesday morning, where he was secured.

☞ Cattle and hogs have fallen so much in New York, the past week, that the drovers will hardly get enough to pay their cost at the West, and will therefore lose all their expense on transportation account. The market was over-supplied, and the West still teems with abundance. The butchers are learning of the decline, and we hope soon to hear that the news has reached the retailers, to the advantage of their customers, who have had good reasons for crying out against the high prices.—*Trav.*

☞ The following is a sensation item from London, Nov. 13.—Spite of many denials the rumors of a Prusso-Russian alliance continue to prevail. It is even said that the treaty provides for the admission of the United States into the alliance with a sovereign establishment in the Mediterranean sea, and guaranties to that nation highly favorable commercial advantages.

☞ Hon. John A Bingham of Ohio, is said to be preparing articles of impeachment against the President.

PROCLAMATION.
TO THE PUBLIC GENERALLY.
WHEREAS, Being armed and equipped with such a stock of Fall and Winter Dry Goods as cannot fail to strike the beholder with bewildering amazement, and please the fancy of all lovers of the Beautiful; and Whereas, Having entered the field for the Fall and Winter Campaign of Trade, we are determined to make it not entirely vanquish the great system of monstrous prices and murderous profits, which has settled upon our whole country like a mighty incubus—sinking the poor into deeper depths of poverty, and dragging the affluent down, and even driving many to distraction—and Whereas, We have taken unusual pains in the selection of our New stock, and have purchased it all at the Lowest Cash Prices, which will enable us to meet and accommodate the purchaser at the lowest possible figures: Therefore, We, A. Q. LEACH & Co., do hereby issue this our proclamation, to dispose of our Stock upon such terms as must give satisfaction.
In witness whereof we have this, the 16th day of October, A. D. 1866, and of the independence of the United States of America the ninetieth year, hereunto placed our hands and caused the Great Seal to be affixed.

Ayer's Cathartic Pills
ARE the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are so safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of the system, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every-day complaints of everybody, but all dangerous and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immense y to the relief of our afflicted, suffering fellow men.
The Agent below named is prepared to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:
Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul Stomach, Nausea, Indigestion, Dysentery, Ulceration of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.
Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S, and take no other. The sick want the best aid there is for them, and they should have it.
Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. o29—2m

DR. P. MEREDITH, Dentist, office No. 132 West Sixth Street, states as follows:
CINCINNATI, October 1, 1863.
MESSRS. J. N. HARRIS & CO.—Gents: About one year ago I took a cold which settled on my lungs. A violent cough was the consequence, which increased with severity. I expectorated large quantities of phlegm and matter. During the last winter I became so reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A diarrhœa set in. My friends thought I was in the last stage of Consumption, and could not possibly get well. I was recommended to try
ALLEN'S LUNG BALSAM.
The formula was shown to me, which induced me to give it a trial, and I will only add that my cough is entirely cured, and I am now able to attend to my business as usual. Yours respectfully, P. MEREDITH.

CONTAGIOUS DISEASES.—Water must be adapted to the nature of the fish, or there will be no increase; the soil must be adapted to the seed, or there will be small returns; and the human body must contain impurities, or there will be no sickness. The man whose bowels and blood have been cleansed by a few
BRANDRETH'S PILLS
may walk through infected dist ncts without fear. "The life of the flesh is in the blood." To secure health we must USE BRANDRETH'S PILLS, because we cannot be sick but from unhealthy accumulations in the bowels or the blood, which Brandreth's Pills remove; the medicine is a double-lying nature, and is safe, and has STOOD THE TEST OF TIME. PERRY DAVIS' PAIN KILLER.
Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and molasses, and a gill of hot water. Stir well together and drink hot. Repeat the dose every hour until relieved. If the pains be severe, bathe the bowels and back with the medicine, clear.
Fishermen, so often exposed to hurts by having their skin pierced with hooks and flue of fish, can be much relieved by bathing with a little Pain Killer as soon as the accident occurs; in this way the anguish is soon stayed; bathe a little at first at once in five minutes, say three or four times, and you will seldom have any trouble. nl dawlm

Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES
These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Decoctions. Being liquid, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speaks in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all stoppages of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found in the neatly folded wrapped each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**
Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.00 per bottle.**
Sold by Druggists everywhere.

AMERICAN LIFE DROPS!
FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For the years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

BOSTON, Mass.

"ORRIN SKINNER & CO.—Sirs:—Notwithstanding my general prejudice against proprietary (or patent) medicine, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Hoarseness, were without, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."

The Life Drops are carefully prepared by

S. J. COURT—*Doe, J.*—On Wednesday morning the case J. L. Pickering vs. Phœbe P. Pendexter and the heirs of the late Judge Pickering was put on trial. This suit was brought to recover a part of the Winthrop Pickering farm in Newington. The plaintiff claims as heir-at-law of his father one-fourth of the farm he left. The defence is that the share of the plaintiff was purchased by the late Winthrop Pickering in 1835. Hatch and Rollins for plaintiff; Christie and Hacker for defendants.

No other case will be tried this week, Judge Doe goes to Concord on Monday to try cases there in which Judge Bartlett does not sit, and who will take Judge Doe's place here.

POLICE COURT, Nov. 15.—Kleptomania is a mild term applied to a desire to possess oneself of that which rightfully belongs to another, without any preliminaries of purchase. Vulgar people generally designate such a transfer as theft. Charles Thompson, a kleptomaniac, who possessed himself of a buffalo robe from the vehicle of Haven L. Scott, was arrested by City Marshal Johnson and Officer Pickering. Judge Odell prescribed the following regimen as calculated to free Thompson's system from this obliquity of moral vision:

County Jail—30 days;
Cost—$5 74;
To pay owner of Robe—$20, being treble its value, less the value of robe returned.

Michael O'Connell, for being drunk, was fined $3 and costs $3 86.

☞ The failure of the shower of stars at the appointed time has called forth a shower of anecdotes, verbal and printed, relating to meteoric displays, past and present.

In 1833, a man residing not many miles from here, was aroused by the grand display, and made a little nervous thereby, but consoled his family by remarking: "I'll go out and see if the morning star has gone; if *that's* gone, it is all over with us."

A gentleman, deeply read in most matters, was questioned a day or two since as to his theory in regard to meteors, and put a stop to further inquiries by saying: "I find enough to do to attend to my own business; those things are a part of God's."

☞ The Musical Festival at Exeter next week offers a fine opportunity for a good social time; and we don't see what need prevent Portsmouth being well represented on the occasion. The preparations there are very complete, and the only thing not agreeable is the railroad arrangement, which, to be sure, are no more than usual, but then they are about as bad as they can be all the time. How long? oh how long?

☞ Mr. John Stokell has on the shambles at his provision store, this week, one of the largest and handsomest yoke of cattle which have been dressed in this market for a long while. Mr. Stokell is always as well pleased to provide well for his customers' larders, as they are to have him do so.

☞ Rear Admiral Theodorus Bailey having seen 45 years service after the age of sixteen, goes on the retired list under the act of Congress, being only 62 years of age. He continues in active service as Commandant of Portsmouth Yard, the change merely affecting his position on the Yard list.

☞ Newcomb & Arlington's Minstrels appear at the Temple this evening. Besides Newcomb (himself one of the best ethiopian delinators,) they have Hernandez, Billy Emerson, and other attractions on their bill.

☞ See advertisement of Dr. Swift, magnetic and electric physician, with references.

— A man named Joseph H. Beckworth, living at Pittsfield, Mass., was supposed to be dead, and his mother claimed a pension, substantiating her claim by the evidence of a comrade that he had seen him buried. The reported dead man recently returned, stating that he had been in a rebel prison, and that ill health had prevented him from returning before.

— In the colored State Convention, recently held at Indianapolis, the delegates, besides taking measures to procure the adoption of universal suffrage, adopted a resolution pledging themselves to make efforts to obtain subscriptions to the stock of a National Bank, to be controlled entirely by colored men.

— The Chattanooga American Union says: "The corn crop is turning out much better than was hoped for by the most sanguine. Up the river farmers are jubilant over splendid crops of corn, and the hay crop has been large."

— The President has just removed from office the brother-in-law of Senator Sumner, Dr. Hastings, surgeon in charge of the Marine Hospital in San Francisco. The successor is a Dr. Tuttle, partisan of the President.

— The Nashville Dispatch says: Gen. Woodfolk, of Kentucky, has realized, as we are informed, no less than sixty thousand dollars from the produce of one mare and her descendants.

— Prentice is recovering. He says: If you would remedy dyspepsia—diet. If you would remedy gray hair—dye it.

DR. SCHENCK'S
NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of No. 35 Hanover Street, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease, and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part; also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint.

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

REASONS WHY THE
AMERICAN WATCH,
MADE AT WALTHAM, MASS.,
IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. No jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effective-ness,) and therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "angres," "lepines" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for less money than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respected dealers. All persons selling counterfeits will be prosecuted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in cost and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few vacancies, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

WANTED—A HEART!

I want, ah, me! I want a heart,
But not a heart for love—
To feel the smart of Cupid's dart,
And also rhyme with dove.

I do not want a manly heart,
With high desires to glow,
Or fuel what friendship can impart,
And sympathy bestow.

The heart for which I long is none
Of man's—nor yet of maid's:
I only want a little one
To trump that trick in spades.

THE WOOLEN BUSINESS.—The Woolen business, which for the last year has been very poor, is now, says the Springfield Republican, worse than ever. Most of the mills are running at a loss. A Berkshire manufacturer is forced to sell an excellent article of broadcloth for $2.50 a yard, for which he formerly got $4, and the raw wool for which costs him all he gets for the cloth. The smaller mills in Berkshire are ornamenting their establishments with mortgages, and the business is every way in a sorry condition. No other important manufacturing interest in the country is in such prostrate, perilous state. Though there is a high protective tariff on cloths, its virtue is neutralized by high tariffs on wools, making the raw materials very expensive, and the high prices of labor and all other materials in the manufacture, as contrasted with the low price in gold by which the foreign production is measured in our markets.

A BIG PICKEREL.—A pickerel, the largest we ever saw, was caught on Friday last, at Kimball's pond, West Amsbury, by Wm. C. Johnson, Esq. It was over four feet long, nearly two feet round, and weighed 59 pounds. It was as handsome a pickerel and as finely meated as has been drawn from the water this season. Mr. Johnson would do much for our amateur fishermen, if they would learn of him.—A comparative stranger to our ponds and rivers, but the most expert fisherman ever known in these parts, has been drawn from the waters where the oldest inhabitant never thought of casting line, the most delicious fishes; and says that he does not find a pond or stream which is not tolerably stocked.—*Newburyport Herald.*

MADAME ZADOC PORTER'S
Curative Cough Balsam,
PRICE, 25 AND 50 CENTS PER BOTTLE.
The Best, Cheapest, and Most effectual Remedy for Coughs, Colds, &c. the World has ever produced.
Purely Vegetable, contains no MINERALS, or other DELETERIOUS DRUGS.

THE CURATIVE BALSAM is warranted, if used according to Directions, to cure in all cases, Coughs, Colds, Croup, Whooping Cough, Asthma, and all affections of the Throat and Lungs.
Madame Zadoc Porter's Infallible Purely Vegetable Expectorant, prepared with great care and scientific skill, from a combination of the best remedies the vegetable kingdom affords.
Its remedial qualities are based on its power to assist the healthy and vigorous circulation of the Blood through the Lungs.
It relieves the muscles and assists the skin to perform the duties of regulating the heat of the system, and in gently throwing off the waste substances from the surface of the body.
It loosens the phlegm, increases free spitting, and will be found very agreeable to the taste, as it is not a violent remedy but emollient, warming, searching and effective; can be taken by the oldest person or youngest child.
If you have a Cough, if your child is sick, do not fail to give the Balsam a trial. Thousands who now praise it would say that it was well brought to their notice, if they only knew, that they may also be cured by its use.
The subscriber will stand to this, will stand or prove to be worth to him the cost of a bottle.
Sold by all Druggists.

Agents Wanted For
The Camp, the Battlefield, and the Hospital,
Or Lights and Shadows of the Great Rebellion.
There is a certain portion of the war that will never go into the regular histories, nor be embodied in romance or poetry, which is a very real part of it, and will, if preserved, convey to succeeding generations a better idea of the spirit of the conflict than many dry reports or careful narratives of events, and this part may be called the gossip, the fun, the pathos of the war. This illustrates the character of the leaders, the humor of the soldiers, the devotion of women, the bravery of men, the patriotic fire of our heroes, the romance and hardships of the service.
The volume is profusely illustrated with over 100 engravings, the finest work, which are really *beautiful;* worthy of examination as specimens of the art. The book's contents include reminiscences of camps, picket, rifle pits, bivouacs, siege, and battlefield adventures; thrilling feats of bravery, skill, drollery, comical and ludicrous adventures, etc.
Amusement as well as instruction may be found in every page, as graphic detail, brilliant wit and authentic history are skillfully interwoven in this work of literary art.
This work sells itself. The people are tired of dry detailed partisan works, and want something humorous, romantic, and stirring. Our agents are making from $100 to $200 per month, clear of all expenses. Send for circulars, giving particulars, and receive full details of the above assertion. Address NATIONAL PUBLISHING CO., 118 Water Street, Boston, Mass.

AMERICAN AND FOREIGN PATENTS.
B. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1836.
78 State Street, opposite Kilby Street, BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on reasonable terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of patents or inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy,* and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. B. H. Eddy has made for me HUNDREDS of applications, on all but ONE of which patents have been granted, and that is *now pending.* Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be secure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twenty* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor,* by the Commissioner of Patents. B. H. EDDY.

NOW OPEN!
MONTGOMERY'S
MUSIC, PICTURE FRAME, AND VARIETY STORE,
10 1-2 Daniel Street,
(Over Miss Beall's Dry Goods Store.)
The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Melodeons, Harmoniums, Organs, Melodeons, Stools, Covers, Sheet Music, Flutinas, Accordeons, Stringed Instruments, Pictures, Frames, Picture Frames, &c.
PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.
PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.
Having made arrangements with Prof W. K. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M. Guild & Co. The superior merits of the former have too long been established to need any comments. Of the latter suffice it to say that the sale of over fifty of them within the last five years by Mr Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on reasonable terms.
Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof. Day. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman. D. H. MONTGOMERY.

VOL. XXIX. PORTSMOUTH, N. H. SATURDAY, NOVEMBER 17, 1866. No. 118

The Chronicle.

— The race for wealth—Jews.

— Edwin Forrest has returned from California, rejuvenated and richer. It is announced that he will not act again.

— The retiring editor of the Circleville (Ohio) Union says that during thirty-four years of continual editorial service he wrote eight thousand columns, and all for victuals and clothes.

— The appointment of Hon. Frederick T. Frelinghuysen, Republican, by the Governor of New Jersey, to fill the vacancy in the U. S. Senate, occasioned by the death of Hon. Wm. Wright, will make that body stand at the approaching session thirty-eight Republicans to fourteen Democrats and Conservatives; a Republican majority of ten more than two thirds.

— A young lady of Quincy, Ill., who had been ill for some time, died, as was supposed, a few days ago, was coffined, and the body placed in the family vault. A day or two afterwards moans were heard proceeding from the tomb, which was broken open, and the young lady found alive. She will probably recover.

— An officer of the U. S. Government informs the Petersburg Index that the contractors employed to inter the dead bodies of soldiers in that vicinity are in the habit of dividing the bodies into four parts, so as to get quadruple pay for their work. The government allows $8 for each body buried, but by the unique system of the contractors they get $32 each.

— General Beauregard has written a letter emphatically contradicting a story that he had refused to do transportation over his railroad for Yankees, and says: "When I surrendered with the Confederate forces at Greensboro', N. C., I buried the hatchet, not to be unburied again, except in defence of the country and of its Constitutional Government."

The Mechanic Association's Reading Room and Exchange,
In Carr's Block, corner Pleasant and State sts., is now in its second year, and is regarded as permanently established in that favorable and convenient location; and the managers desire to invite public notice to it and the description and the advantages here offered to mechanics, and business men generally.
The reading Room is well supplied with the Newspapers of the day, and is open from 7 o'clk A. M. to half-past 9 in the evening. Terms $3 per year. Free to all members of the Association and their apprentices—and strangers visiting the city are invited to visit it at any time.
The association is open to membership of Mechanics and Manufacturers, of good character; and the advantages are great, at a very small expense. B. M. PARKHURST, Secretary.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, No. 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies, that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHEA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, rendering the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to any part of the country, with full directions for using, and the treatment of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three cts stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stand higher in the profession than the celebrated DR DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Morning Chronicle.

Portsmouth N. H.

SATURDAY, NOVEMBER 17, 1866.

☞ The Boston Advertiser's Washington special of Thursday says:

The difficulty which resulted in the breaking up of the National Union Executive Committee meeting arose on the question of taxing the clerks in the departments here, to pay the $30,000 which the committee owe Rittenhouse, Fowler & Co. A member of the committee left for the North today, to raise funds wherewith to pay the debt.

[The reader understands, we suppose, the above mentioned committee is the National copper-Johnson's committee, that was going to reconstruct the government with Johnson for a mudsill and the ex-rebels for the pillars.]

☞ The Nashua Gazette says that Morissey the prize fighter is a Johnson-Republican, and never was a Democrat. It is rather our impression, however, that he was elected by the votes of the Democratic party, and that he will be very likely to vote with them in Congress.

"'Tis strange such difference there should be,
'Twixt tweedle dum and tweedle-dee."

WASHINGTON ITEMS, Nov. 16.—Gen. Logan, who is in Washington, announces his determination to do all in his power to induce the impeachment of the President.

Chief Justice Chase called at the White House Thursday evening and was closeted with the President for an hour. Messrs. Seward and McCulloch were afterwards present.

A long consultation was had, which is believed to have been on a most important subject, based upon an effort now making by the leading men of all parties to insure the President, in consideration of a general amnesty, to induce the people of the South to accept impartial suffrage with a qualification of either intelligence or property.—Prominent Southern men are co-operating.

A Cabinet minister stated Thursday that the question of recommending the South to adopt the Constitutional amendment has never been considered in the Cabinet, as reported, nor even proposed.

[The reader may take his choice of these views.]

WASHINGTON ITEMS.—Several prominent Southern politicians are urging President Johnson to issue a general proclamation of amnesty before the meeting of Congress.

Secretary Stanton has, through Mr. Fendall, his counsel, entered the plea of Not Guilty in the suit for trespass, brought against him in the Circuit Court by W. T. Smithson, a banker in Washington, who was sent to the Old Capitol during the war.

☞ An explosion of fire-damp occurred in a Colliery near Durham, England, about 5 o'clock on the morning of Oct. 31, by which twenty-five men and boys were killed. Three men were found and brought up alive.

☞ The Washington correspondent of the Cincinnati Gazette says:

Strange as it may appear, our Secretary of State still clings to the idea that he will be the Conservative candidate for the next Presidency. Said an intimate friend of Mr. Seward to him a few days ago, "It really seems as if all indications were pointing to your nomination in sixty-eight." To this the Secretary replied, earnestly, "There is not a particle of doubt of it, sir. I shall certainly be the candidate."

☞ There is a schism in the Universalist church and society in Belfast, Me. Rev. Mr. Hayford, a few Sabbaths ago, preached a sermon in support of the doctrine of Spiritualism, avowing his belief in that doctrine, and declaring that he must thenceforth preach it. This was not satisfatory to a large portion of the leading members of the society, and they voted, nine to one, in opposition to the reverend gentleman's course. It is expected that he will ask a dismissal.

☞ Perley telegraphs from Washington Friday, to the Boston Journal, as follows:—

President Johnson has conferred with Chief Justice Chase, the members of the Cabinet and several prominent politicians from different sections of the country on a proposition for a settlement of our national troubles by the adoption of impartial suffrage at the South, based on education or on property, or on both, and by the proclamation of a general amnesty. It is virtually the proposition introduced into the United States Senate last winter by Senator Stewart of Nevada.

☞ The senior editor of the Macon (Ga.) Citizen, who has been making some observations at the North, says in a letter to his paper:

"With reference to the action of the South on the Constitutional Amendment to be submitted to their consideration, I have this to say, as my opinion—not my wish—that we will have to swallow the bitter draught to the dregs, or content ourselves with taxation without representation for perhaps years to come! With this view of the subject—without intending to advocate the adoption of the Amendment—it were perhaps best to let things take their course."

GOLD, Friday, 142 3-4.

NEW HAMPSHIRE ITEMS.

—— J. D. Johnson of Concord, raised 113 potatoes in one hill, the lot weighing 20 pounds. He planted but one potatoe, and thinks it difficult to beat.

—— Dr. Tebbets, the advertising druggist, died at Manchester, Wednesday night, aged 48. The doctors called his complaint "lead poison,"—and they would do a favor to the public, by telling us, if they know, how he became poisoned.

—— Pembroke Academy has received during the past year a legacy of $2000 from John C. Knox, [for several years one of its trustees, and one of $1000 from the widow of Jeremiah H. Wilkins. The income of the latter is to be used in paying the tuition of poor girls of Pembroke who are of good moral character.

—— A Concord letter to the Boston Journal, reports that the Coalition of Policymen and Democrats in this State, has been voluntarily abandoned by both parties. We do not vouch for the truth of the report, nor do we think it of much consequence, true or false. Johnson stock is not in high favor with any party in this State, just now—and were Mr. J. impeached before Christmas, he would hardly be remembered here next March. Aside from his power to give office, he has only a very few friends in the State, and those are philanthropists who pity his insanity.

—— At Concord, Thursday evening, considerable excitement was caused by a fire breaking out in the north range of buildings formerly occupied by L. Downing & Sons, for a coach manufactory, which was with great exertions saved from the flames last Saturday evening. The fire was extinguished after burning a store house building containing some carriages which were saved. The property belonged to James R. Hill, and was insured. Both fires are supposed to have been the work of incendiaries.

—— James F. Haggett, employed as watchman of the railroad bridge at Hooksett, met with a serious accident Wednesday evening, about 11 o'clock. As the Vermont Central freight train was passing through the bridge he got upon the engine to ride over to the station. In getting off he made a misstep and fell between the cars and the platform of the station, the car wheels crushing off his right arm, which had to suffer another amputation near the shoulder.

HIGH CHARGES.—A paragraph went round among the papers a few days ago, charging that at a first class watering place on the coast of New Hampshire a landlord charged a gentleman $2200 for eleven days' board for his family—eight persons in all. This has brought out the following note:

"OCEAN HOUSE, RYE BEACH, N. H.,
Nov. 14, 1866.

In justice to ourselves as proprietors of the only first class watering place on the coast of New Hampshire, we wish to contradict the above statement as a malic ous lie. The party referred to stopped at our house, as stated above. When the gentleman left, he called for and paid his bill, which amounted to $254.33, making threats at the time that he would injure us all he could. We defy him or any one else to show that any such ridiculous demand was ever made. As soon as sufficient proofs of this gentleman's assertions are gathered, we shall at once commence legal proceedings against him. JOB JENNESS & SON."

[Papers please copy.]

MARKETS IN NEW YORK.—The N. Y. Tribune of the 15th, says: "The New York market has never, hitherto, been so completely overrun with cattle, hogs and sheep. They are poured in upon us from all parts of the West, where the supply seems to be inexhaustible; and both growers and dealers are anxious to sell at present prices, which are gradually setting to a lower basis.

Turkeys were never before so abundant throughout the country. Small poultry is also in full supply. Present high prices, therefore, are purely speculative, and must eventually break down.

The quantity of butter made this fall is truly enormous, and a vast supply is held by both dairymen and dealers, who have overbid themselves, and will now be compelled to reduce their stocks at low figures, as the supply is quite too large to maintain present prices.

The accumulation of cheese even exceeds that of butter, and must, for the same causes, experience a decline in price."

THE BOWELS OF THE EARTH.—It is a curious fact connected with deep mining, that from the hours of twelve at night and three in the morning, the disturbing influences in the bowels of the earth obtain increased activity. At that time it is observed by miners that waterfalls from places where none is observable during the day. The volume in the wheel is perceptibly increased, the atmosphere is charged with gases which often prevent the lights from burning, and small particles of earth and rocks are observed to fall from the tops of the drives. Whether this phenomenon is to be attributed to the diurnal motion of the earth or other causes, it is worthy the attention of the curious.—*Geelong Advertiser.*

—"Do you know who I am?" said an officer to a fellow whom he had by the collar. "Not exactly, sir," the fellow replied, "but I think you must be the malignant collarer."

For the N. H. Gazette.

A FEW GOOD BOOKS.

BOSTON, Nov. 1, 1866.

Friend Miller; Are you expecting ever to hear again from your old correspondent I. F. H.? I doubt whether in the ten years past, I have been silent at any time so long. The reason is I have never written so much in any year, but it has all been for the *home market.* I have never handled so many books in any year as this, and I have long thought I must tell you about a few of the very best of them. I believe your readers always trusted to what I wrote, and if ever I have been made ashamed of any thing I have said about books, it is when some part of what I wrote has been omitted, and that never by you.

ZOOLOGY shall claim my first paragraph. I have two systematic works on Zoology: one by Amos Eaton, printed 50 years ago; the other by Prof. Sanborn Tenney, lately published by Charles Scribner of New York. It is a solid 12 mo. of 540 pages and 539 pictures, including many cuts inserted twice. I might content myself with saying that it is the only work we have. But in justice I must say it is a good book, as well as a long needed one. Its examples are, as far as may be, American. Its only rival is the zoological chapters in Wilson's Readers, of which I wrote you two years ago. Because of that description I excuse myself from further mention of the series now; besides all the books now on my table are new.

Next is HOMES WITHOUT HANDS, the best book I have acquired for three years. It is an octavo of 651 pages with copious and beautiful illustrations, twenty-one of which occupy entire pages. It is an English work, all about the nests, burrows and other structures of animals. It is instinct reduced to visible, permanent shape. Its range is world-wide, and from the beaver down to the bee.

Forty years ago Uncle Toby may have seen a green little chap of fourteen in Portsmouth, walking on cobblestone pavements for the first time, seeing his first surgeon at "the Spring," treading for the first time the deck of a sea-going vessel, the Glide, then taking her deck load of lumber for her last voyage, and seeing for the first time in his life living star fishes and sea urchins—and for the last time thus far. Well, that chap has just been reading the SEASIDE STUDIES, written by Agassiz's wife and son, and published by Ticknor & Fields. It is a thin octavo of 155 pages and very superior in its execution, one of its publishers' best specimens—and that is saying a great deal. It is devoted wholly to the radiate animals of our own coast. Tenney gives 39 smaller pages to all these queer creatures in the world, corals and sponges included. I can not stop to tell you what a joy this book is to me.

CROSBY'S GREEK SERIES comes next. In 1840 I became deeply impressed with the idea that a far better system of Greek text-books was possible than any yet attempted. My desire is now more than accomplished. It seems as if my children's children are not likely to see a better. The books are four, a Grammar and an Anabasis, and two thin books to be worn out by beginners. One of these has every page exactly like one in the grammar. All the exercises of the lessons and, as far as possible, all the illustrations of the grammar are taken from the Anabasis. In the mastery of this new book the pupil is familiarized with nearly every principle of the Greek language. The man who has gone properly and conscientiously through this whole system becomes the *homo unius libri*, "the man of one book," whose word is law. A thing two-thirds learned from words in one arrangement, and two-thirds or even wholly from another of different pages and lines, will not in after years remain so well in the memory as if the words had been seen in one position only. Other contrivances to save labor in committing I can not specify here. I. F. H.

BANKRUPT CLUBS.—The last sign of the decadence of Johnsonism is the inglorious breaking up of the Johnson Clubs in Washing. An unreasonable landlord has come down upon the National Union Executive Committee, the "Johnson Departmental Club," the "Conservative Army and Navy Union," and the "Young Men's National Union Club," and sold them out for arrears of rent.

TEXAS.—The New York Post publishes another letter from Texas confirming the existence of the "black cavalry" in the northeastern part of the State, and their diabolical treatment of the freedmen, of whom no less than thirty have been killed in Red River county.

—As the election of General Logan of Illinois, as "Congressman at Large," puzzles some people, it may be well to say that an act of Congress allowing Illinois one more member than she previously had, she preferred to elect only thirteen Members of Congress in separate districts, and to have the fourteenth elected by the vote of the whole State. This is the "Congressman at Large," for which office General Logan has just received a majority approaching 60,000.

☞ The New Hampshire democracy have got into a quarrel among themselves about the "bread and butter" which they were expecting to get from Andy Johnson, which may indefinitely postponed the, to them, "good time coming." The Kittredge wing of the party remonstrate against the appointment of all office seekers indorsed by Edmund Burke, and Burke protests against the appointment of those not recommended by him, he claiming to be at the head and front of all the copper as well as the brass Johnsons in the State. Let them fight!—*Dover Enquirer.*

☞ The Biddeford Union says:

Speaking of the election of Mayor Shaw we inadvertently said that he had been elected President of all the Paper Collar Companies in the United States. We should have said Managing Director and Attorney, for such is his office.

SUDDEN DEATH.—Mr. William Withem, a carpenter, while at work on the belfry of the Baptist Meeting House in Rockport, Me., on Tuesday, was heard by another workman to say "I am going." He was immediately caught, and when taken down from the belfry life had departed. Deceased leaves a wife and seven children.

PROCLAMATION.

TO THE PUBLIC GENERALLY.

WHEREAS, Being armed and equipped with such a stock of Fall and Winter Dry Goods as cannot fail to strike the beholder with bewildering amazement, and please the fancy of all lovers of the Beautiful; and Whereas, Having entered the field for the Fall and Winter Campaign of Trade, we are determined to repulse if not entirely vanquish the great system of monstrous prices and murderous profits, which has settled upon our whole country like a mighty incubus—sinking the poor into deeper depths of poverty, and dragging the affluent down, and even driving many to distraction:—and Whereas, We have taken unusual pains in the selection of our New Stock, and have purchased it all at the Lowest Cash Prices, which will enable us to accommodate the purchaser at the lowest possible figures:

Therefore, We, A. Q. LEACH & CO., do hereby issue this our proclamation, to dispose of our Stock upon such terms as must give satisfaction.

In witness whereof we have this, the 16th day of October, A. D. 1866, and of the independence of the United States of America the ninetieth year, hereunto placed our hands and caused the Great Seal to be affixed.

PERRY DAVIS' PAIN KILLER.

Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and no more, and a gill of hot water. Stir well together and drink hot. Repeat the dose every hour until relieved. If the pains be severe, bathe the bowels and back with the medicine, clear.

Fishermen, so often exposed to hurts by having their skin pierced with hooks and fins of fish, can be much relieved by bathing with a little Pain Killer as soon as the accident occurs; in this way the anguish is soon abated; bathe as often as once in five minutes, say three or four times, and you will seldom have any trouble. n1 dawlm

CONTAGIOUS DISEASES.—Water must be adapted to the nature of the flesh, or there will be no increase; the soil must be adapted to the seed, or there will be small returns; and the human body must contain impurities, or there will be no sickness. The man whose bowels and blood have been cleansed by a few BRANDRETH'S PILLS may walk through infected districts without fear. "The life of the flesh is in the blood." To secure health we must USE BRANDRETH'S PILLS, because we cannot be sick but from unhealthy accumulations in the bowels or the blood, which Brandreth's Pills remove; this method is following nature, and is safe, and has STOOD THE TEST OF TIME. See B. Brandreth in white letters in the Government stamp. Sold by all Druggists.

DR. P. MEREDITH, Dentist, office No. 132 West Sixth Street, states as follows:

CINCINNATI, October 1, 1863.

MESSRS. J. N. HARRIS & CO.—Gents: About one year ago I took a cold which settled on my lungs. A violent cough was the consequence, which increased with severity. I expectorated large quantities of phlegm and matter. During the last winter I became so reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A diarrhœa set in. My friends thought I was in the last stage of Consumption, and could not possibly get well. I was recommended to try ALLEN'S LUNG BALSAM. The formula was shown to me, which induced me to give it a trial, and I will only add that my cough is entirely cured, and I am now able to attend to my business as usual. Yours respectfully, P. MEREDITH.

AMERICAN LIFE DROPS!

FOR THE SPEEDY CURE OF

Diphtheria,

Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

BOSTON, MASS.

"ORRIN SKINNER & Co.—Sirs:—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I am a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near us, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."

Ayer's Cathartic Pills

ARE the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much they exceed the ordinary medicines. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow disease, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immense y to the relief of our afflicted, suffering fellow men.

The Agent below named is prepared to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an occasional mild cathartic, purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER's, and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. o29—2m

Special Notices.

DR. SCHENCK'S
NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 35 Hanover Street**, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars

Dr. Schenck can explain to patients very correctly the stage of their disease and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part; also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleaned, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Prices of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

MADE AT WALTHAM, MASS.,
IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and rivited together, and require constant repairs to keep them in any kind of order. All persons who have carried "anchors," "lepines" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

GETTING A CALL.

We find the following in the Lutheran, descriptive of the qualifications of a "star preacher," and explaining the modus oper andi of "getting a call."

Next we dispatch committees,
By twos and threes, to urge
The labors for a Sabbath
Of the Rev. Shallow Splurge.
He came—a marked sensation,
So wonderful his style,
Followed the cracking of his boots
As he passed up the aisle.

His tones were affecting,
His gestures so divine,
A lady fainted in the hymn
Before the second line;
And on that day he gave us
In accents clear and loud,
The greatest prayer ever heard
To an enlightened crowd.

He preached a double sermon,
And gave us an apple-toddy
On such a lovely topic,
"Love for God and neighbor;"
All full of sweet descriptions
Of flowers and pearly streams,
Of warbling birds and moonlit groves,
And golden sunset beams.

Of faith and true repentance
He nothing had to say;
He rounded all the corners
Of smoothed and rounded way;
Managed with great adroitness
To entertain and please,
And leave the sinner's conscience
Completely at its ease.

Six hundred is the salary
We gave in former days;
We thought it very liberal,
And found it hard to raise;
But when we took the paper
We had no need to urge
To raise a cool two thousand
For the Rev. Shallow Splurge.

In vain were all the efforts—
We had no chance at all—
We found another church
Had given him a call;
And he in prayerful waiting,
Was keeping it well in tow,
But where they got the money
It was whispered he would go.

SINGULAR CAUSE OF DEATH.—We learn from the Webster (Mass.) Times that Joseph Barber of Webster, had his neck broken on the 13th inst., in a very singular and foolish manner. Barber and a companion named Gilbert had been drinking beer, and had started for home, when Gilbert challenged Barber to a trial of strength in this way: One of the party got on his hands and knees, and attempt to rise while the other was holding him down by the neck. Gilbert got down first and succeeded in rising, but when Barber tried it he broke his neck, and died the next morning. Gilbert ran away, and there was some talk of his having intentionally killed his companion, but the public seemed to be satisfied of his innocence.

A Washington writer puts a new prayer into the mouths of the hangers-on for place in that city: "Give us this day our daily bread and butter."

Agents Wanted For
The Camp, the Battlefield, and the Hospital,
or Life and Shadows of the Great Rebellion.
There is a certain portion of the war that will never go into the regular histories, nor be embodied in romance of poetry, which is a very real part of it, and will, if preserved, convey to succeeding generations better idea of the spirit of the conflict than many dry reports or careful narratives of events, and this part may be called the personal side of the war. This book illustrates the character of the leaders, the humor of the soldiers, the devotion of women, the bravery of men, the patriotic zeal of our heroes, the romance and hardships of the service.
The volume is profusely illustrated with over 150 engravings by the first artists, and photographs (exempt), worth of examination as specimens of the art. The book's contents include reminiscences of camp, picket, spy, scout, bivouac, siege, and battlefield adventures; anecdotes of heroism, bravery, wit, drollery, comical and ludicrous adventures, etc., etc.
Address to all as instruction may be found in every page, as graphic details, brilliant wit and authentic history are skillfully interwoven in this work of literary merit.
This work sells itself. The people are tired of dry details and partisan works, and want something humorous, romantic, and thrilling. Our agents are making from $100 to $200 per month, clear of all expenses. Send for circulars, giving particulars, and see our terms and proofs of the above assertion. Address NATIONAL PUBLISHING CO., 18 Water Street, Boston, Mass.

AMERICAN AND FOREIGN PATENTS.
R. B. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1837,
78 State Street, opposite Kilby Street, BOSTON.
After an extensive practice of upwards of twenty years, continued to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and Other Papers or Drawings for Patent, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of any proposed invention—and regular or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting Ten Dollars. Assignments recorded at Washington.
The Agency is not only the largest in New England, but many inventors have sent magazine for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not equal to any other Agency, by which to secure them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has plenty of reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
There, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure patents, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful practitioners* with whom I have had official intercourse."
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure them a patent, and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.
Mr. R. B. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such continuous success in the Patent Office, with ability on his part, leads me to recommend *all inventors* to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART.
During eight months, the subscriber, in course of his large practice, made on *sixty rejected applications*, TWENTY APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.
R. B. EDDY.

NOW OPEN!
MONTGOMERY'S
MUSIC, PICTURE FRAME, AND VARIETY STORE,
101-2 Daniel Street,
(Over Miss Beal's Dry Goods Store.)
The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr. Cob, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Sheet Music, Covers, Frames, Pictures, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.
PIANOS and REED INSTRUMENTS tuned, repaired, rented, bought, sold, or taken in exchange.
PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.
Having made arrangements with Prof. W. E. DAY, I now have the exclusive agency in this city for the sale of the celebrated Piano Fortes of Chickering & Sons, and Geo. M. Guild & Co. The superior merits of the former have long been established to need any comments. Of the latter, suffice it to say that the sale of over fifty of them within the last two years, by Mr. Cobb, proves a sufficient guaranty of their excellence. Also, the celebrated Estey Cottage Organs for sale on reasonable terms.
Every Instrument carefully selected and fully warranted, under the inspection and approval of Prof. DAY, who will attend to tuning, if desired, and adapted to the wants of the musical community, will receive a just consideration by the same gentleman. D. H. MONTGOMERY.

IGNORANCE IN HIGH PLACES.—A Washington correspondent, speaking of President Johnson, says: "I happen to know from three men to whom he has at different times so stated, that he thinks 'newspapers aren't worth a decent man's notice.'" Now there is one of our difficulties of reconstruction. We have got a man in the Presidential chair who resolutely keeps himself ignorant of the true condition and wishes of the American people. He took up a notion seven or eight months ago, and instead of candidly contrasting it with the requirements of the country and the convictions of the people, he does not even take the trouble to ascertain what those requirements and convictions are. Nay, he closes his mind to the light which would pour in upon it, and goes on clinging to his notion with a tenacity in proportion to the degree in which events have made it impracticable and worthless. Reconstruction is not a closet dogma, to be determined by one man on abstract principles, and then thrust down the throats of thirty millions of Americans; it is a practical, living question, not to be conceived of apart from the actual public opinion. This fact is to be learned in the American press better than in any other way, and to discard that is to be on a par with the wisdom of a man who should attempt to study nature by rejecting the sun and using a rush light.

— Mr. Sidney T. Nelson of Lakeville, had a valuable young cow, which broke a fore leg just above the knee, and he resolved to try the unusual experiment of curing it. He had his cow slung up in a shed for six weeks, the leg set, and is now gratified in seeing her out at pasture as well as ever.

The Old Established Hospital,
No. 5 Beaver Street, Albany, N. Y.
QUICK CURES AND LOW PRICES.
Over Twenty Thousand Patients Cured Annually.
DR. J. TELLER continues to be confidentially and successfully consulted on all forms of private diseases, at his old Established Hospital, No. 5 Beaver Street, Albany, N. Y. Twenty years devoted to this one particular branch of practice, enables him to perform cures such as no other Physician can, and his facilities are such (being in correspondence with the most eminent Physicians of the Old World,) of obtaining the safest as well as the latest remedies for these diseases, offer inducements to the unfortunate of a quick and rapid cure, to be obtained at no other office in America.
In Syphilis, Gonorrhœa, Gleet, Stricture, Enlargement of the Testicles and Spermatic Cords, Bubo, Ulcerated Throat, Sore Nose, Tender Shin bones, Cutaneous Eruptions, Biles, Ulcers, Abscesses, and all other impurities of the system, are perfectly under the control of the Doctor's Medicines, and have been tested in more than 20,000 cases annually, with immense success.
YOUNG MEN.
Young Men addicted to secret habits, who have impaired their health and destroyed the vigor of their minds, thus depriving themselves of the pleasure of the Married Life, are notified that in consulting Dr. J. Teller, they will find a friend to console and a Physician who has cured thousands, in almost every part of the United States, who applied to Dr. T. broken down in health, now rejoice in all that makes life desirable and man happy. The reader is of course aware that the delinquency of this subject will prevent a more minute description of this terrible disease.
DR. TELLER'S GREAT WORK.
A book for everybody.—Startling disclosures. Dr. TELLER's great work for the Married or those contemplating marriage—200 pages—full of plates—price 25 cts. Sent to all parts, under seal, by mail, post paid. 50,000 copies sold the past year. The single Married and the Married happy. A lecture on Love, or how to choose a Partner—a complete work on Midwifery. It contains hundreds of secrets, never before published—Warranted to be worth three times the amount asked for it. 25 cents, in specie or postage stamps, inclosed, will secure a copy by return mail. Dr TELLER has devoted a lifetime to the cure of those diseases upon which he does treat.
TO THE LADIES.
DR. TELLER still remains the only Agency in America, for the sale of Dr. Vichot's Italian Female Monthly Pills. The sale of more than 20,000 boxes establishes their reputation as a female remedy, unapproached, and far in advance of every other medicine for stoppages, irregularities, and other obstructions in females.
CAUTION.—Married ladies in certain delicate situations should avoid their use. For reasons see directions which accompany each package, for the guidance of patients. On the receipt of $1, (the price per box,) these Pills will be sent by mail or express, to any part of the world, secure from curiosity or damage.
Office hours from 8 A. M. to 8 P. M., and on Sundays from 9 to 5 P. M.
N. B.—Persons at a distance can be cured at home by addressing a letter to Dr. J. Teller, enclosing a remittance. Medicines securely packed from observation, sent to any part of the world. All cases warranted. No charge for advice. N. B.—No students or boys employed. Notice his address all letters to

MONDAY, NOVEMBER 19, 1866.

WASHINGTON ITEMS.—The Boston Advertiser's special of Nov. 16, says the paragraph connecting the visit of Chief Justice Chase to the White House, with a meeting of four Cabinet ministers for consultation upon the propriety of adding "general amnesty and impartial suffrage" to the administration policy, is sensational. Mr. Chase went there by appointment on different business. The conversation touched on political topics, but Mr. Chase came away satisfied that no change had taken place in the views of the President, and that he clings obstinately to his policy. It is also true that some Southern politicians, with various quondam republicans, "are caucusing" the chances of a new political movement, but it is certain no republicans in good standing are consulted in the matter.

The most influential evening administration paper there, in an article on the future of the South, takes the ground that she has one means left of deposing the republican leaders in Congress, namely, by adopting the amendment to the Constitution.

There is good reason for saying that Post master General Randall has ceased to take an active interest in removals from office for political reasons, and that changes in his department will hereafter be made only at the instance of the President.

The Mississippi Commissioners have learned from Chief Justice Chase, through the President, that there can be no trial of Jeff. Davis until Congress remedies a defect in the present laws.

The Herald's special of the 16th says Gen. Dick Taylor, it is said, will be one of the prominent Southern men who will advocate impartial suffrage.

The President informed a well known Democrat Friday that there would be no more important removals from office.

☞ With regard to the negro suffrage recommendation of the Chicago Times, it is ostensibly favored by the Boston Post, Milwaukie News, and other papers, all of which, however, maintain that each State, outside or in the Union, shall do as it pleases about the matter. This would be a great substitute for the Constitutional Amendment. The Albany Argus says about the matter:

"We prefer plain 'manhood suffrage' to any paltry and deceptive educational test such as Massachusetts imposes upon her electors. We do not believe that under the pretense of impartial suffrage, the white electors of the Union will consent to the disfranchisement of large classes of their own numbers to make room for negroes."

Perhaps the allusion in the last extract may be explained by the statement that in certain election districts of New York city at least two-thirds of those who voted the Hoffman ticket were unable to read their ballots.

☞ Under date of Friday, Perley writes from Washington as fol ows:—

The few democratic Congressmen recently elected demand the immediate control of all the federal offices in their respective Districts. Gen. George W. Morgan, who defeated Mr Delano in the 10th Ohio District, has been here to-day insisting that Democrats recommended by him supercede all the present Internal Revenue and Post Office officials in that Congressional District. Neither Secretary McCulloch or Postmaster General Randall were disposed to comply with this demand, greatly to Gen. Morgan's disgust.

The Star of this evening has an editorial denouncing the Northern democrats as having deceived the South, and it urges the States recently in rebellion to rebuke these demagogues by accepting the proposed constitutional amendment.

☞ We are glad to be informed that neither the President, the Secretary of War, nor Gen. Grant, has revoked the well-known order of the latter authorizing military commanders to try cases which the Courts refused. The report that it had been revoked originated in the fact that Grant advised Sheridan not to strictly enforce it, on the ground that the Civil Rights bill opened the Courts to the freedmen.

But the order is still of great importance, and will be while any of the Courts declare the Civil Rights bill unconstitutional, or while rebel tyranny turns justice from its course.—*Tribune.*

☞ A dispatch from New Orleans states that, within a few days, Gov. Wells will again urge, and, if necessary, demand of the military authorities the arrest of the numerous parties accused of murdering Union men in the State within the past four months, and against whom the civil authorities have failed to proceed.

☞ On Friday, at the Riverside Course, Cambridge, Mass., the gelding Capt. McGowan trotted against time, and was to go 21 miles in an hour. The track was heavy and the horse was withdrawn at the close of the 13th mile.

— Mr. J. J. Irby of Lynchburg, Va., gave one of his negroes $300 in gold to bury when the Federal troops took possession of that place. The man performed his work so faithfully that he was unable to find the money until recently, when he returned the long-lost treasure to his former master.

For the N. H. Gazette.

A FEW GOOD BOOKS.

In many a year I have not added a single volume to my small collection of poetry. I am not fond of second-rate poetry. I seldom read the poetry of living writers. I have made Tennyson an exception, and the extreme beauty of Ticknor & Fields' diamond edition has proved irresistible to me. The whole of Tennyson in one pocket volume with very clear type, though fine, is quite a treasure. Perhaps I might, *just a little*, prefer the quarto edition were it attainable, but that is $12, and this, $1.25.

I wrote to you when the last Webster's Dictionary appeared, of the Dictionary of Noted Names in Fiction, by Mr. Wheeler, contained in it. This remarkable performance is now printed by itself in a small compact form, revised, enlarged, corrected, and with an index of real names of the persons and places that are described under fictitious ones. The Dictionary tells you that Orpheus C. Kerr is Robert H. Newell, and the index that R. H. Newell is Orpheus C. Kerr. This book itself is worth the price of a Webster to many persons, and the information it conveys is in a large part absolutely inaccessible otherwise, and really indispensable to understand the best writers. Mr. Wheeler has also edited a biographical dictionary by Hole, giving to most of its subjects a single line each. I have not had the opportunity of examining it fully, but I should think it a good book.

Passing from this first pile of books, I come to another, from which I first take Rev. Gustus Doolittle's SOCIAL LIFE OF THE CHINESE, in two thickish duodecimos, from the Harpers. This is the most reliable account yet given in English of this queer people, who are insane to us and we to them. Unfortunately our Pacific and Mountain States are compelled to know more of them than is desirable, and the invasion of the *celestials* is threatening to reach the Southern States. A law to check their emigration and to forbid their importation is very desirable. We had much rather see them in Doolittle's 150 pictures, and think the Pacific ocean too narrow. A map or two is what these volumes most need.

Dr. Hamlin's MARTYRIA, OR ANDERSONVILLE, is my beau ideal in this respect. He gives you exact ideas of the position of that horrid den; and his painful, necessary task will do more towards the extermination of the boasters of secession than any thing else yet devised. You may erect statues to dead rebels and make living ones into presidents of colleges and express companies, but with each revolving year the rebellion will take a higher place among human crimes, and in a century not a descendant of these traitors will own his parentage. Dr. Hamlin is a nephew of the Vice President and of the Missionary. He proves the terrible cruelties of the prison pen entirely without the testimony of the prisoners; and his contrasts of the ordinary principles of massing men, which he dwells on at some length, with the arrangement here for killing them off by lingering tortures, impress the mind with a feeling that the work of retribution must not stop where it now is. Some of the most fearful pictures I ever saw are here re-produced from rebel photographs. It is in the power of the present Congress to say whether it shall all be in vain. A commercial value or a political value alone can save the negro from extermination: he must be property or a voter. But I have reached the utmost limits of my paper, and must stop. Yours,

I. F. H.

MISPLACED CONFIDENCE.—John Quincy Adams, a descendent of the "old man eloquent" of that name, was last year elected to the Massachusetts Legislature by the republicans of Quincy. Some time since he made the discovery that the republican party had deserted their principles and gone to the dogs, and that the democracy was the only party there was left.—So he joined himself unto them and became one of their leaders—figuring in their newspapers as the "Honorable John Quincy Adams," &c., &c. Acting under this delusion he ran as their candidate for representative in Quincy and has not since been heard from—a solemn warning to ambitious young men to beware what company they fall into.—*Dover Enquirer.*

— A lady was arrested in Dunleith, Ill., for wearing "bloomers." She was from the East, a stranger in the city, and her manners were unexceptionable, but the Dunleithers could not tolerate such a spectacle in their city, and the unfortunate lady was dragged before a magistrate. The prosecutors were, however, shamed into withdrawing the complaint.

— Two veterans in the matrimonial service are Joseph Webber and his wife of Belchertown, Mass., the one 94 and the other 92 years old, and who were married seventy years ago last April, or four years before the century began. They still enjoy a good degree of health, and are getting to feel quite well acquainted with each other.

— A Paris journal states that at the begining of this century five children were the maximum result of marriages in France; the present average is three children for the whole of France, and two for Paris.

NEW HAMPSHIRE ITEMS.

—— Rev. A. H. Quint, D. D., of New Bedford, Mass., and Professor Guyot of Princeton, New Jersey, are engaged to give courses of lectures at the Hartford Theological Institute during the coming year. Rev. Mr. Quint is a descendent of the ancient family of that name in Newington.

—— It is said on apparently good authority, that Hon. Edmund Burke, who was to be the headsman in New Hampshire, has come back from Washington disgusted with his new ally Andrew Johnson, and denounces him in words not fit to be put in the dictionary or the newspapers.

☞ At Concord, on Friday evening, there was a large, spirited and harmonious meeting of the Union State Central Committee at the Phenix Hotel. Hon. Austin F. Pike of Franklin presided, with B. F. Prescott of Concord as Secretary. The principal business transacted was the fixing of times and places for the various nominating Conventions. The State Convention will be held in Concord on Tuesday, January 8. The Congressional Conventions will be held as follows: First District at Dover, December 27; Second District at West Lebanon, January 9. Appointments for the Councillor, Senatorial and County Conventions were also made.

Senatorial Conventions, No. 1, at Portsmouth, Jan. 10; No. 2, at Kingston, same day; No. 5, at Rochester, Dec. 20.

County Conventions, Rockingham, at Exeter, Jan. 2: Strafford, at Rochester, Dec. 18.

A TRAGIC STORY SPOILED.—A few days ago a cable dispatch informed us that that three thousand Cretan insurgent soldiers were drowned in a cave on the coast in which they had taken refuge. A letter in a London paper, written by a Greek, says that in Candia there is no tide. Lord Byron spoke of it as an "unideless sea," and, besides, if there was one it would never reach Melidoni, as it lays high up in the mountains. Therefore, the loss of the 3000 and also the submission of the insurgents must be a fabrication emanating from a Turkish source.

CHEAP TRAVELLING.—On the London, Chatham and Dover Railroad, England, three trains are run into London between four and six o'clock every morning, for the convenience of those who work in the city, but reside out of town. For stations not more than five or six miles out, a weekly ticket, entitling the holder to go in every morning and return every evening, costs one shilling, (twenty-four cents,) an average of two cents for each journey. On the Metropolitan road, on which early trains are also run, no weekly tickets are issued; but the fare is the same by the single trip, two cents.

— The officers of the steamer Pioneer, which has arrived at New London from a whaling voyage, report that on the night of the 13th inst. and morning of the 14th, a splendid display of meteors was visible from the ship. The Pioneer at that time was between 30 and 40 miles southwest of Montauk Point.

— At Lynn, Mass., about six o'clock Thursday evening a lady named Lucy Hopkinson, eighty-two years of age, was instantly killed by falling down a flight of cellar stairs, while on a visit to a friend's house on Washington street. The deceased was a maiden lady of estimable character, a native of Exeter.

— The wife of M. Thayer, a French Senator, has recently appropriated her family jewels, of the estimated value of several million francs, to a pious object. The gems have been mounted in a magnificent crown, which received the Pope's blessing, and has since been placed upon the head of the image of the Virgin in the chapel of Touvens.

— Rev. Dr. Hallock says the following is the best way to write for a newspaper: "Say the most possible in the least space. Pitch right into your subject. Make the title and first sentence so that it must be read; and so of the second, no matter what has preceded or is to follow."

— On Tuesday the wife of a sable citizen in Pittsburg presented her liege lord with four bright-eyed and lovely little babes—two boys and two girls. At last accounts all were doing well. The happy father seriously contemplates establishing an infantile freedmen's bureau.

— Mr. Turner of Chester, Vt., a man 77 years of age, who lost his right arm near the shoulder in the war of 1812, went into his potato field this autumn, and with his left hand dug and picked up fourteen bushels of potatoes in one day.

— During the past year, according to the Louisville Journal, there have been one hundred and fifty-two cases of stabbing in Kentucky, fifty one of which resulted in death.

— In the little town of Maine, in Broome county, New York, 121 soldiers voted at the last election, and 119 of them voted the Republican ticket. The voted as they fought.

Portsmouth, Oct. 20, 1866.

CAUTION! GEORGE SAMPSON and O. H. DAVENPORT, who, previous to January 1, 1866, carried on the Directory Publishing Business for nearly ten years as partners of the late George Adams, under the style of Adams, Sampson & Co, have, since the above date, and will in future, continue the same under the style of Sampson, Davenport & Co. As other parties are now canvassing in various places for Directories, leaving the impression that they are our successors or agents, we hereby caution the business community against doing business with them on our account.

To protect our Boston and New England Directory patrons and the public generally from the many impositions practised upon them, we shall hereafter invariably provide all persons with certificates of authority who are authorized to act as agents for the various Directories issued from this office. Our Massachusetts Directory and Register, now being canvassed for, will be issued in January, 1867. We have not, at present, any agents out on our New England Directory.—SAMPSON, DAVENPORT & CO., Directory Publishers, 47 Congress St., Boston, Mass.

PERRY DAVIS' PAIN KILLER.

Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and molasses, and a gill of hot water. Stir well together and drink hot. Repeat the dose every hour until relieved. If the pains be severe, bathe the bowels and back with the medicine, clear.

Fishermen, so often exposed to hurts by having their skin pierced with hooks and fins of fish, can be much relieved by bathing with a little Pain Killer as soon as the accident occurs; in this way the anguish is soon abated; bathe as often as once in five minutes, say three or four times, and you will seldom have any trouble. n1 dawlm

CONTAGIOUS DISEASES.—Water must be adapted to the nature of the fish, or there will be no increase; the soil must be adapted to the seed, or there will be small returns; and the human body must contain impurities, or there will be no sickness. DR. P. MEREDITH, Dentist, office No. 182 West Sixth Street, states as follows:

CINCINNATI, October 1, 1863.

MESSRS. J. N. HARRIS & CO.—Gents: About one year ago I took a cold which settled on my lungs. A violent cough was the consequence, which increased with severity. I expectorated large quantities of phlegm and matter. During the last winter I became so reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A diarrhoea set in. My friends thought I was in the last stage of Consumption, and could not possibly get well. I was recommended to try

ALLEN'S LUNG BALSAM

The formula was shown to me, which induced me to give it a trial, and I will only add that my cough is entirely cured, and I am now able to attend to my business as usual. Yours respectfully, P. MEREDITH.

AMERICAN LIFE DROPS!

FOR THE SPEEDY CURE OF

Diphtheria,

Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all Kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

"BOSTON, Mass.

"CHRIS SKINNER & CO.—*Sirs:*—Notwithstanding my general prejudice against proprietary (or patent) medicine, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. But a friend suffering with Rheumatism have one of the bottles, he says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Liver complaint, have also used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."

CHARLESTOWN, MASS., Nov. 25, 1865.

Messrs. BURLEIGH & ROGERS, Boston, Mass:

I feel it a duty I owe to you, and to such of the community as are suffering as I have suffered, to make known through the medium of your advertisements the CURE that, through the blessing of God, you have wrought upon me by using SMOLANDER'S BUCHU. I had *suffered over one year* with *Kidney Disease* so bad I *could hardly walk*. I took four bottles of *Smolander's Buchu*, and it *cured me*. WILLIAM H. MELLEN,

S. J. COURT, Nov. 17—*Doe*, J.—John L. Pickering v. Phebe P. Pendexter and children of Judge Pickering. This was a suit on which the piff. claimed as son and heir of James Pickering, Senior, to recover one quarter of his father's farm, and as heir of his brother Winthrop Pickering, to recover one-third of the remainder. The defts. admitted that the piff. was entitled as heir of Winthrop P. to one-third; but denied that he was entitled to any part of the farm as heir of his father.

The defts. claimed that about 1835, the piff. conveyed to Winthrop his share in his father's estate for $500. That Winthrop, from 1835 to 1863 the time of his death, was in possession of the whole farm adversely, and claiming title and exercising acts of ownership, selling two parts, mortgaging the whole property, selling timber and offering to sell the farm.

The piff. claimed that this occupation was permissive, and in accordance with a verbal agreement and understanding with his brother.

The Jury retired Friday evening at half past five, and agreed upon a verdict at 10 1-4, for the defendants, thus confirming the title of Winthrop Pickering to the demanded premises. Hatch and Rollins for piff, Christie and Hackett for defts.

PORTSMOUTH SCHOOL LAW.—We publish an Act of the Legislature, making some changes in the manner of choosing School Committees in Portsmouth,—and especially having them chosen by Wards instead of Districts, and in the regular City Meeting instead of a separate assembly. This Act is take effect, if our citizens adopt it by a majority of votes, and it is published that they may judge of its expediency. We have read it carefully, and see no objection to it: but on the contrary think it would be an improvement on the present arrangement. If adopted, the present School Committees would continue in office till January 1868, so that no sudden change would occur.

☞ "Thus endeth the *third* lesson," remarked we, on reading proof of our Court reporter's statement of the case decided on Saturday. But some folks are slow to learn "lessons;" and there be many who are too lazy to work for a living, and who think it easier to live by their "wits." The latter may be the easier plan, but it takes a smarter man to do it.

☞ The Owl which Josh Billings tells about in another column, this morning, may be seen any day, at Langley's provision store in Daniel street. His name should be Solomon—who, in all his glory, surely never was arrayed like one of these fellers.

☞ The court will come in to-day, (Monday,) at 12 o'clock. Judge Doe is to continue to hold this term here.

☞ The Musical Festival at Exeter, will commence on Tuesday and continue through Friday. See the advertisement.

WHERE A STONE COULD BE THROWN. The characteristics of Denver, Black Hawk and Salt Lake are thus tersely stated by their representative papers:

"From the corner of Blake and F streets, in this city, a stone could be thrown into five billiard saloons, containing altogether twenty-five of the best modern tables, and costing not less than $40,000 to bring them here from the States and place them in position. *Denver News.*"

"From the corner of Clear Creek and Chase streets, in this city, a stone can easily be thrown into five quartz mills containing fifty stamps and two desulphurizers, and costing not less than four hundred thousand dollars to bring here from the States and place in position.—*Black Hawk Journ.*"

"From the corner of Maine and Temple streets, in this city, a stone could easily be thrown into five old fellows' harems, containing altogether one hundred and twenty 'wives' and two hundred and sixty children, and costing not less than three millions of 'tithing' (from the poor priest-ridden people) to fatten 'em every year and sustain 'em in position!"—*Salt Lake Vedette.*

☞ Friday's gale blew down some buildings in New York and Brooklyn.

☞ A hurricane at Fortune Island, Oct. 29, blew down 107 houses, and destroyed almost every thing on the island.

☞ It is said Marshal Bazaine forbids Maximilian leaving the Empire of Mexico, and forbids the Austrian frigate taking him away.

— The Hon. James Guthrie is in such bad health, that there is no probability of his taking his seat in the United States Senate any more. He is confined to his bed.

OWLS.—By Josh Billings—Burds is God's choiresters.

Tew the lion he gave majesty, tew the elephant strength, tew the fox cunning, and tew the tiger deceit. But to the burds, his pets, he gave buty and song.

And none so blest as the owl.

The owl is a game burd; he can whip any t ing that wears feathers (after dark.)

He is a wise burd, and hoots at most things.

He is a sollem burd, a cross between a justice uv the peace and a county supervisor.

He is a stiff burd, and sets up as stiff as a exclamation point!

He is a luxurious burd, and feeds on spring chickens.

He is a long lived burd, and never war known to take death naturally.

He is a hardy burd, and groze tuff by bileing.

He iz a honest burd and alwaz shoo an open countenance.

He iz a prompt burd, and satisfize at onst his outstanding bill.

He is a comfortable burd and alwaz sleeps in feathers.

He is an attentive burd, and durin the day can alwaz be found in.

He is a festive burd and don't come home till morning.

Thus the owl, a mistaken emblum uv solitude and sadness, if we dig into his natur closely, is emphatically one uv the boys, and belongs to the club.

PROFITABLE AMUSEMENT.—The laird of Downdyke's advice to his son: "Aye be stickin' in a tree, Jack, it'll be growin' when ye're sleepin'," has had proof of its value in the following instance related by an Augusta, Maine, paper:

"Dr. Paul Merrill of this city, when a boy on his father's farm in Parsonfield, often interested himself in planting apple seeds among the granite boulders scattered about the farm; and, as the trees became of suitable size, he employed himself for a few days every spring in grafting them with choice fruit scions, obtained of the neighbors and elsewhere. The present season the crop of fruit, free of all expense of harvesting and marketing, has yielded the sum of seven hundred dollars. This is an item in the way of encouragement to young farmers, and even farmers' boys, to do something every year in aid of the fruit crop, as the reward is sure to come with its joyous welcome and satisfaction."

DR. SCHENCK'S
NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of **No. 33 Hanover Street,** Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer the charge is five dollars

Dr. Schenck can explain to patients very correctly the stage of their disease, and how to use his medicines, namely, his Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part; also whether it is Tuberculous, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint.

His medicines have full directions, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills 25 cents.

REASONS WHY THE
AMERICAN WATCH,
MADE AT WALTHAM, MASS.,
IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. No jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "chronometers," "lepines" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no other have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the most imported chronometers. We do not pretend to sell our watches for LESS MONEY than other watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new stove, of neat and symmetrical patterns, very heavy castings, well made of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

THE ELECTIONS.—It is feared the President will have to change his views of the *people* so ardently dwelt on when he took the Vice President's chair in the Senate, as he has, long since, of the *odious* character of a rebellion. The "people" were as blind in November as they were in October, on *seeing* the beauties of an Executive policy. On the other hand look at "My Maryland," and my North Carolina, and my Mississippi.

"WHAT'S THE USE?"—The Massachusetts Democratic State Committee, chosen in September last. Whose gr and especial duty it is to take all the measures necessary to secure the predominance and triumph of the party at the State and Congressional elections in November, met, for the *first time*, at the Parker House in Boston, *the day after the Election!*

Gov. Bontwell of the Mass members of Congress, in a recent lecture in Boston, referred to two important measures to be acted on, when Congress meets, viz: the question of extending the franchise to black as well as white, (probably with some restrictions,) and that of inquiring whether the President has or not made himself liable to be impeached.

It will be seen that the warrants for the municipal election contain an article relative to the acceptance of the act relating to schools in this city passed at the last session of the Legislature. In another column we publish the law for the information of the voters.

By it the election of School Committee takes place on the day of election of Mayor, &c., and the Committees of the several wards form one board—affording a better means of placing the schools of the City on equal standing, and the general use of the same class books.

Sub-committees are to be assigned to the oversight of the several schools, provision for the High schools to be made the same as for schools of lower grades, which dispenses with the present High School Committee. The school districts into which the City is now divided will thus be entirely abolished. The money will be drawn from the City as needed and placed in the hands of the Treasurer of the Committee, who is to give bonds for not less than $5000.

NEW SCHOOL SYSTEM IN PORTSM.

CHAPTER 4818. PAMPHLET LAWS.

AN ACT in relation to SCHOOLS in the City of Portsmouth

Be it enacted by the Senate and House of Representatives, in General Court convened:

SECTION 1. That the city of Portsmouth shall constitute one school district, and the school committee of said city shall consist of eighteen members.

SEC. 2. The voters of each ward shall, at the annual city election, in November next following the ratification and acceptance of this act by said city, by a ballot by themselves, elect six of the residents of said ward as members of the school committee; two of whom shall hold their office for the term of three years; two for the term of two years; and two for the term of one year, and until others are elected and qualified to act in their places; and the members of said committee, in each ward so elected, shall determine their respective places by lot; and at every subsequent city election two persons shall be chosen in each ward, to be members of the school committee for the term of three years.

SEC. 3. The election of said school committee shall be conducted in the same manner, in all respects, as is provided for the election of the mayor and other city officers.

SEC. 4. In case of a failure, at said annual election, to elect the members of said school committee, or either thereof, in any ward, the mayor and alderman of said city shall appoint suitable men to fill the vacancies.

SEC. 5. Whenever, from any other cause, a vacancy in said school committee shall occur in any ward, the mayor and aldermen shall elect a resident of said ward to fill such vacancy until the next annual city election, when the voters of said ward shall fill the same for the remainder of the term.

SEC. 6. There shall be kept and maintained, in the city of Portsmouth, in addition to the schools of a lower grade, at least two high schools, one for males, and the other for females, in which shall be taught all the branches usually taught in an English grammar school, with such additional branches as the city may direct.

SEC. 7. The school committee shall appoint, from time to time, such teachers as they may deem expedient, prescribe their duties and affix their salaries; and shall, on the first day of January in each year, render to the mayor and aldermen a full and particular report of the receipts and expenditures for the year; the number of scholars under their control; the number of pupils of each sex belonging to each school; the average number of each sex attending school; their ages, the various branches of study taught in each school, and such other matters as may serve to present a general view of the condition of each school.

SEC. 8. All moneys appropriated for the support of public schools shall be subject to the control of the school committee, who shall cause the same, or any part thereof, to be expended for the benefit and welfare of the schools.

SEC. 9. The committee shall appoint a treasurer, whose duty it shall be to draw from the city treasury, at such times as they may direct, the money appropriated for the support of schools, and to disburse the same under the direction of the committee. Said treasurer shall give bonds, if required by the committee, in such sum as they may fix, for the faithful performance of his duties.

SEC. 10. It shall be the duty of the school committee to present to the city council, on or before the first day of April in each year, an estimate of the amount of moneys required for the schools during that year.

SEC. 11. The school committee shall have the entire control and supervision of all the public schools in the city, and may exercise said control by means of sub-committees or otherwise; and it shall be their duty to arrange, as nearly as possible, a uniform system of studies and vacations in all the schools of the same grade.

SEC. 12. The sub-committee on the high schools shall consist of three members, one of whom shall be from each ward, and selected by the members from their respective wards. Said sub-committee shall have the whole control of the high schools, including the appointment and salaries of the teachers.

SEC. 13. The present school committee of said city shall hold their office until the first Monday of January following the election designated by section two of this act, with full power to act, in all cases, the same as if this act had not been passed.

SEC. 14. Chapter 74 of the Revised Statutes, so far as it relates to the city of Portsmouth, and all acts and parts of acts inconsistent herewith, are hereby repealed.

SEC. 15. This act shall take effect and be in force whenever it shall be ratified and accepted by the citizens of Portsmouth, voting in their respective wards, at any meeting duly called and notified for such purpose; and this act shall apply to and be in force in any other city or town of this State which, at a legal meeting, shall adopt the same. Approved July 7, 1866.

FISHING BUSINESS AT NEWCASTLE. — We are informed that the fishing business at Newcastle, upon which a large portion of the people depend for support, has very much fallen off for lack of the application of capital to sustain it. This vicinity furnishes some of the best fishing grounds along the coast—the harborage at Newcastle is good—the conveniences for curing fish on the islands are unsurpassed—the people are ready to enter into the business: but the vessels are wanting. The direction of enterprise into this channel, and a liberal investment of capital in the purchase or construction of fishing vessels, would doubtless pay as well here as at Gloucester or any of the towns on Cape Cod, and would build up that pleasant little town to somewhat of the importance to this State that those places are to Massachusetts. At present the almost entire absence of any branch of business is having a depressing effect upon the town, and little encouragement is given to young men to remain there. It becomes as it were, a "hobbanging upon the verge" of Portsmouth, and deriving support from its branches of industry. The location of Newcastle for a fishing fleet is as good as that of any seaport in New England. Its immediate vicinity to Portsmouth and the railroads, opens ready access to good markets, while our ship yards are at hand to furnish as good sailing craft as can be built anywhere. We offer these hints, hoping that enterprising capitalists may look favorably upon the matter, and take it in hand.

There is a certain interest, at this year that will carry it into the regular histories, nor be embodied in romance or poetry, which is a very real part of it, and will, if preserved, convey to succeeding generations a better idea of the spirit of the conflict than many dry reports or careful narratives of events, and this part may be called the gossip, the life, the pathos of the war. This illustrates the character of the leaders, the humor of the soldiers, the devotion of women, the bravery of men, the heart of our heroes, the romance and hardships of the service.

The volume is profusely illustrated with over 100 engravings by Brady, which are pronounced *beautiful*, worthy of examination as specimens of the art. The book's contents include reminiscences of camp, march, and battle, which are full and battle-field adventures; thrilling feats of bravery, wit, drollery, comical and ludicrous adventures, etc.

Amusement as well as instruction may be found in every page, as graphic detail, brilliant wit and authentic history are skillfully interwoven in this work of deep interest.

This work sells itself. The people are tired of dry details and partisan works, and want something humorous, reliable, and entertaining. AUTUMN SONG.

BY FORSYTHE WILSON.

In Spring the Poet is glad,
And in summer the Poet is gay;
But in Autumn the Poet is sad,
And has something sad to say:

For the wind moans in the wood,
And the leaf drops from the tree;
And the cold rain falls on the graves of the good,
And the cold mist comes up from the sea:

And the Autumn songs of the Poet's soul
Are set to the pensive minor strain
Of winds that sough and sobs that toll
The dirge of the fallen leaf.

SERVED THEM RIGHT.—A petition was received by General Jeff. C. Davis a few days since, says the Louisville Journal, from the citizens of Russellville, Ky., praying the withdrawal of the United States troops from that town and vicinity, on the plea that they desired to remove all remembrances of the late unhappy conflict between the sections.

A letter had been received before from a prominent citizen of the place, that put the case in so favorable a light, that the General not fully cognizant of the usefulness of the troops at that point, had determined to withdraw them. So much sympathy for "lost cause" and so bitter an antipathy to the Government were displayed in the petition, that the General has replied to those who sent the letter that, as the presence of United States soldiers is not meant as a menace, he intends not to comply with the request for a withdrawal, if it were only to show that the colors of the country shall fly and its soldiers live wherever the Government sees fit to send them on American soil, prejudices of sections to the contrary notwithstanding.

— The family of Mr. Eugene Hannigan of Fitchburg were recently taken ill, after eating salt pork put up for family use. The Reveille hints that the use of saltpetre had something to do with it.

— Said a wag to a friend, "Miss——, though a rather broad featured young lady, has a very benign countenance." "Yes," said the friend, "It is seven by nine."

Ayer's Cathartic Pills
ARE the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow disease, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take, and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Agent below named is prepared to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

Costiveness, Biliousness, Dyspepsia, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S, and take no others. The sick want the best and there is for them, and they should have it.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere.

Morning Chronicle.

Portsmouth N. H.

TUESDAY, NOVEMBER 20, 1866.

TWO EXTRACTS.—The first, from the Boston Post of Nov. 5, reads thus:

One day is all that is left to work in the State. Much can be accomplished even in that time, if taken hold of in the right spirit. Work as if life depended on it, and see what wonders will come of it. And the life of the nation may depend upon it. Our hopes are bound up in this great issue.—Shall we have peace and fraternity, order and prosperity,—or shall we plunge into another war, this time a war of neighborhoods instead of sections, that will leave us impoverished, spiritless, the prey of whatever leader or faction chances to come uppermost?

These great questions were put the day before election. The second extract is from the Post of Nov. 7, the day after election. It says:

The Republicans have pretty much walked over the course. In the two Boston districts the conservative vote was not up to the general expectation. * * * There is probably no danger of the will of the people being resisted, and if any report of Gov. Bullock's calling upon the President for military assistance gains circulation, it can be safely put in the category of unfounded reports. The election being over, the people can now with the *sarcasm* patiently attend the great meteoric shower, which seems to be the next important matter on the docket.

Surely the editor would not write in this way, if he believed that the Republican victory meant "a war of neighborhoods." He did NOT believe any such thing, and took care in writing the first extract above, to make the paragraph ambiguous. His intelligence enables him to see that the decisive Republican success, in the late elections, is altogether in favor of law and liberty, order and peace.

☞ The Editors and Writers at Washington are wearying themselves with speculations and rumors, as to what Pres. Johnson intends to do or say. The people of the loyal States are looking to see what Congress will do or say with him or about him. If he gets his *deserts*, he will be impeached and "kicked out." He is in their hands, and they have power legally to depose him. He is guilty of the high misdemeanor of abusing the power of appointment, and usurping the power of arbitrary removal without cause. If two thirds of the Senate agree in this view, out he goes. Congress may, however, not think it best to impeach, but only to letter him with proper laws, and let the country grub along with him for the next two years and a half.

POLITICAL.—The New York Evening Post, speaking of the Washington rumors about the general amnesty and impartial suffrage project, says: "Our own private information is to the effect that the President does not at this time favor the project, though we are told that he listens to arguments for it." The Washington correspondent of the same paper says: "All that is known is that three or four individuals, Democrats and Republicans, have advised the President to recommend impartial suffrage to the South in his message."

It is a significant fact that Francis Thomas, the Representative from Western Maryland, has steadily voted and worked, in and out of Congress, for negro suffrage, and he is now re-elected by over two thousand majority. Although this fact was heralded against him night and day through the campaign, he has carried every county in his district.

It is said that over 2000 postmasters have been removed since the adjournment of Congress, besides a large number of internal revenue and other officers, with the hope of affecting the fall elections.

THE REBEL VOTERS IN BALTIMORE.—General John Wooley, who was Provost Marshal of Baltimore during the rebellion, in a letter written since the election says:

"I saw some of the most noted rebels in Baltimore step up to the polls and swear in their votes—swear they not only had never taken part with the rebellion, but had never desired the success of the Southern arms; well knowing they were committing perjury. Had not our organization been perfect and composed of determined men, the rebels would have polled thousands more votes. I think we will have little trouble in exposing the frauds and securing the Hons. John L. Thomas and J. J. Stewart their seats in Congress."

AMNESTY.—The President has just pardoned four rebels who were condemned for the murder of Union soldiers.

☞ On Sunday morning at Chicago, Ill., a fire destroyed eight stores on Lake and South Water streets. Loss about $500,000; insured $236,000: origin of fire unknown.

☞ 41 Fenian prisoners at Toronto, are to be discharged, as no bills are found against them by the grand jury.

— Antonio Barboravia, who died lately in St. Louis, left a fortune of $50,000, which he accumulated by keeping a fruit stand.

— If a young lady wishes to encourage her lover when he gives her a squeeze, the best thing she can do is to *re-press* him.

A PLAIN PATH.—A contemporary truly says,—whatever the President may be getting ready to say in his message, express a change in his policy or to induce a change in the policy of Congress, and whatever difference may have been wrought in the South by the fall elections, we should keep in mind the distinguishing principle between Congress and the loyal masses on the one hand, and their opponents, North and South on the other. That is, that the United States Government has the right to impose conditions on the seceded States previous to restoring them to active relations in the Union. The President has denied this, so have the Southern leaders, so now do the Chicago Times and all the new reformatory Democrats—but Congress and its constituents stand by it. They will never yield it. The South might avoid the application of the rule by promptly taking such a course as to make it unnecessary.—But the idea of the other side seems to be, that if Congress will abandon the Constitutional Amendment and admit the Southern States into the Union, *then* the latter will concede equalised suffrage and other desirable measures. Now it might as well be said one time as another that the loyal country will do nothing of the kind.

As a matter of right and principle, it will never give a bounty on rebellion by saying that a State may secede, plunge the country into war, be overpowered, and then instantly resume its place in the Union as a matter of course and as if it had done no wrong. Secondly, as a question of wise expediency, it will never repay with unlimited confidence a course of treason, perjury and hostility. If the South wants better terms, let her show that she is worthy of them by doing justice to her own citizens, fully and promptly. Then Congress will be moved to the utmost limit of generosity. But let her not imagine that her loyalty and right behavior in the future will be lightly taken on trust, for the scathing record of the last five years has effectually destroyed such a presumption.

THE NOVEMBER ELECTIONS.—The Republican majority in Illinois will probably reach very nearly 60,000. The next legislature probably stand as follows: Senate — Republicans, 16; Democrats, 9. House—Republicans, 58; Democrats, 27.

In Michigan, the Republican majority on Congressmen is 20,500—a gain of 10 500.

In Wisconsin, the Republican majority on Congressmen is 26,000. The legislature stands as follows: Senate—Republicans, 22; Democrats, 11. Assembly—Republicans, 70; Democrats, 30. The returns of the vote on a constitutional convention indicate its defeat.

The Republican majority in Minnesota will exceed 10,000.

The Republican majority in Iowa is about 40,000.

The Republican majority in New York is about 14,000. The majority for the constitutional convention is estimated at 45,000.

In Massachusetts, Republican majority, about 70,000.

A GOOD STORY.—The Troy Whig tells the following good story in connection with a recent fire in that city:

During the progress of the fire, the conduct of a bricklayer on the roof, who had been engaged in heightening a chimney on the adjacent building, before the fire broke out, attracted much attention. Disregarding the smoke, the flames, and the excited spectators beneath him as completely as if his life depended on so doing, he labored away assiduously at his task, notwithstanding the great inconvenience he must have experienced from the heat. Some of the firemen who ascended to the roof, seeing a water bucket near where the stolid workman stood, took it for some needed purpose, when the latter cried out expostulatingly: "Say, don't use all that water; I want to mix my mortar with it." No heed was paid to the remonstrance, and the man went on with his job as calmly as ever.

— A poor woman and her child lately settled in a Western city, and were greatly reduced and in need of food. The child seeing a chicken in the back yard, wanted to kill it and have a pot pie. "No, no," said the mother, "that would be wicked, and God would surely punish you." "Then," said the youngster, looking up, "let's move back to New York, there ain't any God there."

— Jane: "Charles, dear, now that we are married, you know, we must have no secrets. So do, like a dove, hand me that bottle of hair dye; you will find it in my dressing case."

— A man who had won a fat turkey at a raffle, and whose pious wife was very inquisitive about the method of obtaining the poultry, satisfied her scruples at last, by the remark that the "Shakers" gave it to him.

— Very curious statements sometimes appear in print. A Pittsfield journal says: "A man fell dead in this town last week, and before assistance could reach him his life was nearly extinct."

— A down-east editor says he has seen the contrivances our lawyers use when they "warm up with the subject." He says it is a glass concern, and holds about a pint.

MORE DISCOVERIES OF THE SIR JOHN FRANKLIN EXPEDITION.—The captain and part of the crew of the barque Antelope, of New Bedford, which was lost at Niantelik Island on the 6th of October last, recently arrived at St. Johns, in steamers from Cumberland Inlet. The St. Johns Commercial Journal says:

"The officers of the Antelope bring interesting information of discoveries made by Mr. C. F. Hall respecting the Franklin expedition. Mr. Hall has in his possession a gold watch, some silver spoons and other relics supposed to have belonged to the Franklin party. He also learnt that the remains of some of Franklin's men were lying under a boat in Committee Bay, where they had been placed by the natives after death. The natives would not permit Mr. Hall to go on and examine them, but as several vessels will winter in Repulse Bay, it is believed Mr. Hall will secure assistance and push his way to where the remains are situated."

THE INEBRIATE.—A highly creditable philanthropic experiment is about to be made in New York. The foundation of an Asylum intended for the cure and reformation of inebriates, has just been laid at Binghampton. Among the distinguished men who participated in the ceremonies, or gave to the movement the weight of their names, were Edward Everett, Daniel S. Dickinson, Benjamin F. Butler, Dr. Bellows, and Dr. Francis. A handsome fund has already been raised for the completion of the building, and a large benefaction in money is expected from the State. A law is contemplated appropriating to the support of the institution a portion of the money received for licenses for the sale of spirituous liquors. The following account of the Asylum is from the New York Daily News:

The necessity for such an institution has long been felt, and its establishment will inaugurate a new and important era in the history of the world's humanitarian movements. More than twelve years have now elapsed since a worthy and accomplished physician of this city dedicated his talents to the work and began to assiduously prosecute his arduous labors, to secure the founding of this Inebriate Asylum.

During that period Dr. J. Edward Turner has not ceased to work for the achievement of his object. And all the more eagerly and successfully did he pursue it, because no anticipation of personal emolument obstructed the pathway in which Charity was leading him. Much of that time was spent in visiting the Insane Asylums and conversing with eminent physicians all over Europe for the purpose of obtaining statistics and opinions, and making a thorough investigation of the physiological and pathological character of inebriety. He studied its pathology from two hundred and eighty five subjects, and the facts gathered from these sources demonstrate that inebriety is a disease constitutional and hereditary in its character and tendencies, as much as any malady which flesh is heir to. Its hereditary nature is clearly shown by the mortality of children born of inebriate parents.

In such children there are found the same ulcerations of the stomach, liver, and intestinal canal, with the indurated condition of the brain, as are seen in the chronic cases, induced by five or ten years of excess, in the use of alcoholic stimulants. A peculiar feature of this disease was found to exist in that morbid condition of the stomach, which is transmitted from one generation to another, lying dormant in the constitution until the application of the exciting cause developes the morbid appetite, and places the victim of this malady as much beyond his own control, after partaking of the first glass of spirituous liquor, as if he had been in the habit of drinking to excess for years. More than forty per cent. of all the insanity, and fifty per cent. of all the idiocy in the land is traced to the offspring of inebriate parents, who are born constitutionally insane and idiotic. Out of the seventeen hundred members of the medical profession with whom he conferred, there were only ten who dissented from his views on the morbid anatomy and pathology of inebriety, and of the malady being an hereditary one.

JOHNSONIAN ADVICE.—The New York Sun, which was an ardent supporter of Johnson and Hoffman, now turns promptly round and says:

"The President cannot consistently nor rightfully refuse to heed the voice of his constituents in the twenty-one Northern States which have decided against his policy. The duty of modifying that policy is one which he cannot, and we believe will not, attempt to evade. In the message which he is now preparing for the approaching session of Congress, he should take the popular ground upon the reconstruction question. It is both impolitic and useless for him to take any other position, for he can no more beat back the wave of public opinion than he can stop the tidal flow of the ocean."

AN EXENSIVE RESERVOIR.—The Barre Gazette says a company has recently purchased all the mill rights on the streams running into Wickaboag pond, West Brookfield, and will soon erect a dam that will add 900 acres to its capacity as a reservoir. The outlet of the pond is into the Quaboag river, which is one of the tributaries to the Chicopee; and the reservoir will greatly enlarge the water power of the Quaboag, Chicopee and Connecticut rivers.

— The Cincinnati Gazette says hog cholera is prevailing in the country adjacent to Cincinnati, and the producers are killing the animals and sending them to market to save themselves from loss.

— The artesian well in the stock-yards in Chicago has reached a depth of one thousand and fifty feet, and is now flowing at the rate of sixty thousand gallons per day.

ANOTHER ACCIDENT ON THE BOSTON & MAINE RAILROAD.—The freight train on the Bostou & Maine Railroad, on Saturday evening, ran off the track a mile below Exeter, throwing off several freight cars. This is third accident of the kind that has occurred on the Maine Road within a month.

— An old bachelor acquaintance remarks: "A great many anecdotes are related of personal bravery. We would like to see that man who would deliberately allow a woman to catch him making mouths at her baby.

PERRY DAVIS' PAIN KILLER.

Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and molasses, and a gill of hot water. Stir well together and drink hot. Repeat the dose every hour until relieved. If the pains be severe, bathe the bowels and bed with a mustard plaster.

Fishermen, so often exposed to hurts by hooks, their skin pierced with hooks and fins of fish, can be much relieved by bathing with a little Pain Killer as soon as the accident occurs; in this way the anguish is soon abated; bathe as often as once in an hour, if necessary, three or four times, and you will seldom have any trouble. m1 dawlm

CONTAGIOUS DISEASES.—Water must be adapted to the nature of the fish, or there will be no increase; the soil must be adapted to the seed or there will be small returns; and the human body must contain impurities, or there will be no sickness. The man whose bowels and blood have been cleansed by a free use of

BRANDRETH'S PILLS

may walk through infected dist ricts without fear. "The life of the flesh is in the blood." To secure health we must USE BRANDRETH'S PILLS, because we cannot be sick but from unhealthy accumulations in the bowels or the blood, which Brandreth's Pills remove; this method is following nature, and is safe, and has STOOD THE TEST OF TIME. See B. Brandreth in white letters in the Government stamp. Sold by all Druggists. o29—1mdaw

DR. P. MEREDITH, Dentist, office No. 132 West Sixth Street, states as follows:

CINCINNATI, October 1, 1863.

MESSRS. J. N. HARRIS & CO.—Gentlemen: About one year ago I took a cold which settled on my lungs. A violent cough was the consequence, which increased with severity. I expectorated large quantities of phlegm and matter. During the last winter I became so reduced that I was confined to my bed. The disease was attended with cold chills and high fever at night. A diarrhea set in. My friends thought I was in the last stage of Consumption, and could not possibly get well. I was recommended to try

ALLEN'S LUNG BALSAM

The formula was shown to me, which induced me to give it a trial, and I will only say that my cough is entirely cured, and I am now able to attend to my business as usual. Yours respectfully, P. MEREDITH.

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES

These Drops are a chemically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the reliable preparation for the cure of suppression in the world, for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, accompany each bottle, without producing effects contrary to nature's chosen laws. will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.**

Prepared by Dr. JOHN L. LYON, 195 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, enclosing $5, concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

AMERICAN LIFE DROPS!

FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

"HOPEDALE, Mass.

"ORRIN SKINNER & Co.—*Sirs:*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops, according to direction, he was soon relieved and entirely cured; broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were soon cured by the same medicine. I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."

Local.

☞ Who is to be our next Mayor? is now the moot question about town. The present incumbent has had few if any superiors in the office—and all parties must agree that he has fulfilled his duties faithfully and well. There are several candidates talked about on both sides; but we can tell better who is to be Mayor, after election, or rather after the Republican caucus to-morrow evening. The republicans are apparently not to have things all their own way this year, for no doubt the democrats will carry the South Ward this time—thanks to the Navy Yard again, for the suckers down that way can't get along without "pap" of some kind.

☞ Mr. H. S. Bodge contemplates making some alterations in his store; and to better enable him to do so, he proposes to reduce his stock by offering the same at retail, at cost prices, for 30 days,—consisting of watches, new styles of jewelry, clocks, silver and plated ware, spectacles and eyeglasses—gold-bowed and steel—gold pens and holders, paper-cutters, wallets, knives, brushes, scissors, portfolios, glove boxes, cards, and fancy goods generally. Corner Congress and High streets—opposite front of North Church. Now is your chance for bargains.

☞ A Market street merchant desires us to call public attention to the condition of that leading thoroughfare in the city, and hints that some of the results of the coming municipal election may hinge on this matter. Now, while we must all agree that this street has a very bad road bed, still people should remember that all things cannot be done in a minute, and that all such improvements make taxes higher. Not that we think that low taxes are always desirable, by any means, so that they are judiciously expended, as we think they would certainly be in this case.

☞ Pratt's Knife Sharpener is a very simple little instrument, but a very effective and useful one—we think the best thing of the sort which we have ever seen. It will sharpen a set of table knives in two minutes, so that if your appetite is as good as it ought to be, you will fancy a tough steak tender, at least till you get it into your mouth. It was patented last July, and the right for New Hampshire may be procured on inquiring at this office.

☞ Philharmonic Rehearsal this (Tuesday) evening at half past 7 precisely. And as the Lyceum is to be on Wednesday of *next* week, and will probably not again occur on Tuesday more than once or twice, for the season—the Philharmonics can retain their regular night for the season.

☞ By a private letter from Cowes, Eng., we learn that the yacht Alice is laid up at East Cowes for the winter, none of the English yachts having accepted Mr. Appleton's challenge to race for £100. The Alice will probably sail for Boston on or before the first of May next.

☞ It will be seen by the advertisement, that Mr. H. L. Garrett, of this city, has been appointed agent for the sale of the new rubber cushions to go under (or over) horses' shoes. They appear to be a good article.

POLICE COURT, Nov. 17.—James Abel, who was believed, (not by Cain, though maybap by the juice of cane,) was fined $3 and costs $3.86, for his deviation from the path of temperance.

Nov. 19.—John Dorr, guilty of intoxication, was sent to the House of Correction, in default of payment of fine and costs, amounting to $6.69.

James Killan, also intoxicated, was fined $3 and costs $3.86.

☞ Dr. R. O. Treadwell and Rev. Daniel Austin of this city, will sail in the steamer of Wednesday, from Boston, for a year's absence in Europe. We wish them a pleasant voyage and safe return.

HEROIC ACT.—On Sunday last, about 5 o'clock P. M., a horse attached to a carriage, in which were seated a gentleman and lady, became unmanageable from the breaking of some part of the harness, in the western part of the city, and ran away with great violence down town, across the Parade. The gentleman and lady stuck to the vehicle, and when on the corner of Daniel and Penhallow Streets, Charles A. Shannon, Esq., City Treasurer, who happened at the moment to be passing with his lady, instantly jumped from the sidewalk, caught the infuriate animal by the bit, and clung to him—thereby running him on the sidewalk below and stopping him. This dangerous act of Mr. Shannon no doubt saved the lives of the inmates of the carriage, as in one minute more the runaway animal must have gone into the river below.

☞ Charlie Pettengill, the favorite Ethiopian delineator, it will be seen, is to visit us with a good troupe, on Thursday.

☞ The Musical Festival at Exeter, will commence on Tuesday and continue through Friday. See the advertisement.

Special Notices.

DR. SCHENCK'S
NEW OFFICE.

☞ DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of No. 32 Hanover Street, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person complaining with Consumption or any disease leading to it, is invited to call on him. He gives advice free, but for a thorough examination with his Respirometer, the charge is five dollars.

Dr. Schenck can explain to patients very correctly the stage of their disease, and how to use his medicines, namely, his Pulmonic Syrup, Sea-weed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the lungs are gone, and what part; also whether it is Tubercular, Pulmonary, Bronchial or Dyspeptic Consumption, or whether it is merely an ulcerated throat and catarrh, or from Liver Complaint.

He makes no charge for advice, so any one can take them without seeing him, but if they live near by and are well enough, it is best to see him. All three of his medicines are required in nearly every case of lung disease, for it is impossible to cure Consumption unless the stomach and liver is kept in perfect order. To get lungs in a healing condition the stomach must be cleansed, and an appetite for good rich food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 for the half dozen. Mandrake Pills 25 cents.

REASONS WHY THE
AMERICAN WATCH,
MADE AT WALTHAM, MASS.,
IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All genuine watches have carried "anchors," "lepines" and "English Patent Levers" are perfectly well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction. While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and the warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

STOVES! STOVES!

ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,
No. 43 Market Street,
Offers to his friends and the public the celebrated

KEARSARGE
COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is rare, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shovelling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

A NEW LODGE OF GOOD TEMPLARS.

A meeting was held in Rechabite Hall on Wednesday evening 14th inst. for the purpose of forming a Lodge of Good Templars in this city. An application to the Grand Lodge for a charter to organize a subordinate Lodge of the Independent Order of Good Templars in this city was presented, signed by sixty of our most worthy citizens.

G. W. C. Templar A. O. Dillingham of Manchester, assisted G. W. Y. Templar sister J. D. Stott and acting G. W. Marshal, W. C. Templar, Joseph D. Stott of Newmarket, organized a Lodge of I. O. of G. T. to be called Strawberry-Bank Lodge No. 42 of New Hampshire. The following officers were elected and installed, for the current quarter ending the 31st of next January.

Worthy Chief Templar, King J. Strong: W. Vice Templar, sister N. B Coleman; W. Sec'y, James F. Hill; W. Financial Sec'ty, Arthur H. Tibbetts; W. Treasurer, Adams Perry jr.; W. Marshal, Wm. F. Rice, jr.; W. Chaplain, Rev. James Pike; W. Inside Guard, sister Alice C. Hitchings; W. Outside Guard, George E. Burt; W. Assistant Sec'ty, Ezra A. Stevens, jr.; W. Deputy Marshal, George F. Rice; W. Right Hand Supporter, Jas. A. Waterhouse; W. Left Hand Supporter, John F. Leavitt; Past W. C. T., Dr. N. B. Coleman.

Twenty four Ladies and Gentlemen were introduced and initiated into the organization, and one by card from a Lodge in Maine. A few visitors from other Lodges were present and assisted in the organization. The Society bids fair to be a good working institution in our city, and will doubtless accomplish much good. There are already in this State forty-two active working Lodges with a membership of about 4000 ladies and gentlemen, although the Order is yet young having been organized only a little over twelve months.

Agents Wanted For

The Camp, the Battlefield, and the Hospital,

Or Lights and Shadows of the Great Rebellion.

There is a certain portion of the war that will never go into the regular histories, nor be embodied in romantic verse, which is a very real part of it, and will, if preserved, convey to succeeding generations a better idea of the spirit of the conflict than any reports or careful narratives of events, and this part may be called the gossip, the fun, the pathos of the war. This illustrates the character of the leaders, the humor of the soldiers, the devotion of women, the bravery of men, the pluck of our heroes, the romance and hardships of the service.

The volume is profusely illustrated with over 100 engravings by the first artists, which are *really beautiful;* worthy of examination by every reader. The work is free from objectionable features, including reminiscences of camp, picket, spy, scout, bivouac, siege, and battlefield adventures; thrilling incidents, bravery, wit, drollery, comical and ludicrous adventures, etc., etc.

Amusement as well as instruction may be found in every page, so fine detail, brilliant wit and authentic history are skillfully interwoven in this work of literary art.

This work sells itself. The people are tired of dry detailed and partisan works, and want something humorous, romantic, and startling. Our agents are making from $10 to $40 per day, and clear of all expenses. Send for circulars, giving particulars, and see our terms and proof of the above assertion. Address, NATIONAL PUBLISHING CO., 118 Water Street, Boston, Mass.

VOL. XXIX. PORTSMOUTH, N. H. WEDNESDAY, NOVEMBER 21, 1866. No. 121.

The Chronicle.

AN ENGLISH ROMANCE.—The London Star tells a romantic story of one Sir Roger Charles Tichbourne, Bart, heir to large estates in Hampshire, who many years ago sailed for this country, was wrecked on reaching the coast, and reported drowned, but instead got safe to land, wandered about the United States, and thence to Australia, where he engaged in various humble callings, most recently that of butcher. Meantime his father died, and he being supposed to be dead, a younger brother succeeded to the paternal estate. Recently the latter died also. The wandering Baronet, it seems, kept informed about his family, and knew of his father's death, but as he was much attached to his younger brother in childhood, and feeling that his checkered career had in a measure unfitted him for the life of an English country gentleman, he did not attempt to disturb the succession, and maintained his incognito. On learning of the death of his brother, however, he decided to claim his patrimony, laid aside his disguise and is now on the way to England with his wife, the daughter of a laborer, whom he has married within the year. He will step into possession of one of the finest estates in England and an income of £10,000 to £15,000 per year.

THE MAINE COLONY IN PALESTINE.—A small colony of people have gone from the State of Maine to make a settlement in the Holy Land, with sanguine expectations of great success in laying anew the foundations of prosperity in that desolate country. The American missionary, Mr. H. H. Jessup, writing from Beirut, September 3, thus notices the movement:

"We are all distressed at the news of the coming of a colony of Americans from Maine to settle at Jaffa. The Consul at Jerusalem has written to Mr. Seward to dissuade the deluded people from such an insane undertaking; but they will not be dissuaded. Nothing less than the 'sacred' soil will satisfy them. They will find the Turkish government suspicious, and opposed to them at every step. Once outside of Jaffa gardens, the plain is frequented by the Bedouins, and they will find the Holy Land too hot for them in more senses than one. It seems sad that sober reason could not have reached them. I have noticed advertisements of the scheme in the papers from time to time, but regarded it as a hoax. We now hear that they are coming. May the Lord have mercy on them."

— An exchange says:—"Lovers, like armies, generally get along by quiet enough until they are engaged."

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos 7 and 9 ENDICOTT STREET, BOSTON, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. D. has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS.—Dr. Dow devotes a great part of his time to the treatment of those cases caused by a secret and solitary habit, which ruins the body and mind, unfitting the unfortunate individual for business or society. Patients who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charges for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DELICATE HEALTH.
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has no doubt had greater experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who may wish to stay in Boston a few days under his treatment. Dr. Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, acknowledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7 Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr Dow imports and has for sale a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Morning Chronicle.

Portsmouth N. H.

WEDNESDAY, NOVEMBER 21, 1866.

PLENTY OF FOOD.—A Boston paper says the crops are now the same as all harvested, and the grand total foots up well. There is a great abundance of breadstuffs—much more than can be brought to market with the existing means of transit. The West will use corn for fuel, while the East pays high prices for it, and gets poor at that. The hog crop is excessive. The tumble in a few days was more than thirty three per cent., and many a pork operator failed to save his bacon. Cattle and sheep are abundant. They have come into the Eastern markets lately in swarms, and have been sold at less than first cost in the West. Behind the bullocks sacrificed for our dinners there are thousands of droves which cannot be held back much longer, as the drovers are getting shaky. Of turkeys, chickens, &c., there never has been such an abundant supply. The same is true in regard to butter and cheese. These articles have been held back till the last moment, and by and by they will come tumbling upon the market all in a heap. The cotton crop has so far survived the worm, the rust, the rain, the drouth, the negro, the Freedmen's Bureau, the planters and the "Old Scratch," that its prospects are very much improved and the market is pressed downward here and abroad under assurances of a crop of two million bales—which is more than can be marketed at present prices, while India and Egypt and Brazil are in the field. On the whole we have good reason to give thanks this year for the bounties of Providence.

MEXICO.—A special dispatch from Brownsville, dated the 11th, reports that a spirited attack on Matamoras took place on the 9th and lasted several hours. The assaulting party under Tapia, gained the advantage, but distrusting Cortinas did not follow up their success. The defenders lost 20 prisoners, and Col. Reas, their commander, was arrested for bad conduct on the field. On the night of the 10th inst. Tapia died of cholera. This event will change the current of affairs. The arrival of Escobedo is reported.

A special dispatch states that General Ortega and party remain at Brazos, the guest of the commander of the colored United States troops. Ortega has signified his intention to return to New Orleans.

Fifteen hundred Federal troops are expected on the Mexican frontier soon.

Vera Cruz dates to Nov. 13, have been received. At an extraordinary meeting to discuss the situation of affairs, Maximilian's Ministers unanimously determined to continue in office without alteration. Maximilian's health was very much improved by his recent sea voyage, which caused reports that he had attempted to abandon the country. On the 13th inst. Maximilian was still at Orizaba.

☞ The N. H. Patriot thinks its party derived very little advantage in the late elections from its alliance with the bread-and-butter party, and says:

"It is well for the Democracy to realize that they have got to look to look to their own strength, resources and organization for that success at the polls which they believe the welfare of the country so imperiously demands."

DISEASED HOGS SENT TO MARKET.—It is a well known fact that the hog cholera is prevailing to a considerable extent throughout the country adjacent to the city. In view of this fact, and also that the price of pork is suffering a considerable decline from anticipated prices, we presume the temptation to avoid loss is too great for men to withstand. We are informed by authority of undoubted reliability that it is the practice of many pork owners to kill the hogs when first attacked by the sickness, and send them for sale in our daily market. That this is an outrage for which no adequate name can be given no one will pretend to deny. We chronicle the fact in order that people may take the necessary measures to protect themselves.—*Cincinnati Gazette, Nov. 14.*

WOOLEN GOODS.—An effort says a Paris Journal is being made by some manufacturers of woolen goods to induce the owners of mills throughout the country to reduce the hours of labor or to run their mills on half time during the ninety days, in order to allow the trade to sink the large surplus of manufactured goods now on hand, and which, it is stated, are now being sold at a less price than for the past eight or ten years, even when wool was 30 cents and gold at par. Unless this is done a further reduction in prices is anticipated and consequent embarrassment and failures among the manufacturers and those who have large stocks of goods on hand.

— In view of the rumor that Confederate notes are again coming into circulation in the remote South, the Mobile Times says: "We can add that Mobile wood dealers will take them even—cord for cord. It this be treason, make the most of it."

— The Tennessee House of Representatives has extended the benefit of the new bounty bill to the relatives of dead black soldiers as well as white. Last spring this act of justice was defeated.

NEW HAMPSHIRE ITEMS.

—— Rev. T. H. Miller is to preach at Fremont next Sunday.

—— Perley writes from Washington to the Boston Journal:

It seems to be conceded that Commissioner Rollins will not be removed, nor any more office-holders in New Hampshire. Judge Cross remains Pension Agent; and there is no foundation whatever for the rumor that Gen. A. F. Stevens is to be removed as Postmaster at Nashua. There is no application at the Department for Gen. Stevens' removal.

—— The Annual Meeting of the New Hampshire State Teachers' Association will be held at Manchester on the 3d, 4th and 5th of December. Persons attending the meeting will be furnished with free return tickets. On the second day the question: "How far are teachers responsible for the conduct of their pupils out of school?" will be discussed by S. S. Caswell of Dover and A. M. Payson of this city.

WASHINGTON ITEMS.—It is said that Gen. Sickles, U. S. commander in South Carolina, is satisfied, by his residence there, that President Johnson's policy does not work well.

On Monday night Senator Harlan addressed a public meeting, about equally divided between whites and blacks, on the moral, political and social necessity of conferring the suffrage on citizens of African descent. He read from speeches and statements to show that President Johnson himself was in favor of it. He expressed a belief that if those present would petition Congress for impartial suffrage there would be no difficulty in securing the passage of a law for that purpose.

☞ The Erie Dispatch states that the Buffalo and Erie Railroad have settled the claims of those persons injured by the late accident on that for about $25,000. The friends of the deceased accept $5000 each, while the remainder is distributed among the wounded. James Mahoney, the trackmaster, who was arrested on account of the accident, waived an examination, and gave bonds in $2000 for his appearance at the February session of the Court.

☞ Christmas number; Godey's Lady's book for December, contains "The Christmas Doll," a beautiful engraving. A handsome steel plate title-page, consisting of fine tableaux. The centre tableau in this plate truthfully pictures the scene in many a nursery chamber on Christmas morning. "Sleighing by Moonlight," and lots of good things besides. New volume begins in January,—$3 per year.

☞ "Our Young Folks" for December is the best number which has been issued of this most excellent juvenile (which, by the way, is read by many children of larger growth). Full-page illustrations are lavishly given, and the list of contributors includes the names of many of our leading literati. Ticknor & Fields, publishers, Boston.

OVERTURNING OF THE "POLICY" KETTLE IN MISSOURI.—C. H. Branscomb has been declared elected to the Legislature over Frank Blair, the votes cast after sundown having been decided to be legal by the Attorney General of the State. This decision also elects S. D. Rigdely (Radical) to the State Senate, and increases General Policy majority. Branscomb and Ridgely have received their certificates of election from the County Clerk.

FOREIGN ITEMS, by Cable.—In England, great floods are devastating the counties of York and Lancaster, and many lives have been lost by drowning.

Baron Ricasoli, Prime Minister of the Italian government, has issued a circular discouraging the agitation of the Roman question. Italy, he says, will be neutral and await the certain triumph of her rights.

The report is confirmed that Chili and Peru have consented to accept the mediation of the governments of France and England.

KENTUCKY.—Gen. Jeff. C. Davis, Freedmen's Bureau Commissioner in Kentucky, in his report for October, says there is a large number of Freedmen at Covington who have been driven from their homes in the neighboring counties by threats of violence. As the county authorities are making no efforts to provide for them, measures have been adopted by the Bureau for protecting them from the rigors of the coming winter. Forty-two outrages upon the freedmen have been reported, for which only seven arrests have been made. He states that the civil authorities manifest an indifference in taking cognizance of these crimes and that county courts are generally prompt to interpose their authority to shield the offenders.

TENNESSEE.—At Nashville, Nov. 19., in the House of Representatives a bill providing for impartial suffrage and universal amnesty was tabled by a vote of 39 to 20. The East Tennesseans voted almost solid against it, while a majority of the Conservatives favored the measure.

— Charles G. Cornell, the Street Commissioner of New York, has resigned; just as an investigation of the affairs of his department is about to be made.

Correspondence of the Chronicle.

LEXINGTON, Mass., Nov. 19.

Even this little village leads Portsmouth in some things. Since I last wrote you from this point they have laid out and put in running order a fine trotting park, with half mile track, good stables, &c. Some good horses are owned in the vicinity, and the shareholders will reap good dividends from their investments in the pleasure and benefit to be derived from their frequent drives.

The citizens of Lexington have organized a Lyceum, elected Dr. Do Lewis, President, and arranged for a course of lectures. Hon. Geo. S. Boutwell, Geo. W. Curtis, Rev. Dr. Cheever, Rev. J. M. Manning, Rev. Dr. Miner, Rev. H. M. Dexter, Rev. E. B. Webb, Grace Greenwood and other distinguished lecturers are said to have volunteered their services, and the receipts will be given to the Lexington Monument fund. Elizabeth Cady Stanton, late candidate for Congress, will deliver the opening lecture on Friday evening next.

So far from losing anything of popular favor by the test of time, the system of education inaugurated in Dr. Lewis's Young Ladies' Seminary at this place (wherein physical culture is made one of the chief studies), each succeeding school so far outnumbers its predecessor that Dr. L. is about to add a wing containing sixty dormitories to his already extensive accommodations.

ION.

☞ On a subject of general amnesty, Perley writes as follows:—

Although Mr. Welles wrote to a friend in Connecticut (and a wide circulation has been given to the epistle) that Mr. Johnson will not do "any imprudent thing by which the public peace will be disturbed," there are reasons for believing that we are to have a general jail delivery of those who conspired to destroy the republic that slavery might be perpetuated. The day before the close of the session of Congress in July, 1862, an act was rather hastily passed "to suppress insurrection, to punish treason and rebellion, to confiscate the property of rebels, and for other purposes." It is quite a long act, emancipating the slaves of traitors, authorizing the employment of colored men for the suppression of the rebellion, and containing many provisions for the punishment of treason, but at the close there is a section by which the President is authorized to proclaim pardon and amnesty, on such conditions as he may deem expedient for the public welfare.

As the law remains on the statute-book, President Johnson has the undoubted right under it to proclaim general amnesty, and it is equally certain that Congress, by repealing the law, can deprive him of it within three weeks. Here then is an opportunity for the "poor white" of Tennessee to win the gratitude and to receive the thanks of the wealthy and governing class of Southerners, many whom are yet unpardoned. They fear that Congress will close this door, now so invitingly ajar, and they are doing all in their power to secure this restoration to their individual civil rights.

Coupled with this universal amnesty, we hear of a universal but qualified suffrage, based upon intelligence and education, and the public may look for the result of the President's deliberations, either in a proclamation or his forthcoming message. The indications are that Mr. Johnson, who declared that "Treason is a crime, and should be made odious," will forgive all those traitors not already pardoned.

TERRIBLE AFFAIR.—A few evenings ago, at Somerville, New Jersey, the wife of an Irish laborer, named Cragham, was sitting up with a daughter of about eleven years. The mother attempted to fill the lamp while it was burning, when the can exploded in her hands. The mother and child were both enveloped in flames and horribly burned. The child lingered until the next morning, when it died, and the mother expired about noon the next day.

DEATH OF A VETERAN.—Major William B. Lewis, one of the ablest citizens of Nashville, Tenn., died on the 12th inst., aged eighty-two. He was the intimate personal friend of President Jackson. He served with Gen. Jackson during the war of 1812 and the Indian wars, and on the election of the latter to the Presidency, Mr. Lewis repaired to Washington with him, and was his trusted friend and confidential adviser during his Administration. He was a strong Union man during the late war.

"PERRY DAVIS' PAIN KILLER.

Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and no cheese, and a gill of hot water. Stir well together and drink hot. Repeat the dose every hour until relieved, if the pain be severe, bathe the bowels and back with it medicinally, clear.

Fishermen, so often exposed to hurts by having their skin pierced with hooks and fins of fish, can be much relieved by bathing with a little Pain Killer as soon as the accident occurs; in this way the anguish is soon abated; bathe as often as once in five minutes, say three or four times, and you will seldom have any trouble. nl dawlm

CONTAGIOUS DISEASES.—Water must be adapted to the nature of the fish, or there will be no increase; the soil must be adapted to the seed, or there will be small returns; and the human body must contain impurities, or there will be no sickness. CINCINNATI, October 1, 1863.

MESSRS. J. N. HARRIS & CO.—Gents: About one year ago I was seriously affected in my lungs. A violent cough was the consequence, which increased with severity. I expectorated large quantities of phlegm and matter. During the last winter I became so reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A diarrhœa set in. My friends thought I was in the last stage of Consumption, and could not possibly get well. I was recommended to try

MUSCAT PERLE.

The refined will hail with pleasure a PURE WINE in the full sense of the word: a wine that feels gratefully on the most delicate, as it produces no acidity on the stomach.

Muscat Perle

has an exquisite bouquet. It is delicious, and yet wine all wine. It is specially adapted for LADIES. It is preferred to Champagne.

PURITY, DELICACY OF FLAVOR, and MILDNESS are all combined in the MUSCAT PERLE.

HYGIENIC WINE, also imported, is the ONLY TONIC which receives the unhesitating approval of all Physicians.

It contains no ALCOHOL or WHISKEY admixture whatever.

It is prepared in PARIS, from pure Sherry.

Sold by all Druggists and respectable dealers.

CAUTION! GEORGE SAMPSON and O. H. DAVENPORT, who, previous to January 1, 1866, carried on the Directory Publishing Business for nearly ten years as partners of the late George Adams, under the style of Adams, Sampson & Co., have, since the above date, and still in future, continue the same business in the name of Sampson, Davenport & Co. As other parties are now canvassing in various places for Directories, leaving the impression that they are our successors or agents, we hereby caution the business community against doing business with them on our account.

To protect our Boston and New England Directory patrons and the public generally from the many impositions practised upon them, we shall hereafter invariably provide all persons with certificates of authority who are authorized to act as agents for the various Directories issued from this office. Massachusetts Directory and Register, now being canvassed for, will be issued in January, 1867. We have not, at present, any agents out on our New England Directory.—SAMPSON, DAVENPORT & CO., Directory Publishers, 47 Congress St., Boston, Mass.

AMERICAN LIFE DROPS!
FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

"BOSTON, Mass.

"ORRIN SKINNER & Co.—*Sirs:*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with a Diphtheric and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."

Republican Caucus.
The UNION REPUBLICAN voters of the city of Portsmouth are hereby notified to meet at the TEMPLE, on WEDNESDAY EVENING, Nov. 21st, at 7½ o'clock, for the purpose of nominating a candidate for MAYOR, and for the transaction of such other business as may properly come before the meeting.
n15—td Per order City Committee.

☞ In voting on the New School Law, it would be a great convenience to the Voters, and save labor to the Moderators and Clerks, if the Ballots had printed at the bottom;—"Do you ratify and accept the act of the Legislature of New Hampshire entitled 'An act in relation to Schools in the City of Portsmouth,' approved July 7, 1860?—Answer, yes."

If any party should object, their vote might have No, for the answer. Or if any individual voter objected, he might erase the Yes, and write No.

We suppose, however, there would be little or no objection to the change.

☞ The employees of Messrs. Thomas S. Nowell & Co., (many of whom were about to leave for their homes in various States to spend the Thanksgiving season,) together with a large number of invited guests, partook of a bountiful collation provided by the proprietors, at their shoe manufactory on Pleasant and State streets, on Monday evening last. The junior member of the firm delivered a humorous poem written for the occasion, which was capitally received; and our excellent Cornet Band kindly volunteered their services and discoursed some of their finest music during the evening. The affair was was splendid ly gotten up, and carried out to the infinite enjoyment of the host of participants.

POLICE COURT, Nov. 20.—James McIntire and Elizabeth McIntire, were found intoxicated on Deer street. It proved a dear street for them, as this morning they were each fined $3 and costs $3.36.

Julia Day, who made a brawl and tumult, brought forth $6.86 to cancel the fine and costs imposed upon her.

Mary Hurley, another brawler, was also fined $3 and costs $3 86.

S. J. COURT—*Bellows*, J.—Tuesday the court were occupied in case of Dr. B. S. Goodwin v. Cyrus Littlefield, trover for goods belonging to a deceased son of the deft. and kept by him from the plff. who, as a creditor, was appointed to administer the estate of the son. Verdict for deft. Good all for plff., Hatch for deft.

Case Mayberry v. Clement March, for labor, was next tried, the deft. admitting part of the plff's claim and contending the balance. Small for plff. Hatch for deft.

A TORNADO AMONG THE PINES.—During the southeast gale of Oct. 30th, it struck the handsome grove upon the land of Enoch Clark, Esq., directly west of the Academy grounds, in Greenland, and tore up and broke off about a hundred of those stately Pines. Some of the trees that were broken off would measure a foot in circumference.

ADMITTED TO THE BAR.—On motion of Hon. R. H. Dana, Jr., at the coming in of the Supreme Judicial Court, Boston, on Monday morning, Frank W. Hackett, Esq., of the New Hampshire bar, was admitted to practice as an Attorney and Counselor at Law in all the courts of the Commonwealth of Massachusetts.

☞ It will be seen that Gov. Boutwell will lecture before the Citizens' Lyceum on Monday evening next, instead of Wednesday evening as heretofore announced.—This change has been made on account of pressing business engagements of the lecturer.

☞ The caucus of Union Republicans, at the Temple this evening, will doubtless decide who is to be our next Mayor. The present encumbent, we understand, will not be a candidate for re-nomination.

☞ The Pearl St. Free Baptist Church and society, are to have a Christmas Tree, this evening, at 7 o'clock, at the Church.

BANKING EXPLAINED.—Old Mr. Lefevre's illustration of the theory of banking to a customer, whose account was almost always overdrawn, certainly rivals the best treatise on that subject. Watching the customer he caught him one day at the counter, and said to him: "Mr. Y——, you and I must understand one another something better than we now seem to. I am afraid you don't know what banking really is; give me leave to tell you. It's my business to take care of your money; but I find you are always taking care of mine. Now that is not banking, Mr. Y.; it must be the other way. I'm the banker, not you. You understand me now, Mr. Y.; I'm sure you do."

FENIANS.—Attorney General West of Canada, prior to his departure from New York, last week, for England, stated that the sentence of the condemned Fenians at Toronto would not be at present commuted but simply suspended, and that they will be kept as hostages for the good behavior of their friends.

GOLD, Tuesday, 141 1 4.—Gold received from Aspinwall, $1,120,000. American securities have advanced in Europe.

☞ Mr. T. Farrar Crane, son of Edward Crane, met with an accident on Saturday last, at Southbridge, Mass., which resulted fatally. Mr. C. was riding on an engine, and, as it approached a gravel train, jumped upon an empty car, which was unfastened and tipped down, throwing him back into the machinery of the locomotive. One arm was broken, and he was injured internally; he died on Tuesday, he was 23 years of age.

☞ Chattanooga is now a Yankee city of 12,000 people; and a Seminary of Learning is in full operation on Lookout Mountain. Hotels are to be built there, and a good road made.

☞ Some Adventists in Maine predict the end of all things about the middle of next June.

BLACK MEN VS. BLACK LEGS.—The election of two black men to the Massachusetts Legislature has terribly shocked the sensibilities of our Democratic friends, but the election of a black-leg to Congress from a den of black-legs in New York city, is all right in their estimation.

☞ Congressman John Morrissey is said to be like Daniel Webster, because he is an Ex-Pounder.

☞ The number of vessels arriving at New Orleans for the year ending June 30, 1866, was 2202, with a tonnage of 1,123,140. The duties amounted to $4,598,488.

☞ The statement recently made in special dispatches that Senator Guthrie was alarmingly ill, and that he probably would "never take his seat in the Senate again," has no foundation. Mr. Guthrie, though unwell, is walking about, and no alarm whatever is felt for his health.

Holloway's Pills.—Apoplexy.—Ye who are in hourly dread of death, whose lives hang on the sudden giving of a thread, would act wisely in having recourse to one of these dismal doses of these safety valves or life preserving pills—they regulate the action of the vital functions, equalize the circulation of the blood, and invigorate the nervous system. Persons of full habit, who are liable to apoplexy, rush of blood to the head, should always have a full supply at hand. Sold by all Druggists. n17—dawlw

SURPRISING.—It is actually surprising how soon our people have learned to prize that invaluable article known as Cole's Dyspepsia Cure. It certainly acts like magic, for it will cure the very worst cases of dyspepsia, and enable the patient, who has lived for years upon fresh meat bread and the plainest food, to eat anything he chooses without fear of distress. It is considered the most valuable remedy known for all diseases of the stomach and bowels. n12—1w

SCHENCK'S MANDRAKE PILL.
A Certain Cure for Diseased Liver and the many Dangerous Maladies which are caused by a morbid condition of that organ.

To give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce those wonderful effects which are attested by thousands of reliable witnesses, we present a brief

DESCRIPTION OF THE HUMAN LIVER

and its functions, which will make the operation of this popular medicine perceptible to every man's understanding.

The liver is supplied with blood vessels, nerves and absorbents, One of its obvious uses is to secrete and prepare the bile. It likewise filters the blood and separates that fluid from all impurities. How indispensably necessary to health is the proper performance of this function! In the liver is diseased, it cannot purify the blood, and if that is not done, it passes through the lungs, brain and other parts in a morbid condition, it must cause jaundice, biliousness, obstruction of the kidneys, gravel, and many other complaints more or less painful and dangerous, but the least of them quite enough to make a man sick and uncomfortable, and unfit for the performance of any of the duties of life. To a healthy state of the system very often ends in pulmonary consumption

The circulation of the blood is conducted in this manner:—The heart sends the vital fluid down through the arteries; it passes through the flesh, taking up all impurities in its progress; then the stream of blood flows onward through the veins, and passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of ulceration while that important organ, the liver, is diseased. It is for that reason that "regular physicians" rarely cure consumption They usually begin their treatment with the use of some opium medicine, the basis of which is morphia or opium in some shape, which locks up the liver instead of relaxing the secretions, gives a free vent to the stomach, and producing a healthy flow of bile. Dr. Schenck's

Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills,

will strengthen the system, purify the blood, and ripen and heal ulcers on the lungs.

A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz: Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills—all of which are accompanied by full directions for the use of them.

DR. SCHENCK will be professionally at his rooms every week, 32 Boston street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is five (5) dollars. Medicines are for sale by all druggists and dealers Also a full supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. REASONS WHY THE
AMERICAN WATCH,
MADE AT WALTHAM, MASS.,
IS THE BEST.

It is made on the best principle. Its frame is composed of SOLID PLATES. NO jar can interfere with the harmony of its working, and no sudden shock can damage its machinery. Every piece is made and finished by machinery (itself famous for its novelty, as well as for its effectiveness), and is therefore properly made. The watch is what all mechanism should be—ACCURATE, SIMPLE, STRONG AND ECONOMICAL. Except some high grades, too costly for general use, foreign watches are chiefly made by women and boys. Such watches are composed of several hundred pieces, screwed and riveted together, and require constant repairs to keep them in any kind of order. All persons who have carried "ancres," "lepines" and "English Patent Levers" are *perfectly* well aware of the truth of this statement.

How well we have accomplished this may be understood from the fact that after so many years of public trial, we now make MORE THAN HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, and that no others have ever given such universal satisfaction While this department of our business is continued with increased facilities for perfect work, we are at present engaged in the manufacture of watches of the very HIGHEST GRADE KNOWN TO CHRONOMETRY, unequaled by anything hitherto made by ourselves, and unsurpassed by anything made in the world. For this purpose we have the amplest facilities. We have erected an addition to our main building expressly for this branch of our business, and have filled it with the best workmen in our service. New machines and appliances have been constructed, which perform their work with consummate delicacy and exactness. The choicest and most approved materials only are used, and we challenge comparison between this grade of our work and the finest imported chronometers. We do not pretend to sell our watches for LESS MONEY than foreign watches, but we do assert without fear of contradiction that for the SAME MONEY our product is incomparably superior. All our watches, of whatever grade, are fully warranted, and this warrantee is good at all times against us or our agents in all parts of the world.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

HARPER'S
NEW MONTHLY MAGAZINE.
Critical Notices of the Press.

It is the foremost Magazine of the day. The fireside never had a more delightful companion, nor the million a more enterprising friend, than Harper's Magazine.—*Methodist Protestant* (Baltimore)

The most popular Monthly in the world.—*New York Observer.*

We must refer in terms of eulogy to the high tone and varied excellence of HARPER'S MAGAZINE—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the culture of the American People; and the popularity it has acquired is merited. Each number contains fully 144 pages of reading-matter, appropriately illustrated with good woodcuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—TRUBNER'S *Guide to American Literature, London.*

The volumes bound constitute of themselves a library of miscellaneous reading, such as cannot be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*

Morning Chronicle.

WHAT IT IS TO BE AN EDITOR.

It is to be a mirror to give reflections of the outer world to your readers and to receive reflections of all uncomplimentary sorts from them. It is to cater to their amusement, minister to their consolation, satisfy their curiosity, gratify their tastes for the marvellous, teach them morals, religion and politics, form their sentiments, lead them in wisdom's and folly's ways, show them to each other, record their good deeds and their bad deeds, publish their incomes, advertise their inventions, guide them in youth, tell their friends and enemies when they marry and write their epitaphs.

It is to make small men great and great men small, to build up and to pull down, to puff quacks and to expose humbugs, to crack up uncertain theatrical reputations and to get full houses for nigger minstrels. It is to paint every day's picture on the canvass of the present and when the figures are scarce to reproduce the past. It is to be anybody's servant and everybody's master. It is to wield a mighty power and to be under its control. It is to make the public believe what you please, and to exercise the same privilege yourself. It is to publish canards and their contradictions. It is to make and unmake Cabinets, to coerce Presidents, raise armies, dissolve unions, manage reconstructions, pardon and condemn traitors and run government generally.

It is to work harder more hours in a day, with less recreation, on less sleep and with poorer pay, than any of your fellow mortals. It is to be busy when your neighbors are idle, busier when they sleep, and busiest when they are enjoying a good time. It is to be always in a hurry, always composing but never composed, always under a press of business, always "setting up," when others are lying down, and always charitable "distributing" the results of your daily labor. It is to have our opinions always put to "proof" and seldom into practice. It is to advertise other people's wants, wishes and wates, to announce facilities for business and facilities for pleasure, to herald the approach of diseases and the invention of cures for them, to make known who has been robbed, where, of how much, who is the robber, his personal history, trial, sentence, and its execution.

It is to receive nice fruit and notice it, to be shown artificial and natural curiosities and describe them, to be everywhere at any and all times and be able to answer all questions on all subjects. It is to publish too much sentiment for one, too much politics for another, too much fun for a third, too much business for a fourth, and too little news for all. It is to make a dozen enemies to one friend, and be pitched into by anybody who chooses to consider himself aggrieved. It is to behabor your brother editor across the way on paper, and shake his hand cordially when you meet. It is to publish a paper for a dollar in advance that costs two, to wait for your pay till a collector has got fifty per cent. for getting it, and to make a living by the operation.

It is to take complimentary tickets to everything and pay for them in complimentary notices. It is to be bored by friends suggesting how you should carry on your business, and bullied by those whom you have hit in vulnerable spots. It is to win every libel suit commenced against you, and to lose money on your publishing that you sit up nights with a job press to earn. It is a life of mingled good and ill, trial and triumph, never-ending toil and never beginning felicity, wherein you work one and wear out your allotted time, with the "devil" always at your elbow calling for your role end in this life—a little more copy.—*Concord Monitor.*

DAME FORTUNE'S FREAKS.—The Newville (Pa.) Star says that a young man, now engaged in teaching "the young idea how to shoot" in Mifflin Township, Cumberland County, is reported to be the happy recipient of an estate valued at $75,000. This freak of fortune is tinctured with the colors of romance. Belonging to one of the Pennsylvania regiments he was engaged in the battle of Gettysburg, in which he received a wound in the arm. Returning from the field, he became faint from the loss of blood, and was kindly cared for by a benevolent family living near by.

During his confinement, woman, whose heart is always alive to suffering humanity, tenderly watched over him. Her tender nursing kindled love's flame. The nurse and patient promised each other days of future bliss. The father of the family perceiving this state of affairs, and weakening under the infirmities of age, made his will prior to their marriage, in which he bequeathed this clever estate to the soldier and his expectant bride. Unconscious of such paternal favor, the young soldier engaged in teaching, nobly striving to honestly earn his bread, and was thus laboring when his attorney notified him of his happy fortune. Fortune smiles on the brave.

— It is said that Commodore Vanderbilt intends to retire from active business as soon as he obtains a competance. His estate is now estimated at only fifty mil ions.

— A Missouri young lady wore her newly purchased "fizzle" head-dress to bed, and on being suddenly awakened and finding said "fizzle" on her pillow, she was greatly alarmed, taking the same for a negro's head. She screamed, grasped, the "fizzle," and fainted. Restoratives—a light and a momentary survey explained the mystery.

AMERICAN AND FOREIGN PATENTS.
E. H. EDDY,
Solicitor of Patents,
Late Agent of the U. S. Patent Office, Washington, under the Act of 1857,
78 State Street, opposite Kilby Street, BOSTON.
After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches into abandoned or Forfeited Works, to determine the validity or utility of patents or inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.
The agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate.
The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents.
These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.
All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse"
CHARLES MASON,
Commissioner of Patents.
"I have no hesitation in assuring inventors that they cannot employ a person *more competent and trustworthy*, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents
Mr. E. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that is *now pending*. Such a multitude of proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART
During eight months, the subscriber, in course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Morning Chronicle.

Portsmouth N. H.

THURSDAY, NOVEMBER 22, 1866.

PROGRESS.—The New York Herald recommends a new constitutional amendment, comprising real universal suffrage and general amnesty, with one hundred and fifty thousand men placed under Gen. Grant, for the purpose of hurrying up the good work in the excluded States.

The Washington Republican makes the following statements:

Andrew Johnson is in favor of qualified suffrage in Tennessee as a citizen of that State. He authorized us, in behalf of the Chief Executive of the nation, to urge qualified suffrage for three classes of colored men of this District, in April last, and at his suggestion we renewed the proposition again in July, only about one week before Congress adjourned. We took special pains to notify several Radical Senators and Representatives who were anxious inquirers on the subject that the President was in favor of the plan proposed in the Republican.

Is Pres. Johnson in favor of qualified suffrage for *all men*, not now voters? or is he, as we suppose, in favor of *unqualified* suffrage for one class, and *qualified* for another? Sauce for goose ought to be sauce for gander. But the *professions* of Andrew Johnson, and his promises, are worth but very little now, in the public estimation. He has not the confidence of any party, nor of but very few individuals,—and the Washington Republican, being his mouthpiece, does not and cannot make the public regard him as a man of truth and uprightness.

☞ Late advices from Mexico make it appear that Maximilian intended to leave quietly from Vera Cruz, in an Austrian frigate,—but the Austrian captain, must needs take a formal leave of the French Commander, who telegraphed to Marshal Bazaine, and he will not let M. go till he signs a formal abdication.

The reason of this conduct is that should Maximilian leave without a formal abdication the position of the French would be very difficult and ridiculous, while if he abdica es in their favor they will be released from their engagements toward him. It is said that Maximilian will be obliged to return to the City of Mexico and submit to Bazaine's terms.

☞ Govs. Worth of North Carolina, and Marvin of Florida, in their messages, both disapprove of the proposed Constitutional Amendment,—as we expected they would, after the Johnson folly. Worth recommends the emigration of the freedmen;—and Marvin growls over the military interference with the Civil Tribunals. Both their messages give evidence of the miserable working of the White House policy.

☞ At Washington, the Republican Associations of all colors, Union Leagues, and "Boys in Blue," are getting ready to give a grand reception to Congress on the day when the session begins. Western Republicans arriving there, are earnestly urging the impeachment of Pres. Johnson;—and they propose Senator Wade as President of the Senate.

AN UNLUCKY LIFE.—The Sunrise publishes the following autobiography of a man who must have been a lineal descendent of "Murad the Unlucky:"

In 1812, at twenty-three years of age, married a widow with four children.—Rented a farm for three years at $150 a year. In 1814 bought a farm fifty miles up the river, for $1200. Lived on it three cold seasons, 1814, '15 and '16. Wheat covered with snow the tenth day of June. Sold farm. Took goods from the St. John to the St. Lawrence waters. Sold goods for timber. In the spring no sale for timber. Failures in England. No shipping came out. Sold 200 tons on three months' credit. Man bankrupt. One raft went to sea in a storm. 200 tons left. Offered it for $1.50 per ton. No sale. This was in 1817. Turned my back on it, and have not seen it since. Lived in Robinston five years. Moved to Brighton, N. B., with wife and two daughters, $1 in pocket. Bought a farm; lived on it three years. Sold in 1826 and came to Bridgewater, Me. Began in the woods. Cleared fifty acres, and lived on it eight years. Did not own soil. Pay for soil called for. Could not pay. Sold possession for $300. Took a horse for $120. Broke his neck helping a load for Government to Fort Fairfield.—Got cheated out of the rest. Cut the first bush in Westfield nineteen miles in the woods. Fed hungry men's horses seventeen years. Paid for my farm, got a deed, lent my name, which swung my farm.—Lost my wife. Began with nothing and held my own first rate. Almost crazy, sixty-seven years old. Came to Presque Isle, took a new wife. Have raised and helped five families of children. Have buried a wife and six children. Have thirty two great great grandchildren; and now in my seventy-eighth year; have swung a scythe sixty-three years, and extend an invitation to any man who has mowed sixty-three years, to come and mow me a race for a gallon of punch!

He signs himself "James Thorncraft."

GOLD, Wednesday, 140 1-4.

— Mr. Lowe, the adapter of the screw propeller in its present useful form, was run over and killed by a heavily-laden wagon, in Blackfriars' road, London, on the 12th ult.

NEW HAMPSHIRE ITEMS.

——Rev. L. Marshall, of Harrisville, has accepted a call from the Presbyterian Church at St. Peter, Minn. Salary $1500, including parsonage.

—— Mr. Henry Putney, an elderly gentleman residing in Dunbarton, was found dead in his barn Monday evening, supposed to have been kicked to death by his cattle, after falling down from faintness or other cause.

UNEASY.—The efforts to turn Mr. Rollins out of the office of Commissioner of Internal Revenue to make room for Mr. Spooner of Cincinnati, continue. Gen. Steedman now leads in the contest in behalf of Spooner and declares that the President has promised to make the change before long. Mr. Rollins has been connected with the Revenue Bureau ever since its formation—has grown with its growth, and is thoroughly conversant with all its complex machinery, and his removal would be a great public injury. Mr. McCulloch protests against his removal, which, if made at all, will be made solely on political grounds and to give the place to an eleventh hour convert to "my policy." The result in this case will show the correctness or falsity of Mr. Seward's recent statement that "the Administration had got done removing gentlemen for political reasons, and that in so saying he was speaking for the President as well as himself."—*Boston Journal.*

The people are not disposed now, to believe either Mr. L. or Mr. J.

☞ The Boston Herald of Wednesday says reports are current of the failure and sudden disappearance of two merchants in B., who have left behind them paper to the amount of $150,000 to 175,000, and it is said the paper had been worked off at 21-2 per cent. a month, while the assets of the two concerns are nothing, the stocks having been sent away and sold at auction.—The failure of a tanner, doing large business in Chelsea, and of several small boot and shoe manufacturers in the vicinity of Boston, are also announced.

☞ Perley's Washington letter of the 20th, says a prominent Massachusetts Democrat has been there urging the appointment of Mr. Mason as assessor of the first district in place of Charles G. Davis. He found that Mr. Davis was backed by numerous friends of the Administration, including Secretary Seward and George Bancroft, and returned home in disgust.

☞ Harper for December is received from A. Williams & Co. As usual it is replete with interesting reading and profusely illustrated. Now is a good time to subscribe, as a new volume commences with the current number. For sale by Messrs. Shores and Foster.

☞ In Tennessee, at Murfreesboro', on Saturday, Judge Henry Cooper of the Circuit Court decided that the present State Legislature was bogus and the franchise law unconstitutional.

☞ At Louisville, Ky., seventeen men have been captured, who are supposed to be concered in the recent robbery of the pay train.

PARIS ITEMS, Nov. 20.—It is understood that M. Monstier, the French Minister for Foreign Affairs, is preparing a note on the Mexican question. It is understood that it will be conciliatory toward the United States, and will not object to a recognition of the Juarez Government.

Preparations for the evacuation of Rome by the French troops will be finally completed on the 15th of December.

COAL.—The Miners' Journal of the 17th says the demand for coal has increased a little, but it is still moderate, with some collieries standing idle, and but few worked up to their full capacity. Vessels have been scarce to the East, and freights have advanced, so that no person need hold back from purchasing now, under the expectation of coal going any lower.

CHARMING CONTRIVANCE.—An Austrian chemist, M. Leinelbrock, has discovered a way of inclosing electricity in small glass capsules, which will explode under the slightest shock. The capsule is inclosed in a steel cone, so that *it shot from a rifle* it will enter the flesh, and the explosion which follows is sufficient to kill a man.

GOLD IN SOUTH CAROLINA.—A party from Dorns gold mines at Abbeville, South Carolina, represent discoveries, which promise large results. An old mill and one battery after 18 hours' work gave 917 dwts. of gold from less than a ton and a quarter of reduced ore.

NEW MUSIC.—We have received from the publishers, Miller & Son, New York, "Our Country," a national song, by Dr. W. J. Wetmore. It will be popular.

— At Savannah, Geo., on the 18th, a citizen was shot by a freedman in a dispute about ten cents. Verdict, murder.

— From the latest reports it would seem that something like two million people have died of famine on the shores of the Bay of Bengal.

— The Bath Times says Widow Betsey Ross, living in the town of Kingsbury, Me., and now ninety years of age, recently walked two miles in the forenoon, and in the afternoon spun three skeins of yarn and got supper for six men.

CALL FOR A STATE TEMPERANCE CONVENTION.—At the meeting of the New England Temperance Convention, held in Tremont Temple, Boston, Oct. 3d and 4th, the New Hampshire delegation held a consultation and appointed a committee, composed of gentlemen from the several counties of the State, to take into consideration the propriety of calling a State Temperance Convention. At a subsequent meeting of the Committee, it was decided to issue a call for a Convention, and in accordance with that vote, the friends of Temperance throughout the State are hereby notified that a State Temperance Convention will be held in Eagle Hall, Concord, on Wednesday, Dec. 12th, 1866, commencing at 10 A. M., and continuing in session during the day and evening. It is expected that the Convention will be largely composed of delegates from Ecclesiastical bodies, religious societies, churches, Sabbath schools and Temperance organizations, and to that end all such bodies are cordially invited and earnestly urged to send delegates to represent them; while at the same time all temperance men, whether delegates or not, will be gladly welcomed to a participation in the deliberations of the Conventions.

The terrible vice of intemperance, after having swept over our land for many years without serious opposition, carrying sorrow and death to innumerable households, is now to meet an earnest and determined resistance. From the Atlantic to the Pacific the rallying cry is heard, and a vast army of temperance men is being marshalled for the conflict. Let the Christian men and women of New Hampshire strike boldly for God and humanity, encouraged by the assurance that the eternal principles of justice and truth will, sooner or later, gain the ascendancy over error and injustice, and the blessed results of the temperance reform will be felt and appreciated in a world now made dark and gloomy by man's worst enemy, intoxicating drinks.

It is expected that essays will be presented to the Convention on several topics, such as "The Relation of the Children of our Sabbath Schools to the Temperance Cause" "The Relation of the Church to Temperance," &c., while it is quite probable that other subjects of vital importance will be discussed and acted upon, the purpose being to devise practical measures that will energize the cause and encourage the hearts of Christian philanthropists throughout the State to persevere in their labors of love for the elevation of the degraded and the prevention of the unholy traffic. Is it not reasonable to expect that when such momentous interests are at stake, the response to this call will be general and hearty? Rally in our might, earnestly enthusiastic in our work, looking to God for direction and ultimate victory—

"Let us then be up and doing,
With a heart for any fate.
Still achieving, still pursuing,
Learn to labor and to wait."

Arrangements having been made with the Concord, Manchester and Lawrence, Concord and Portsmouth, Boston, Concord and Montreal, Northern, Concord and Claremont and Contoocook River, and Nashua and Wilton Railroads, to carry delegates to and from the Convention for half the usual fare, we shall expect to find every important town represented, thus making the gathering the largest and most influential ever convened in New Hampshire. Earnestly desiring this result, the matter is left in the hands of the friends of temperance throughout the State, with the full assurance of the success of the enterprise.

Signed: Hon. M. W. Tappan, Boston; Rev. Asa D. Smith, Hanover; Rev. L. D. Barrows, Sanbornton; Rev. O. C. Baker, Concord; Hon. Leonard Chase, Milford; Rev. Cyrus Wallace, Manchester; Rev. N. Davis, Esq., Nashua.

Per order of Committee:
J. H. GALLINGER, M. D., *Secretary.*

☞ The following recommendation has been made by the County School Commissioners:

"Whereas we have no Institutes, and we believe teachers would be benefitted by attending the meeting of the State Teachers' Association, to be holden in Manchester, D. c. 3, 4 and 5; we therefore recommend to School Committees to allow a vacation for those days to those teachers who desire to attend."

— D. B. Schrom's liquor and grocery store at Milwaukie, was burnt on the 14th. Loss $80,000; insurance $27,000.

— In North Kingston, R. I., on Sunday, as two sons of Mr. Lewis Hazard were frolicking in a field, the oldest, perhaps a dozen years old, having a loaded gun, by some means the weapon was discharged, the contents entering the side of the youngest boy, aged about eight years, who fell exclaiming, "you've killed me," and in a few minutes expired.

☞ A St. Louis dispatch of Nov. 20, says the Northwest Fur Company's steamer Miner, from the Upper Missouri, has arrived at St. Joseph, and brings down $300,000 in gold. She passed about 100 Mackinaw boats on the way down, each liberally supplied with the dust.

☞ A fire in Covington, Ky., on the 19th, burnt a liquor store and some of the property; loss $40,000. Cause of fire, explosion of gas in liquor store.

— In Lewiston, Me., last Friday evening, Mrs. Ira Berry attempted to blow out a kerosene lamp, when it exploded, and she was so terribly burnt that she died the next day.

— We notice that dry oak or mixed wood sells for $7.50 a cord in New Orleans.

PERRY DAVIS' PAIN KILLER.
Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and mo asses, and a gill of hot water. Stir well together and drink hot. Repeat the dose every half hour until relieved, if the pains be severe, bathe the bowels and back with the medicine, clear.
Fishermen, so often exposed to hurts by having their skin pierced with hooks and fins of fish, can be much relieved by bathing with a little Pain Killer as soon as the accident occurs; in this way the inflamed is soon abated; bathe as often as once in five minutes, say three or four times, and you will seldom have any trouble. n1 dawlm

CONTAGIOUS DISEASES.—Water must be adapted to the nature of the fish, or there will be no increase; the soil must be adapted to the seed, or there will be small returns; and the human body must contain impurities, or there will be no sickness. The man whose bowels and blood have been cleansed by a few
BRANDRETH'S PILLS
may walk through infected dist ricts without fear. "The life of the flesh is in the blood." To secure health we must USE BRANDRETH'S PILLS, because we cannot be sick but from unhealthy accumulations in the bowels or the blood, which Brandreth's Pills remove; this method is following nature, and is safe, and has stood the test for ma ny years. DR. P. MEREDITH, Dentist, office No. 122 West Sixth Street, states as follows:
CINCINNATI, October 1, 1866.
MESSRS. J. N. HARRIS & CO—Gents: About one year ago I took a cold which settled on my lungs. A violent cough was the consequence, which increased with severity. I expectorated large quantities of a phlegm and matter. During the last winter I became so reduced that I was confined to my bed. The disease was attended with cold chills and nightsweats. A diarrhœa set in. My friends thought I was in the last stages of Consumption, and could not possibly get well. I was recommended to try
ALLEN'S LUNG BALSAM
The formula was shown to me, which induced me to give it a trial, and I will only add that my cough is entirely cured, and I am now able to attend to my business as usual. Yours respectfully, F. MEREDITH.

Lyon's Periodical Drops!
THE GREAT FEMALE REMEDY FOR IRREGULARITIES
These Drops are a scientifically compounded fluid preparation, superior to any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speak in the strongest terms of praise of their great merits. They are rapidly taking the place of every other Female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world, for the cure of all female complaints, the removal of all obstructions of nature and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, nor could not be used without producing effects contrary to nature's chosen laws, will be found carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. Price $1.50.
Prepared by Dr. JOHN L. LYON, 186 Chapel Street, New Haven, Conn, who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. Price $1.50 per bottle.

CAUTION! GEORGE SAMPSON and O. H. DAVENPORT, who, previous to January 1, 1866, carried on the Directory Publishing Business for nearly years as partners of the late George Adams, under the style of Adams, Sampson & Co; have, since the above date, and will in future, continue the same under the style of Sampson, Davenport & Co. As other parties are now canvassing in various places for Directories, having the impression that they are our successors or agents, we hereby caution the business community against doing business with them on our account.
To protect our Boston and New England Directory patrons and the public generally from the many impositions practised upon them, we shall hereafter invariably provide all persons with certificates of authority who are authorized to act as agents for the various Directories issued from this office. Our new Boston Directory and Register, now being canvassed for, will be issued in January, 1867. AMERICAN LIFE DROPS!

FOR THE SPEEDY CURE OF

Diphtheria,

Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

"BOSTON, Mass.

"ORRIN SKINNER & CO.—*Sirs:*—Notwithstanding my general prejudice against proprietary (or patent) medicine, I am induced to buy two bottles of the American Life Drops, through the high recommendations of them by a friend, as always curing Diphtheria, Croup, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, the breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Hoarseness, procured a bottle, used none of his, and were cured in a short time. Since then I let my brother, a physician, have part of mine, with which he cured a bad case of Diphtheria. He is constructed to be acknowledged that they are valuable. Truly yours, A. R. ELDER."

CHARLESTOWN, MASS., Nov. 23, 1865.

Messrs. BURLEIGH & HODGES, Boston, Mass.:

I feel it a duty I owe to you, and to much of the community as are suffering as I have suffered, to make known through the medium of your advertisements the great benefit, through the blessing of God, you have wrought upon me by using SMOLANDER'S BUCHU. I had *suffered over one year with Kidney Disease* so bad *I could hardly walk*. I took four bottles of *Smolander's Buchu*, and it *cured me*. WILLIAM M. MELLEN,

Stephen B. Mayberry v. Clement March, and Rufus Sargent and Albert R. Hatch, Trustees. Action is brought to recover for labor on the farm of the defendants in Greenland. The defendants confess that there is due to the plaintiff pay at rate of $1.50 per day.

The jury brought a verdict of $7.07 above the amount confessed.

The case A. J. Shorey v. Caleb Moulton was tried in the afternoon. Action was brought to recover $50 paid by Shorey to Moulton in 1864. Moulton contends it was a payment of a former debt for money loaned by Moulton to Shorey. Given to the Jury. Hatch for plff. Hackett for deft.

The case Moris Hobbs, of Hampton v. James Twombly, of Alton, was commenced Wednesday evening, and is an action of trespass for taking and carrying away the machinery for a last manufactory which Mr. Hobbs occupied in Alton, and which he purchased there and used in business, Mr. Twombly owning the building in which the articles were left. Bell for plff, Hatch for deft.

☞ Mayor Bailey having been solicited by many citizens to become a candidate for renomination expressed his final decision in the following note:

CITY OF PORTSMOUTH,
Mayor's Office, Nov. 21, 1866.

To the Chairman of the Republican City Caucus:

Sir:—Please say to the Republicans present at the Caucus on Wednesday evening, that I am not a candidate for re-nomination to the office of Mayor, and I respectfully request you to express to them my sincere thanks for their confidence and hearty support, expressed by their votes in Caucus and at the Polls the two years last past. I have performed the duties of Mayor to the best of my ability, and always with a single eye to the interest of the city affairs, and shall heartily co-operate with the Republicans in their efforts to meet with success at the ensuing elections,

I am Sir, with great respect,
your ob't servant
JOHN H. BAILEY.

☞ There was a large attendance at the Republican caucus at the Temple Wednesday evening. Hon. Horton D. Walker was chosen Chairman of the meeting, and accepted with appropriate remarks, after which he read the letter (given elsewhere) from Mayor Bailey declining to be a candidate for re-nomination. Balloting was then begun, with the following result on first ballot: Jonathan Dearborn, 317; John Knowlton, 2d, 64; Capt. John Davis, 28; Scattering, 5; and Mr. Dearborn was declared to be the nominee.

☞ A new counterfeit, of the denomination of $20, on the Dover National Bank having been put in circulation, the detectives of the Treasury Department have been working day and night to discover the offenders, and their efforts have been so far successful that the counterfeit has been very effectually suppressed. We understand that the officers have secured the plate from which the spurious notes were printed.

STOLEN HORSE.—U. S. Detective Kent, of this city, while in pursuit of his business discovered a horse and carriage in Kingston, on Wednesday, which he suspected to have been stolen. He telegraphed to Haverhill and found his surmises were correct, as the team had been stolen from William B. Richards, to whom it was returned. The thief escaped.

☞ We are indebted to an attentive friend in New York for the following item, cut from a Honolulu paper of Sept. 15. Mr. Harris is a Portsmouth man, son of the late Wm. C. Harris:

ACCIDENT TO THE MINISTER OF FINANCE.—His Excellency C. C. Harris, Minister of Finance, while on his way to town from Kaneohe on Thursday last met with an accident as he was ascending the Pali of Koolau. As most of our readers are aware, the Pali road is on the side of a steep precipice; on your right, in ascending, is a high wall of rock, and on your left a yawning abyss of many hundred feet.—The road is quite narrow, bewn out of the face of the mountain and not very wide. Mr. Harris was riding with a companion, and was on the outside, nearest the precipice. When approaching the top of the Pali, Mr. Harris' horse stumbled and fell, rolled over his rider and went over the brink, tumbling to the bottom, some hundreds of feet and was instantly killed. Mr. Harris also was thrown over the Pali, but with presence of mind seized a shrub or a young tree, about twenty feet from the edge of the precipice, and thus saved himself. Assistance was at hand and he was rescued from his perilous position, and conveyed to his home, where, we are happy to learn he is doing well, having sustained no serious injuries, and suffering merely from bruises and strains.—*Hawaiian Gazette.*

☞ William H. Dow, who was arrested by U. S. Detective Kent in Manchester, about three months since, for passing counterfeit ten dollar bills on the Highland National Bank, forfeited his bail of $1500 at Portland last week.

☞ That favorite, Charlie Pettengill, appears at the Temple to night, with his new troupe, introducing a new line of comicalities. Give him a good house.

WARD MEETING.—The Union Republicans of Ward Two, will hold a caucus at the COURT HOUSE, on MONDAY EVENING, Dec. 3, for the purpose of choosing Delegates to the various Conventions, and the transaction of any other business which may properly come before the meeting.
Per Order.

Communication.

Messrs. Editors—As there seems to be considerable feeling in regard to the nomination of candidates for Aldermen in Ward Two to be supported by the Republican voters, why would it not be best to retain the present members who are satisfactory, certainly, to all classes. As a disinterested member of the Republican party I offer the above suggestion for the sake of promoting
HARMONY.

MISS KIMBALL'S HYMNS.—The Boston Transcript says E. P. Dutton & Co. of that city will soon issue a beautiful volume, printed by Wilson & Son, and copiously illustrated, entitled "Hymns by Harriet McEwen Kimball." We are glad to publish the following letter from the poet Whittier respecting the collection, as it is as true in judgment as it is kindly and sympathetic in feeling:

E. P. Dutton & Co., Dear Friends:—I am glad to learn that you are about publishing, in a style worthy of their merits, the hymns and devotional poems of my young friend, Harriet Kimball. In the range of modern religious poetry, I know of but few pieces more true and tender, more sweetly touched with the "beauty of holiness" than hers. I am confident they will commend themselves to the common Christian heart, irrespective of sect. The Episcopal Church, of which she is a member, has produced in this country, notwithstanding such names as Croswell, Doane and Coxe, no devotional poems which can be compared with hers for simple beauty, delicacy, and faithfulness to Christian experience.

SCHENCK'S MANDRAKE PILL.

A Certain Cure for Diseased Liver and the many Dangerous Maladies which are caused by a morbid condition of that organ.

To give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce those wonderful effects which are attested by thousands of reliable witnesses, we present a brief

DESCRIPTION OF THE HUMAN LIVER

and its functions, which will make the operation of this popular medicine perceptible to every man's understanding.

The liver is supplied with blood vessels, nerves and absorbants. One of its obvious uses is to secrete and prepare the bile. It likewise filters the blood and separates that fluid from all impurities. How indispensably necessary to health is the proper performance of this function! If the liver is diseased, it cannot purify the blood, and if that is sent back through the lungs, brain and other parts in a morbid condition, it must cause jaundice, biliousness, obstruction of the kidneys, gravel, and many other complaints more or less painful and dangerous; but the least of them quite enough to make a man sick and uncomfortable, and unfit for the performance of any of the duties of life. Make healthy state of the system very often ends in pulmonary consumption

The circulation of the blood is conducted in this manner:—The heart sends the vital current down through the arteries; it passes through the flesh, taking up all impurities in its progress; then the stream of blood flows backward through the veins, and passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of ulceration while that important organ, the liver, is diseased. It is for that reason that "regular physicians" rarely cure consumption. They usually begin their treatment with the use of some cough medicine, the basis of which is morphia or opium in some shape, which locks up the liver instead of relaxing the secretions, gives a tone to the stomach, and producing a healthy flow of bile. Dr. Schenck's

Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills,

will strengthen the system, purify the blood, and ripen and heal ulcers on the lungs.

A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz: Pulmonic syrup, Seaweed Tonic, and Mandrake Pills—all of which are accompanied by full directions for the use of them.

DR. SCHENCK will be professionally at his rooms every week, 37 Bond street, New York, and 33 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is five dollars. His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1 50 per bottle, or $7 50 the half dozen. Mandrake Pills 25 cents per box.

HARPER'S NEW MONTHLY MAGAZINE.

Critical Notices of the Press.

It is the foremost Magazine of the day. The fireside never had a more delightful companion, nor the million a more enterprising friend, than Harper's Magazine.—*Methodist Protestant* (Baltimore)

The most popular Monthly in the world.—*New York Observer.*

We must refer in terms of eulogy to the high tone and varied excellence of HARPER'S MAGAZINE—a journal with a monthly circulation of about 170,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the culture of the American People; and the popularity it has acquired is merited. Each number contains fully 144 pages of reading matter, appropriately illustrated with good woodcuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—TEUNNER'S *Guide to American Literature, London.*

The volumes bound constitute of themselves a library of miscellaneous reading, such as cannot be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*

SUBSCRIPTIONS.
1867.

The Publishers have perfected a system of mailing by which they can supply the MAGAZINE and WEEKLY *promptly* to those who prefer to receive their periodicals directly from the Office of Publication.

The postage on HARPER'S MAGAZINE is 24 cents a year, which must be paid at the *subscriber's* post-office.

Terms:

HARPER'S MAGAZINE, one year....$4 00.

An Extra Copy of either the MAGAZINE *or* WEEKLY *will be supplied gratis for every Club of* FIVE SUBSCRIBERS *at* $4 00 *each, in one remittance; or Six Copies for* $20 00.

Back Numbers can be supplied at any time.

A Complete Set, now comprising Thirty-three Volumes, in neat cloth binding, will be sent by express, freight at expense of purchaser, for $2.25 per volume. *Single volumes*, by mail, *postpaid*, $3.00. Cloth cases, for binding, 58 cents by mail, postpaid.

*** Subscriptions sent from British North American Provinces must be accompanied with 24 cents additional, to prepay United States postage. Address

Morning Chronicle.

FAST DAY IN GEORGIA.—Governor Jenkins of Georgia has appointed Thursday Nov. 22 as a day of fasting, humiliation and prayer. This is in compliance with a resolution of the Georgia Legislature. The Governor closes his proclamation as follows:

"For sinning, not against Pharaoh, but against God, Israel of old wandered forty years in the wilderness! In the wilderness are we now, fellow-citizens. Our corn and our oil have failed of their abundance—our flocks and our herds are diminished. The cry of want is heard in our land—the manna and the quails come not yet. But the throne of God is a Mercy-seat. If sought aright, he will grant us deliverance and plenty."

AN AFFLICTED FATHER.—Mr. Geo. W. Nightingale, of Marysville Mo., six weeks ago had a family consisting of himself, wife, four sons and two daughters. Typhoid fever entered the house, and now the wife and three sons are gone, while the two remaining daughters and the remaining son are prostrated with the disease, and not expected to survive.

THE LAST REVOLUTIONARY HERO.—There is now but one revolutionary soldier inscribed on the rolls of the Pension Office—Samuel Downing, who enlisted from Carroll county, New Hampshire, but who now resides at Edinburg, in Saratoga county, New York. In 1861 there were 63 officers and soldiers of the revolution on the pension rolls, of whom 14 resided in the rebel States and have not since been heard from. In 1862, there were but 30 survivers of the 49 residing in the Northern States.—In 1863 there were but 18, in 1864 there were but 5, and in 1865 but 3. Since then William Hutchins of Maine and Lemuel Cook of New York have died, leaving but one survivor of that patriotic host which Washington commanded. — *Washington Cor. Boston Journal.*

HEAVY VERDICT FOR LEGAL SERVICES.—In the United States Circuit Court at New York, last week, Gorham J. Abbott, who claimed $23,000 in compensation of services as counsel for Thomas A. Jenks in connection with the oft-litigated Goodyear's patents for the manufacture of India rubber goods, obtained a verdict for the full amount claimed.

— A man has been arrested in Albany for collecting money for the benefit of a church, and repairing his house with it.

— There is now living in Rome, Oneida county, N. Y., a lady ninety-four years of age, who has a son living seventy five years old, a grandson fifty-five, a great grandson thirty-three years old, and a great-great-daughter less than three years old.

— A brass lamp which had been filled with kerosene out of a can that had previously contained nitro-glycerine, exploded with the noise of a cannon, on board the ship Sycamore, at San Francisco, last month, and killed one man and shattered the cabin into kindling wood.

— A French journal tells a little story about a lady: "When I was first married I was on my knees before my husband from morning till night. It was a perpetual adoration, an incessant delirium, an inexpressible bliss. I showered caresses upon him; I could have eaten him." "And now?" asked a friend. "I am sorry I didn't!"

The Camp, the Battlefield, and the Hospital,
Or Lights and Shadows of the Great Rebellion.

There is a certain portion of the war that will never go into the regular histories, nor be embodied in romance or poetry, which is a very real part of it, and will, if preserved, convey to succeeding generations a better idea of the spirit of the conflict than many dry reports or careful narratives of events, and this part may be called the gossip, the inside life of the war. This illustrates the character of the leaders, the humor of the soldiers, the devotion of women, the heavy sorrows of the bereaved, the heroes, the romance and hardships of the service.

The volume is profusely illustrated with over 100 engravings by the best artists of the country, beautiful for study of examination as specimens of the art. The book's contents include reminiscences of camp, picket, spy, scout, bivouac, stage, and battlefield adventures; thrilling feats of bravery, with, drollery, comical and ludicrous adventures, etc., etc.

Ammunition as well as instruction may be found in every page, as graphic detail, brilliant wit and authentic history are skillfully interwoven in this work of literary art.

This work sells itself. The people are tired of dry details and partisan works, and want something humorous, romantic, and startling. Our agents are making from $100 to $200 per month, clear of all expenses. Send for circulars, giving particulars, and see terms and territory of the above assertion. ALL READY FOR THE FALL TRADE

The Best Cook Stove Out!

URIAH BLAISDELL,

No. 43 Market Street,

Offers to his friends and the public the celebrated

KEARSARGE

COOK STOVE,

Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a cow Stove, of neat and symmetrical pattern, very heavy castings, well made, of the best of stock, and, what is more, works equally well with coal or wood.

In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success in this has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and makes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundery could not keep up a supply, while the sales have since been steadily increasing, and in every case it has given the fullest satisfaction.

A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

A CURIOUS CASE—*A Pauper suddenly Enriched.*—Several years since a man named Freeman Waterhouse lived in Poland, in this county. He had a reputation for meanness second to that of no person in his neighborhood. He had a wife and three children. He quarrelled with his wife and sued for a divorce, which he was unable to obtain. The wife also failed in a similar attempt. Waterhouse then deserted his wife who subsequently became a pauper in the town of Bridgewick. Her three children were placed under the care of persons in Poland, and have there grown up. Years passed without news of the scandalous husband.

Something more than a year ago Judge Luce of Auburn, received information of the death of Freeman Waterhouse in Idaho territory, whither it seems, he absconded after deserting his wife. He died after amassing a fortune of from twenty to twenty-five thousand dollars in gold, having apparently no heirs behind him. The Judge of Probate in Idaho wrote to Maine for information. Judge Luce at once looked up the facts, and reported them, and was retained by the miser's wife, a pauper in Brunswick, to recover the property. The case has been pending in Idaho the past year, and has resulted in a verdict which will give the entire property to the rightful heirs. Mrs Waterhouse will probably receive $8000 in gold, and her three children the remainder of the property—enough to set them up in the world, somewhat. Judge Luce has already received from Idaho, for the widow, a bag of gold dust worth about $3200 in coin, and the remainder will be forthcoming.

The result shows that Mrs. Waterhouse was very fortunate in not securing a divorce from the scapegoat, her husband.—Crippled and unfortunate as her middle age has been, Providence has sent her some sunshine and some gold shine on her declining years.—*Lewiston (Me) Journal.*

— Fred. Douglass has bought a house in Alexandria, Va., and proposes to reside there.

— Mr. Wild, a piano maker and tuner in Washington City, has discovered the reason why a piano sometimes emits jingling sounds, as if some screw were loose inside, or some of the strings were loose and jarred together. Mr. Wild insists that it is something in the room, and not the piano that produces the jingling. A pane of glass will be found loose, and its key-note in excellent unison with the piano note. Whenever this note is struck the glass sounds in accordance with the sympathetic law of acoustic vibration. Sometimes a clock that has run down produces the jingle.

FRIDAY, NOVEMBER 23, 1866.

MODERN JEWS.—The Observer says it is a sad fact that modern Jews are simply infidels. At the dedication of a new temple at Cincinnati, costing $250,000, the preacher (*Dr. Wise*) proclaimed a disbelief in the Messiah and in miracles. "They are not all Israel which are of Israel."

It is a very cheap, easy way, for A to cry out "infidel," when B dissents from A's creed or form of worship. But surely "a disbelief in a COMING Messiah" is no evidence of infidelity, for all Christians profess to believe he CAME almost 1900 years ago. Miracles present no great difficulty to our mind, because we believe in the Divine Creator who made the world at first, and governs it still; but there always has been a class of minds to which miracles, creative power, angels and spirits, are alike incredible and inconceivable. Among the Jews, in the days of Jesus, there were Sadducees; and there are some Sadducees in *fact*, if not in name, in every branch of the visible Christian Church to-day. That there may be Sadducees among the modern Jews, is quite probable; but we believe, on the whole, the truly religious and moral character of the Jews was never better than it is at the present moment. U. T.

☞ The Washington Republican of Wednesday morning has a very severe article on the attempt to remove Mr. Davis from the Assessorship of the First District in Massachusetts, and designates the Democrat who attempted to engineer it as "the Vallandigham of Massachusetts, who ought not to be tolerated by any loyal official of this government, especially at the expense of the Conservative Republicans." [This does not look like harmony in the wigwam.]

BENEFACTORS.—Mr. Isaac Taylor emigrated from England to Cleveland at an early age. He commenced by blacking boots, got a small farm in Michigan, engaged in the Wisconsin lumber trade and became rich. From his own experience of orphanhood he formed the determination to found an orphan asylum. This his widow has just done, as follows.

Mrs. Taylor,—who died recently at Racine, Wis., by her will, after making numerous bequests to her relatives and friends, left $65,000 to Racine College, $5,000 to Nashota Seminary, in Waukesha county, and the residue of her property to trustees to found an Orphan Asylum for the orphans of Racine county, to be named in honor of her husband. The amount will be from $130,000 to $150,000.

☞ The N. Y. Herald's Chicago special says there is much excitement caused there by the discovery of a family named Morris starving to death. The wife says she is a sister of John Morrissey, member of Congress elect, to whom she has appealed for aid in vain. An item nearer home, says the religious conversion of Thurlow Weed is announced, and also an awakening of religious interest in the mind of Hon. John Morrissey, Congressman elect. Frederick Weed, a nephew of Thurlow Weed, committed suicide in Salt Lake City on the 10th of November. He left a letter which stated as a reason for his rash act that he was tired and discouraged.

FROM THE PLAINS.—The Tribune's Leavenworth special says Lieut. Ames with a detachment of 25 men, encountered a band of 100 Sioux Indians near Fort Sedgwick, and killed 8, wounded 17, and captured 48 beef cattle, 57 mules, 24 horses, all the ponies, and plundered and burnt what they could not bring away. He marched 170 miles in 36 hours with nothing to eat for men and horses.

A man named Elgin having a quarrel with a family of five brothers named Titus, killed two of them and escaped. Subsequently he was caught by the other brothers and killed.

GOLD, Thursday, 138 1-2. Two or three failures took place in the New York Gold Market, Wednesday.

— The Lewiston Journal says the French Canadians are now flocking to that city in abundance. They are much liked as factory operatives.

—Lord Clarendon's health is rapidly failing. A partial blindness which has recently afflicted him is attributed by some people to excessive smoking. Others, lovers of nicotine, say that it is because he is seventy-four years old.

— Charles S. DeLong is canvassing Nevada for the purpose of securing Gen. Nye's place in the United States Senate He accuses Nye of having received $3000 for pardoning a man while he was Governor, and of having pocketed $8000 belonging to the Indians.

— The St. Louis News says that the effect of the Republican victory in Missouri is seen in the rapid increase of immigration. Immigrants who had camped along the Mississippi, in Illinois, waiting to see the result of the election, are now crossing the river in great numbers and purchasing farms and homes.

THE ROBINSON FEMALE SEMINARY, in Exeter, should doubtless begin operations next spring. The Committee (Messrs. G. A. Wentworth, William P. Moulton, and Rev. J. C. Learned,) who were directed to report on the practicability of beginning the Robinson School at the Old Town Hall, next spring, submit the following report:

We are unanimously of the opinion that the best interest of the town and the manifest intention of the donor require that the Robinson fund should remain intact.

We accordingly recommend that the school be commenced in the Old Town Hall, and be kept in that building until the excess of the *income* of the fund over the expenditures, shall be sufficient to erect a suitable school-building. The cost of putting the Old Town Hall in proper condition for such a school, and of procuring seats and desks, is estimated at not less than $1000, and not more $1500. The annual expense of the school, including salaries of teachers, is estimated at not less than $3000, and not more than $3500. There will be saved from the income of the fund annually about $13,000, which in three years, will amount to a sum amply sufficient to erect a splendid school building. A man eminent for scholarship and for sound practical judgment should be selected for the Principal of the school, who, by living among us for two or three years, will learn accurately the wants of the community in regard to the school, and who, by consulting with the best educators and examining the best schools of the country, will be able to devise a better plan for the organization of this school than we shall be likely to get in any other way.

THIRTY YEARS' PASTORATE.—Rev. Dr. Richards was dismissed from the pastorate of the Olive street Church, Nashua, N. H., by the Council which assembled on Thursday last. This action was in accordance with the request of both pastor and society. Dr. Richards preached his farewell sermon last Sabbath afternoon, (the 18th,) the occasion drawing together one of the largest congregations ever assembled in Nashua. Among the items of interest woven into his touching discourse, Dr. Richards stated that during his thirty years' pastorate he had attended 700 funerals, had solemnized 800 marriages, made 10,000 calls. Every minister in the county but one, who was preaching at the time of his ordination, had been gathered to his fathers. With commendable generosity and forethought the society have raised nearly funds enough to purchase a life annuity of $500 for their late pastor.—*Manchester Mirror.*

CLERKS AT THE EXECUTIVE MANSION.—The President has just appointed Samuel A. Wiggin of New Hampshire, Caspar H. Conrad and Culven C. Sniffen of New York, fourth class clerks in the Executive Mansion, under the act of Congress approved July 30, 1866. All the above-named appointees have been in the employ of the President for a long while, and this is a renewal of the assurances of the President's distinguished consideration.—*National Republican.*

ATROCIOUS AFFAIR.—The Buffalo Advertiser says that confession has been made of a fearful conspiracy to burn a passenger vessel on Lake Erie. It appears that on September 24 the propeller Morning Star left Detroit for Cleveland, having on board four hundred passengers. When about forty miles from Detroit the boat was discovered to be on fire, but the flames very fortunately were extinguished before any damage was done. One Henry Miller, a Jew, doing business in Chicago, was the owner of about $18,000 worth of merchandise on the Morning Star, and a boy aged about seventeen years, was employed by him to set fire to the vessel, with the intention of destroying her, that he might get the insurance on the goods The boy made confession of the whole affair.

☞ The publisher of the Little Corporal, an excellent monthly for boys and girls, has just issued a line engraving of Raphael's "Heavenly cherubs." This superb engraving is sent free as a premium to every one who sends to the publisher three new subscribers for one year to "The Little Corporal." Mr. Sewell also offers to give Organs and melodeons to schools or persons who send large clubs. The price of the Corporal is one dollar a year, in advance; sample copy, telling all about the premiums, ten cents. Address Alfred L. Sewell publisher, Chicago, Ill.

☞ The Cincinnati express railroad train, bound eastward, met with an accident about 3 1-2 o'clock, Wednesday morning, four miles east of Lyons, caused by a broken rail, which threw off six of the seven passenger cars, overturning some of them. Twelve or fifteen passengers were more or less injured, but none seriously. Conductor Diez was the most seriously injured.

☞ The London Quarterly Review for October contains: Ancient Literature in France, Dr. Badham and the Dutch School of Criticism, Homes without Hands, Life of our Lord, History of Architecture, Central Asia, Operations of Modern Warfare, England and her Institutions. Reprinted by L. Scott Publishing Co., New York, at $4 per year.

☞ At Cincinnati, a formidable protest is being signed by business men, irrespective of party, against the removal of Commissioner Rollins, on the ground that changes in the Revenue department, especially when good and experienced men are turned out, are damaging to the public interests.

ON RAISING CORN.—At the Agricultural Fair held at Chester, a few weeks ago, Hon. Thomas J. Melvin made some very pertinent remarks on the position, prospects, and progress of the town, and stated that the town of Chester imported from the West five thousand bushels of corn annually, at a cost of 70 cents per bushel for freight, which will cost Chester $3500 for freight alone. Now, (says a Candia correspondent of the News Letter), if so good a farming town as Chester imports 5000 bushels of corn annually, in all probability the rest of the County of Rockingham imports at the same rate, or more in proportion to the population.—Allowing the population of Rockingham County, according to the census of 1850, to be 50,129, and that of the town of Chester to be 1276, we import from the West annually, 196,430 bushels into the County of Rockingham alone. Allowing the corn to be worth only one dollar per bushel, when it arrives here, (and it has for a long time averaged much higher than that), the expense to Rockingham County for corn alone is the enormous sum of $196,430,—$137,501 of which is for freight. Now, this is all wrong. The County of Rockingham ought to be self-supporting, notwithstanding her manufactories, for

"Nature's wants are few and without opulence supplied."

Having lived all my life in this County, (over fifty years) I have a very strong attachment to it. The very name of Old Rockingham, is musical to me; and I have invariably opposed, personally and officially, the division of the County, for the purpose of making a new County; and, if the business facilities of the County can be well balanced geographically, it is all right now. In view of those facts, and "facts and figures are stubborn things," I have come to the conclusion that we had better make fewer shoes and raise more corn.

THE WATER WAR.—The Wolfeboro' News says this contest between might and right is making some progress. The L. C and W. Manufacturing Company have obtained a temporary injunction upon the mill owners and a few others, strictly enjoining and commanding them not to enter upon "the plaintiff's said dam, or to remove the plank, or open or close the gate, or fill up the stream, or in any way intermeddle with said gates, or any or either of them," before the close of the next term of the Supreme Judicial Court, unless this injunction shall be previously dissolved by due process of law. A hearing is to be had before the law term of the Court, to be holden at Dover, on the third Tuesday of December. In the mean time, the Company have repaired the dam, shut down the gate, and pretty effectually stopped the flow of water for the present. How long the people of Wolfborough will tolerate this nuisance, remains to be seen.

OUTRAGE AT SALISBURY.—A young man named Calvin Tibbets, who served in the 48th Massachusetts regiment, has been committed to jail in Newburyport, to answer a charge based on the following statement of facts:

It appears that a young man by the name of Jewell, an adopted son of Dea Charles Jewell of South Hampton, while on his return from Newton on Friday evening, was accosted on the road, about ten o'clock, and a ride solicited to Amesbury Mills. Mr Jewell, without knowing the person who asked the favor, admitted him to a seat in the carriage, but soon discovered that the person was no other than an old acquaintance by the name of Calvin Tibbets, and a resident of the Mills. After riding a short distance Tibbets demanded of Jewell that he should deliver up his watch and money, to which Jewell of course objected, whereupon Tibbets struck him a severe blow upon the back of the head, rendering him entirely insensible.

In this state Jewell was found on Saturday morning, near "Jewell's Mills," lying upon the ground, with a buffalo robe thrown over his face. He was soon recognized and removed to his father's house and a physician called. He remained in a condition till Saturday afternoon, when partial consciousness returning, he stated that his assailant and robber was young Tibbets. He still persists in this declaration, and says that Tibbets is his enemy, and has threatened him with personal violence. The horse and carriage was found near the spot where Jewell was lying, and a mile distant from the place of attack. Jewell is considerably bruised, and a mark on the back of his head shows that he received a violent blow. One of his pockets was turned out, showing that he had been searched. His money—about ten dollars—was also missing. This is Jewell's version of the affair as he has stated in the intervals of returning reason.

☞ At Valley Falls, near Providence, R. I., Wednesday evening, Rufus W. Cowden, a young married man who had parted from his wife, called at her residence, and after an effort to induce her to enter a carriage, attempted to cut her throat with a razor. She struggled desperately and successfully for her life, although terribly wounded in the face, hands, arms and breast, until her grandfather came and drove off the murderous wretch with a club. The surgeon who attended the woman sewed up sixteen gashes made by the razor. The husband eluded arrest until this forenoon, when he appeared near his father's residence and cut his own throat so thoroughly that he will probably die. He was probably partially intoxicated.

— A man who got drunk at an election said it was owing to his efforts to "put down party spirit."

— "Are those bells ringing for fire?" inquired Simon of Tiberias. "No, indeed," answered Tibe, "they have got plenty of fire; the bells are ringing for water."

n20—2w* J. R. LEAVITT.

To the Hon. Judge of Probate for the County of Rockingham,

IN THE STATE OF NEW HAMPSHIRE.

Respectfully shows JULIA A. WIGGIN, of Greenland, in the County of Rockingham, that she is guardian of HENRY B. WIGGIN and JOHN WIGGIN, minor children of JOHN H. WIGGIN late of said Greenland, deceased, by the appointment of the Judge of Probate for the County of Rockingham; that her said Wards are seized of a certain tract of land situate in Greenland aforesaid,—bounded northerly by the highway leading from Portsmouth to Exeter, easterly and southerly by land of George Odell, and westerly by land of Robert Weeks,—containing about sixteen acres, with a Barn and Shed thereon, the same being subject to the right of dower of the widow of said deceased therein; and that it is necessary for the support of her said Wards, and will be conducive to their int. rest to have the premises sold; wherefore she prays that she may be licensed and authorized to sell the same at public auction, according to the statute in such case made and provided.

JULIA A. WIGGIN, Guardian.

State of New Hampshire—Rockingham ss. Probate Court at Portsmouth in said County, Nov. Term, A. D. 1866

Upon the foregoing Petition, it is *Ordered*, that a hearing be had thereon at the Court of Probate to be holden at Portsmouth in said County, second TUESDAY of January next; and that the Petitioner notify all persons concerned to appear at said Court, and show cause, if any they have, why the prayer of said petition should not be granted, by causing said petition and this order to be published three weeks successively in the Daily Morning Chronicle, a newspaper printed at Portsmouth in said County, the last publication thereof to be at least thirty days prior to said Court.

By order of the Judge,

THOMAS J. LEAVITT,

Lyon's Periodical Drops!

THE GREAT FEMALE REMEDY FOR IRREGULARITIES

These Drops are a scientifically compounded fluid preparation, and better than any Pills, Powders or Nostrums. Being liquid, their action is direct and positive, rendering them a reliable speedy and certain specific for the cure of all obstructions and suppressions of nature. Their popularity is indicated by the fact that over 100,000 bottles are annually sold and consumed by the ladies of the United States, every one of whom speaks in the strongest terms of praise of their great merits. They are rapidly taking the place of every other female Remedy, and are considered by all who know aught of them, as the surest, safest and most infallible preparation in the world for the cure of all female complaints, the removal of all obstructions of nature, and the promotion of health, regularity and strength. Explicit directions stating when they may be used, and explaining when and why they should not, accompany each bottle, producing effects contrary to those here chosen laws. All be fore carefully folded around each bottle, with the written signature of JOHN L. LYON, without which none are genuine. **Price $1.50.** Prepared by Dr. JOHN L. LYON, 196 Chapel Street, New Haven, Conn., who can be consulted either personally, or by mail, (enclosing stamp,) concerning all private diseases and female weaknesses. **Price $1.50 per bottle.**

Ayer's Cathartic Pills

ARE the most perfect purgative which we are able to produce or which we think has ever yet been made by anybody. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of the organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow dangerous in stagnant obstructed or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the ordinary complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immense y to the relief of our afflicted, suffering fellow men.

The Agent below named is placed to furnish gratis our American Almanac, containing directions for the use and certificates of their cures, of the following complaints:

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Disease which requires an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys. Gout and other kindred complaints arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER'S, and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by Dr. J. C. AYER & Co., Lowell, Mass., and sold by all Druggists and Dealers in medicine everywhere. o29—2m

PERRY DAVIS' PAIN KILLER

Travellers are always liable to sudden attacks of dysentery and cholera morbus, and these occurring when absent from home are very unpleasant. Perry Davis' Vegetable Pain Killer may always be relied upon in such cases. As soon as you feel the symptoms, take one teaspoonful in a gill of new milk and no more, and a gill of hot water. Stir well together and drink hot. Repeat the dose every hour until relieved. If the pain be severe, bathe the bowels and back with the medicine, clear.

Fishermen, so often exposed to hurts by having their skin pierced with hooks and fins or fish, can be much relieved by bathing with a little Pain Killer as soon as the accident occurs; in this way the injured is soon healed; but as for others as once in five minutes, any three or four times, and you will seldom have any trouble. n1 dawlm.

CONTAGIOUS DISEASES.—Water must be adapted to the nature of the flesh, or there will be no increase; the soil must be adapted to the seed or there will be small returns; and the human body must contain impurities, or there will be no sickness. The man whose bowels and blood have been cleansed by a few

BRANDRETH'S PILLS

may walk through infected dist icts without fear. "The life of the flesh is in the blood." To secure health we must USE BRANDRETH'S PILLS, because we cannot be sick but from unhealthy accumulations in the bowels or the blood, which Brandreth's Pills remove; this method is following nature, and is safe, and has STOOD THE TEST OF TIME. DR. P. MEREDITH, Dentist, office No. 132 West Sixth Street, states as follows:

CINCINNATI, October 1, 1863.

MESSRS. J. N. HARRIS & CO.—Gents: About one year ago I took a cold which settled on my lungs. A violent cough was the consequence, which increased with severity. I expectorated large quantities of phlegm and matter. During the last winter I became so reduced that I was confined to my bed. The disease was attended with cold chills and night sweats. A diarrhœa set in. My friends thought I was in the last stage of Consumption, and could not possibly get well. I was recommended to try

ALLEN'S LUNG BALSAM.

The formula was shown to me, which induced me to give it a trial, and I will only add that my cough is entirely cured, and I now am able to attend to my business as usual. Most respectfully, P. MEREDITH.

AMERICAN LIFE DROPS!
FOR THE SPEEDY CURE OF
Diphtheria,
Coughs, Colds, Hoarseness, Sore Throat, Bronchitis, Rheumatism, and all kindred complaints.

For five years has this article been before the people, and the verdict returned from every quarter, by the consumers of the half million bottles that have been sold within that time, is, that

"IT ALWAYS CURES."

Read the following, which is only a specimen of the many letters we are daily receiving:

"HOPEDALE, MASS.

"ORRIN SKINNER & CO.—*Sirs:*—Notwithstanding my general prejudice against proprietary (or patent) medicines, I was induced to buy two bottles of the American Life Drops, through the high recommendation of them by a friend, as always curing Diphtheria, Coughs, Colds, Sore Throat, Bronchitis, &c. My son, sixteen years of age, was taken suddenly ill with Diphtheria and could scarcely speak or swallow, his breathing was so bad. We were much alarmed, but decided to try the Life Drops before calling a physician. By using the Drops according to direction, he was soon relieved and the disease entirely broken up. I let a friend suffering with Rheumatism have one of the bottles. He says the Life Drops gave immediate relief, and are the best medicine he ever used. A family near him, suffering from Colds and Ulcerated Sore Throat, used some of his, and were cured in a short time. Since then I let my brother, a physician, have part of the bottle, with which he cured a bad case of Diphtheria. He is constrained to acknowledge that they are valuable. Truly yours, A. B. ELDER."

The Life Drops are carefully prepared by

CHARLESTOWN, MASS., Nov. 23, 1865.

Messrs. BURLEIGH & ROGERS, Boston, Mass.:

I feel it a duty I owe to you, and to such of the community as are suffering as I have suffered, to make known through the medium of your advertisements the GOOD that, through the blessing of God, you have wrought upon me by using SMOLANDER'S BUCHU. I had *suffered over one year* with *Kidney Disease* so bad I *could hardly walk*. I took four bottles of *Smolander's Buchu*, and it *cured me*. WILLIAM M. MELLOR,

Republican Caucus.

WARD MEETING.—The Union Republicans of Ward Two will hold a caucus for the nomination of City Officers, and any other business that may properly come before the meeting, at the COURT HOUSE, on Friday Evening, Nov. 23, at half-past 7 o'clock. Per Order.

S. J. COURT—*Doe*, J.—Nov. 22.—The suit Hobbs v. Twombly was taken from the jury, and entered neither party.

John Stearns v. John D. Blake, action on a mortgage. Taken from jury; question of law reserved.

David C. Girdler v. Tappan S. Carter, suit about a cow, was taken from the jury. Wood for plaintiff, Hills for defendant.

The actions on the new docket marked for trial will be taken up this (Friday) morning.

☞ The following are the dates set for Union Republican Conventions in this vicinity:

Councillor Convention — First District, at Exeter, Jan. 9.

Senatorial Convention—First District, in this city, Jan. 10.

County Convention—At Exeter, Jan. 9.

☞ Mr. Alonzo Wise of this city, has been appoin ed keeper of White Island light at Isles of Shoals, in place of Alfred J. Leavitt of Hampton, resigned.

☞ Panorama—"Streets of New York," at the Temple this evening.

SANDWICH ISLANDS.—The Honolulu Advertiser says the census which is to be taken this autumn will unquestionably show a serious decline in the population of the Sandwich Island group, especially among the natives.

Extensive fires are destroying the forrests on the islands, which are suffering more and more from the denuding of the mountains of their verdure, and unless some means is devised to prevent these conflagrations drouths and famine will be more frequent and severe than any yet experienced.

PATENT CASE.—At New York Nov. 21, Judge Nelson, of the U. S Circuit Court, refused the injunctions demanded under Goodyear & Cummings' patents to restrain dentists from using hard rubber in making dental plates, or to interfere at all prior to a final hearing.

☞ In New York city, Wednesday, F. W. Hellen of Hellen & Co., was rearrested for complicity with a notorious gambler, named Babcock, for negotiating the stolen bonds. New developments show that Hellen has cashed many thousand dollars of the bonds, which he admits having received from Babcock.

☞ It is said there are 14,000 regular British troops in Canada. Ten suspicious persons, supposed to be Fenians, have been arrested. Large quantities of arms, which were being smuggled across the line have been seized.

☞ The N. Y. Canal Commissioners announce that the canals will be closed on the 12th of December, except the Champlain canal, which will be closed on the 5th.

SCHENCK'S MANDRAKE PILL.

A Certain Cure for Diseased Liver and the many Dangerous Maladies which are caused by a morbid condition of that organ.

To give the public a clear understanding of the mode in which SCHENCK'S Mandrake Pills produce those wonderful effects which are attested by thousands of reliable witnesses, we present a brief

DESCRIPTION OF THE HUMAN LIVER

and its functions, which will make the operation of the popular medicine perceptible to every man's understanding.

The liver is supplied with blood vessels, nerves and absorbents. One of its obvious uses is to secrete and prepare the bile. It likewise filters the blood and separates that fluid from all impurities. How indispensably necessary to health is the proper performance of this function! If the liver is diseased, it cannot purify the blood, and if that is sent back through the lungs, brain and other parts in a morbid condition, it must cause jaundice, biliousness, obstruction of the kidneys, gravel, and many other complaints more or less painful and dangerous, but the least of them quite enough to make a man sick and uncomfortable, and unfit for the performance of any of the duties of life. This a healthy state of the system very often ends in pulmonary consumption.

The circulation of the blood is conducted in this manner:—the heart sends the vital current down through the arteries; it passes through the flesh, taking up all impurities in its progress; then the stream of blood flows backward through the veins, and passes to the liver to be purified. It is impossible to cure consumption, scrofula, or scarcely any other kind of ulceration while that important organ, the liver, is diseased. It is for that reason that "regular physicians" rarely cure consumption. They usually begin their treatment with the use of some cough medicine, the basis of which is morphia or opium in some shape, which locks up the liver in stead of relaxing the secretions given it to the stomach, and producing a healthy flow of bile. Dr. Schenck's

Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills,

will strengthen the system, purify the blood, and ripen and heal ulcers on the lungs.

A volume would be required, to give a brief account of the remarkable cures performed by Dr. Schenck's medicines, viz: Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills—all of which are accompanied by full directions for the use of them.

DR. SCHENCK will be professionally at his rooms every week, 32 Bond street, New York, and 35 Hanover street, Boston, from 9 A. M. until 3 P. M. He gives advice free, but for a thorough examination with the Respirometer the charge is five (5) dollars. His medicines are for sale by all druggists and dealers. Also a full supply at all times at his rooms. Price of the Pulmonic Syrup and Seaweed Tonic, each $1 50 per bottle, or $9 50 the half dozen. Mandrake Pills 25 cents per box.

HARPER'S
NEW MONTHLY MAGAZINE.
Critical Notices of the Press.

It is the foremost Magazine of the day. The fireside never had a more delightful companion, nor the million a more enterprising friend, than Harper's Magazine.—*Methodist Protestant* (Baltimore)

The most popular Monthly in the world.—*New York Observer.*

We must refer in terms of eulogy to the high tone and varied excellence of HARPER'S MAGAZINE—a journal with a monthly circulation of about 170,000 copies—its whole pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the culture of the American People; and the popularity it has acquired is merited. Each number contains fully 144 pages of reading-matter, appropriately illustrated with wood-cuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—HUEBNER'S *Guide to American Literature, London.*

The volumes bound constitute of themselves a library of miscellaneous reading, such as cannot be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*

SUBSCRIPTIONS,
1867.

The Publishers have perfected a system of mailing by which they can supply the MAGAZINE and WEEKLY *promptly* to those who prefer to receive their periodicals directly from the Office of Publication.

The postage on HARPER'S MAGAZINE is 24 cents a year, which must be paid at the *subscriber's* post-office.

Terms:

HARPER'S MAGAZINE, one year.....$4 00.
An Extra Copy of either the MAGAZINE *or* WEEKLY *will be supplied gratis for every Club of* FIVE SUBSCRIBERS *at* $4 00 *each, in one remittance; or Six Copies for* $20 00
Back Numbers can be supplied at any time.

A Complete Set, now comprising Thirty-three Volumes, in neat cloth binding, will be sent by express, freight at expense of purchaser, for $62.25 per volume. *Single volumes, by mail, postpaid*, $2.00. Cloth cases, for binding, 56 cents by mail, postpaid.

☞ Subscriptions sent from British North American Provinces must be accompanied with 24 cents additional, to prepay United States postage. Address

Morning Chronicle.

— Artemus Ward says all should live within their means, even if they have to borrow money to do so with.

— What is the difference between an auction and seasickness? One is a sail of effects, the other the effects of a sail.

— "I have nothing but my heart to give you," said a spinster to a lawyer who had conducted a suit for her. "Well," said the lawyer, gruffly, "go to my clerk—he takes the fees."

— "Jim," said one youngster to another, on the fourth—"Jim, led me two cents, will yer? I got up so early, that I spent all my money before breakfast. I didn't think the day was going to be so long."

— How came such a greasy mess in the oven?" said a gossiping spinster to her maid of all work. "Why," replied the girl, "the candles fell into the water, and I put them into the oven to dry."

— An interesting astronomical event will occur on the the 6th of December, 1866, viz.: The Sun, Mercury, Venus and the earth will be in conjunction, a fact that will not occur in several centuries.

— The bill making habitual drunkenness a sufficient cause for divorce, has passed the Vermont Legislature—18 to 11—with an amendment requiring that the drunkenness be of two years' duration, previous to the filing of the libel.

— In a late speech at Manchester, Lord Stanley said: "There is a story of an animatedly conducted man in gaol who by extra work managed to lay by a respectable sum, which he immediately proceeded to invest in a first rate set of housebreaking tools."

— A German writer observes, in a late volume on the social condition of Great Britain: "There is such a scarcity of thieves in England that they have to offer a reward for their discovery." England has to pay *daily* for the recovery of thieves the sum of £2000.

— The quantity of paper used every year in England represents a weight of about two hundred and twenty millions of pounds. France uses one hundred and ninety-five millions of pounds; while the United States of America, with a much smaller population, consumes more paper than England and France put together, viz., four hundred and forty millions of pounds.

— Mr. Alderman Tallcott of Chicago, with his wife, celebrated their silver wedding last week in a novel manner. They gave a dinner to the battle-scarred, crippled, maimed and helpless veterans of the Soldiers' Home, about 150 in number, also to the children of the Orphan Asylum, and to the inmates of the Home of the Friendless, nearly 100 women and children.

The Camp, the Battlefield, and the Hospital,
Or Lights and Shadows of the Great Rebellion.
There is a certain portion of the war that will never go into the regular histories, nor be embodied in memory or song, which is a very real part of it, and will be preserved, convey to succeeding generations a better idea of the spirit of the struggle than many dry reports or careful narratives of events, and that portion may be called the gossip, the fun, the pathos of the war. This illustrates the character of the leaders, the humor of the soldiers, the devotion of women, the bravery of men, the pluck of our heroes, the romance and hardships of life in service.
The work is profusely illustrated with over 100 engravings by the first artists, which are really beautiful; worthy of examination as specimens of the art. Its anecdotes, incidents, events, reminiscences of camp, picket, spy, scout, bivouac, march and battlefield adventures; thrilling feats of bravery, wit, drollery, comical and ludicrous adventures, etc.
A amusement as well as instruction may be found in every page, as graphic detail, brilliant wit and authentic history are adroitly interwoven in this work of literary art.
This work sells itself. The people are tired of dry details and partisan works, and want something humorous, romantic, and startling. Our agents are making from $100 to $200 per month, over which they report to us, giving particulars, and see our terms and proof of the above assertion. Address NATIONAL PUBLISHING CO., 113 Water Street, Boston, Mass.

TROCHES ARE USED WITH ALWAYS GOOD SUCCESS.
Singers and Public Speakers
will find *Troches* useful in clearing the voice when taken before singing or speaking, and relieving the throat after the unusual exertion of the vocal organs. The *Troches* are recommended and prescribed by Physicians, and have had testimonials from eminent men throughout the country. Being an article of true merit, and having *proved* their efficacy by a test of many years, each year finds them in new localities in various parts of the world, and the Troches are universally pronounced better than other articles.
BEWARE ONLY "BROWN'S BRONCHIAL TROCHES," and do not take any of the *Worthless Imitations* that may be offered. SOLD EVERYWHERE.

STOVES! STOVES!
ALL READY FOR THE FALL TRADE
The Best Cook Stove Out!
URIAH BLAISDELL,
No. 43 Market Street,
Offers to his friends and the public the celebrated
KEARSARGE
COOK STOVE,
Which he WARRANTS to have no superior in the market, in each and all of the qualities of a first-class Stove. It is a new Stove, of neat and symmetrical pattern, very heavy castings, well made, I the best of stock, and, what is rare, works qually well with coal or wood.
In getting up this Stove, it was designed, as its name implies, to make it one that could not be surpassed, and it is believed that perfect success thus has been attained. It is a moderate consumer of fuel, heats up very rapidly, and bakes surprisingly quick; requires no shoveling and takes no dust in cleaning out; will keep fire day and night with as much certainty as the best parlor heaters, and is so simply and conveniently arranged in all respects that a child can work it. The demand for it was so great upon its introduction, late last Fall, that the foundry could not keep up a supply, while the sales have since been readily forwarding, and in every case it has given the fullest satisfaction.
A few names, in different localities, of the many purchasers of this Stove, are subjoined, for convenient reference:

MONTGOMERY'S
MUSIC, PICTURE FRAME, AND VARIETY STORE,
101 1-2 Daniel Street,
(Over Miss Heal's Dry Goods Store.)
The Subscriber, formerly with S. F. COB would inform his friends and former patrons of Mr Cobb, that he has opened a store of a similar kind, for the trade in Piano Fortes, Organs, Melodeons, Stools, Covers, Sheet Music, Flutinas, Accordeons, Stringed Instruments, Pictures, Frames, Cord, &c.
PIANOS and REED INSTRUMENTS tuned, repaired; rented, bought, sold, or taken in exchange.
PICTURE FRAMES on hand and made to order. LAMPS altered and repaired.
Especially made arrangements with Prof. W. K. GAY, (now in the employ of Mr. Cobb,) the most celebrated tuner in this city for the sale of the celebrated Piano Fortes of Chickering & Sons and Geo. M. Guild & Co. The superior merits of the former have too long been established to need any comments. Of the latter suffice it to say that the sale of over fifty of them within the last five years by Mr. Cobb, proves a sufficient guaranty of their excellence. Also the celebrated Estey Cottage Organs for sale on terms reasonable terms.
Every instrument carefully selected and fully warranted, under the inspection and approval of Prof Gay. Also, the selection of SHEET MUSIC adapted to the wants of the musical community, will receive a just consideration by the same gentleman.

MAYNE REID.—The boys will read the following paragraph from a London letter with pleasure:

"An American captain' who has been a fixture for many years in England, is Capt. Mayne Reid, whose books for boys retain their popularity. He is an excitable, good tempered and intelligent man — always ready to prove the United States to be the first country in the universe, and able to 'lick' all the rest of the world! Many a sharp fight of words had he with ignorant Englishmen during the rebellion, and never did his faith in the good cause slacken. He lives in ease, and derives, I imagine, a handsome fortune from his works."

— The Rev. Mr A —— was more eminent in his day for the brilliancy of his imagination than the force of his logic. At one time he was preaching on "The ministration of Angels" and in the peroration he suddenly observed: "I hear a whisper!" The change of tone startled the deacon, who sat below from a drowsy mood and springing to his feet, he spoke: "I guess it is the boys in the gallery."

— "I was a sugar planter once, but I didn't make anything by it," said a Yankee other to a company of Maine capitalists, who he heard talking, on the hotel steps, about going South to buy up plantations and work them on a large scale. "You, a sugar planter, Josh!" exclaimed one of the capitalists, with great surprise; "when was that? Tell us what you know about it." "'Twas when I buried my old sweetheart.

Important to the Afflicted.
DR. DOW continues to be consulted at his office, Nos 7 and 9 EADY STREET, Boston, on all diseases of a PRIVATE OR DELICATE NATURE. By a long course of study and practical experience of unlimited extent, Dr. Dow has now the gratification of presenting the unfortunate with remedies that have never, since he first introduced them, failed to cure the most alarming cases of GONORRHŒA AND SYPHILIS.
SEMINAL WEAKNESS—Dr. Dow devotes a great part of his time to the treatment of those cases due to a secret and solitary habit, which ruins the body and mind, and unfitting the unfortunate victim for business or society. I advise those who wish to remain under Dr. Dow's treatment a few days or weeks, will be furnished with pleasant rooms, and charged for board moderate.—Medicines sent to all parts of the country, with full directions for use, on receiving descriptions of your cases. Dr. Dow has also for sale the French Capotes, warranted the best preventive. Order by mail. Three or $1 and a red stamp.
Highly Important to Females
IN DIRE AGE SEALTH,
Dr. DOW, Physician and Surgeon, No. 7 Endicott Street, Boston, is consulted daily for all diseases incident to the female system. Dr. Dow has an extensive and experience in the cure of diseases of women than any other physician in Boston. Boarding accommodations for patients who wish to stay for treatment a few days under his treatment. Dr Dow, since 1845, having confined his whole attention to an office practice for the cure of Private Diseases and Female Complaints, makes pledges no superior in the United States.
N. B.—All letters must contain one dollar, or they will not be answered. Office hours from 8 A. M. to 9 P. M.
CERTAIN CURE
in all cases, or No Charges Made.
Among the physicians in Boston, none stands higher in the profession than the celebrated DR. DOW, No. 7, Endicott street. Those who need the service of an experienced physician and surgeon should give him a call.
P. S.—Dr. Dow's medicines are up in a new article, called the FRENCH SECRET. Order by mail. Two for $1 and a red stamp.

Morning Chronicle.

Portsmouth N. H.

SATURDAY, NOVEMBER 24, 1866.

WASHINGTON GOSSIP.—Perley writes from Washington, Thursday, Thad. Stevens rather sarcastically remarked that he was conservative last winter, but had determined to be more radical in the future. Whatever compromise may be brewing, he is not a party to it.

Although it has been semi officially reported that there was not to be any "rotation" in Maine, the following appointments in that State had been made Thursday—probably on the recommendation of Mr. Swett of Portland, who is there.

Edmund W. Flagg of Bangor, Inspector of Internal Revenue for the Fourth District of Maine, vice Carr, removed; James A. Fairfield (a son of Gov. Fairfield), to be Postmaster at Kennebunk; Charles C. Hobbs, to be Postmaster at South Berwick; Thomas L. Hoitt of South Berwick, to be Route Agent on the Eastern Railroad from Portland to Boston, vice J. S. Brown, removed. And several others.

The Democratic and Republican members of the policy party are quarrelling over their "bread and butter."

The principal topic of discussion here just now is suffrage—universal, qualified, educational, or based on skin-color. Northern Democrats, who have in years past done all in their power to enfranchise masses of ignorant men, now prate about the importance of insisting that all voters should know how to read and write, that they may comprehend why they vote for one candidate more than another. Partially reconstructed rebels declaim (between drinks) in favor of letting those negroes who can read vote, just to spite the radicals residing in States where this privilege is denied them, and declare that the freedmen will vote just as they say. And loxy Southern politicians are talking about a more extended suffrage, as the last and only chance which now remains to the States which were in the Confederacy of recoving their political ascendancy. In short the tide of public opinion here is setting from all quarters toward universal suffrage, and the day is evidently not far distant when color will not debar any citizen from casting his vote.—Politicians may present obstacles, but their removal will be but a question of time, and universal suffrage may be set down as certain to become a "fixed fact."

EUROPEAN ITEMS, by Cable.—A Madrid item says, the King of Prussia has written to the Pope offering protection to Rome.

J. H. Surratt, the alleged accomplice in the murder of President Lincoln, was discovered serving in the Papal Zouaves under the name of John Watson. He was arrested upon a demand of Gen. King, but afterwards ran the guard, leaped over a precipice and escaped into the Italian territory. The Italian authorities are on the alert and endeavoring to recapture him.

A JUST GOVERNOR.—A Havana letter relates the following anecdote of Gen. Lersundi, the late Governor General of Cuba:

"Don Felix Maria Serra, who died in the year 1855, liberated all his slaves, 94 in number, by testamentary disposition. By some means this benevolent and kind action on the part of Mr. Serra never took effect, his heirs holding the slaves in bondage the same as if no provision regarding their freedom existed. The poor blacks having neither money, education nor influence, were compelled to submit, and it is only now that they together with their offspring, numbering about 90, have received the boon of freedom. A person well acquainted with the facts of the case informed Gen. Lersundi of this matter, and he immediately instructed Judge del Rato to investigate the matter, and the result has been the liberation of all the slaves."

MONTANA.—The latest news from Montana is to the effect that snow had fallen to a great depth in the region of Fort Bea on. The plains were covered to the depth of three feet, and several Westward bound trains, with women and children, were enduring untold suffering. The Indians were taking advantage of their helpless condition, and over twenty women had been carried off, their husbands and children having been previously murdered.

PORTLAND.—About a thousand buildings are in course of erection on the burnt district of Portland, or are under contract. One master mason has four hundred and fifty men in his employ, and the pay roll of all the hands in the burnt district amounts to $75,000 per week. The streets have been widened and straightened, squares laid out and the section generally much improved.

— The will of the late Senator Wright of New Jersey, was admitted to probate last week. The entire valuation of the estate was sworn at $1,000,000, of which $600,000 are in real estate, and $400,000 in personal property. All of this is devised to the family except $1000, which is given to the House of Prayer.

— Guano is disappearing so fast from the Chincha Islands that by the end of three years it will all have been shipped.

NEW HAMPSHIRE ITEMS.

—— John Hall, brakeman on the Concord & Claremont Road, fell from the up train Thursday noon, near Bagley's Bridge, in Warner, while uncoupling cars, and was instantly killed. The cars smashed his head badly. He was about thirty years of age, and leaves a wife. He belonged in Bradford.

—— Mrs. Susannah Butterfield died at Albany, Linn county, Oregon, on the 6th of October, in the 97th year of her age. She was born in Westmoreland, on the 1st of January, 1770, lived in her native town 80 years, and was the oldest person who ever left an Atlantic home for the Pacific coast.

—— Dr. How of Manchester, after speaking of the death of Dr. Tebbets, cautions the public against the use of lead water pipes,—and against "the inordinate use of hair dyes," &c. He says water containing only the 6th of a grain of lead to the gallon, has poisoned whole families:—and some hair dyes produced partial paralysis, croup, neuralgia, &c.

—— On Friday morning about 2 o'clock, at Dover, a fire broke out which destroyed the upper part of City Hall building, including the armories of the Strafford Guards and Light Battery, and the City Hall. The Court Room, county and city offices in the lower part of the building were injured by water. Loss probably $10,000; no insurance.

—— William A. Tarlton, Thomas Tarlton, and Henry T. Tarlton are selectmen of Newcastle this year. Last year, Sylvester Cole, Solomon Cole, and Woodbury Cole were selectmen of Stark, Coos County.—*Statesman.*

And if any one still asks "What's in a name?" we have another trio for them at our Navy Yard: A. J. Stimson, Naval Storekeeper; A. J. McIntire, Master Machinist, and A. J. Locke, Master Mason; all of whom are A. Johnson men.

☞ Chas. A. Morrill, sub-master of Lincoln School, Boston, having forged endorsements on his notes for $5000, has absconded. Cause reported, gaming.

— The postal service in the eleven seceded States, which before the war never paid expenses, has netted over two hundred thousand dollars profit during the last year.

— It is noticed that a large decrease of infant mortality in San Francisco, followed an order from the local authorities abolishing swill milk.

— George Peabody has lately given $150,000 to Mrs. Charles W. Chandler, a niece residing in Zanesville, Ohio, and added to the gift the purchase money of a fine house valued at $20,000.

— Flake's Galveston Bulletin, which supported Govs. Hamilton, Pease and Bell, and is still the organ of the Union party of Texas, comes out now in distinct opposition to universal or qualified negro suffrage.

— On Wednesday morning as Mr. A. H. Foss of Saco, was preparing to slaughter a hog, he fell backward into a tub of scalding water, so severely burning the lower part of his body that his recovery is considered very doubtful.

— At Orrington, Me., during the gale of Friday last, Mr. Nathan D. Phillips, 67 years of age, had just closed his barn door, when a terrific gust of wind burst it open, and it struck him with such force that he died from the effects of the blow, on Monday.

— The Mobile Gazette, like the Alabama, has gone under, through the management of the pirate Semmes. Firing one last broadside into the sides of "Puritanism," it settles and sinks, while Puritanism sails on with flying colors.

— The Congressional Retrenchment Committee, while investigating the affairs of the New York Custom House, discovered that the clerks were taxed four dollars a month for political purposes, and, if they refused to pay, were discharged.

— The Maine Farmer says: "If anybody thinks the State of Maine is of no great account, we will just inform them that the coast of Maine, with all its indentations, is longer than the Atlantic cable. We have this from the authority of one of the engineers on the coast survey."

— A man in Lewisburg, Preble county, Ohio, having died of delirium tremens, his wife brought suits for damages against two men of whom he had been accustomed to buy liquor. The County court awarded her $500 from one of the men, and $200 from the other.

— There are melancholy men to whom life is only a dismal swamp, upon whose margin they walk, making signals to death to come and ferry them over the lake.

— "Vegetable pills!" exclaimed an old lady, "don't talk to me of such stuff. The best vegetable pill ever made is an apple dumpling. For destroying a gnawing of the stomach there's nothing like it."

— A preacher was holding forth to a drowsy congregation, when he saw a youngster in the gallery pelting the people below with chestnuts. He was just about to give him a sharp reprimand, when the boy, anticipating him, bawled out, "You mind your preaching, daddy, and I'll keep 'em awake!"

EXCISE.—The N. Y. World charges that the Republicans hoped to swell their vote by "Excise laws." "We certainly do believe, says the Tribune, that, if fewer men had a habit of getting drunk, there would be fewer Democratic voters; but we should not have mentioned if we had been let alone.

"The Excise law of last winter was devised and framed in N.Y. city, by men deeply interested in Temperance and scarcely at all in politics. They had no idea that it would influence the vote of their city one way or another. In fact, they believed it so judicious, so considerate, so moderate, that the more respectable liquor-dealers would gladly accept and conform to it. The result seems to indicate that the Rum and Lager interest will submit to no regulation whatever, and that the decent men connected therewith choose to make their bed with the bleer-eyed wretches who will sell liquid poison at all times to any man, woman, or child, who can pay for it. And our sleek, sanctimonious Conservatives, who follow the lead of the New York Observer, the Journal of Commerce, the Christian Intelligencer, and other organs of commercial piety, are perfectly willing to let Rum rule at will and make every Sunday a carnival of debauchery and tipsy riot, if they may thereby injure the Republican party. Thank heaven that their power fell short of achieving the unfair advantage they meditated."

VERMONT ITEMS.—A temperance revival of great magnitude is in progress in the village of Bellows Falls, in which old and young are alike engaged. Weekly meetings are held, personal efforts are made to bring in those addicted to the use of rum, and much interest is kept up.

The Bellows Falls Argus says that for three years Edwin C. Crossett of Berlin, has been out of health, and during that time has been under the care of several physicians, none of whom could determine the nature of his malady. A few days since, after severe physicing, a striped snake of the common variety came from him which measured 36 inches in length. This is a large snake story, but the reptile may be seen at the office of Dr. Porter in Northfield.

FLORIDA.—General J. G. Foster, Assistant Commissioner of Freedmen in the District of Florida, reports that there is little change in the feelings evinced toward the freedmen in his district since his last report; that they are generally kindly and fairly treated, but that some cases of barbarous and unjust conduct have come to his knowledge. At two points, Cedar Keyes and Monticello, it was found necessary to send detachments of soldiers to assist the officers of the Bureau in performing their duties and protect the loyal refugees and freedmen. There are many cases of arbitration, owing to the approaching close of the working season.

OREGON.—The Constitutional Amendment has had a hard time in the lower branch of the Oregon Legislature. Some time ago both branches of the Legislature ratified the amendment, but afterward the House unseated two Union members, and the defection of another Union member enabled the Democrats to carry by one vote a resolution rescinding the former action.—This fickle Unionist, however, has since returned to his party, and the latest action was a reconsideration of the vote which expressed disapproval of the ratification.—So Oregon is among the States that have ratified the amendment.

☞ The "Galaxy" for December 1, contains Archie Lovell, Earl Mord, Walt Whitman and his "drum taps," The American Cavalry of the Revolution, America the land of wealth, Was he mad, Mosby and his Men, Heliotrope, The Claverings, Mr. Swinburne's Poems and Nebulæ. Price $5 a year, $3 for six months. W. C. & F. P. Church, publishers, 39 Park Row, New York.

— The Chicago Republican says mess pork sold in that market last Saturday, at $21 per barrel, which is a decline of eleven dollars within four weeks.

— The Newbern (N. C.) Commercial says that "large quantities of cotton, corn and naval stores continue to flow into Newbern." The lumber business is also very brisk. "The quantity shipped," says the Commercial, "is regulated merely by the ability of shippers to get vessels."

— Some citizens of Norwich, Ct., recently chartered a schooner to bring a cargo of coal from Philadelphia. The coal arrived a few days since, was of excellent quality, weighed 2240 pounds to the ton and was offered to the subscribers at $7.50 per ton. The enterprise was so successful that another cargo has been ordered.

—The Washington, Pemberton and Everett corporations at Lawrence have leased a large store for the purpose of supplying their operatives and others with groceries and provisions at reasonable prices. The goods are to be sold at a small advance from cost, and the profits, if any, are to be divided semi-annually among the operatives.

☞ The Boston Daily Advertiser brings to view a fact which has been disagreeably obvious to lecture committees for some time past, as follows:

Lecturers do not multiply as fast as lyceums, and the retirement from the field, of many of the most distinguished veterans of the platform, makes it, in fact more difficult to make up a first class list of a dozen names than it was ten years ago. It may be noted also that the popular lecture has gradually changed from an essay on any subject the speaker pleases, to a discussion of the political topics. The brilliant oratory of Mr. Phillips no longer illustrates "The Lost Arts," but is devoted exclusively to the national questions which have always been his favorite field; Mr. Curtis's elegant enthusiasm deals no more with Sir Philip Sidney or our social characteristics, but grapples with the problems which the war has left us; Mr Beecher has abandoned the department of the minor morals which for so many years were his usual theme, and now only leaves the pulpit to express his views upon matters of public policy; and indeed Mr. Gough is about the only one left who still makes a social subject the starting point for his corruscations of pathetic and comical anecdote.

We cannot but regard this as a loss; for the large portion of the community which has literary rather than political tastes to be satisfied, is deprived of much highly prized entertainment and instruction; and that portion which holds opinions contrary to those of the majority is neither pleased nor persuaded by appeals from the platform, however well written or forcibly delivered.
